5. **PERFORMANCE OF INDEX/ EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING**

Past and future performance including the volatility of the Underlying Indices can be obtained from the Bloomberg Pages: S&P 500 Index and the Eurostoxx 50 Index.

The interest and redemption amounts payable on the Notes are dependent on the value or performance of the Relevant Underlying not reaching a threshold or barrier and a small increase or decrease in the value or performance of the Relevant Underlying near to the threshold or barrier may lead to a significant increase or decrease in the return of the Notes and Noteholders may receive no interest at all.

The interest and redemption amounts payable on the Notes are linked to the value or performance of the Relevant Underlying as of one or more predefined dates and, irrespective of the level of the Relevant Underlying between these dates, the values or performance of the Relevant Underlying on these dates will affect the value of the Notes more than any other factor.

The Final Redemption Amount payable on the Notes is linked to a specified percentage of the performance of the Relevant Underlying and Noteholders may not receive the amount initially invested, and may receive a significantly lesser amount.

The market price or value of the Notes at any time is expected to be affected by changes in the value of the Relevant Underlying to which the Notes are linked.

The market price or value of the Notes could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or any other distributions on the Relevant Underlying.

The Issuer does not intend to provide post-issuance information.

ANNEX

ISSUE-SPECIFIC SUMMARY OF THE NOTES

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This Summary contains all the Elements required to be included in a Summary for this type of securities and issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the Summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the Summary with the mention of "Not Applicable".

		Section A – Introduction and warnings
A.1	Introduction and warnings:	This summary should be read as an introduction to the Base Prospectus. Any decision to invest in the securities should be based on consideration of this Base Prospectus as a whole by the investor. Where a claim relating to the information contained in this Base Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating this Base Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the Summary including any translation thereof, but only if the Summary is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus or it does not provide, when read together with the other parts of this Base Prospectus, key information in order to aid investors when considering whether to invest in such Notes.
A.2	Consent:	
		Section B – Issuer and Guarantor
B.1	Legal name and commercial name of the Issuer:	Morgan Stanley B.V. ("MSBV")
B.2	Domicile and legal form of the Issuer, the legislation under which the Issuer operates and its country of incorporation:	MSBV was incorporated as a private company with limited liability (<i>besloten vennootschap met beperkte aansprakelijkheid</i>) under the laws of The Netherlands. B.19 (B.4b)	Trends:	The business of Morgan Stanley in the past have been, and in the future may continue to be, materially affected by many factors, including the effect of economic and political conditions and geopolitical events; the effect of market conditions, particularly in the global equity, fixed income, credit and commodities markets, including corporate and mortgage (commercial and residential) lending and commercial real estate markets; the impact of current, pending and future legislation (including the Dodd-Frank Wall Street Reform and Consumer Protection Act (the " Dodd-Frank Act ")), regulation (including capital, leverage and liquidity requirements), policies (including fiscal and monetary) and legal and regulatory actions in the United States of America ("U.S.") and worldwide; the level and volatility of equity, fixed income, and commodity prices, interest rates, currency values and other market indices; the availability and cost of both credit and capital as well as the credit ratings assigned to Morgan Stanley's unsecured short-term and long-term debt; investor, consumer and business sentiment and confidence in the financial markets; the performance of Morgan Stanley's acquisitions, divestitures, joint ventures, strategic alliances or other strategic arrangements (including with Mitsubishi UFJ Financial Group, Inc. (" MUFG ")); Morgan Stanley's reputation; inflation, natural disasters and acts of war or terrorism; the actions and initiatives of current and potential competitors as well as governments, regulators and self-regulatory organizations; the effectiveness of Morgan Stanley's risk management policies; technological changes and risks, including

		cybersecurity risks; or a combination of these or other factors. In addition, legislative, legal and regulatory developments related to Morgan Stanley's businesses are likely to increase costs, thereby affecting results of operations. These factors also may have an adverse impact on Morgan Stanley's ability to achieve its strategic objectives.																					
B.19 (B.5)	The group and the Guarantor's position within the group:	Morgan Stanley is the ultimate parent undertaking of the group comprising Morgan Stanley and its consolidated subsidiaries (the "Morgan Stanley Group").

