PART B - AMENDMENTS TO THE OFFERING CIRCULAR

The Offering Circular is hereby amended as follows:

1. The section entitled “*Key Risks Specific to the Issuers and the Guarantor*” on pages 4-6 of the Offering Circular under “*Summary*” shall be deemed to be deleted in its entirety and replaced by the following:

Key Risks Specific to the Issuers and the Guarantor: The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSI plc, MSBV, MSFL, also impact MSI plc, MSBV, MSFL:

Market Risk: Morgan Stanley’s results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley. Morgan Stanley’s results of operations have been, and will likely continue to be, adversely affected by the COVID-19 pandemic.

Credit Risk: Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Operational Risk: Morgan Stanley is subject to the risk of loss, or of damage to its reputation, resulting from inadequate or failed processes or systems, from human factors (including human error or malfeasance) or from external events (e.g. fraud, theft, legal and compliance risks, cyber attacks or damage to physical assets). Morgan Stanley may incur operational risk across the full scope of its business activities, including revenue-generating activities (e.g. sales and trading) and support and control groups (e.g. information technology and trade processing). A cyber attack, information or security breach or a technology failure could adversely affect Morgan Stanley’s ability to conduct its business, manage its exposure to risk or result in disclosure or misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Liquidity Risk: Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets. Additionally, liquidity risk encompasses Morgan Stanley’s ability (or perceived ability) to meet its financial obligations without experiencing significant business disruption or reputational damage that may threaten its viability as a going concern. Morgan Stanley also experiences associated funding risks triggered by the market or idiosyncratic stress events that may negatively affect its liquidity or may impact its ability to raise new funding.

Legal, Regulatory and Compliance Risk: Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk

that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anticorruption and terrorist financing rules and regulations.

Risk Management: Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk, which could result in unexpected losses. The planned replacement of London Interbank Offered Rate and replacement or reform of other interest rate benchmarks could adversely affect Morgan Stanley's business, financial condition and results of operations.

International Risk: Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways. The U.K.'s withdrawal from the E.U. could adversely affect Morgan Stanley.

Acquisition, Divestiture and Joint Venture Risk: Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.

Risk Relating to the Exercise of Resolution Measures Powers: The application of regulatory requirements and strategies in the U.S. or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders, and subject Morgan Stanley to other restrictions.

All material assets of MSBV are obligations of (or securities issued by) one or more Morgan Stanley Group companies. If any of these Morgan Stanley Group companies incurs losses with respect to any of its activities (irrespective of whether those activities relate to MSBV or not) the ability of such company to fulfil its obligations to MSBV could be impaired, thereby exposing holders of securities issued by MSBV to a risk of loss

MSFL has no independent operations beyond the issuance and administration of its securities and is expected to have no independent assets available for distributions to holders of MSFL Notes if they make claims in respect of the Notes in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related Guarantee by Morgan Stanley and that Guarantee will rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of Morgan Stanley present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights. Holders will have recourse only to a single claim against Morgan Stanley and its assets under the Guarantee. Holders of Notes issued by MSFL should accordingly assume that in any such proceedings they would not have any priority over and should be treated *pari passu* with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley issued securities.

The existence of substantial inter-relationships (including the provision of funding, capital, services and logistical support to or by MSI plc, as well as common or shared business or operational platforms or systems, including employees) between MSI plc and other Morgan Stanley Group companies exposes MSI plc to the risk that, factors which could affect the business and condition of Morgan Stanley or other companies in the Morgan Stanley Group may also affect the business and condition of MSI plc. Further, Notes issued by MSI plc will not be guaranteed by Morgan Stanley. The application of regulatory requirements and strategies in the United Kingdom to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the holders of securities issued by MSI plc.

2. In the section of the Offering Circular entitled "*Risk Factors relating to the Program Securities*" beginning on page 7 the following shall be added after the risk factor titled "*The United Kingdom's anticipated withdrawal from the European Union could adversely affect Morgan Stanley*" as follows:

***“Morgan Stanley’s results of operations have been, and will likely continue to be, adversely affected by the COVID-19 pandemic.*”**

The coronavirus disease (COVID-19) pandemic has, and will likely continue to, severely impact global economic conditions, resulting in substantial volatility in the global financial markets, increased unemployment, and operational challenges such as the temporary closures of businesses, sheltering-in-place directives and increased remote work protocols. Governments and central banks around the world have reacted to the economic crisis caused by the pandemic by implementing stimulus and liquidity programs and cutting interest rates, though it is unclear whether these or future actions will be successful in countering the economic disruption. If the pandemic is prolonged or the actions of governments and central banks are unsuccessful, the adverse impact on the global economy will deepen, and Morgan Stanley’s results of operations and financial condition in future quarters will be adversely affected.

Towards the end of the first quarter of 2020 and into April 2020, the pandemic impacted each of Morgan Stanley’s business segments and such impact will likely be greater in future quarters if conditions persist (e.g., decline and volatility of asset prices, reduction in interest rates, widening of credit spreads, credit deterioration, market volatility and reduced investment banking advisory activity). This resulted in significant decreases in the valuation of loans and commitments, investments and certain classes of trading assets, an increase in the allowance for credit losses, reduced net interest income, and reduced investment banking advisory fees. At the same time, increased revenues for certain products related to high levels of client trading activity, as well as balance sheet growth from increased deposits and derivative assets, may not be replicated in future quarters.

Should these global market conditions be prolonged or worsen, or the pandemic lead to additional market disruptions, Morgan Stanley could experience reduced client activity and demand for products and services, higher credit and valuation losses in loan and commitment and investment portfolios, impairments of other financial assets and other negative impacts on Morgan Stanley’s financial position, including possible constraints on capital and liquidity, as well as a higher cost of capital, and possible changes or downgrades to Morgan Stanley’s credit ratings. In addition, the sharp decline in interest rates will further decrease interest margins in Morgan Stanley’s lending businesses across Wealth Management and Institutional Securities. A continued slowdown of commercial activity would cause overall investment banking revenues to decline and the decline in assets under management and client balances will also further reduce fee and financing revenues across all of Morgan Stanley’s business segments.

Operationally, although Morgan Stanley has initiated a work remotely protocol and restricted business travel of the workforce, if significant portions of the workforce, including key personnel, are unable to work effectively because of illness, government actions, or other restrictions in connection with the pandemic, the impact of the pandemic on Morgan Stanley’s businesses could be exacerbated.

While the COVID-19 pandemic negatively impacted Morgan Stanley’s results of operations in the first quarter of 2020, the extent to which it, and the related global economic crisis, affect Morgan Stanley’s businesses, results of operations and financial condition, as well as Morgan Stanley’s regulatory capital and liquidity ratios, will depend on future developments that are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and any recovery period, future actions taken by governmental authorities, central banks and other third parties in response to the pandemic, and the effects on Morgan Stanley’s customers, counterparties, employees and third-party service providers. Moreover, the effects of the COVID-19 pandemic will heighten the other risks described in the section entitled “Risk Factors” in Morgan Stanley’s most recent Annual Report on Form 10-K and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K.”
