International plc (**MSIP** or **MSI plc**) and Morgan Stanley B.V. (**MSBV** and, together with Morgan Stanley and MSIP, the **Issuers** and each, an **Issuer**) may offer from time to time Notes (the **Notes**) denominated in any currency agreed by the relevant Issuer and the Distribution Agent (as defined below). **Notes issued by Morgan Stanley B.V. will not be offered to the public in France.**

References herein to "this Base Prospectus" shall, where applicable, be deemed to be references to this Base Prospectus as supplemented or amended from time to time. To the extent not set forth in this Base Prospectus, the specific terms of any Notes will be included in the appropriate Final Terms.

The payment of all amounts due in respect of Notes issued by MSBV will be unconditionally and irrevocably guaranteed by Morgan Stanley in its capacity as guarantor (the **Guarantor**) pursuant to a guarantee dated as of 12 January 2017 (the **Guarantee**). Payment of amounts due in respect of Notes issued by MSIP will not be guaranteed by Morgan Stanley.

Morgan Stanley and MSBV are offering the Notes on a continuing basis through MSIP (the **Distribution Agent**), who has agreed to use reasonable efforts to solicit offers to subscribe to or purchase the Notes. Morgan Stanley and MSBV may also sell Notes to the Distribution Agent as principal for its own account at a price to be agreed upon at the time of sale. The Distribution Agent may resell any Notes it purchases as principal at prevailing market prices, or at other prices, as it determines. Morgan Stanley and MSBV or the Distribution Agent may reject any offer to subscribe to or purchase Notes, in whole or in part. MSIP will act as distributor and offeror of the Notes issued by it. The Issuers may appoint from time to time additional distribution agents (either in relation to the Programme generally or in relation to a particular Series of Notes). See "*Subscription and Sale*" below.

Application has been made to the *Autorité des marchés financiers* (the **AMF**) in France for approval of this Base Prospectus in its capacity as competent authority pursuant to Article 212-2 of its *Règlement Général* which implements the Directive 2003/71/EC of 4 November 2003, as amended (the **Prospectus Directive**) on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market under French law. Upon such approval, application may be made for Notes issued under the Programme during a period of 12 months from the date of this Base Prospectus to be listed and/or admitted to trading on Euronext Paris or on any other regulated market in the European Union (each such regulated market, a **Regulated Market**). Euronext Paris is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU as amended. References in this Base Prospectus to securities being "listed" (and all related references) shall mean that such securities have been admitted to trading on the regulated market Euronext Paris, on the regulated market or on the EuroMTF Market of the Luxembourg Stock Exchange, listed on the Official List of the Luxembourg Stock Exchange or listed and admitted to trading on any other stock exchange(s) as may be specified in the applicable Final Terms. Each Issuer may also issue unlisted Notes. The relevant final terms (the **Final Terms**) (a form of which is contained herein) in respect of the issue of any Notes will specify whether or not such Notes will be admitted to trading on Euronext Paris, on the regulated market or on the EuroMTF Market of the Luxembourg Stock Exchange, listed on the Official List of the Luxembourg Stock Exchange or listed and admitted to trading on any other stock exchange(s). This Base Prospectus and any supplement thereto will be published on the website of (a) the AMF (www.amf-france.org) and (b) the Issuers (<http://sp.morganstanley.com/EU/Documents>) and copies may be obtained at the registered offices of the Issuers and at the specified offices of the Paying Agents.

Notes issued under the Programme may be rated or unrated. The rating of Notes, if any, will be disclosed in the Final Terms. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning credit rating agency.

PRIIPs/IMPORTANT – EEA RETAIL INVESTORS

If the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the **EEA**). For these purposes, a retail investor means a person who is one (or more) of:

- (A) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (**MiFID II**);
- (B) a customer within the meaning of Directive 2016/97/EU, as amended (the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
- (C) not a qualified investor as defined in the Prospectus Directive.

Consequently, if the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", no key information document required by Regulation (EU) No 1286/2014, as amended (the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE/TARGET MARKET

The Final Terms in respect of any Notes may include a legend entitled **MiFID II Product Governance / Target Market** which will outline the target market assessment in respect of the Notes and which strategies for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution strategies.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Distribution Agent subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Distribution Agent nor any of its respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

THE NOTES, ANY INTEREST THEREIN AND ANY GUARANTEE IN RESPECT THEREOF, HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE **SECURITIES ACT**), OR THE SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES OF AMERICA, ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS AND MAY NOT BE OFFERED, SOLD, PLEDGED, ASSIGNED, DELIVERED OR OTHERWISE TRANSFERRED, EXERCISED OR REDEEMED AT ANY TIME, DIRECTLY OR INDIRECTLY, WITHIN THE UNITED STATES (WHICH TERM INCLUDES THE TERRITORIES, THE POSSESSIONS AND ALL OTHER AREAS SUBJECT TO THE JURISDICTION OF THE UNITED STATES) OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT). SEE "SUBSCRIPTION AND SALE".

For payments in respect of a Note issued by Morgan Stanley, in order to avoid U.S. withholding taxes, the beneficial owner of the Note that is not a United States person (or a financial institution holding the Note on behalf of the beneficial owner) is required to comply with certain tax identification and certification requirements, generally by furnishing the appropriate U.S. Internal Revenue Service Form W- 8BEN or W-8BEN-E on which the beneficial owner certifies under penalty of perjury that it is not a United States person. Certain tax identification and certification requirements apply as well to holders of Notes of all Issuers with respect to "FATCA". In addition, U.S. withholding taxes could be imposed in respect of certain Equity-Linked Notes issued by any Issuer. See below under "United States Federal Taxation".

Each investor must comply with all applicable laws and regulations in each country or jurisdiction in or from which the investor purchases, offers, sells or delivers the Notes or has in the investor's possession or distributes this Base Prospectus or any accompanying Final Terms.

THE NOTES ARE NOT DEPOSITS OR SAVINGS ACCOUNTS AND ARE NOT INSURED BY THE U.S. FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER GOVERNMENTAL AGENCY OR INSTRUMENTALITY OR DEPOSIT PROTECTION SCHEME ANYWHERE, NOR ARE THEY OBLIGATIONS OF, OR GUARANTEED BY, A BANK.

Hedging transactions involving "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder) may not be conducted unless in compliance with the Securities Act.

MSIP accepts responsibility for information relating to itself contained in this Base Prospectus (except for the information relating to Morgan Stanley and MSBV). MSBV accepts responsibility for information relating to itself contained in this Base Prospectus (except for the information relating to Morgan Stanley and MSIP). Investors should review, *inter alia*, the most recent financial statements of Morgan Stanley, MSIP and/or MSBV (as applicable) when evaluating any Notes or an investment therein (such financial statements shall not form a part of this Base Prospectus unless they have been expressly incorporated herein, including by way of a supplement to this Base Prospectus).

The distribution of this Base Prospectus and the offering, sale and delivery of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by Morgan Stanley, MSIP and MSBV to inform themselves about and to observe those restrictions.

The Issuers do not intend to provide post-issuance information in respect of the Notes.

This Base Prospectus should be read and construed with any amendment or supplement thereto and with any other documents incorporated by reference therein.

This Base Prospectus does not constitute an offer of or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by any of Morgan Stanley, MSIP or MSBV that any recipient of this Base Prospectus should subscribe for or purchase any Notes. Each recipient of this Base Prospectus will be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of Morgan Stanley, MSIP or MSBV (as applicable) and of the particular terms of any offered Notes.

Neither this Base Prospectus nor any Final Terms may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which that offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

Such return may also be dependent on the value or performance of the Relevant Underlying reaching, or not, a predetermined threshold or barrier in which case a small increase or decrease in the value or performance of the Relevant Underlying near to the threshold or barrier may lead to a significant increase or decrease in the return of the Notes, and Noteholders may receive no interest at all.</p> <p>Where the return on Derivative Notes is linked to the value or performance of the Relevant Underlying as determined as of one or more predefined dates and irrespective of the level of the Relevant Underlying between these dates, the values of the Relevant Underlying on these dates will affect the value of the Notes more than any other factor.</p>

		<p>Where the Final Redemption Amount payable on Derivative Notes is linked to or dependent on the performance of the Relevant Underlying (or a percentage thereof), Noteholders may not receive the amount initially invested, and may receive a significantly lesser amount, unless a minimum Final Redemption Amount at least equal to such invested amount applies in determining such Final Redemption Amount.</p> <p>The market price or value of Derivative Notes at any time is expected to be affected by changes in the value of the Relevant Underlying to which the Notes are linked.</p> <p>The value of certain Equity Linked Notes could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or other distributions on a Relevant Underlying.</p> <p>See also Element C.9.</p>

		Section D – Risks
D.2	Key Risks Specific to the Issuers and the Guarantor:	<p>The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSI plc and MSBV, also affect MSI plc and MSBV:</p> <p>Market Risk: Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley.</p> <p>Credit Risk: Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.</p> <p>Operational Risk: Morgan Stanley is subject to the risk of loss, or of damage to its reputation, resulting from inadequate or failed processes or systems, from human factors or from external events (e.g. fraud, theft, legal and compliance risks, cyber attacks or damage to physical assets). Morgan Stanley may incur operational risk across the full scope of its business activities, including revenue-generating activities (e.g. sales and trading) and support and control groups (e.g. information technology and trade processing). A cyber attack, information or security breach or a technology failure could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result in disclosure or</p>

		<p>misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.</p> <p>Liquidity Risk: Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets. Additionally, liquidity risk encompasses Morgan Stanley's ability (or perceived ability) to meet its financial obligations without experiencing significant business disruption or reputational damage that may threaten its viability as a going concern. Morgan Stanley also experiences associated funding risks triggered by the market or idiosyncratic stress events that may negatively affect its liquidity or may impact its ability to raise new funding.</p> <p>Legal, Regulatory and Compliance Risk: Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anti-corruption and terrorist financing rules and regulations. The uncertainties and ambiguities as to the interpretation and application of the U.S. Tax Cuts and Jobs Act could adversely affect Morgan Stanley.</p> <p>Risk Management: Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk.</p> <p>Competitive Environment: Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition (for example, by putting increased pressure on bid-offer spreads, commissions, markups or comparable fees). Finally, Morgan Stanley's ability to retain and attract qualified employees is critical to the success of its business and the failure to do so may materially adversely affect its performance.</p> <p>International Risk: Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as</p>
--	--	---

		<p>well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways. The United Kingdom's anticipated withdrawal from the European Union could adversely affect Morgan Stanley.</p> <p>Acquisition, Divestiture and Joint Venture Risk: Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.</p> <p>Risk relating to the exercise of resolution measures powers: The application of regulatory requirements and strategies in the United States or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the holders of securities issued or guaranteed by Morgan Stanley, and subject Morgan Stanley to other restrictions.</p> <p>The following key risks also affect MSBV:</p> <p>All material assets of MSBV are obligations of (or securities issued by) one or more Morgan Stanley Group companies. If any of these Morgan Stanley Group companies incurs losses with respect to any of its activities (irrespective of whether those activities relate to MSBV or not) the ability of such company to fulfil its obligations to MSBV could be impaired, thereby exposing holders of securities issued by MSBV to a risk of loss. Should this circumstance materialise, the payment obligations of MSBV under the terms of the securities would be guaranteed by Morgan Stanley.</p> <p>The following key risks also affect MSI plc:</p> <p>The existence of substantial inter-relationships (including the provision of funding, capital, services and logistical support to or by MSI plc, as well as common or shared business or operational platforms or systems, including employees) between MSI plc and other Morgan Stanley Group companies exposes MSI plc to the risk that, factors which could affect the business and condition of Morgan Stanley or other companies in the Morgan Stanley Group may also affect the business and condition of MSI plc. Further, Notes issued by MSI plc will not be guaranteed by Morgan Stanley. The application of regulatory requirements and strategies in the United Kingdom to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the holders of securities issued by MSI plc.</p>
D.3	Key Risks Specific to the Notes:	<p>There are certain factors which are material for the purpose of assessing the risks associated with Notes issued under the Programme. These notably include the risk factors which relate to:</p> <ul style="list-style-type: none"> the specification, type and structure of the Notes (including in the case of Derivative Notes, the application of caps and floors, averaging features (including "best-of", "worst-of" and "selected" performance averages), weighting of Relevant Underlyings, memory features, barrier features and lock-in features);

RISK FACTORS

Prospective investors should read the entire Base Prospectus (and where appropriate, any relevant final terms and summary). Words and expressions defined elsewhere in this Base Prospectus have the same meanings in this section.

Prospective investors should consider the factors described below and consult with their own professional advisors if they consider it necessary. Each of the Issuers and the Guarantor believe that such factors represent the principal risks inherent in investing in Notes issued under the Programme but the inability of an Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons, which may not be considered significant risks by such Issuer based on information currently available to it or which it may not currently be able to anticipate.

The Guarantor and the Issuers disclaim any responsibility to advise prospective purchasers of any matters arising under the laws of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments on the Notes. These persons should consult their own legal and financial advisors concerning these matters. This section notably describes generally the most significant risks of investing in Notes linked to shares, indices, ETFs, inflation indices, funds or futures contracts. Each investor should carefully consider whether the Notes, as described herein and in the applicable Final Terms, are suited to its particular circumstances before deciding to subscribe or to purchase any Notes.

1. Risks Relating to Morgan Stanley, Morgan Stanley & Co. International plc and Morgan Stanley B.V.

Morgan Stanley is the ultimate parent company of the Morgan Stanley group of companies comprised of Morgan Stanley and its consolidated subsidiaries (together, the **Morgan Stanley Group**). Morgan Stanley B.V. and Morgan Stanley & Co. International plc are both part of the Morgan Stanley Group.

All material assets of Morgan Stanley B.V. are obligations of one or more of the Morgan Stanley Group companies and securities issued by Morgan Stanley B.V. are guaranteed by Morgan Stanley.