		Section C - The Notes
C.1	Type and class of the Notes and ISIN number:	ISIN: XS1138860561. The Notes are not Notes in respect of which physical settlement may apply or may be elected to apply ("Cash Settlement Notes"). Interest is payable on the notes, as further described in Element C.9 below calculated by reference to the value or performance of equity indices ("Equity Linked Interest Notes").
		Redemption amounts payable in respect of the Notes are linked to the value or performance of equity indices ("Equity-Linked Redemption Notes"). See Element C.9 and C.20 below for further details.
C.2	Currency of Issue:	Notes are denominated in Euro (EUR).
C.5	Restrictions on free transferability:	The Notes cannot be offered or sold in the U.S. or to U.S. persons, nor held in the U.S. or by U.S. Persons at any time. The Notes may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("ERISA"), any individual retirement account or plan subject to Section 4975 of the United States Internal Revenue Code of 1986, as amended, or any entity whose underlying assets include "plan assets" within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's account's or plan's investment therein. THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE IN THE UNITED STATES, AND ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS. THE NOTES MAY NOT BE OFFERED, SOLD OR DELIVERED AT ANY TIME, DIRECTLY OR INDIRECTLY, WITHIN THE UNITED STATES OR TO OR FOR THE ACCOUNT OR BENEFIT OF U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT).
C.8	The Rights attached to the Notes, Ranking and Limitations to those Rights:	Interest: See Element C.9 for interest payable in respect of the Notes. Redemption: See Element C.9 for the redemption amount payable on the Maturity Date.

		Governing Law: The Notes will be governed by and construed in accordance with English law. The Guarantee will be governed by and construed in accordance with New York Law.
		Events of Default: If an Event of Default occurs, the Notes may be redeemed prior to their Maturity Date at the Early Redemption Amount if the Noteholders of not less than 25% in aggregate principal amount of the Notes give written notice to the Issuer declaring the Notes to be immediately due and payable. The Early Redemption Amount will be determined by the Determination Agent to be the amount a qualified financial institution (being a financial institution organised under the laws of any jurisdiction in the USA, European Union or Japan and which satisfies certain credit ratings requirements, which the Determination Agent selects for this purposes at the time when the Early Redemption Amount is to be determined) would charge to assume all of the Issuer's obligations in respect of the Notes or to undertake obligations that would have the effect of preserving the economic equivalent of any payments by the Issuer to the Noteholder with respect to the Notes.
		The Events of Default applicable to the Notes are as follows: (1) non-payment by the Issuer or the Guarantor of any amount of principal (within 7 days of the due date) or any amount of interest (within 30 days of the due date) in respect of the Notes;
		(2) default in the performance or observance by the Issuer [or the Guarantor in respect of any of their other (non-payment) obligations under or in respect of the Notes and such default remains unremedied for 60 days (after written notice to the Issuer by Noteholders of not less than 25% in aggregate principal amount of the relevant Series); and
		(3) the Issuer or the Guarantor becomes insolvent or is unable to pay its debts as they fall due, or an administrator or liquidator is appointed in respect of the Issuer or the Guarantor or the whole or a substantial part of its undertaking, assets and revenues (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), or the Issuer or the Guarantor takes any action for a composition with or for the benefit of its creditors generally, or an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer or the Guarantor (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent) and in the case of the Guarantor such order or effective resolution has remained in force and has not been rescinded, revoked or set aside for sixty days after the date on which such order is made or effective resolution is passed.
		Status of the Notes: The Notes constitute direct and general obligations of the Issuer ranking <i>pari passu</i> among themselves.
		Limitations to the rights: Prescription. Claims for principal and interest on redemption in respect of the Notes shall become void unless the relevant Note Certificates are surrendered for payment within ten years of the due date for payment.

		Early Redemption. Call Option: Not Applicable "Autocallable Notes (Autocall 1)" Where: Automatic Early Redemption Dates means 24 December 2015, 24 June 2016, 24 December 2016, 24 June 2017 and 24 December 2017; Relevant Underlying Value is the value of the Relevant Underlying, determined according to the Valuation Determination Terms specified below; Knock-in Value means the Relevant Underlying Value of the worst performing Basket Component, determined according to the Value Determination Terms specified below; Specified Rate is 100%; and Automatic Early Redemption Determination Dates and the corresponding Autocall Barrier Values are as set out in the table below: <table><tr><th>Automatic Early Redemption Determination Dates</th><th>Autocall Barrier Value</th></tr><tr><td>11 December 2015</td><td>100%</td></tr><tr><td>11 June 2016</td><td>100%</td></tr><tr><td>11 December 2016</td><td>100%</td></tr><tr><td>11 June 2017</td><td>100%</td></tr><tr><td>11 December 2017</td><td>100%</td></tr></table> Value Determination Terms for determining Relevant Underlying Value: The Determination Agent will determine the value of the Relevant Underlying as of the scheduled weekday closing time of the exchange. C.9	Interest, Redemption and Representation:	See Element C.8 above. See further Element C.10 below.												
		Nominal Interest Rate: Date from which interest becomes payable and the due dates for interest: Interest Commencement Date is 25 June 2015 and the Interest Payment Dates are scheduled to fall on 24 December 2015, 24 June 2016, 24 December 2016, 24 June 2017, 24 December 2017 and 25 June 2018, and are subject to adjustment for non-business days. Description of the Relevant Underlying to which interest payments are linked: Interest amounts payable in respect of the Notes are linked to the value or performance of a basket of indices, such basket of underlyings being a "Relevant Underlying". See Element C.1 above for further details.												

