
UK MiFIR product governance / Retail investors, professional investors and ECPs target market

– Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (“COBS”) and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA (“**UK MiFIR**”); EITHER (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate – investment advice, and portfolio management, non-advised sales and pure execution services, subject to the distributor’s suitability and appropriateness obligations under COBS, as applicable. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels, subject to the distributor’s suitability and appropriateness obligations under COBS, as applicable.

B.3 *What are the key risks that are specific to the Issuer?***Risk Relating to the Issuer**

The materialisation of one or more of the following risks may prevent the Issuer from fulfilling its obligations in relation to the Notes.

A. Risks relating to Morgan Stanley

The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSI plc also impact MSI plc

Risks relating to the financial situation of Morgan Stanley

Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley. Morgan Stanley's results of operations have been, and will likely continue to be, adversely affected by the COVID-19 pandemic.

Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company and depends on payments from its subsidiaries and Morgan Stanley's access to assets held by subsidiaries may be restricted. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets.

Risks relating to the operation of Morgan Stanley's business activities

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operations or security systems or those of Morgan Stanley's third parties (or third parties thereof), which could adversely affect its businesses or reputation. A cyber-attack, information or security breach or a technology failure could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result in disclosure or misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk, which could result in unexpected losses. Further, planned replacement of London Interbank Offered Rate and replacement or reform of other interest rates could adversely affect Morgan Stanley's business, financial condition and results of operations.

Legal, Regulatory and Compliance Risk

Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anti-corruption and terrorist financing rules and regulations.

Other risks relating to Morgan Stanley's business activities

Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition.

Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways. The UK's withdrawal from the EU, and the resulting uncertainty regarding the future regulatory landscape, could adversely affect Morgan Stanley.

Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.

The application of regulatory requirements and strategies in the United States or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions.

B. Risks relating to MSI plc

The existence of substantial inter-relationships (including the provision of funding, capital, services and logistical support to or by MSI plc, as well as common or shared business or operational platforms or systems, including employees) between MSI plc and other Morgan Stanley Group companies exposes MSI plc to the risk that, factors which could affect the business and condition of Morgan Stanley or other companies in the Morgan Stanley Group may also affect the business and condition of MSI plc. Further, Notes issued by MSI plc will not be guaranteed by Morgan Stanley. The application of regulatory requirements and strategies in the United Kingdom to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the holders of securities issued by MSI plc.

In addition, in certain circumstances, the Issuer may redeem or terminate the Notes early following any such event. In this case, in relation to each

Note, the Issuer will pay an amount (which amount may, in certain circumstances, be the fair market value of the Notes which may be less than the nominal value or face value).

This amount payable by the Issuer may be less than the amount that would have been paid had the Notes been redeemed at maturity.

Tax Redemption: The Notes may be redeemed early for tax reasons at an amount (determined by the Determination Agent, acting in good faith and in a commercially reasonable manner) equal to the fair market value of such Note on such day as is selected by the Determination Agent acting in good faith and in a commercially reasonable manner

The Events of Default applicable to the Notes are as follows:

- (1) non-payment of any amount of principal or any amount of interest (in each case, within 30 days of the due date) in respect of the Notes; and
- (2) the Issuer becomes insolvent or is unable to pay its debts as they fall due, or an administrator or liquidator is appointed in respect of the Issuer or the whole or a substantial part of its undertaking, assets and revenues (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), or the Issuer takes any action for a composition with or for the benefit of its creditors generally, or an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent) and such order or effective resolution has remained in force and has not been rescinded, revoked or set aside for 60 days after the date on which such order is made or effective resolution is passed.

Early Redemption Amount: The Early Redemption Amount will be determined by the Determination Agent to be the amount a qualified financial institution (being a financial institution organised under the laws of any jurisdiction in the USA, European Union or Japan and which satisfies certain credit ratings requirements, which the Determination Agent selects for this purposes at the time when the Early Redemption Amount is to be determined) would charge to assume all of the Issuer's obligations in respect of the Notes or to undertake obligations that would have the effect of preserving the economic equivalent of any payments by the Issuer to the Noteholder with respect to the Notes.

Governing Law: The Notes will be governed by English law.

Limitations to the rights:

Prescription. Claims for principal and interest on redemption in respect of the Notes shall become void unless made within 10 years of the due date for payment.