There are substantial inter-relationships between Morgan Stanley & Co. International plc and Morgan Stanley as well as other Morgan Stanley Group companies, including the provision of funding, capital services and logistical support to or by Morgan Stanley & Co. International plc, as well as common or shared business or operational platforms or systems, including employees.

The principal risks with respect to Morgan Stanley described below will also represent (together with the risk factors specific to such entities as described below) the principal risks with respect to Morgan Stanley B.V. and Morgan Stanley & Co. International plc, either as individual entities or as part of the Morgan Stanley Group.

Market Risk

Market risk refers to the risk that a change in the level of one or more market prices, rates, indices, volatilities, correlations or other market factors, such as market liquidity, will result in losses for a position or portfolio owned by Morgan Stanley.

Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values.

Morgan Stanley's results of operations have been in the past and may, in the future, be materially affected by market fluctuations due to global financial markets, economic conditions, changes to the global trade policies and other factors, including the level and volatility of equity, fixed income and commodity prices, the level and term structure of interest rates and currency values, and the level of other market indices. The results of Morgan Stanley's Institutional Securities business segment, particularly results relating to Morgan Stanley's involvement in primary and secondary markets for all types of financial products, are subject to substantial market fluctuations due to a variety of factors that Morgan Stanley cannot control or predict with great certainty. These fluctuations impact results by causing variations in new business flows and in the fair value of securities and other financial products. Fluctuations also occur due to the level of global market activity, which, among other things, affects the size, number and timing of investment banking client assignments and transactions and the realisation of returns from Morgan Stanley's principal investments. During periods of unfavourable market or economic conditions, the level of individual investor participation in the global markets, as well as the level of client assets, may also decrease, which would negatively impact the results of Morgan Stanley's Wealth Management business segment. In addition, fluctuations in global market activity could impact the flow of investment capital into or from assets under management or supervision and the way customers allocate capital among money market, equity, fixed income or other investment alternatives, which could negatively impact Morgan Stanley's Investment Management business segment.

The value of Morgan Stanley's financial instruments may be materially affected by market fluctuations. Market volatility, illiquid market conditions and disruptions in the credit markets may make it extremely difficult to value certain of Morgan Stanley's financial instruments, particularly during periods of market displacement. Subsequent valuations in future periods, in light of factors then prevailing, may result in significant changes in the values of these instruments and may adversely impact historical or prospective performance-based fees (also known as incentive fees, which include carried interest) in respect of certain business. In addition, at the time of any sales and settlements of these financial instruments, the price Morgan Stanley ultimately realises will depend on the demand and liquidity in the market at that time and may be materially lower than their current fair value. Any of these factors could cause a decline in the value of Morgan Stanley's financial instruments, which may have an adverse effect on its results of operations in future periods.

In addition, financial markets are susceptible to severe events evidenced by rapid depreciation in asset values accompanied by a reduction in asset liquidity. Under these extreme conditions, hedging and other risk management strategies may not be as effective at mitigating trading losses as they would be under more normal market conditions. Moreover, under these conditions market participants are particularly exposed to trading strategies employed by many market participants simultaneously and on a large scale. Morgan Stanley's risk management and monitoring processes seek to quantify and mitigate risk to more extreme market moves. However, severe market events have historically been difficult to predict and Morgan Stanley could realise significant losses if extreme market events were to occur.

Holding large and concentrated positions may expose Morgan Stanley to losses.

Concentration of risk may reduce revenues or result in losses in Morgan Stanley's market-making, investing, block trading, underwriting and lending businesses in the event of unfavourable market movements, or when market conditions are more favourable for its

competitors. Morgan Stanley commits substantial amounts of capital to these businesses, which often results in its taking large positions in the securities of, or making large loans to, a particular issuer or issuers in a particular industry, country or region.

Credit Risk

Credit risk refers to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations.

Morgan Stanley incurs significant credit risk exposure through its Institutional Securities business segment. This risk may arise from a variety of business activities, including, but not limited to, extending credit to clients through various lending commitments; entering into swap or other derivative contracts under which counterparties have obligations to make payments to Morgan Stanley; providing short- or long-term funding that is secured by physical or financial collateral whose value may at times be insufficient to fully cover the loan repayment amount; posting margin and/or collateral and other commitments to clearing houses, clearing agencies, exchanges, banks, securities firms and other financial counterparties; and investing and trading in securities and loan pools whereby the value of these assets may fluctuate based on realised or expected defaults on the underlying obligations or loans.

Morgan Stanley also incurs credit risk in its Wealth Management business segment lending to mainly individual investors, including, but not limited to, margin- and securities-based loans collateralised by securities, residential mortgage loans and home equity lines of credit.

While Morgan Stanley believes current valuations and reserves adequately address its perceived levels of risk, adverse economic conditions may negatively impact its clients and its credit exposures. In addition, as a clearing member of several central counterparties, Morgan Stanley finances its customer positions and could be held responsible for the defaults or misconduct of its customers. Although Morgan Stanley regularly reviews its credit exposures, default risk may arise from events or circumstances that are difficult to detect or foresee.

A default by a large financial institution could adversely affect financial markets.

The commercial soundness of many financial institutions may be closely interrelated as a result of credit, trading, clearing or other relationships among the institutions. Increased centralisation of trading activities through particular clearing houses, central agents or exchanges as required by provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the **Dodd-Frank Act**) may increase Morgan Stanley's concentration of risk with respect to these entities. As a result, concerns about, or a default or threatened default by, one institution could lead to significant market-wide liquidity and credit problems, losses or defaults by other institutions. This is sometimes referred to as "systemic risk" and may adversely affect financial intermediaries, such as clearing houses, clearing agencies, exchanges, banks and securities firms, with which Morgan Stanley interacts on a daily basis and, therefore, could adversely affect Morgan Stanley.

Operational Risk

Operational risk refers to the risk of loss, or of damage to Morgan Stanley's reputation, resulting from inadequate or failed processes or systems, from human factors or from external events (e.g., fraud, theft, legal and compliance risks, cyber attacks or damage to physical

assets). Morgan Stanley may incur operational risk across the full scope of its business activities, including revenue-generating activities (e.g., sales and trading) and support and control groups (e.g., information technology and trade processing). Legal, regulatory and compliance risk is included in the scope of operational risk and is discussed below under "*Legal, Regulatory and Compliance Risk*".

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operational or security systems, which could adversely affect its businesses or reputation.

Morgan Stanley's businesses are highly dependent on its ability to process and report, on a daily basis, a large number of transactions across numerous and diverse markets in many currencies. Morgan Stanley may introduce new products or services or change processes or reporting, including in connection with new regulatory requirements, resulting in new operational risk that Morgan Stanley may not fully appreciate or identify. The trend toward direct access to automated, electronic markets and the move to more automated trading platforms has resulted in using increasingly complex technology that relies on the continued effectiveness of the programming code and integrity of the data to process the trades. Morgan Stanley relies on the ability of its employees, consultants, its internal systems and systems at technology centres maintained by unaffiliated third parties to operate its different businesses and process a high volume of transactions. Additionally, Morgan Stanley is subject to complex and evolving laws and regulations governing privacy and data protection, which may differ and potentially conflict, in various jurisdictions.

As a major participant in the global capital markets, Morgan Stanley faces the risk of incorrect valuation or risk management of its trading positions due to flaws in data, models, electronic trading systems or processes or due to fraud.

Morgan Stanley also faces the risk of operational failure or termination of any of the clearing agents, exchanges, clearing houses or other financial intermediaries it uses to facilitate its lending, securities and derivatives transactions. In the event of a breakdown or improper operation of Morgan Stanley's or a direct or indirect third party's systems or processes or improper or unauthorised action by third parties, including consultants and subcontractors or Morgan Stanley's employees, Morgan Stanley could suffer financial loss, an impairment to its liquidity position, a disruption of its businesses, regulatory sanctions or damage to its reputation. In addition, the interconnectivity of multiple financial institutions with central agents, exchanges and clearing houses, and the increased importance of these entities, increases the risk that an operational failure at one institution or entity may cause an industry-wide operational failure that could materially impact Morgan Stanley's ability to conduct business. Furthermore, the concentration of financial institution company and personal information held by a handful of third parties increases the risk that a breach at a key third party may cause an industry-wide data breach that could significantly increase the cost and risk of conducting business.

Despite the business contingency and security plans Morgan Stanley has in place, there can be no assurance that such plans will fully mitigate all potential risks to Morgan Stanley. Morgan Stanley's ability to conduct business may be adversely affected by a disruption in the infrastructure that supports its business and the communities where Morgan Stanley is located, which are concentrated in the New York metropolitan area, London, Hong Kong and Tokyo, as well as Mumbai, Budapest, Glasgow and Baltimore. This may include a disruption involving physical site access, cyber or information security incidents, terrorist activities, disease pandemics, catastrophic events, natural disasters, extreme weather events, electrical outage, environmental hazard, computer servers, communications or other services Morgan Stanley uses, its employees or third parties with whom Morgan Stanley conducts business.

Although Morgan Stanley employs backup systems for its data, those backup systems may be unavailable following a disruption, the affected data may not have been backed up or may not be recoverable from the backup, or the backup data may be costly to recover, which could adversely affect Morgan Stanley's business.

A cyber attack, information or security breach or a technology failure could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result in disclosure or misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Morgan Stanley maintains a significant amount of personal information on its customers, employees and certain counterparties that Morgan Stanley is required to protect under various state, federal and international data protection and privacy laws. These laws may be in conflict with one another, or courts and regulators may interpret them in ways that Morgan Stanley had not anticipated or that adversely affect Morgan Stanley's business.

Cybersecurity and information risks for financial institutions have significantly increased in recent years in part because of the proliferation of new technologies, the use of the internet and mobile telecommunications technologies to conduct financial transactions, and the increased sophistication and activities of organised crime, hackers, terrorists and other external extremist parties, including foreign state actors, in some circumstances as a means to promote political ends. In addition to the growing sophistication of certain parties, the commoditization of cyber tools which are able to be weaponised by less sophisticated actors has led to an increase in the exploitation of technological vulnerabilities. Any of these parties may also attempt to fraudulently induce employees, customers, clients, vendors or other third parties or users of Morgan Stanley's systems to disclose sensitive information in order to gain access to its data or that of Morgan Stanley's employees or clients. Cybersecurity and information security risks may also derive from human error, fraud or malice on the part of its employees or third parties, including third party providers, or may result from accidental technological failure. In addition, third parties with whom Morgan Stanley does business, their service providers, as well as other third parties with whom Morgan Stanley's customers do business, may also be sources of cybersecurity risks, particularly where activities of customers are beyond Morgan Stanley's security and control systems. There is no guarantee that the measures Morgan Stanley takes will provide absolute security or recoverability given the techniques used in cyber attacks are complex and frequently change, and may not be able to be anticipated.

Like other financial services firms, Morgan Stanley and its third party providers continue to be the subject of unauthorised access attacks, mishandling or misuse of information, computer viruses or malware, cyber attacks designed to obtain confidential information, destroy data, disrupt or degrade service, sabotage systems or cause other damage, denial of service attacks, data breaches and other events. There can be no assurance that such unauthorised access, mishandling or misuse of information or cyber incidents will not occur in the future, and they could occur more frequently and on a more significant scale.

A cyber attack, information or security breach or a technology failure of Morgan Stanley or of a third party could jeopardise its or its clients', employees', partners', vendors' or counterparties' personal, confidential, proprietary or other information processed and stored in, and transmitted through, its and its third parties' computer systems. Furthermore, such events could cause interruptions or malfunctions in Morgan Stanley's, its clients', employees', partners', vendors', counterparties' or third parties' operations, as well as the unauthorised release, gathering, monitoring, misuse, loss or destruction of confidential, proprietary and other information of Morgan Stanley, of its employees, of its customers or of other third

parties. Any of these events could result in reputational damage with Morgan Stanley's clients and the market, client dissatisfaction, additional costs to Morgan Stanley to maintain and update its operational and security systems and infrastructure, regulatory investigations, litigation or enforcement, or regulatory fines or penalties, any of which could adversely affect Morgan Stanley's business, financial condition or results of operations.

Given Morgan Stanley's global footprint and the high volume of transactions Morgan Stanley processes, the large number of clients, partners, vendors and counterparties with which Morgan Stanley does business, and the increasing sophistication of cyber attacks, a cyber attack, information or security breach could occur and persist for an extended period of time without detection. Morgan Stanley expects that any investigation of a cyber attack would be inherently unpredictable and that it would take time before the completion of any investigation and before there is availability of full and reliable information. During such time Morgan Stanley would not necessarily know the extent of the harm or how best to remediate it, and certain errors or actions could be repeated or compounded before they are discovered and remediated, all or any of which would further increase the costs and consequences of a cyber attack.

While many of Morgan Stanley's agreements with partners and third party vendors include indemnification provisions, Morgan Stanley may not be able to recover sufficiently, or at all, under such provisions to adequately offset any losses. In addition, although Morgan Stanley maintains insurance coverage that may, subject to policy terms and conditions, cover certain aspects of cyber and information security risks, such insurance coverage may be insufficient to cover all losses.

The cost of managing cyber and information security risks and attacks along with complying with new and increasingly expansive regulatory requirements could adversely affect Morgan Stanley's business.

Liquidity Risk

Liquidity risk refers to the risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets. Liquidity risk also encompasses Morgan Stanley's ability (or perceived ability) to meet its financial obligations without experiencing significant business disruption or reputational damage that may threaten its viability as a going concern. Liquidity risk also encompasses the associated funding risks triggered by the market or idiosyncratic stress events that may negatively affect Morgan Stanley's liquidity and may impact its ability to raise new funding.

Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations.