		Maturity Date: 25 June 2018, subject to adjustment for valuation and non-business days.
		Yield: Not applicable. The Notes are not Fixed Rate Notes.
		Arrangements for the amortisation of the loan including repayment procedures: "Autocallable Notes (Single Barrier Final Redemption)" applies. If, on the Determination Date, the Determination Agent determines that the Knock-in Value is at or greater than or equal to the Final Redemption Barrier Value, the Issuer will pay an amount per Calculation Amount equal to (i) the product of the Calculation Amount and the Specified Rate 1. In all other cases, the Issuer will pay an amount per Calculation Amount equal to the product of the Calculation Amount and the sum of (A) the Specified Rate 2 and (B) the product of the Participation Rate and the value which is the Final Reference Value of the worst performing Basket Component divided by the Initial Reference Value of the worst performing Basket Component. Where Final Redemption Barrier Value: 60% of the Initial Reference Value; Specified Rate 1 is 100%; Specified Rate 2 is 100%; Participation Rate is 100%; Final Reference Value is the Relevant Underlying Value as of the Determination Date; Knock-in Value means the Relevant Underlying Value of the worst performing Basket Component, determined according to the Value Determination Terms specified below; Determination Date is 11 June 2018; Initial Reference Value is the Relevant Underlying Value as of the Strike Date; Strike Date is 24 June 2015; Relevant Underlying Value is the value of the Relevant Underlying, determined according to the Value Determination Terms specified below. Value Determination Terms for determining Relevant Underlying Value: The Determination Agent will determine the value of the Relevant Underlying as of the scheduled weekday closing time of the exchange. Value Determination Terms for determining Initial Reference Value: The Determination Agent will determine the value of the Relevant Underlying as of the scheduled weekday closing time of the exchange. Value Determination Terms for determining Final Reference Value: The Determination Agent will determine the value of the Relevant Underlying as of the scheduled weekday closing time of the exchange.
		Repayment procedure: While in global form, payments in respect of the Notes

		shall be made against the presentation and surrender of the global note certificate at the specified office of or to the order of a paying agent. All payments will be made subject to the fiscal laws in force in the place of presentation and payment.																				
		Representation: Not applicable. No representatives of debt security holders are appointed.																				
C.10	Derivative component in interest payment (explanation as to how the value of the investment is affected by the value of the Relevant Underlying, especially under circumstances where the risks are most evident):	Derivative component in interest payment: The Notes are "Autocallable Notes (Barrier Conditional Coupon)". On each Barrier Observation Date relating to an Interest Determination Date, if the Determination Agent determines that the Knock-in Value is greater than or equal to the Coupon Barrier Value in respect of that Interest Determination Date, the Issuer will pay the Coupon Amount on the immediately succeeding Interest Payment Date. No interest will otherwise be paid by the Issuer. The Coupon Amount, if payable, will be an amount per Calculation Amount calculated by the Determination Agent by multiplying the Coupon Rate in respect of that Interest Determination Date and the Calculation Amount and subtracting from this amount any interest which had been previously determined as being payable in respect of the Notes. Where: Initial Reference Value is the Relevant Underlying Value as of the Strike Date; Strike Date: 24 June 2015; Knock-in Value means the Relevant Underlying Value of the worst performing Basket Component, determined according to the Value Determination Terms specified below; Interest Payment Dates means: 24 December 2015, 24 June 2016, 24 December 2016, 24 June 2017, 24 December 2017 and 25 June 2018; Barrier Observation Dates means as specified in Barrier Observation Period; and Interest Determination Dates and the corresponding Coupon Rates, Coupon Barrier Values and Barrier Observation Period are as set out in the table below: <table><tr><th>Interest Determination Date</th><th>Coupon Rate</th><th>Coupon Barrier Value</th><th>Barrier Observation Period</th></tr><tr><td>11 December 2015</td><td>2.25%</td><td>60%</td><td>Each Scheduled Trading Day beginning on (and including) 25 June 2015 and ending on (but excluding) 12 December 2015</td></tr><tr><td>11 June 2016</td><td>2.25%</td><td>60%</td><td>Each Scheduled Trading Day beginning on (and including) 12 December 2015 and ending on (but excluding) 12 June 2016</td></tr><tr><td>11 December 2016</td><td>2.25%</td><td>60%</td><td>Each Scheduled Trading Day beginning on (and including) 12 June 2016 and ending on (but excluding) 12 December 2016</td></tr><tr><td>11 June 2017</td><td>2.25%</td><td>60%</td><td>Each Scheduled Trading Day beginning on (and</td></tr></table>	Interest Determination Date	Coupon Rate	Coupon Barrier Value	Barrier Observation Period	11 December 2015	2.25%	60%	Each Scheduled Trading Day beginning on (and including) 25 June 2015 and ending on (but excluding) 12 December 2015	11 June 2016	2.25%	60%	Each Scheduled Trading Day beginning on (and including) 12 December 2015 and ending on (but excluding) 12 June 2016	11 December 2016	2.25%	60%	Each Scheduled Trading Day beginning on (and including) 12 June 2016 and ending on (but excluding) 12 December 2016	11 June 2017	2.25%	60%	Each Scheduled Trading Day beginning on (and

