under the Regulation S Program for the Issuance of Notes and Certificates, Series A and Series B, and Warrants

PART A – CONTRACTUAL TERMS

This document constitutes Final Terms relating to the issue of Securities described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Securities set forth in the Base Prospectus dated 15 July and the supplements to the Base Prospectus dated 24 August 2022, 14 September 2022, 16 September 2022 and 20 September 2022 which together constitute a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation (Regulation (EU) 2017/1129) (the "**Prospectus Regulation**"). This document constitutes the Final Terms of the Securities described herein for the purposes of Article 8 of the Prospectus Regulation and must be read in conjunction with the Base Prospectus as so supplemented. Full information on the Issuer, the Guarantor and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus. However, a summary of the Issue is annexed to these Final Terms. Copies of the Base Prospectus and any supplement(s) thereto are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA and on the Issuers' website at <http://sp.morganstanley.com/EU/Documents> and copies of the Base Prospectus and any supplement(s) thereto and these Final Terms are available on the website of the Luxembourg Stock Exchange at www.bourse.lu.

The Securities do not constitute a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the Issuer and, if applicable, of the Guarantor.

These Final Terms must be read together with the Base Prospectus, which was included as a foreign prospectus, which is deemed approved also in Switzerland pursuant to Article 54(2) of the Swiss Federal Act on Financial Services ("**FinSA**") by SIX Exchange Regulation AG as reviewing body (*Prüfstelle*), in the list of approved prospectuses and deposited with it and published pursuant to Article 64 FinSA. These Final Terms will also be deposited with SIX Exchange Regulation AG as reviewing body and published pursuant to Article 64 FinSA.

Not Applicable

75. *Linked Securities only* – PERFORMANCE OF UNDERLYING EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING

The value of the Notes is linked to the positive or negative performance of the Underlying Index. An increase in the value of the Underlying Index will have a positive effect on the value of the Notes, and a decrease in the value of the Underlying Index will have a negative effect on the value of the Notes.

The redemption amount payable on the Notes is dependent on the value or performance of the Relevant Underlying reaching a threshold or barrier and a small increase or decrease in the value or performance of the Relevant Underlying near to the threshold or barrier may lead

to a significant increase or decrease in the return of the Notes and Noteholders may receive no interest at all.

The redemption amounts payable on the Notes is linked to the value or performance of the Relevant Underlying as of one or more predefined dates and, irrespective of the level of the Relevant Underlying between these dates, the values or performance of the Relevant Underlying on these dates will affect the value of the Notes more than any other factor.

The Final Redemption Amount payable on the Notes is linked to a specified percentage of the performance of the Relevant Underlying and Noteholders may not receive the amount initially invested, and may receive a significantly lesser amount.

B.3**What are the key risks that are specific to the Issuer?**

- **Risk Relating to the Issuer and Guarantor**

Holders of Securities issued by the Issuer bear the credit risk of the relevant Issuer and/or the Guarantor, that is the risk that the relevant Issuer and/or the Guarantor is not able to meet its obligations under such Securities, irrespective of whether such Securities are referred to as capital or principal protected or how any principal, interest or other payments under Securities are to be calculated. If the Issuer and/or the Guarantor is not able to meet its obligations under the Securities, then that would have a significant negative impact on the investor's return on the Securities and an investor may lose up to its entire investment.

All material assets of MSBV are obligations of (or securities issued by) one or more Morgan Stanley Group companies. If any of these Morgan Stanley Group companies incurs losses with respect to any of its activities (irrespective of whether those activities relate to MSBV or not) the ability of such company to fulfil its obligations to MSBV could be impaired, thereby exposing holders of securities issued by MSBV to a risk of loss.

The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company MSBV, also impact MSBV:

- **Risks relating to the financial situation of Morgan Stanley**

Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley. Morgan Stanley's results of operations may be adversely affected by the COVID-19 pandemic.

Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan

Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets.

- **Risks relating to the operation of Morgan Stanley's business activities**

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operations or security systems or those of Morgan Stanley's third parties (or third parties thereof), which could adversely affect its businesses or reputation. A cyber-attack, information or security breach or a technology failure could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result in disclosure or misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk. Further, expected replacement of London Interbank Offered Rate and replacement or reform of other interest rates could adversely affect Morgan Stanley's business, financial condition and results of operations.

- **Legal, Regulatory and Compliance Risk**

Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anti-corruption and terrorist financing rules and regulations.

- **Other risks relating to Morgan Stanley's business activities**

Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition.

Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways. The UK's withdrawal from the EU could adversely affect Morgan Stanley.

Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.

The application of regulatory requirements and strategies in the United States or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions.

C.3.4 *Most material risk factors pertaining to the Guarantor*

The most material risk factors pertaining to Morgan Stanley are listed under section B.3 “*What are the key risks that are specific to the Issuer?*” above.

C.4 *What are the key risks that are specific to the Securities?*

- The Securities are not deposits or savings accounts and are not insured by the U.S. Federal deposit insurance corporation, the UK Financial Services Compensation Scheme, or any other governmental agency or instrumentality or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank.
- The terms of certain Securities differ from those of ordinary debt securities because the Securities may not pay interest and, on maturity, depending on the performance of the Relevant Underlying, may return less than the amount invested or nothing, or may return assets or securities of an issuer that is not affiliated with the Issuer, the value of which is less than the amount invested.
- Unless otherwise stated in the terms and conditions applicable to the Securities, the securities issued by MSBV and MSFL will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSBV, MSFL or Morgan Stanley (as applicable). In addition, a covenant default by Morgan Stanley, as guarantor, or an event of bankruptcy, insolvency or reorganization of Morgan Stanley, as guarantor, does not constitute an event of default with respect to any securities issued by MSBV or MSFL.
- The market price of Securities may be very volatile. Further, investors in Securities may receive no interest and payment or payment of principal or interest, if applicable, may occur at a different time or in a different currency than expected. The Relevant Underlying may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices. The timing of changes in a Relevant Underlying may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Underlying the greater the effect on yield.
- It is impossible to predict how the level of the Relevant Underlying will vary over time. The historical performance value (if any) of the Relevant Underlying does not indicate the future performance of the Relevant Underlying. Factors such as volatility, interest rates, remaining term of the Securities or exchange rates will influence the price investors will receive if an investor sells its Securities prior to maturity.
- “*Benchmarks*” are subject to recent national, international and other regulatory reforms, which could have a material impact on any Securities linked to a “*benchmark*” index, including in any of the following circumstances: (A) (i) certain “*benchmarks*” may be discontinued, or (ii) the administrator(s) of a “*benchmark*” may not obtain authorisation/registration or not be able to rely on one of the regimes available to non-EU

benchmarks. Depending on the particular "benchmark" and the applicable terms of the Securities, the occurrence of such a circumstance may lead to such benchmark being deemed replaced with an alternative benchmark selected by the Determination Agent (or, in the case of U.S. dollar-denominated Securities where the "benchmark" is SOFR, with an interpolated benchmark or a benchmark selected by the Issuer, its designee, a governmental body (such as the Alternative Reference Rates Committee convened by the Federal Reserve Board and the Federal Reserve Bank of New York) or ISDA) (or any alternative pre-nominated index), adjustment to the terms and conditions of the Securities or early redemption of the Securities. Any of the above consequences could have a material adverse effect on the value of and return on any such Securities.

- Payment of interest and redemption and early redemption amounts on the Securities is conditional on the value or performance of the Relevant Underlying being greater than or equal to a specified barrier value, and if such condition (a "barrier condition") is not satisfied.