Liquidity is essential to Morgan Stanley's businesses. Morgan Stanley's liquidity could be negatively affected by its inability to raise funding in the long-term or short-term debt capital markets or its inability to access the secured lending markets. Factors that Morgan Stanley cannot control, such as disruption of the financial markets or negative views about the financial services industry generally, including concerns regarding fiscal matters in the U.S. and other geographic areas, could impair Morgan Stanley's ability to raise funding. In addition, Morgan Stanley's ability to raise funding could be impaired if investors or lenders develop a negative perception of Morgan Stanley's long-term or short-term financial prospects due to factors such as an incurrence of large trading losses, a downgrade by the rating agencies, a decline in the level of its business activity, or if regulatory authorities take significant action against Morgan Stanley or its industry, or Morgan Stanley discovers significant employee misconduct or illegal activity. If Morgan Stanley is unable to raise

funding using the methods described above, it would likely need to finance or liquidate unencumbered assets, such as its investment portfolios or trading assets, to meet maturing liabilities. Morgan Stanley may be unable to sell some of its assets, or it may have to sell assets at a discount to market value, either of which could adversely affect Morgan Stanley's results of operations, cash flows and financial condition.

Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings.

The cost and availability of unsecured financing generally are impacted by Morgan Stanley's long-term and short-term credit ratings. The rating agencies continue to monitor certain issuer specific factors that are important to the determination of Morgan Stanley's credit ratings, including governance, the level and quality of earnings, capital adequacy, liquidity and funding, risk appetite and management, asset quality, strategic direction and business mix. Additionally, the rating agencies will look at other industry-wide factors such as regulatory or legislative changes, including, for example, regulatory changes, macro- economic environment, and perceived levels of third party support, and it is possible that they could downgrade Morgan Stanley's ratings and those of similar institutions.

Morgan Stanley's credit ratings also can have a significant impact on certain trading revenues, particularly in those businesses where longer term counterparty performance is a key consideration, such as over-the- counter (**OTC**) and other derivative transactions, including credit derivatives and interest rate swaps. In connection with certain OTC trading agreements and certain other agreements associated with Morgan Stanley's Institutional Securities business segment, Morgan Stanley may be required to provide additional collateral to, or immediately settle any outstanding liability balance with, certain counterparties in the event of a credit ratings downgrade. Termination of Morgan Stanley's trading and other agreements could cause Morgan Stanley to sustain losses and impair its liquidity by requiring it to find other sources of financing or to make significant cash payments or securities movements. The additional collateral or termination payments which may occur in the event of a future credit rating downgrade vary by contract and can be based on ratings by either or both of Moody's Investors Services, Inc. (**Moody's**) and S&P Global Ratings (**S&P**).

Morgan Stanley is a holding company and depends on payments from its subsidiaries.

Morgan Stanley has no operations and depends on dividends, distributions and other payments from its subsidiaries to fund dividend payments and to fund all payments on its obligations, including debt obligations. Regulatory, tax restrictions or elections and other legal restrictions may limit Morgan Stanley's ability to transfer funds freely, either to or from its subsidiaries. In particular, many of Morgan Stanley's subsidiaries, including its broker-dealer subsidiaries, are subject to laws, regulations and self-regulatory organisation rules that limit, as well as authorise regulatory bodies to block or reduce the flow of funds to Morgan Stanley, or that prohibit such transfers or dividends altogether in certain circumstances, including steps to "ring fence" entities by regulators outside of the U.S. to protect clients and creditors of such entities in the event of financial difficulties involving such entities. These laws, regulations and rules may hinder Morgan Stanley's ability to access funds that it may need to make payments on its obligations. Furthermore, as a bank holding company, Morgan Stanley may become subject to a prohibition or to limitations on its ability to pay dividends. The Office of the Comptroller of the Currency (**OCC**), the Board of Governors of the Federal Reserve System (the "Federal Reserve") and the Federal Deposit Insurance Corporation (**FDIC**) have the authority, and under certain circumstances the duty, to prohibit or to limit the payment of dividends by the banking organisations they supervise, including Morgan Stanley and its U.S. bank subsidiaries, Morgan Stanley Bank, N.A. and Morgan Stanley Private Bank, National Association (collectively, **U.S. Bank Subsidiaries**).

Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions.

Morgan Stanley's ability to raise funding in the long-term or short-term debt capital markets or the equity markets, or to access secured lending markets, has in the past been, and could in the future be, adversely affected by conditions in the U.S. and international markets and economies. Global market and economic conditions have been particularly disrupted and volatile in the last several years and may be in the future. In particular, Morgan Stanley's cost and availability of funding in the past have been, and may in the future be, adversely affected by illiquid credit markets and wider credit spreads. Significant turbulence in the U.S., the European Union and other international markets and economies could adversely affect Morgan Stanley's liquidity and financial condition and the willingness of certain counterparties and customers to do business with Morgan Stanley.

Legal, Regulatory and Compliance Risk

Legal, regulatory and compliance risk includes the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation Morgan Stanley may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organisation standards and codes of conduct applicable to its business activities. This risk also includes contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. It also includes compliance with anti-money laundering, anti-corruption and terrorist financing rules and regulations.

The financial services industry is subject to extensive regulation, and changes in regulation will impact Morgan Stanley's business.

Like other major financial services firms, Morgan Stanley is subject to extensive regulation by U.S. federal and state regulatory agencies and securities exchanges and by regulators and exchanges in each of the major markets where Morgan Stanley conducts its business. These laws and regulations significantly affect the way Morgan Stanley does business and can restrict the scope of its existing businesses and limit its ability to expand its product offerings and pursue certain investments.

The regulation of major financial firms, including Morgan Stanley, as well as of the markets in which Morgan Stanley operates, is extensive and subject to ongoing change. Morgan Stanley is, or will become, subject to (among other things) wide-ranging regulation and supervision, intensive scrutiny of its businesses and any plans for expansion of those businesses, limitations on new activities, a systemic risk regime that imposes heightened capital and liquidity requirements and other enhanced prudential standards, resolution regimes and resolution planning requirements, requirements for maintaining minimum amounts of external total loss-absorbing capacity and external long-term debt, restrictions on activities and investments imposed by a section of the Bank Holding Company Act of 1956, as amended (the **BHC Act**) added by the Dodd-Frank Act referred to as the **Volcker Rule**, comprehensive derivatives regulation, market structure regulation, tax regulations, antitrust laws, trade and transaction reporting obligations, and broadened fiduciary obligations. In some areas, regulatory standards are subject to final rulemaking or transition periods or may otherwise be revised in whole or in part. Ongoing implementation of, or changes in, laws and regulations could materially impact the profitability of Morgan Stanley's businesses and the value of assets it holds, expose it to additional costs, require changes to business practices or force it to discontinue businesses, adversely affect its ability to pay dividends and repurchase its stock, or require it to raise capital, including in ways that may adversely impact its shareholders or creditors. In addition, regulatory requirements that are being imposed by

foreign policymakers and regulators may be inconsistent or conflict with regulations that Morgan Stanley is subject to in the U.S. and may adversely affect it. Morgan Stanley expects legal and regulatory requirements to be subject to ongoing change for the foreseeable future, which may result in significant new costs to comply with new or revised requirements as well as to monitor for compliance on an ongoing basis.

The application of regulatory requirements and strategies in the U.S. or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders, and subject Morgan Stanley to other restrictions.

Pursuant to the Dodd-Frank Act, Morgan Stanley is required to periodically submit to the Federal Reserve and the FDIC a resolution plan that describes its strategy for a rapid and orderly resolution under the U.S. Bankruptcy Code in the event of material financial distress or failure. If the Federal Reserve and the FDIC were to jointly determine that Morgan Stanley's resolution plan submission was not credible or would not facilitate an orderly resolution, and if Morgan Stanley were unable to address any deficiencies identified by the regulators, Morgan Stanley or any of its subsidiaries may be subject to more stringent capital, leverage, or liquidity requirements or restrictions on its growth, activities, or operations, or after a two year period, Morgan Stanley may be required to divest assets or operations.

In addition, provided that certain procedures are met, Morgan Stanley can be subject to a resolution proceeding under the orderly liquidation authority under Title II of the Dodd-Frank Act with the FDIC being appointed as receiver. The FDIC's power under the orderly liquidation authority to disregard the priority of creditor claims and treat similarly situated creditors differently in certain circumstances, subject to certain limitations, could adversely impact holders of Morgan Stanley's unsecured debt.

Further, because both Morgan Stanley's resolution plan contemplates a single point of entry (SPOE) strategy under the U.S. Bankruptcy Code and the FDIC has proposed an SPOE strategy through which it may apply its orderly liquidation authority powers, Morgan Stanley believes that the application of an SPOE strategy is the reasonably likely outcome if either its resolution plan were implemented or a resolution proceeding were commenced under the orderly liquidation authority. An SPOE strategy generally contemplates the provision of additional capital and liquidity by Morgan Stanley to certain of its subsidiaries so that such subsidiaries have the resources necessary to implement the resolution strategy, and Morgan Stanley has entered into a secured amended and restated support agreement with its material entities, as defined in Morgan Stanley's 2017 resolution plan pursuant to which it would provide such capital and liquidity.

Under the secured amended and restated support agreement, upon the occurrence of a resolution scenario, including one in which an SPOE strategy is used, Morgan Stanley will be obligated to contribute or loan on a subordinated basis all of its contributable material assets, other than shares in subsidiaries of Morgan Stanley and certain intercompany payables, to provide capital and liquidity, as applicable, to its material entities, as defined in Morgan Stanley's 2017 resolution plan. The obligations of Morgan Stanley under the secured amended and restated support agreement are in most cases secured on a senior basis by the assets of Morgan Stanley (other than shares in subsidiaries of Morgan Stanley). As a result, claims of Morgan Stanley's material entities against the assets of Morgan Stanley (other than shares in subsidiaries of Morgan Stanley) will be effectively senior to unsecured obligations of Morgan Stanley. Such unsecured obligations would be at risk of absorbing losses of Morgan Stanley and its subsidiaries. Although an SPOE strategy, whether applied pursuant to Morgan Stanley's resolution plan or in a resolution proceeding under the orderly liquidation authority, is intended to result in better outcomes for creditors overall, there is no guarantee that the

application of an SPOE strategy, including the provision of support to Morgan Stanley's material entities pursuant to the secured amended and restated support agreement, will not result in greater losses for holders of Morgan Stanley's securities compared to a different resolution strategy for the firm.

Regulators have taken and proposed various actions to facilitate an SPOE strategy under the U.S. Bankruptcy Code, the orderly liquidation authority or other resolution regimes. For example, the Federal Reserve has issued a final rule that requires top-tier bank holding companies of U.S. global systemically important banks, including Morgan Stanley, to maintain minimum amounts of equity and eligible long-term debt (**total loss-absorbing capacity** or **TLAC**) in order to ensure that such institutions have enough loss-absorbing resources at the point of failure to be recapitalised through the conversion of debt to equity or otherwise by imposing losses on eligible TLAC where the SPOE strategy is used. The combined implication of the SPOE resolution strategy and the TLAC final rule is that Morgan Stanley's losses will be imposed on the holders of eligible long-term debt and other forms of eligible TLAC issued by Morgan Stanley before any losses are imposed on the holders of the debt securities of Morgan Stanley's operating subsidiaries or before putting U.S. taxpayers at risk.

In addition, certain jurisdictions, including the United Kingdom (**U.K.**) and other European Union (**E.U.**) jurisdictions, have implemented, or are in the process of implementing, changes to resolution regimes to provide resolution authorities with the ability to recapitalise a failing entity organised in such jurisdiction by writing down certain unsecured liabilities or converting certain unsecured liabilities into equity. Such "bail-in" powers are intended to enable the recapitalisation of a failing institution by allocating losses to its shareholders and unsecured creditors. Non-U.S. regulators are also considering requirements that certain subsidiaries of large financial institutions maintain minimum amounts of total loss-absorbing capacity that would pass losses up from the subsidiaries to Morgan Stanley and, ultimately, to security holders of Morgan Stanley in the event of failure.

Morgan Stanley may be prevented from paying dividends or taking other capital actions because of regulatory constraints or revised regulatory capital standards.

Morgan Stanley is subject to comprehensive consolidated supervision, regulation and examination by the Federal Reserve, which requires Morgan Stanley to submit, on an annual basis, a capital plan describing proposed dividend payments to shareholders, proposed repurchases of its outstanding securities and other proposed capital actions that it intends to take. The Federal Reserve may object to, or otherwise require Morgan Stanley to modify, such plan, or may object or require modifications to a resubmitted capital plan, any of which would adversely affect shareholders. In addition, beyond review of the plan, the Federal Reserve may impose other restrictions or conditions on Morgan Stanley that prevent it from paying or increasing dividends, repurchasing securities or taking other capital actions that would benefit shareholders. Finally, the Federal Reserve may change regulatory capital standards to impose higher requirements that restrict Morgan Stanley's ability to take capital actions or may modify or impose other regulatory standards that increase Morgan Stanley's operating expenses and reduce its ability to take capital actions.

The financial services industry faces substantial litigation and is subject to extensive regulatory and law enforcement investigations, and Morgan Stanley may face damage to its reputation and legal liability.

As a global financial services firm, Morgan Stanley faces the risk of investigations and proceedings by governmental and self-regulatory organisations in all countries in which it conducts its business. Investigations and proceedings initiated by these authorities may result in adverse judgments, settlements, fines, penalties, injunctions or other relief. In addition to the monetary consequences, these measures could, for example, impact Morgan Stanley's ability to engage in, or impose limitations on, certain of its businesses. The number of these investigations and proceedings, as well as the amount of penalties and fines sought, has increased substantially in recent years with regard to many firms in the financial services industry, including Morgan Stanley, and certain U.S. and international governmental entities have increasingly brought criminal actions against, or have sought criminal convictions, pleas or deferred prosecution agreements from, financial institutions. Significant regulatory or law enforcement action against Morgan Stanley could materially adversely affect its business, financial condition or results of operations or cause it significant reputational harm, which could seriously harm its business. The Dodd-Frank Act also provides compensation to whistleblowers who present the United States Securities and Exchange Commission (the **SEC**) or the United States Commodity Futures Trading Commission (the **CFTC**) with information related to securities or commodities law violations that leads to a successful enforcement action. As a result of this compensation, it is possible Morgan Stanley could face an increased number of investigations by the SEC or CFTC.