		Value Determination Terms for determining Relevant Underlying Value: The Determination Agent will determine the value of the Relevant Underlying as of the scheduled weekday closing time of the exchange. Value Determination Terms for determining Initial Reference Value: The Determination Agent will determine the value of the Relevant Underlying as of the scheduled weekday closing time of the exchange. Value Determination Terms for determining Final Reference Value: The Determination Agent will determine the value of the Relevant Underlying as of the scheduled weekday closing time of the exchange. See Element C.15 for a description of how the value of the investment is affected by the Relevant Underlying. The following disruption events apply in relation to the Relevant Underlying: Change in Law / Hedging Disruption and Increased Cost of Hedging. ("Disruption Events") Disruption Events can affect the Relevant Underlying and lead to adjustments and/or early redemption of the Notes. The Determination Agent shall determine whether the Notes or any exchanges or price sources are affected by such events on a relevant date of valuation, and may make adjustments to the Notes, or take any other appropriate action, to account for relevant adjustments or events in relation to the Relevant Underlying. In addition, in certain circumstances, the Issuer may redeem or terminate the Notes early following any such event. In this case, in relation to each Note, the Issuer will pay an amount (which amount may, in certain circumstances, be the fair market value of the Notes which may be less than the nominal value or face value).												
C.11	Admission to Trading:	Application has been made for Notes to be listed and or admitted to trading on the Irish Stock Exchange's Regulated Market.												
C.15	How the value of the investment is affected by the Relevant Underlying (unless the securities have a denomination of at least EUR100,000):	The market price or value of Notes at any time is expected to be affected by changes in the value of the Relevant Underlying to which the Notes are linked. The redemption amount payable on the Notes is dependent on the value or performance of the Relevant Underlying Value not reaching a threshold or barrier and a small increase or decrease in the value or performance of the Relevant Underlying near to the threshold or barrier may lead to a significant increase or decrease in the return of the Notes. The interest and redemption amounts payable on the Notes are linked to the value or performance of the Relevant Underlying as of one or more predefined dates and, irrespective of the level of the Relevant Underlying between these dates, the values or performance of the Relevant Underlying on these dates will												