C.1.4	<i>Rank of the Notes in the Issuer's capital structure upon insolvency</i>
--------------	--

The Notes constitute direct and general obligations of the Issuer ranking *pari passu* among themselves.

C.1.5	<i>Restrictions on free transferability of the Notes</i>
--------------	--

Interests in the Notes will be transferred in accordance with the procedures and regulations of the relevant clearing system, subject to restrictions on sale of the Notes into certain jurisdictions. The Notes cannot be offered or sold in the U.S. or to U.S. persons, nor held in the U.S. or by U.S. Persons at any time. The Notes may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("ERISA"), any individual retirement account or plan subject to Section 4975 of the United States Internal Revenue Code of 1986, or any entity whose underlying assets include "plan assets" within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's account's or plan's investment therein.

C.2	<i>Where will the Notes be traded?</i>
------------	--

Application is expected to be made by the Issuer (or on its behalf) for the Notes to be listed on the EURO MTF Market of the Luxembourg Stock Exchange

C.3	<i>What are the key risks that are specific to the Notes?</i>
------------	---

The Notes are not deposits or savings accounts and are not insured by the U.S. Federal deposit insurance corporation, the UK Financial Services Compensation Scheme, or any other governmental agency or instrumentality or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank.

Investors may lose all or a substantial portion of their investment if the value/performance of the Relevant Underlying does not move in the anticipated direction.

<p>The terms of certain Notes differ from those of ordinary debt securities because the Notes may not pay interest and, on maturity, depending on the performance of the Relevant Underlying, may return less than the amount invested or nothing, or may return assets or securities of an issuer that is not affiliated with the Issuer, the value of which is less than the amount invested. The price of the Notes may fall in value as rapidly as it may rise, and investors in the Notes may potentially lose all of their investment.</p> <p>Secondary trading of the Notes may be limited. Further, if the Notes are traded via one or more electronic trading systems and these systems become partially or completely unavailable, this would affect the investor's ability to trade the Notes.</p> <p>An Issuer may amend the terms and condition of the Notes and the deed of covenant dated 12 July 2021 (as amended or supplemented from time to time) in relation to, amongst others, the Notes, without Noteholder consent if, in its opinion, such amendments are not materially prejudicial to Noteholders.</p> <p>An investment in the Notes bears the risk that the Issuer is not able to fulfil its obligations in respect of such Notes at maturity or before maturity of the Notes. In certain circumstances, holders may lose all or a substantial portion of their principal or investment. The Issuer has the right to withdraw the offering of the Notes and cancel the issuance of the Notes prior to the end of the subscription period for any reason. Reasons for the cancellation of the offer include, in particular: (i) adverse market conditions, as determined by the Issuer in its reasonable discretion (such as, for example, increased equity market volatility and increased currency exchange rate volatility); or (ii) that the number of applications received at that time is insufficient, in the Issuer's opinion, to make an economically viable issuance.</p> <p>The market price of Notes may be very volatile. Further, investors in Notes may receive no interest and payment or payment of principal or interest, if applicable, may occur at a different time or in a different currency than expected. The Relevant Underlying may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices. The timing of changes in a Relevant Underlying may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Underlying the greater the effect on yield.</p> <p>It is impossible to predict how the level of the Relevant Underlying will vary over time. The historical performance value (if any) of the Relevant Underlying does not indicate the future performance of the Relevant Underlying. Factors such as volatility, interest rates, remaining term of the Notes or exchange rates will influence the price investors will receive if an investor sells its Notes prior to maturity.</p> <p>Payment of redemption amounts on the Notes is conditional on the value or performance of the Relevant Underlying being equal to or greater than a specified barrier value, and if such condition (a "barrier condition") is not satisfied, then the amount of interest payable will be zero.</p>	
<p>D. KEY INFORMATION ON THE OFFER OF NOTES TO THE PUBLIC AND THE ADMISSION TO TRADING ON A REGULATED MARKET</p>

Conflicts of interest

Potential conflicts of interest may exist between the investor and the Determination Agent, who, under the terms of the Notes, may make such adjustments to the Notes as it considers appropriate as a consequence of certain events affecting the payment currency for the Notes, and in doing so, is entitled to exercise substantial discretion.