Morgan Stanley has been named, from time to time, as a defendant in various legal actions, including arbitrations, class actions and other litigation, as well as investigations or proceedings brought by regulatory agencies, arising in connection with its activities as a global diversified financial services institution. Certain of the actual or threatened legal or regulatory actions include claims for substantial compensatory and/or punitive damages, claims for indeterminate amounts of damages, or may result in penalties, fines, or other results adverse to Morgan Stanley. In some cases, the issuers that would otherwise be the primary defendants in such cases are bankrupt or are in financial distress. In other cases, including antitrust litigation, Morgan Stanley may be subject to claims for joint and several liability with other defendants for treble damages or other relief related to alleged conspiracies involving other institutions. Like any large corporation, Morgan Stanley is also subject to risk from potential employee misconduct, including non-compliance with policies and improper use or disclosure of confidential information, or improper sales practices or conduct.

Morgan Stanley may be responsible for representations and warranties associated with residential and commercial real estate loans and may incur losses in excess of its reserves.

Morgan Stanley originates loans secured by commercial and residential properties. Further, Morgan Stanley securitises and trades in a wide range of commercial and residential real estate and real estate-related whole loans, mortgages and other real estate and commercial assets and products, including residential and commercial mortgage-backed securities. In connection with these activities, Morgan Stanley has provided, or otherwise agreed to be responsible for, certain representations and warranties. Under certain circumstances, Morgan Stanley may be required to repurchase such assets or make other payments related to such assets if such representations and warranties were breached. Morgan Stanley has also made representations and warranties in connection with its role as an originator of certain commercial mortgage loans that it securitised in commercial mortgage-backed securities.

Morgan Stanley currently has several legal proceedings related to claims for alleged breaches of representations and warranties. If there are decisions adverse to Morgan Stanley in those legal proceedings, it may incur losses substantially in excess of its reserves. In addition, Morgan Stanley's reserves are based, in part, on certain factual and legal assumptions. If those

assumptions are incorrect and need to be revised, Morgan Stanley may need to adjust its reserves substantially.

Morgan Stanley's commodities activities and investments subject it to extensive regulation, and environmental risks and regulation that may expose it to significant costs and liabilities.

In connection with the commodities activities in its Institutional Securities business segment, Morgan Stanley executes transactions involving the storage, transportation and market-making of several commodities, including metals, natural gas, electric power, environmental attributes and other commodity products. In addition, Morgan Stanley is an electricity power marketer in the U.S. and owns a minority interest in Heidmar Holdings LLC, which owns a group of companies that provide international marine transportation and U.S. marine logistics services. These activities subject Morgan Stanley to extensive energy, commodities, environmental, health and safety and other governmental laws and regulations.

Although Morgan Stanley has attempted to mitigate its environmental risks by, among other measures, limiting the scope of activities involving storage and transportation, adopting appropriate policies and procedures, and implementing emergency response programs, these actions may not prove adequate to address every contingency. In addition, insurance covering some of these risks may not be available, and the proceeds, if any, from insurance recovery may not be adequate to cover liabilities with respect to particular incidents. As a result, Morgan Stanley's financial condition, results of operations and cash flows may be adversely affected by these events.

During the past several years, intensified scrutiny of certain energy markets by federal, state and local authorities in the U.S. and abroad and by the public has resulted in increased regulatory and legal enforcement, litigation and remedial proceedings involving companies conducting the activities in which Morgan Stanley is engaged. In addition, enhanced regulation of OTC derivatives markets in the U.S. and the E.U., as well as similar legislation proposed or adopted elsewhere, will impose significant costs and requirements on Morgan Stanley's commodities derivatives activities. Morgan Stanley may incur substantial costs or loss of revenue in complying with current or future laws and regulations and its overall businesses and reputation may be adversely affected by the current legal environment. In addition, failure to comply with these laws and regulations may result in substantial civil and criminal fines and penalties.

A failure to address conflicts of interest appropriately could adversely affect Morgan Stanley's businesses and reputation.

As a global financial services firm that provides products and services to a large and diversified group of clients, including corporations, governments, financial institutions and individuals, Morgan Stanley faces potential conflicts of interest in the normal course of business. For example, potential conflicts can occur when there is a divergence of interests between Morgan Stanley and a client, among clients, between an employee on the one hand and Morgan Stanley or a client on the other, or situations in which Morgan Stanley may be a creditor of a client. Morgan Stanley has policies, procedures and controls that are designed to identify and address potential conflicts of interest, and utilises various measures, such as the use of disclosure, to manage these potential conflicts. However, identifying and mitigating potential conflicts of interest can be complex and challenging and can become the focus of media and regulatory scrutiny. Indeed, actions that merely appear to create a conflict can put Morgan Stanley's reputation at risk even if the likelihood of an actual conflict has been mitigated. It is possible that potential conflicts could give rise to litigation or enforcement actions, which may lead to Morgan Stanley's clients being less willing to enter into

transactions in which a conflict may occur and could adversely affect Morgan Stanley's businesses and reputation.

Morgan Stanley's regulators have the ability to scrutinise its activities for potential conflicts of interest, including through detailed examinations of specific transactions. For example, Morgan Stanley's status as a bank holding company supervised by the Federal Reserve subjects it to direct Federal Reserve scrutiny with respect to transactions between Morgan Stanley's U.S. Bank Subsidiaries and their affiliates. Further, the Volcker Rule subjects Morgan Stanley to regulatory scrutiny regarding certain transactions between Morgan Stanley and its clients.

Uncertainties and ambiguities as to the interpretation and application of the U.S. Tax Cuts and Jobs Act (Tax Act) could adversely affect Morgan Stanley.

The Tax Act, enacted on December 22, 2017, significantly revised U.S. corporate income tax law by, among other things, reducing the corporate income tax rate to 21%, and implementing a modified territorial tax system that includes a one-time transition tax on deemed repatriated earnings of non-U.S. subsidiaries; imposes a minimum tax on global intangible low-taxed income (**GILTI**) and an alternative base erosion and anti-abuse tax (**BEAT**) on U.S. corporations that make deductible payments to non-

U.S. related persons in excess of specified amounts; and broadens the tax base by partially or wholly eliminating tax deductions for certain historically deductible expenses (e.g., FDIC premiums and executive compensation). The enactment of the Tax Act resulted in an aggregate net discrete tax provision of approximately \$1.2 billion for the year ended December 31, 2017.

There are a number of uncertainties and ambiguities as to the interpretation and application of many of the provisions in the Tax Act, including the provisions relating to the modified territorial tax system, the one-time transition tax, GILTI, and the BEAT. In the absence of guidance on these issues, Morgan Stanley uses what it believes are reasonable interpretations and assumptions in applying the Tax Act for purposes of determining its tax balances and results of operations, which may change as Morgan Stanley receives additional clarification and implementation guidance and as the interpretation of the Tax Act evolves over time. Morgan Stanley expects that the U.S. Treasury Department will issue additional guidance on the application of various provisions in the Tax Act. It is possible that such additional guidance or positions taken by the IRS in an audit could differ from the interpretations and assumptions that Morgan Stanley previously made, which could have a material adverse effect on Morgan Stanley's results of operations and financial condition.

Risk Management

Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk.

Morgan Stanley has devoted significant resources to develop its risk management capabilities and expects to continue to do so in the future. Nonetheless, Morgan Stanley's risk management strategies, models and processes, including its use of various risk models for assessing market exposures and hedging strategies, stress testing and other analysis, may not be fully effective in mitigating Morgan Stanley's risk exposure in all market environments or against all types of risk, including risks that are unidentified or unanticipated. As Morgan Stanley's businesses change and grow, and the markets in which Morgan Stanley operates evolve, its risk management strategies, models and processes may not always adapt with those

changes. Some of Morgan Stanley's methods of managing risk are based upon its use of observed historical market behaviour and management's judgment. As a result, these methods may not predict future risk exposures, which could be significantly greater than the historical measures indicate. In addition, many models Morgan Stanley uses are based on assumptions or inputs regarding correlations among prices of various asset classes or other market indicators and therefore cannot anticipate sudden, unanticipated or unidentified market or economic movements, which could cause Morgan Stanley to incur losses.

Management of market, credit, liquidity, operational, legal, regulatory and compliance risks requires, among other things, policies and procedures to record properly and verify a large number of transactions and events, and these policies and procedures may not be fully effective. Morgan Stanley's trading risk management strategies and techniques also seek to balance its ability to profit from trading positions with its exposure to potential losses. While Morgan Stanley employs a broad and diversified set of risk monitoring and risk mitigation techniques, those techniques and the judgments that accompany their application cannot anticipate every economic and financial outcome or the timing of such outcomes. For example, to the extent that Morgan Stanley's trading or investing activities involve less liquid trading markets or are otherwise subject to restrictions on sales or hedging, Morgan Stanley may not be able to reduce its positions and therefore reduce its risk associated with such positions. Morgan Stanley may, therefore, incur losses in the course of its trading or investing activities.

Competitive Environment

Morgan Stanley faces strong competition from other financial services firms which could lead to pricing pressures that could materially adversely affect its revenue and profitability.

The financial services industry and all aspects of Morgan Stanley's businesses are intensely competitive, and Morgan Stanley expects them to remain so. Morgan Stanley competes with commercial banks, brokerage firms, insurance companies, exchanges, electronic trading and clearing platforms, financial data repositories, sponsors of mutual funds, hedge funds, energy companies, financial technology firms and other companies offering financial or ancillary services in the U.S., globally and through the internet. Morgan Stanley competes on the basis of several factors, including transaction execution, capital or access to capital, products and services, innovation, technology, reputation, risk appetite and price. Over time, certain sectors of the financial services industry have become more concentrated, as institutions involved in a broad range of financial services have left businesses, been acquired by or merged into other firms or have declared bankruptcy. Such changes could result in Morgan Stanley's remaining competitors gaining greater capital and other resources, such as the ability to offer a broader range of products and services and geographic diversity, or new competitors may emerge. Morgan Stanley has experienced and may continue to experience pricing pressures as a result of these factors and as some of its competitors seek to obtain market share by reducing prices. In addition, certain of Morgan Stanley's competitors may be subject to different, and, in some cases, less stringent, legal and regulatory regimes, than Morgan Stanley is, thereby putting it at a competitive disadvantage. Some new competitors in the financial technology sector have sought to target existing segments of Morgan Stanley's businesses that could be susceptible to disruption by innovative or less regulated business models.

Automated trading markets may adversely affect Morgan Stanley's business and may increase competition.

Morgan Stanley has experienced intense price competition in some of its businesses in recent years. In particular, the ability to execute securities, derivatives and other financial instrument trades electronically on exchanges, swap execution facilities, and other automated trading

platforms has increased the pressure on bid-offer spreads, commissions, markups or comparable fees. The trend toward direct access to automated, electronic markets will likely continue and will likely increase as additional markets move to more automated trading platforms. Morgan Stanley has experienced and it is likely that it will continue to experience competitive pressures in these and other areas in the future as some of its competitors may seek to obtain market share by reducing bid-offer spreads, commissions, markups or comparable fees.

Morgan Stanley's ability to retain and attract qualified employees is critical to the success of its business and the failure to do so may materially adversely affect its performance.

Morgan Stanley's people are its most important resource and competition for qualified employees is intense. If Morgan Stanley is unable to continue to attract and retain highly qualified employees, or do so at rates or in forms necessary to maintain its competitive position, or if compensation costs required to attract and retain employees become more expensive, Morgan Stanley's performance, including its competitive position, could be materially adversely affected. The financial industry has experienced and may continue to experience more stringent regulation of employee compensation, including limitations relating to incentive-based compensation, clawback requirements and special taxation, which could have an adverse effect on Morgan Stanley's ability to hire or retain the most qualified employees.

International Risk

Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations which could adversely impact its businesses in many ways.

Morgan Stanley is subject to political, economic, legal, tax, operational, franchise and other risks that are inherent in operating in many countries, including risks of possible nationalisation, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability. In many countries, the laws and regulations applicable to the securities and financial services industries are uncertain and evolving, and it may be difficult for Morgan Stanley to determine the exact requirements of local laws in every market. Morgan Stanley's inability to remain in compliance with local laws in a particular market could have a significant and negative effect not only on its business in that market but also on its reputation generally. Morgan Stanley is also subject to the risk that transactions it structures might not be legally enforceable in all cases.

Various emerging market countries have experienced severe political, economic or financial disruptions, including significant devaluations of their currencies, defaults or potential defaults on sovereign debt, capital and currency exchange controls, high rates of inflation and low or negative growth rates in their economies. Crime and corruption, as well as issues of security and personal safety, also exist in certain of these countries. These conditions could adversely impact Morgan Stanley's businesses and increase volatility in financial markets generally.

The emergence of a disease pandemic or other widespread health emergency, or concerns over the possibility of such an emergency as well as natural disasters, terrorist activities or military actions, could create economic and financial disruptions in emerging markets and other areas throughout the world, and could lead to operational difficulties (including travel

limitations) that could impair Morgan Stanley's ability to manage its businesses around the world.

As a U.S. company, Morgan Stanley is required to comply with the economic sanctions and embargo programs administered by the U.S. Treasury's Office of Foreign Assets Control and similar multi-national bodies and governmental agencies worldwide, as well as applicable anti-corruption laws in the jurisdictions in which Morgan Stanley operates, such as the U.S. Foreign Corrupt Practices Act and the United Kingdom Bribery Act. A violation of a sanction, embargo program, or anti-corruption law could subject Morgan Stanley, and individual employees, to a regulatory enforcement action as well as significant civil and criminal penalties.

The U.K.'s anticipated withdrawal from the E.U. could adversely affect Morgan Stanley.