		affect the value of the Notes more than any other factor. The Final Redemption Amount payable on the Notes is contingently linked to a specified percentage of the performance of the Relevant Underlying and Noteholders may not receive the amount initially invested, and may receive a significantly lesser amount. The market price or value of the Notes at any time is expected to be affected by changes in the value of the Relevant Underlying to which the Notes are linked. See also Element C.9.						
C.16	Expiration/ maturity date of the derivative securities – the exercise date/final reference date:	Unless previously redeemed, each series of Notes will be redeemed on the applicable Maturity Date at their Final Redemption Amount.						
C.17	Settlement procedure of the derivative securities:	The Notes are Cash Settlement Notes and will be redeemed by the payment of the Final Redemption Amount. On the relevant date for redemption of the Notes, the Issuer shall pay the relevant redemption amount per Calculation Amount to the Noteholders through the relevant clearing systems, and such amounts shall be credited to the relevant Noteholders' respective accounts held either with such clearing systems or with a financial intermediary that is a member of such clearing systems.						
C.18	How the return on the derivative securities takes place:	Notes are not ordinary debt securities and the redemption amount is linked to the performance of the equity indices identified as the Relevant Underlying. <table><tr><th>Relevant Underlying (each a 'Basket Component' and together the 'Basket')</th><th>Bloomberg Code</th></tr><tr><td>S&P 500 Index</td><td>SPX Index</td></tr><tr><td>Eurostoxx 50 Index</td><td>SX5E Index</td></tr></table> See also Elements C.9 and C.15. Section D – Risks		
D.2	Key Risks Specific to the Issuers and the Guarantor:	The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSBV, also impact MSBV: Liquidity and funding risk: Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend significantly on its credit ratings, which may change. Further, Morgan Stanley is a holding company and depends on payments from its subsidiaries. As a result, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. Market risk: Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors. Morgan Stanley may experience declines in value of its financial instruments and other losses related to volatile and illiquid market conditions. Holding large and concentrated positions may expose Morgan Stanley to losses. In particular, Morgan Stanley has incurred, and may continue to incur, significant losses in the real estate. These factors may result in losses for a position or portfolio held by Morgan Stanley or its consolidated subsidiaries. Credit Risk: Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by another large financial institution could adversely affect financial markets generally. Such factors give rise to a risk that risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations. Operational Risk: Morgan Stanley is subject to the risk of financial or other loss, or potential damage to a firm's reputation, resulting from inadequate or failed internal processes, people, resources and systems or from external events (e.g. fraud, legal and compliance risks or damage to physical assets). Morgan Stanley may incur operational risk across the full scope of its business activities, including revenue-generating activities (e.g. sales and trading) and control groups (e.g. information technology and trade processing). Legal, Regulatory and Compliance Risk: Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss of reputation as a result of failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is subject to contractual and commercial risk such as

		the risk that a counterparty's performance obligations will be unenforceable. Further, in today's environment of rapid and possibly transformational regulatory change, Morgan Stanley also views regulatory change as a component of legal, regulatory and compliance risk..
		Risk Management: Morgan Stanley's hedging strategies and other risk management techniques may not be fully effective in mitigating its risk exposure in all market environments or against all types of risk.
		Competitive Environment Risk: Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further automated trading markets may adversely affect Morgan Stanley's business (for example by putting downward pressure on trading commissions or comparable fees). Finally, Morgan Stanley's ability to retain and attract qualified employees is critical to the success of its business and the failure to do so may materially adversely affect its performance
		International Risk: Morgan Stanley is subject to numerous political, economic, legal, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price, capital or exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways.
		Acquisition and Joint Venture Risk: in relation to past and future acquisitions, Morgan Stanley may be unable to fully capture the expected value from acquisitions, joint ventures, minority stakes and strategic alliances.
		All material assets of MSBV are obligations of one or more companies in the Morgan Stanley group and MSBV's ability to perform its obligations is dependent upon such companies fulfilling their obligations to MSBV. Should such companies prospects be impaired, holders of securities issued by MSBV may also be exposed to a risk of loss.
D.3	Key Risks Specific to the Notes:	The securities are subject to the following risks:
		• THE NOTES ARE NOT BANK DEPOSITS AND ARE NOT INSURED BY THE U.S. FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER GOVERNMENTAL AGENCY, NOR ARE THEY OBLIGATIONS OF, OR GUARANTEED BY, A BANK. • Investors may receive no or a limited amount of interest.
		• Payments may occur at a different time than expected.
		• Investors may lose all or a substantial portion of their investment if the value / performance of the Relevant Underlying does not move in the anticipated direction.
		• The terms of certain Notes differ from those of ordinary debt securities because the Notes may not pay interest and, on maturity, depending on the performance of the Relevant Underlying, may return less than the amount invested or nothing, or may return assets or securities of an issuer that is not affiliated with the Issuer, the value of which is less than the amount invested.