It is difficult to predict the future of the U.K.'s relationship with the E.U., which uncertainty may increase the volatility in the global financial markets in the short and medium-term. On June 23, 2016, the U.K. electorate voted to leave the E.U. On March 29, 2017, the U.K. invoked Article 50 of the Lisbon Treaty, which triggered a two-year period, subject to extension (which would need the unanimous approval of the

E.U. Member States), during which the U.K. government is expected to negotiate its withdrawal agreement with the E.U. Absent any changes to this time schedule, the U.K. is expected to leave the E.U. in March 2019. The terms and conditions of the anticipated withdrawal from the E.U., and which of the several alternative models of relationship that the U.K. might seek to negotiate with the E.U., remain uncertain. However, the U.K. government has stated that the U.K. will leave the E.U. single market and will seek a phased period of implementation for the new relationship that may cover the legal and regulatory framework applicable to financial institutions with significant operations in Europe, such as Morgan Stanley. Since any transition or implementation periods and the eventual successor arrangements require agreement of both the U.K. and the E.U., there is a risk that these arrangements may not be agreed by March 2019. Potential effects of the U.K. exit from the E.U. and potential mitigation actions may vary considerably depending on the timing of withdrawal and the nature of any transition, implementation or successor arrangements. Morgan Stanley is taking steps to make changes to its European operations in an effort to ensure that it can continue to provide cross border banking and investment services in E.U. Member States without the need for separate regulatory authorizations in each member state. These changes must be approved by the relevant regulatory authorities and therefore it is currently unclear what the final post-Brexit structure of Morgan Stanley's European operations will be. Depending on the extent to which Morgan Stanley may be required to make material changes to its European operations beyond those currently planned, its results of operations and business prospects could be negatively affected.

Acquisition, Divestiture and Joint Venture Risk

Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.

In connection with past or future acquisitions, divestitures, joint ventures, minority stakes or strategic alliances (including with Mitsubishi UFJ Financial Group, Inc.), Morgan Stanley faces numerous risks and uncertainties combining, transferring, separating or integrating the relevant businesses and systems, including the need to combine or separate accounting and data processing systems and management controls and to integrate relationships with clients, trading counterparties and business partners. In the case of joint ventures and minority stakes, Morgan Stanley is subject to additional risks and uncertainties because it may be dependent

upon, and subject to liability, losses or reputational damage relating to, systems, controls and personnel that are not under its control.

In addition, conflicts or disagreements between Morgan Stanley and any of its joint venture partners may negatively impact the benefits to be achieved by the relevant joint venture.

There is no assurance that any of Morgan Stanley's acquisitions or divestitures will be successfully integrated or disaggregated or yield all of the positive benefits anticipated. If Morgan Stanley is not able to integrate or disaggregate successfully its past and future acquisitions or dispositions, there is a risk that its results of operations, financial condition and cash flows may be materially and adversely affected.

Certain of Morgan Stanley's business initiatives, including expansions of existing businesses, may bring Morgan Stanley into contact, directly or indirectly, with individuals and entities that are not within its traditional client and counterparty base and may expose it to new asset classes and new markets. These business activities expose Morgan Stanley to new and enhanced risks, greater regulatory scrutiny of these activities, increased credit-related, sovereign and operational risks, and reputational concerns regarding the manner in which these assets are being operated or held.

Risk factors specific to MSBV and MSI plc

All material assets of MSBV are obligations of one or more companies in the Morgan Stanley Group and MSBV's ability to perform its obligations is dependent upon such companies fulfilling their obligations to MSBV.

All material assets of MSBV are obligations of (or securities issued by) one or more Morgan Stanley Group companies. If any of these Morgan Stanley Group companies incurs losses with respect to any of its activities (irrespective of whether those activities relate to MSBV or not) the ability of such company to fulfil its obligations to MSBV could be impaired, thereby exposing holders of securities issued by MSBV to a risk of loss. Should this circumstance materialise, the payment obligations of MSBV under the terms of the securities would be guaranteed by Morgan Stanley.

Risks relating to insolvency proceedings in the Netherlands.

The validity or enforceability of any documents or any legal act (*rechtshandeling*) forming part thereof or contemplated thereby in relation to any securities issued by MSBV are subject to and limited by the protection afforded by Netherlands law to creditors whose interests have been adversely affected pursuant to the rules of Netherlands law relating to (x) unlawful acts (*onrechtmatige daden*) based on Section 6:162 et seq. of the Netherlands Civil Code (*Burgerlijk Wetboek*) and (y) fraudulent conveyance or preference (*actio pauliana*) within the meaning of Section 3:45 of the Netherlands Civil Code (*Burgerlijk Wetboek*). Furthermore, in the event of any insolvency proceedings being opened in the Netherlands in relation to MSBV, Dutch laws in relation to bankruptcy proceedings, in particular Section 42 et seq. of the Netherlands Bankruptcy Act (*Faillissementswet*) in relation to fraudulent conveyance or preference (*actio pauliana*) would apply.

There are substantial inter-relationships between MSI plc and other Morgan Stanley Group companies.

Morgan Stanley is the holding company of a global financial services group. MSI plc is one of the principal operating companies in the Morgan Stanley Group. MSI plc itself provides a wide range of financial and securities services. There are substantial inter-relationships between MSI plc and Morgan Stanley as well as other companies in the Morgan Stanley

Group, including the provision of funding, capital, services and logistical support to or by MSI plc, as well as common or shared business or operational platforms or systems, including employees. As a consequence of such inter-relationships, and of the participation of both MSI plc and other Morgan Stanley Group companies in the global financial services sector, factors which could affect the business and condition of Morgan Stanley or other companies in the Morgan Stanley Group may also affect the business and condition of MSI plc. Any such effect could be direct, for example, where economic or market factors directly affect the markets in which MSI plc and other companies in the Morgan Stanley Group operate, or indirect, for example where any factor affects the ability of other companies in the Morgan Stanley Group to provide services or funding or capital to MSI plc or, directly or indirectly, to place business with MSI plc. Similarly, any development affecting the reputation or standing of Morgan Stanley or other companies in the Morgan Stanley Group may have an indirect effect on MSI plc. Such inter-relationships should therefore be taken into account in any assessment of MSI plc.

No guarantee.

Notes issued by MSI plc will not be guaranteed by Morgan Stanley. Although Morgan Stanley has in the past provided financial support to MSI plc through capital injection and debt financing, there is no assurance that it will do so in the future.

Risk is an inherent part of both Morgan Stanley's and the MSI plc Group's business activity and is managed by the MSI plc Group within the context of the broader Morgan Stanley Group. The Morgan Stanley Group seeks to identify, assess, monitor and manage each of the various types of risk involved in its activities on a global basis, in accordance with defined policies and procedures and in consideration of the individual legal entities. The MSI plc Group's own risk management policies and procedures are consistent with those of the Morgan Stanley Group.

Applicable Resolution Powers

Powers under the Banking Act 2009.

MSI plc, as an investment firm for the purposes of the Banking Act 2009 (the **Banking Act**), is subject to provisions of that Act which give wide powers in respect of U.K. banks and investment firms (such as MSI plc) to HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority (**FCA**) (each a **relevant U.K. Regulatory Authority**) in circumstances where the relevant U.K. bank or investment firm (a "relevant financial institution") is failing or is likely to fail. The Banking Act implements the provisions of Directive 2014/59/EU (the **Bank Recovery and Resolution Directive** or **BRRD**).

These powers include powers to: (a) transfer all or some of the liability in respect of the securities issued by a relevant financial institution, or all or some of the property, rights and liabilities of a relevant financial institution (which could include instruments issued by MSI plc and guarantee liabilities of MSI plc), to a commercial purchaser or, in the case of securities, to HM Treasury or an HM Treasury nominee, or, in the case of property, rights or liabilities, to an entity owned by the Bank of England; (b) override any default provisions in contracts or other agreements, including provisions that would otherwise allow a party to terminate a contract or accelerate the payment of an obligation; (c) commence certain insolvency procedures in relation to a relevant financial institution; and (d) override, vary or impose contractual obligations, for reasonable consideration, between a relevant financial institution and its parent, in order to enable any transferee or successor of the relevant financial institution to operate effectively. The Banking Act also gives power to HM Treasury to make further amendments to the law for the purpose of enabling it to use the special resolution regime powers effectively, potentially with retrospective effect.

By reason of its group relationship with certain other Morgan Stanley Group companies (including companies incorporated outside the U.K.) which are banks, investment firms, EU institutions or third-country institutions for the purposes of the Banking Act, MSI plc is a banking group company within the meaning of the Banking Act. Accordingly, the relevant U.K. Regulatory Authority can exercise substantially similar special resolution powers in respect of MSI plc in its capacity as a banking group company where the Prudential Regulation Authority, an EU resolution authority or third country authority having jurisdiction over the relevant Morgan Stanley Group company is satisfied that such Morgan Stanley Group company meets the relevant conditions for resolution action (including that it is failing or likely to fail, that it is not reasonably likely that other measures would prevent its failure, and that it is in the public interest to exercise those powers) or that it satisfies an equivalent test in the relevant jurisdiction (irrespective of whether at that time MSI plc is failing or likely to fail). Additionally, where a relevant third country Morgan Stanley Group company becomes subject to resolution or similar measures, the relevant U.K. Regulatory Authority may recognise the application of some of those measures to MSI plc (irrespective of whether at that time MSI plc is failing or likely to fail).

Bail-in Power.

The powers granted to the relevant U.K. Regulatory Authority include (but are not limited to) a "bail-in" power.

The "bail-in" power gives the relevant U.K. Regulatory Authority the power, in relation to a failing relevant financial institution or a banking group company in respect of a bank, investment firm, EU institution or third-country institution (whether or not incorporated in the U.K.) which is failing or likely to fail, to cancel all or a portion of certain of its unsecured liabilities and/or to convert certain of its liabilities into another security, including ordinary shares of the surviving entity, if any. Under the Banking Act, such power could be utilised in relation to MSI plc were it to be failing or likely to fail, or were a bank, investment firm, EU institution or third-country institution (whether or not incorporated in the U.K.) in respect of which MSI plc is a banking group company to be failing or likely to fail. Were such power to be utilised in relation to MSI plc, it could be utilised in relation to securities issued by MSI plc or guarantee liabilities of MSI plc.

The Banking Act requires the relevant U.K. Regulatory Authority to apply the "bail-in" power in accordance with a specified preference order which differs from the ordinary insolvency order. In particular, the relevant U.K. Regulatory Authority must write-down or convert debts in the following order: (i) additional tier 1, (ii) tier 2, (iii) other subordinated claims and (iv) eligible senior claims.

Although the exercise of the bail-in power under the Banking Act is subject to certain pre-conditions, there remains uncertainty regarding the specific factors (including, but not limited to, factors outside the control of MSI plc or not directly related to MSI plc) which the relevant U.K. Regulatory Authority would consider in deciding whether to exercise such power with respect to MSI plc and its securities or other liabilities. Moreover, as the relevant U.K. Regulatory Authority may have considerable discretion in relation to how and when it may exercise such power, holders of securities issued or guaranteed by MSI plc may not be able to refer to publicly available criteria in order to anticipate a potential exercise of such power and consequently its potential effect on MSI plc and securities issued or guaranteed by MSI plc.

Other powers.

As well as a "bail-in" power, the powers of the relevant U.K. Regulatory Authority under the Banking Act include broad powers to (i) direct the sale of the relevant financial institution or

the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply, (ii) transfer all or part of the business of the relevant financial institution to a "bridge institution" (an entity created for such purpose that is wholly or partially in public control) and (iii) separate assets by transferring impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only). The Bank of England has broad powers to make one or more share transfer instruments (in the case of a transfer to a private sector purchaser described in (i) or a transfer to a "bridge institution" in the case of (ii)) or one or more property transfer instruments (in all three cases). A transfer pursuant to a share transfer instrument or a property transfer instrument will take effect despite any restriction arising by virtue of contract or legislation or in any other way.

In addition, the Banking Act gives the relevant U.K. Regulatory Authority power to amend the maturity date and/or any interest payment date of debt instruments or other eligible liabilities of the relevant financial institution and/or impose a temporary suspension of payments and/or discontinue the listing and admission to trading of debt instruments.

The Banking Act provides that HM Treasury must, in making regulations about compensation arrangements in the case of the exercise of a bail-in power, have regard to the "no creditor worse off" principle, and HM Treasury has made regulations governing compensation arrangements upon the exercise of a bail-in power. Notwithstanding the foregoing, the exercise by the relevant U.K. Regulatory Authority of any of the above powers under the Banking Act (including especially the bail-in power) could lead to the holders of securities issued or guaranteed by MSI plc losing some or all of their investment. Moreover, trading behaviour in relation to the securities issued or guaranteed by MSI plc, including market prices and volatility, may be affected by the use or any suggestion of the use of these powers and accordingly, in such circumstances, such securities are not necessarily expected to follow the trading behaviour associated with other types of securities. There can be no assurance that the taking of any actions under the Banking Act by the relevant U.K. Regulatory Authority or the manner in which its powers under the Banking Act are exercised will not materially adversely affect the rights of holders of securities issued or guaranteed by MSI plc, the market value of an investment in such securities and/or MSI plc's ability to satisfy its obligations under, or under its guarantee of, such securities.

Extraordinary public financial support to be used only as a last resort.

Subject to certain conditions being met, the BRRD also makes provision for extraordinary public financial support to be provided to an institution subject to resolution in the form of provision of capital to such institution in exchange for common equity tier 1 instruments, additional tier 1 instruments or tier 2 instruments or in the form of taking such institution into temporary public ownership. However, such extraordinary public financial support should only be used as a last resort. Therefore, if MSI plc is subject to resolution, the relevant U.K. Regulatory Authority is only likely (if at all) to provide extraordinary public financial support only after it has assessed and exploited, to the maximum extent practicable, all other applicable resolution tools described above.

2. Risk Factors relating to the Notes

The Issuers may issue Notes with principal and/or interest determined by reference to one or more shares, indices, exchange traded funds (**ETFs**), currency pairs, inflation indices, funds, futures contracts and/or interest rates (each, a **Relevant Underlying**).