		Any person intending to use the Notes as a hedge instrument should recognise that the Notes may not hedge exactly a Relevant Underlying or portfolio of which a Relevant Underlying forms a part.
		Secondary trading of the Notes may be limited. Further, if the Notes are traded via one or more electronic trading systems and these systems become partially or completely unavailable, this would effect the investor's ability to trade the Notes.
		Potential conflicts of interest may exist between the investor and the Determination Agent, who, under the terms of the Notes, may make such adjustments as it considers appropriate as a consequence of certain events affecting the Relevant Underlying, and in doing so, is entitled to exercise substantial discretion.
		Because the Global Note Certificates may be held by or on behalf of a clearing system investors will have to rely on such clearing system's procedures for transfer, payment and communication with the relevant Issuer.
		The terms and conditions applicable to the Notes permit defined majorities to bind all holders of the Notes, including those who did not attend and vote at the relevant meeting.
		The Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the Issuer, (i) to whom a periodic fee may be payable and (ii) who may sell the Notes to investors at a price different from the price at which they purchase the Notes.
		U.S. federal tax law may impose a withholding tax of up to 30% on payments or deemed payments made to non-U.S. persons that are contingent upon or determined directly or indirectly by reference to U.S.-source dividends. If withholding is so required, none of the Issuers, the Guarantor or any intermediary will be required to pay any additional amounts with respect to the amounts so withheld.
		Notes may be redeemed early if the Issuer or Guarantor is obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes or such levies.
		If an event of default occurs in respect of the Issuer or the Guarantor, investor would have an unsecured claim against the Issuer or the Guarantor for the amount due on the early redemption of the Notes.
		An Issuer may amend the terms and condition of the Notes, the Guarantee and the deed of covenant dated 17 July 2013 (as amended or supplemented from time to time) in relation to, amongst others, the Notes, without Noteholder consent if, in its opinion, such amendments are not materially prejudicial to Noteholders.
		The market price of Notes may be very volatile. Further, investors in Notes may receive no interest and payment or payment of principal or interest, if applicable, may occur at a different time or in a different currency than expected. The Relevant Underlying may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices. The timing of changes in a Relevant Underlying may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the

		earlier the change in the Relevant Underlying the greater the effect on yield.
		It is impossible to predict how the level of the Relevant Underlying will vary over time. The historical performance value (if any) of the Relevant Underlying does not indicate the future performance of the Relevant Underlying. Factors such as volatility, interest rates, remaining term of the Notes or exchange rates will influence the price investors will receive if an investor sells its Notes prior to maturity.
		The Issuer's and/or its affiliates' hedging costs tend to be higher the less liquidity the Relevant Underlying has or the greater the difference between the "buy" and "sell" prices for the Relevant Underlying or derivatives contracts referenced to the Relevant Underlying, and this may impact payments on the Notes.
		General exchange rate and exchange control risks, including the risk that exchange rates will affect an investment in the Notes, the risk of the Issuer's lack of any control over exchange rates and the risk that some currencies may become unavailable and of an alternative payment method used if the payment currency becomes unavailable.
		The Determination Agent may determine that a Disruption Event has occurred and such events can affect the Relevant Underlying and lead to adjustments and/or early redemption of the Notes.
		Indices are comprised of a synthetic portfolio of other assets, and its performance may be dependent on the performance of such assets. Returns on the Notes do not reflect a direct investment in underlying shares or other assets comprising the Index. A change in the composition or discontinuance of an Index could adversely affect the market value of the Notes. Notes are not sold or promoted by an Index or the sponsor of such Index. The Issuer or its affiliates are not liable for the actions or omissions of the sponsor of an Index, any information concerning an Index, the performance of such Index or use thereof in connection with the Notes.
		The investors will bear the risk of the performance of each of the Basket Components. A high correlation of Basket Components may have a significant effect on amounts payable. The negative performance of a single Basket Component may outweigh a positive performance of one or more other Basket Components.
		Amounts payable in respect of the Notes are linked to the value / performance of the worst performing Basket Component, irrespective on the value / performance of the other Basket Components.
		Payment of interest and redemption and early redemption amounts on the Notes is conditional on the value or performance of the Relevant Underlying being greater than or equal to a specified barrier value, and if such condition (a "barrier condition") is not satisfied, then the amount of interest payable will be zero. Further, the barrier condition needs to be satisfied by the value / performance of the worst performing Basket Component, irrespective of the performance of the other Basket Components.
		The Notes will be redeemed early if the Relevant Underlying Value of the worst performing Basket Component on any Automatic Early Redemption Valuation Date is greater than or equal to a specified

		barrier value.
		An investment in the Notes bears the risk that the Issuer or the Guarantor is not able to fulfil its obligations in respect of such Notes at maturity or before maturity of the Notes. In certain circumstances holders may lose all or a substantial portion of their principal or investment.