Notes linked to one or more shares, indices, exchange traded funds, currencies, inflation indices, funds and/or futures contracts.

Potential investors should be aware that:

- (a) **they may lose all or a substantial portion of their principal or investment, depending on the performance of each Relevant Underlying;**
- (b) the market price of such Notes may be very volatile;
- (c) investors in Notes may receive no interest;
- (d) payment or payment of principal or interest, if applicable, may occur at a different time or in a different currency than expected;
- (e) a Relevant Underlying may be subject to significant fluctuations that may not correlate with changes in shares prices, indices, prices of exchange traded fund interests, currencies, inflation indices, prices of fund interests or settlement prices of futures contracts;
- (f) if a Relevant Underlying is applied to Notes in conjunction with a multiplier greater than one or such Relevant Underlying contains some other leverage factor, the effect of changes in the Relevant Underlying on principal or interest payable on such Notes is likely to be magnified; and
- (g) the timing of changes in a Relevant Underlying may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Underlying, the greater the effect on yield.

The Notes may not be a suitable investment for all investors

An investment in the Notes entails certain risks, which vary depending on the specification and type or structure of the Notes.

Each potential investor should determine whether an investment in the Notes is appropriate in its particular circumstances. An investment in the Notes requires a thorough understanding of the nature of the relevant transaction. Potential investors should be experienced with respect to an investment in the Notes and be aware of the related risks.

An investment in the Notes is only suitable for potential investors who:

- have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Notes and the information contained or incorporated by reference into this document;
- have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Notes will have on their overall investment portfolio;
- understand thoroughly the terms of the Notes and are familiar with the behaviour of the Relevant Underlying and financial markets;
- are capable of bearing the economic risk of an investment in the Notes until the maturity date of the Notes;
- recognise that it may not be possible to dispose of the Notes for a substantial period of time, if at all before the maturity date; and
- are familiar with the behaviour of the Relevant Underlying and relevant financial markets and be able to evaluate (either alone or with the help of a financial and legal adviser) possible

scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in the Notes unless such potential investor has the expertise (either alone or with a financial and legal adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

The Notes are not ordinary debt securities

The terms of certain Notes differ from those of ordinary debt securities because the Notes may not pay interest on maturity, depending on the performance of the Relevant Underlying may return less than the amount invested or nothing, or may return assets or securities of an issuer that is not affiliated with the Issuer, the value of which is less than the amount invested. Prospective investors who consider purchasing the Notes should reach an investment decision only after carefully considering the suitability of the Notes in light of their particular circumstances. **The price of the Notes may fall in value as rapidly as it may rise, and investors in the Notes may potentially lose all of their investment.**

The value of the Notes linked to the Relevant Underlying may be influenced by unpredictable factors

The value of the Notes may be influenced by several factors beyond the Issuer's, and/or its Affiliates' and, where applicable, the Guarantor's control including:

1. ***Valuation of the Relevant Underlying.*** The market price or value of a Note at any time is expected to be affected primarily by changes in the price, level, or value of the Relevant Underlying to which the Notes are linked. It is impossible to predict how the price, level, or value of the Relevant Underlying will vary over time. The historical performance value (if any) of the Relevant Underlying does not indicate the future performance of the Relevant Underlying. Factors which may have an effect on the price, level, or value of the Relevant Underlying include the rate of return of the Relevant Underlying and, where relevant, the financial position and prospects of the issuer of the Relevant Underlying, the market price, level or value of the applicable underlying share, index, ETF, currency pair, inflation index or rate, fund, futures contract or basket of shares, indices, ETFs, currency pairs, inflation indices, funds or futures contracts (or combinations of the foregoing). In addition, the price, level, or value of the Relevant Underlying may depend on a number of inter-related factors, including economic, financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential investors should also note that whilst the value of the Notes is linked to the Relevant Underlying and will be influenced (positively or negatively) by the Relevant Underlying, any change may not be comparable and may be disproportionate. It is possible that while the Relevant Underlying is increasing in value, the value of the Notes may fall. Further, the Terms and Conditions of the Notes will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Notes or any exchanges or price sources are affected by market disruption, adjustment events or circumstances affecting normal activities;
2. ***Volatility.*** The term **volatility** refers to the actual and anticipated frequency and magnitude of changes of the market price, level or value with respect to a Relevant Underlying. Volatility is affected by a number of factors such as macroeconomic factors (i.e. those economic factors which have broad economic effects), speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of a Relevant Underlying will move

up and down over time (sometimes more sharply than at other times) and different Relevant Underlyings will most likely have separate volatilities at any particular time;

3. *Dividend Rates and other Distributions.* The value of certain Equity-Linked Notes, Fund-Linked Notes and certain Futures Contract-Linked Notes could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or other distributions on a Relevant Underlying;
4. *Interest Rates.* Investments in the Notes may involve interest rate risk. The interest rate level may fluctuate on a daily basis and cause the value of the Notes to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. In general, the effects of this risk increase as the market interest rates increase;
5. *Remaining Term.* Generally, the effect of pricing factors over the term of the Notes will decrease as the maturity date approaches. However, this reduction in the effect of pricing factors will not necessarily develop consistently up until the maturity date, but may undergo temporary acceleration and/or deceleration. Even if the price, level or value of the Relevant Underlying rises or falls there may be a reduction or increase, as the case may be, in the value of the Notes due to the other value determining factors. Given that the term of the Notes is limited, investors cannot rely on the price, level or value of the Relevant Underlying or the value of the Notes recovering again prior to maturity;
6. *Creditworthiness.* Any prospective investor who purchases the Notes is relying upon the creditworthiness of the Issuer and/or the Guarantor, if applicable, and has no rights against any other person. If the Issuer and/or the Guarantor, if applicable, becomes insolvent, investors may suffer potential loss of their entire investment irrespective of any favourable development of the other value determining factors, such as a Relevant Underlying; and
7. *Exchange Rates.* Even where payments in respect of the Notes are not expressly linked to a rate or rates of exchange between currencies, the value of the Notes could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Notes is to be made and any currency in which a Relevant Underlying is traded, appreciation or depreciation of any such currencies and any existing or future or governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant currencies which are current rates at the date of issue of the Notes will be representative of the relevant rates of exchange used in computing the value of the Notes at any time thereafter.

Some or all of the above factors will influence the price that investors will receive if an investor sells its Notes prior to maturity which is usually referred to as "secondary market practice". For example, investors may have to sell certain Notes at a substantial discount from the principal amount or investment amount if the market price, level or value of the applicable Relevant Underlying is at, below, or not sufficiently above the initial market price, level or value or if market interest rates rise. The secondary market price of the Notes may be lower than the market value of the issued Notes as at the Issue Date to take into account, amongst other things, amounts paid to distributors and other intermediaries relating to the issue and sale of the Notes and amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, any investor that sells the Notes before the stated expiration or maturity date, may receive an amount in the secondary market which may be less than the then intrinsic market value of the Notes and which may also be less than the amount the investor would have received had the investor held the Notes through to maturity.

Financial Transaction Tax (FTT) Risk

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Slovenia, Slovakia and Spain (the **participating Member States**). In March 2016, Estonia stated its withdrawal from enhanced cooperation so that it will no longer be a participating Member State.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal, FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

If, on or after the Trade Date, due to the implementation of the proposed Financial Transaction Tax or otherwise by the adoption of or any change in any applicable law or regulation (including, without limitation, any law or regulation implementing a system of financial transaction tax in any jurisdiction, including the European Union, relating to any tax payable in respect of the transfer of, or entry into or modification or unwind of, any financial instruments), the Issuer determines that it (directly or through an Affiliate) would incur or has incurred a materially increased amount of tax, transfer tax, duty, stamp duty, stamp duty reserve tax, expense or fee (other than brokerage commissions) in relation to its obligations under the Notes or its related hedge positions (**Additional Tax**), the Issuer may (if the Conditions of the Notes so allow) adjust the Conditions of the Notes to reduce the amount otherwise payable under the Notes to holders of such Notes in order to pass on to the holders of such Notes the full amount of such Additional Tax incurred by the Issuer directly or through such Affiliate.

Credit risk

The obligations of the Issuers under the Notes and of the Guarantor under the Guarantee are unsecured. Noteholders bear the credit risk of the Issuer and/or, if applicable, the Guarantor, that is the risk that the relevant Issuer and/or, if applicable, the Guarantor, is not able to meet its obligations under such Notes, irrespective of whether such Notes are referred to as capital or principal protected or how any principal, interest or other payments under such Notes are to be calculated. Any rating of the relevant Issuer or the Guarantor reflects the independent opinion of the relevant rating agency and is not a guarantee of the credit quality of such Issuer or of the Guarantor.

Notes issued by MSBV will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSBV, MSIP or Morgan Stanley; A Morgan Stanley covenant default or bankruptcy, insolvency or reorganization event does not constitute an Event of Default with respect to MSBV Notes

The notes issued by MSBV will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MBSV, MSIP or Morgan Stanley. In addition, a covenant default by Morgan Stanley as guarantor, or an event of bankruptcy, insolvency or reorganization of Morgan Stanley as guarantor, does not constitute an event of default with respect to any notes issued by MSBV.

In addition, certain considerations regarding the use of the Notes as hedging instruments

Any person intending to use the Notes as a hedge instrument should recognise the "correlation risk" of doing this. Correlation risk is the potential differences in exposure for a potential investor that may arise from the ownership of more than one financial instrument. The Notes may not hedge exactly a Relevant Underlying or portfolio of which a Relevant Underlying forms a part. In addition, it may not be possible to liquidate the Notes at a price which directly reflects the price, level or value of the Relevant Underlying or portfolio of which the Relevant Underlying forms a part. **Potential investors should not rely on the ability to conclude transactions during the term of the Notes to offset or limit the relevant risks. This depends on the market situation and the specific Relevant Underlying conditions. It is possible that such transactions will only be concluded at an unfavourable market price, resulting in a corresponding loss for the Noteholder.**

Effect on the Notes of hedging transactions by the Issuer

The Issuer may use a portion of the total proceeds from the issue of the Notes for transactions to hedge the risks of the Issuer relating to the Notes. In such case, the Issuer or any of its Affiliates may conclude transactions that correspond to the obligations of the Issuer under the Notes. As a rule, such transactions are concluded prior to or on the Issue Date, but it is also possible to conclude such transactions after issue of the Notes. On or before a valuation date, the Issuer or any of its Affiliates may take the steps necessary for closing out any hedging transactions. It cannot, however, be ruled out that the price, level or value of a Relevant Underlying will be influenced by such transactions. Entering into or closing out these hedging transactions may influence the probability of occurrence or non-occurrence of determining events in the case of Notes with a value based on the occurrence of a certain event in relation to a Relevant Underlying.

Notes linked to a single emerging market share, a single emerging market index, or a single emerging market ETF or one more emerging market funds, or a basket of shares or a basket of indices composed, in part or in whole, of emerging market shares or a basket of ETFs composed, in part or in whole, of emerging market funds or ETFs or futures contracts linked to any of the foregoing.

Fluctuations in the trading prices of the underlying emerging market share will affect the value of Equity-Linked Notes, Fund-Linked Notes or Futures Contract-Linked Notes where the underlying asset is such a share. Changes may result over time from the interaction of many factors directly or indirectly affecting economic and political conditions in the related countries or member nations, including economic and political developments in other countries. Of particular importance to potential risks are (i) rates of inflation; (ii) interest rate levels; (iii) balance of payments; and (iv) the extent of governmental surpluses or deficits in the relevant country. All of these factors are, in turn, sensitive to the monetary, fiscal and trade policies pursued by the related countries, the governments of the related countries and member nations (if any), and other countries important to international trade and finance. Government intervention could materially and adversely affect the value of such Notes.

Governments use a variety of techniques, such as intervention by their central bank or imposition of regulatory controls or taxes to affect the trading of the underlying equity. Thus, a special risk in purchasing such Notes is that their trading value and amount payable at maturity could be affected by the actions of governments, fluctuations in response to other market forces and the movement of currencies across borders. Emerging markets stocks may be more volatile than the stocks in more developed markets.

Emerging markets currencies

Where the Notes are denominated in an emerging market currency, such emerging market currency can be significantly more volatile than currencies of more developed markets. Emerging markets currencies are highly exposed to the risk of a currency crisis happening in the future and this could trigger the need for the determination agent (MSIP or an affiliate) to make adjustments to the terms and conditions of the Notes.

Effect of the liquidity of the Relevant Underlying on Note pricing

An Issuer's and/or its Affiliates' hedging costs tend to be higher the less liquidity the Relevant Underlying has or the greater the difference between the "buy" and "sell" prices for the Relevant Underlying or derivatives contracts referenced to the Relevant Underlying. When quoting prices for the Notes, the Issuer and/or its Affiliates will factor in such hedging costs and will pass them on to the Noteholders by incorporating them into the "buy" and "sell" prices. Thus, Noteholders selling their Notes on an exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Notes at the time of sale.

No affiliation with underlying companies

The underlying issuer for any single share or basket share, ETF, fund, or any Fund Advisor or the publisher of an index or of a futures contract will not be an Affiliate of Morgan Stanley, MSIP or MSBV. Morgan Stanley or its subsidiaries may presently or from time to time engage in business with any underlying company, ETF or fund including entering into loans with, or making equity investments in, the underlying company, ETF, fund, or its affiliates or subsidiaries or providing investment advisory services to the underlying company or ETF, including merger and acquisition advisory services. Moreover, no Issuer has the ability to control or predict the actions of the underlying company, ETF, fund or index publisher or futures contract publisher, including any actions, or reconstitution of index components, of the type that would require the determination agent to adjust the payout to the investor at maturity. No underlying company, ETF, fund, Fund Advisor, index publisher or futures contract publisher for any issuance of Notes is involved in the offering of the Notes in any way or has any obligation to consider the investor's interest as an owner of the Notes in taking any corporate actions that might affect the value of the Notes. None of the money an investor pays for the Notes will go to the underlying company, ETF, fund or Fund Advisor for such Notes.

Fluctuations in the value of any one component of the Relevant Underlying may, where applicable, be offset or intensified by fluctuations in the value of other components. The historical value (if any) of the Relevant Underlying or the components of the Relevant Underlying does not indicate their future performance. Where the value of the components of the Relevant Underlying is determined in a different currency to the value of the Relevant Underlying, investors may be exposed to exchange rate risk.

Exchange rates and exchange controls may affect the value or return of the Notes

General Exchange Rate and Exchange Control Risks. An investment in a Note denominated in, or the payment of which is linked to value for a Relevant Underlying denominated in currencies other than the investor's home currency entails significant risks. These risks include the possibility of significant changes in rates of exchange between its home currency

and the other relevant currencies and the possibility of the imposition or modification of exchange controls by the relevant governmental authorities. These risks generally depend on economic and political events over which the Issuers have no control. Investors should consult their financial and legal advisors as to any specific risks entailed by an investment in Notes that are denominated or payable in, or the payment of which is linked to values for a Relevant Underlying denominated in a currency other than the currency of the country in which such investor resides or in which such investor conducts its business, which is referred to as their home currency. Such Notes are not appropriate investments for investors who are not sophisticated in foreign currency transactions.

Exchange Rates May Affect the Investor's Investment. In recent years, rates of exchange between some currencies have been highly volatile and this volatility may continue in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Note. Depreciation against the investor's home currency or the currency in which a Note is payable would result in a decrease in the effective yield of the Note (in the case of a Note) below its coupon rate and could result in an overall loss to an investor on the basis of the investor's home currency. In addition, depending on the specific terms of a Currency-Linked Note, changes in exchange rates relating to any of the relevant currencies could result in a decrease in its effective yield and in the investor's loss of all or a substantial portion of the value of that Note.

The Issuers Have No Control Over Exchange Rates. Currency exchange rates can either float or be fixed. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes, or changes in interest rate to influence the exchange rates of their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and currency fluctuations that would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

As a consequence, these government actions could adversely affect yields or payouts (i) in the investor's home currency for Notes denominated or payable in currencies other than the investor's home currency and (ii) for Currency Linked Notes.

The Issuers will not make any adjustment or change in the terms of the Notes in the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting any currency. The investor will bear those risks.

Some Currencies May Become Unavailable. Governments have imposed from time to time, and may in the future impose, exchange controls that could also affect the availability of a Specified Currency (as defined herein). Even if there are no actual exchange controls, it is possible that the applicable currency for any security would not be available when payments on that security are due.

Currency Exchange Information may be provided in the Final Terms

The applicable Final Terms or base prospectus supplement, where relevant, may include information with respect to any relevant exchange controls and any relevant historic exchange rate information for any Note. The investor should not assume that any historic information concerning currency exchange rates will be representative of the range of, or trends in, fluctuations in currency exchange rates that may occur in the future.

Secondary trading of the Notes may be limited

Potential investors should be willing to hold the Notes until maturity. The nature and extent of any secondary market in the Notes cannot be predicted and there may be little or no secondary market in the Notes. As a consequence any person intending to hold the Notes should consider liquidity in the Notes as a risk. Where the Notes are admitted to listing, trading and/or quoted by or on any listing authority, exchange or quotation system, this does not imply greater or lesser liquidity than if equivalent Notes were not so listed, traded or quoted and the Issuer cannot guarantee that the admission to listing, trading or quotation will be permanently maintained. Where the Notes are not admitted to listing, trading and/or quotation, it becomes more difficult to subscribe or purchase and sell such Notes and there may also be a lack of transparency with regard to pricing information.

Further, although an Issuer may apply to have certain issuances of Notes admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system, approval for any listing is subject to meeting the relevant listing requirements. Even if there is a secondary market, it may not provide enough liquidity to allow the investor to sell or trade the Notes easily. MSIP and other Affiliates of Morgan Stanley may from time to time, make a market in the Notes, but they are not required to do so. If at any time MSIP and other Affiliates of the Issuers were to cease making a market in the Notes, it is likely that there would be little or no secondary market for the Notes.

Investors have no shareholder rights

As an owner of Notes, investors will not have voting rights or rights to receive dividends, interest or other distributions, as applicable, or any other rights with respect to any underlying share, ETF, index, fund or futures contract.

Exchange rates may affect the value of a judgment

The Notes shall be governed by French law. French courts may, if requested, render a judgment in the foreign currency in which a debt is expressed. However, if a judgment awarded by a French court were to be expressed in euros, it would normally be expressed by reference to the exchange value of the relevant amount of the said foreign currency at the rate of exchange prevailing on the effective date of payment or on the date of the judgment.

Potential conflicts of interest between the investor and the determination agent

As determination agent for Notes linked to one or more shares, indices, ETFs, funds and/or futures contracts, MSIP (who can also act as Issuer) or an Affiliate will determine the payout to the investor at maturity. MSIP and other Affiliates may also carry out hedging activities related to any Notes linked to one or more shares, indices, ETFs, funds and/or futures contracts, including trading in the underlying shares, indices, ETFs, funds and/or futures contracts, as well as in other instruments related to the underlying shares, indices, ETFs, funds and/or futures contracts. MSIP and some of Morgan Stanley's other subsidiaries may also trade the applicable underlying shares, indices, ETFs, funds and/or futures contracts and other financial instruments related to the underlying shares, indices, ETFs, funds and/or futures contracts on a regular basis as part of their general broker-dealer and other businesses. Any of these activities could influence the Determination Agent's determination of adjustments made to any Notes linked to one or more shares, indices, ETFs, funds and/or futures contracts and any such trading activity could potentially affect the price, level or value of the underlying shares, indices, ETFs, funds and/or futures contracts and, accordingly, could affect the investor's payout on any Notes.

Actions taken by the Determination Agent may affect the Relevant Underlying

The Determination Agent may make such adjustments as it considers appropriate as a consequence of certain corporate actions affecting the Relevant Underlying. In making these

adjustments the Determination Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest, including the conflicts of interest highlighted above, in exercising this discretion. The Determination Agent is not required but has the discretion to make adjustments with respect to each and every corporate action.

Modification and waiver

The Terms and Conditions of the Notes contain provisions for the representation of Noteholders to consider matters affecting their interests generally. Noteholders may through collective decision deliberate on any proposal relating to the modification of the Conditions including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions. These provisions permit defined majorities to bind all holders of the relevant Notes, including holders who did not attend or were not represented at the relevant meeting and holders who voted in a manner contrary to the majority.

No gross-up

If a withholding or deduction for or on account of tax is required by law to be made on payments by one of the Issuers or the Guarantor under the Notes, unless otherwise provided in the applicable Final Terms, neither the Issuers nor the Guarantor will be required to make any additional payments on account of any such withholding or deduction.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments such as the Notes. Potential investors are advised not to rely upon the “*Taxation*” section contained in this Base Prospectus but to ask for their own tax adviser’s advice on their individual taxation with respect to the acquisition, holding, disposal and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor. See the “*Taxation*” section below.

Payments on certain Notes may be subject to U.S. withholding tax

Payments on a Note issued by Morgan Stanley may be subject to U.S. withholding tax of 30 per cent. if the beneficial owner of the Note does not meet the criteria for being exempt from this withholding tax including the requirement that the beneficial owner (and any financial institution holding the Note on behalf of the beneficial owner) comply with certain U.S. tax identification and certification requirements, generally by furnishing the appropriate Internal Revenue Service (**IRS**) Form W-8BEN or W-8BEN-E on which the beneficial owner certifies under penalties of perjury that it is not a United States person, as defined in the U.S. Internal Revenue Code of 1986, as amended (the **Code**).

As discussed in “Taxation - United States Federal Taxation” below, Sections 1471 through 1474 of the Code and any regulations thereunder or official guidance in connection therewith, an agreement entered into with the IRS pursuant to such sections of the Code, or an intergovernmental agreement (an **IGA**) between the United States and another jurisdiction in furtherance of such sections of the Code (collectively referred to as **FATCA**) may impose a withholding tax of 30 per cent. on payments made on the Notes (including payments made by financial intermediaries), unless various U.S. information reporting and due diligence requirements have been satisfied.

In addition, as discussed in “*Taxation – United States Federal Taxation*” below, Section 871(m) of the Code and the regulations thereunder require withholding (of up to 30 per cent. depending on whether an income tax treaty applies) on payments or deemed payments made

to non-U.S. persons on certain financial instruments to the extent that such payments are treated, for U.S. federal income tax purposes, as being U.S.-source dividend equivalent amounts.

If U.S. withholding tax is imposed because a beneficial owner (or financial institution holding a Note on behalf of a beneficial owner) does not timely provide the required U.S. tax forms or meet the criteria for exemption from such U.S. withholding tax or if withholding is imposed under FATCA or Section 871(m), none of the Issuers, the Guarantor or any intermediary will be required to pay any additional amounts or otherwise indemnify a holder with respect to the amounts so withheld. See "*Taxation - United States Federal Taxation*" below for further discussion of these rules.

Change of law

The Terms and Conditions of the Notes are based on French law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any change to French law after the date of this Base Prospectus.

The Issuer or the Guarantor, as the case may be, may be substituted by another entity

The Terms and Conditions of the Notes set out that the Issuer can, without the consent of Noteholders and without taking into consideration the interest of Noteholders, agree to be substituted by another as principal debtor of the Notes, subject to the conditions set out in Condition 29. The substitution can, in particular, but without limitation, be conditional to the fact that Morgan Stanley or MSI plc, as the case may be, guarantee the obligations of the substitute issuer under the Notes or that the Issuer or the Guarantor can, in certain cases, be substituted by other entities outside Morgan Stanley Group, Noteholders having, in such case, the right to request the early redemption of their Notes in certain timing. In addition, the substitute shall receive all necessary regulatory authorizations in order to comply with its commitments under the Notes or to the Guarantee (as applicable) and this substitution shall be permitted by any regulated market on which one the Notes are, as the case may be, admitted to trading and potential requirements applicable to this regulated market shall be complied with so that the Notes remain admitted to trading on this regulated market. For further explanations, please refer to Condition 29.

Restricted secondary trading if the electronic trading system is unavailable

Trading in the Notes may be conducted via one or more electronic trading systems so that "buy" and "sell" prices can be quoted for exchange and off-exchange trading. If an electronic trading system used by the Issuer and/or its Affiliates were to become partially or completely unavailable, such a development would have a corresponding effect on the ability of investors to trade the Notes.

Risk associated with estimating the price, level or value of the Relevant Underlying if its domestic market is closed while secondary trading in the Notes is open

If the Relevant Underlying is traded on its domestic market during the opening hours for secondary trading in the Notes by the Issuer or its Affiliates or the stock exchange on which the Notes are listed, the price, level or value of the Relevant Underlying is incorporated into the price calculation for the Notes. In certain cases, however, the price, level or value of the Relevant Underlying may need to be estimated if the Notes are traded at a time when the market for the Relevant Underlying is closed. In general, this problem could apply to the Notes irrespective of the time at which they are traded because the Issuer and/or its Affiliates currently offer off-exchange trading in the Notes at times when the Relevant Underlying is not traded on the local markets or stock exchanges. This problem applies in particular to a Relevant Underlying that is traded in time zones different from European time zones. The same problem arises if the Notes are traded on days on which the domestic market for the

Relevant Underlying is closed because of a public holiday. If the Issuer and/or any of its Affiliates estimates the price, level or value of the Relevant Underlying when the domestic market is closed, its estimate may prove to be accurate, too high or too low within just a few hours of the domestic market re-opening for trade in the Relevant Underlying. Correspondingly, the prices used by the Issuer and/or any of its Affiliates for the Notes prior to the opening of business on the domestic market may subsequently prove to be too high or too low.

Provision of information

None of the Issuers, the Guarantor or any of their respective Affiliates make any representation as to the issuer of any share, ETF, fund or any Fund Service Provider, or the publisher of an underlying index, or the sponsor of any futures contract which is, or is comprised in, the Relevant Underlying or the publisher of an index, which is, or is comprised in, the Relevant Underlying. Any of such persons may have acquired, or during the term of the Notes may acquire, non-public information with respect to any such issuer, or publisher, their respective affiliates or any guarantors that is or may be material in the context of the Notes. The issue of Notes will not create any obligation on the part of any such persons to disclose to the Noteholders or any other party any such information (whether or not confidential).

Independent review and advice

Each prospective investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is (i) fully consistent with its (or if it is acquiring the Notes in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Notes in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. **Each of the Issuer, the Guarantor (if applicable) and the Distribution Agent disclaims any responsibility to advise prospective investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Notes.**

Selling Agent remuneration

Each Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by such Issuer (each a **Selling Agent**). Each Selling Agent will agree, subject to the satisfaction of certain conditions, to subscribe for the Notes at a price equivalent to or below the Issue Price. Any difference between the price at which the Selling Agent subscribes the Notes and the price at which the Selling Agent sells the Notes to investors will be a remuneration of the Selling Agent. In addition, a periodic fee may also be payable to the Selling Agents in respect of all outstanding Notes up to and including the maturity date at a rate determined by the Issuer and which may vary from time to time. Any remuneration received by the Selling Agent including any periodic payments may also increase the purchase price to be paid by the investor. Each Selling Agent will agree to comply with the selling restrictions set out in the document as amended and supplemented by the additional selling restrictions set out in the relevant distribution agreements.

Subscription periods

The Issuer has the right to close the offering of the Notes prior to the end of the subscription period in case of adverse market conditions, as determined by the Issuer in its reasonable discretion, including but not limited to increased equity market volatility and increased currency exchange rate volatility.

Issuer's credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Issuer and/or the Guarantor (if applicable). The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold Notes and may be revised or withdrawn by the rating agency at any time.

Ratings of the Notes

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009, as amended (the **CRA Regulation**) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings referred to in this Prospectus and/or the Final Terms, is set out in the Summary of this Prospectus and will be disclosed in the Final Terms.

Representations and acknowledgments by Noteholders

Each Noteholder shall be deemed to represent and acknowledge to the relevant Issuer and, if applicable, the Guarantor on acquiring any Note that:

(a) none of the Issuer, (if applicable) the Guarantor or and/or any Affiliate nor any of their agents is acting as a fiduciary for it or provides investment, tax, accounting, legal or other advice in respect of the Notes and that such Noteholder and its advisors are not relying on any communication (written or oral and including, without limitation, opinions of third party advisors) of the Issuer, (if applicable) the Guarantor, or any Affiliate as (a) legal, regulatory, tax, business, investment, financial, accounting or other advice, (b) a recommendation to invest in any Notes or (c) an assurance or guarantee as to the expected results of an investment in the Notes (it being understood that information and explanations related to the terms and conditions of the Notes shall not be considered to be any such advice, recommendation, assurance or guarantee and should be independently confirmed by the recipient and its advisors prior to making any such investment);

(b) such Noteholder (a) has consulted with its own legal, regulatory, tax, business, investments, financial and accounting advisors to the extent that it has deemed necessary, and has made its own investment, hedging, and trading decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer, (if applicable) the Guarantor, or any Affiliate or any of their respective agents and (b) is acquiring the Notes with a full understanding of the terms, conditions and risks thereof and it is capable of and willing to assume those risks; and

(c) the Issuer, (if applicable) the Guarantor, and/or any Affiliates may have banking or other commercial relationships with issuers of any securities to which the Notes relate and may engage in proprietary trading in any equity securities, indices, fund interests or other Relevant

Underlying to which the Notes relate or options, futures, derivatives or other instruments relating thereto (including such trading as the Issuer,(if applicable) the Guarantor, and/or any Affiliate deem appropriate in their sole discretion to hedge the market risk on the Notes and other transactions between the Issuer,(if applicable) the Guarantor, and/or any Affiliates and any third parties), and that such trading (a) may affect the price or level thereof and consequently the amounts payable under the Notes and (b) may be effected at any time, including on or near any Valuation Date, Observation Date, Interest Determination Date, Determination Date or Averaging Date.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Disclosure

Neither the issuer of any share, ETF or other fund, which is, or is comprised in, the Relevant Underlying nor any Fund Service Provider nor the publisher of an index nor the sponsor of any futures contract, which is, or is comprised in, the Relevant Underlying has participated in the preparation of this document or in establishing the Terms and Conditions of the Notes and neither the Issuers nor any of their Affiliates will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer, ETF, other fund, Fund Service Provider, publisher or sponsor contained in this document or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the issue date (including events that would affect the accuracy or completeness of any publicly available information described in this document) that would affect the trading price, level and/or value of the Relevant Underlying will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer, ETF, other Fund Service Provider, publisher or sponsor could affect the trading price, level and/or value of the Relevant Underlying and therefore the trading price of the Notes.

Notes linked to the performance of funds

The Issuers may issue Notes where the redemption amount or, if applicable, the interest amount in relation to Fund-Linked Notes or the return, in relation to Fund Securities (together with the Fund-Linked Notes, **Fund-Linked Notes**) is linked to the performance of a unit, share or other interest in a fund (each a **Fund Interest Unit**) or a basket of Fund Interest Units. Such funds may include mutual funds or any other types of fund in any jurisdiction, or any combination of the foregoing. Investments offering direct or indirect exposure to the performance of funds are generally considered to be particularly risky and may bear similar risks, including but not limited to, market risks to a direct investment in funds.

Prospective investors should note that payments on redemption or termination of Fund-Linked Notes at maturity, expiration, early redemption or early termination may be postponed, in accordance with the Conditions, up to a specified long stop date and if the specified long stop date is reached, for the purposes of determining the Redemption Amount or any other such redemption amounts, as applicable, the affected fund interest units or shares may be deemed to have a zero value. Prospective investors should also be aware that if one or more events occurs in relation to the Fund or any Fund Service Provider, including insolvency of the Fund or Fund Service Provider, then the Issuer, may in its reasonable discretion, determine whether the Fund-Linked Notes will continue or whether they will be redeemed or

terminated early. If the Issuer determines that the Fund-Linked Notes will continue, this may result in the substitution of the affected Fund Interest Unit with other Fund Interest Units with similar characteristics or adjustments to the Conditions of the Notes to account for the occurrence of the relevant event. These actions may have an adverse effect on the return and risk profile of the relevant Fund- Linked Notes, and consequently, the value of such Fund-Linked Notes and if the Fund-Linked Notes are redeemed or terminated early the amount investors receive may be considerably less than their original investment and may even be zero.

The risks associated with investing in Fund-Linked Notes are similar to the risks attached to a direct investment in the underlying fund or funds. There are substantial risks in directly or indirectly investing in funds including, without limitation, the risks set out below. Prospective investors should note that references to funds below can refer both to the funds referenced in any Fund-Linked Notes and also to any funds in which any of those funds invests its assets from time to time.

Investment risks that prospective investors should be aware of include the following:

- (1) Different types of funds are subject to differing levels of regulatory supervision.
- (2) Funds may have varying restrictions on leverage. Leverage presents the potential for a higher rate of return but also increases the volatility of the fund and increases the risk of a total loss of the amount invested.
- (3) Funds may have differing investment restrictions and some funds may invest in assets which are illiquid or difficult to transfer. This may have an effect on the realisation of such assets and in turn, the value and performance of the fund. In addition, a fund's assets or investments may be concentrated in a few markets, countries, industries, commodities, sectors of an economy or issuers. If so, adverse movements in a particular market, country, industry, commodity, economy or industry or in the value of the securities of a particular issuer could have a severely negative effect on the value of such a fund. In addition, a fund may use a single advisor or employ a single strategy, which could mean a lack of diversification and higher risk.
- (4) Substantial redemptions by holders of Fund Interest Units in a fund within a short period of time could require the fund's investment manager(s) and/or adviser(s) to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the fund's assets.
- (5) The performance of a fund will be heavily dependent on the performance of investments selected by its advisers or investment managers and the skill and expertise of such fund service providers in making successful and profitable investment decisions. Such skill and expertise may be concentrated in a number of the adviser's or investment manager's key personnel. Should these key personnel leave or become no longer associated with the fund's adviser or investment manager, the value or profitability of the fund's investments may be adversely affected as a result.

Notes linked to the performance of futures contracts

The Issuers may issue Notes where the redemption amount or, if applicable, the interest amount (**Futures Contract-Linked Notes**) is linked to the performance of a futures contract (a **Futures Contract**) or a basket of Futures Contracts. Such Futures Contracts may include dividend futures contracts or other types of futures contracts.

The risks associated with investing in Future Linked Notes are similar to the risks attached to a direct investment in the relevant future contract(s). There are substantial risks in directly or indirectly investing in futures contracts including, without limitation, the risks set out below.

Investment risks that prospective investors should be aware of include the following:

- (1) The value of the future contract(s) underlying the Notes may vary over time and may increase or decrease by reference to a variety of factors which include the factors affecting the Future Underlier, as defined in the applicable Final Terms.
- (2) Futures contracts generally have a predetermined Expiry Date as defined in the Conditions for Futures Contracts- Linked Notes. If the applicable Final Terms specify that Roll Adjustment applies, the return on the Notes will be determined, among other things, by reference to futures contracts that have an Expiry Date that does not correspond to the term of the Notes. Consequently, the Determination Agent will “roll” the relevant Future Contracts (the **Roll Adjustment**) which means that the future contracts that is the closest to expiration (the **Active Future Contract**) will be replaced before it expires by a future contract that has an Expiry Date later in the future (the **Next Active Future Contract**). On each Roll Date, the price of the Active Future Contract may be lower than (respectively higher than) the price of the Next Active Future Contract if the future curve is in contango (respectively in backwardation). The Roll Adjustment may as a consequence have either a positive or negative impact on the value of the Note. This may result in a partial or total loss of the investment in the Notes. In addition to the effects of contango and backwardation, each “roll” may generate costs that will be taken by the Determination Agent. These costs correspond to the expenses incurred in replacing the futures contract (transaction costs) and may have an adverse effect on the return of the Notes. Prospective purchasers of Notes should be aware that in respect of Notes on futures contract that are rolled, the potential negative impact on the value of the note induced by the roll may lead to a performance of the Notes lower than the performance that would have been generated by Notes on the Future Underlier itself. Hence, Notes on future contracts that are rolled may not be suitable for investors who intend to invest long term.

Additional considerations for Notes linked to the performance of dividend futures contracts

Prospective investors in Futures Contract-Linked Notes which reference one or more dividend futures contracts should be familiar with investments in global capital markets and with equity index dividends derivatives generally. The value of a dividend futures contract will generally track the dividends paid by the companies (each a **Constituent Company**) comprised in the equity index (the **Underlying Index**) relating to the relevant dividend futures contract from time to time during a specified period. Investors should understand that global economic, financial and political developments, among other things, may have a material effect on the performance of such Constituent Companies and therefore on the value of the dividends paid by such Constituent Companies and the value of the relevant dividend futures contract. Before purchasing Notes relating to dividend futures contracts, prospective investors should carefully consider, among other matters, the value and price volatility of dividend futures contracts and the performance of the Constituent Companies comprised in the Underlying Index by reference to which amounts payable under the relevant Notes are calculated.

Notes relating to dividend futures contracts will give rise to obligations of the Issuer and will not give rise to any obligations under the relevant dividend futures contract or any obligations of any Constituent Company. No offer is made by the sponsor of the relevant dividend futures contract or any Constituent Company. No sponsor of the relevant dividend futures contract

will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Notes.

Not all types of dividends paid by a Constituent Company may be relevant for the purpose of determining the price of a dividend futures contract (for example, in general, ordinary dividends declared by a Constituent Company (paid in cash or shares) are considered as realised dividends, which, if so provided in the contract specifications for the relevant dividend futures contract, are relevant for the purpose of determining the price of dividend futures contracts, whereas special or extraordinary dividends are not generally considered as realised dividends and therefore, if so provided in the contract specifications for the relevant dividend futures contract will not be relevant for the purpose of determining the price of such dividend futures contract). Further, the Constituent Companies may change from time to time in accordance with the rules of the Underlying Index and such a change in Constituent Companies may have an adverse effect on the price of the dividend futures contract and amounts payable in respect of the Notes. Prospective investors should refer to the contract specifications for the dividend futures contract and the index rules relating to the Underlying Index for details regarding the calculation methodologies (including which dividends will be included in the calculation of the dividend futures contract) and adjustments which may be made thereto (including to the Constituent Companies to be included in the Underlying Index). Prospective investors should note that the performance of similar dividend futures contracts in respect of prior contract periods will not necessarily be indicative of the performance of the relevant dividend futures contract to which the Notes relate.

The market value of the Notes may, at any time, be affected by certain factors relating to dividend futures contracts which may include, but are not limited to, the possibility of significant changes in:

- (1) the Constituent Companies comprised in the Underlying Index and expectations relating to the dividends to be announced in relation thereto;
- (2) market interest and yield rates;
- (3) the time remaining to the final settlement date of the relevant dividend futures contract; and
- (4) economic, political and macro-economic factors.

Prospective investors should understand that the value of the dividends paid by the Constituent Companies may be influenced by many factors, including the earnings and dividend policy of each such Constituent Company, changes in applicable laws and regulations, global economic, financial and political developments and structural supply and demand factors. Constituent Companies may pay reduced dividends or no dividends in respect of the relevant contract period. The amount of dividends paid by Constituent Companies in respect of similar periods may bear no relation to dividends paid during the relevant contract period. Any such changes may have an adverse effect on the amount of relevant dividends paid by Constituent Companies and, in turn, the price of the relevant dividend futures contract and amounts payable in respect of the Notes.

Reform of LIBOR and EURIBOR and other interest rate index and equity and foreign exchange rate index “Benchmarks”

The London Interbank Offered Rate (**LIBOR**), the Euro Interbank Offered Rate (**EURIBOR**) and other indices which are deemed “benchmarks” are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms

are already effective while others are still to be implemented. These reforms may cause such “benchmarks” to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any securities linked to a “benchmark.”

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of “benchmarks” could increase the costs and risks of administering or otherwise participating in the setting of a “benchmark” and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain “benchmarks,” trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the disappearance of certain “benchmarks.” The disappearance of a “benchmark” or changes in the manner of administration of a “benchmark” could have materially adverse consequences in relation to securities linked to such “benchmark.” Under certain of the Reference Rates described herein, the final alternative method sets the Rate of Interest for an Interest Period at the same rate as the immediately preceding Interest Period. Any such consequence could have a material adverse effect on the value of and return on any such securities.

The Benchmarks Regulation may adversely affect the value of Notes linked to or referencing “benchmarks”

On 17 May 2016, the Council of the European Union adopted the EU Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as “benchmarks” in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the **Benchmarks Regulation**), which was published in the Official Journal on 29 June 2016 and entered into force on 30 June 2016. Subject to various transitional provisions, the Benchmarks Regulation will apply from 1 January 2018.

The Benchmarks Regulation will apply to “contributors,” “administrators” and “users of” “benchmarks” in the EU, and will, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of “benchmarks” and (ii) ban the use of “benchmarks” of unauthorised administrators. The scope of the Benchmarks Regulation is wide and, in addition to indices such as LIBOR and EURIBOR, it could also potentially apply to many other interest rate indices, as well as equity and foreign exchange rate indices and other indices (including “proprietary” indices or strategies) which are referenced in listed financial instruments (including listed securities), financial contracts and investment funds. The Benchmarks Regulation could also have a material impact on any listed securities linked to a “benchmark” index.

Administrator/Benchmark Events

Where the Relevant Underlying or otherwise any rate by reference to which interest is payable under the Notes is an index, benchmark, rate or price source, the administrator or sponsor may be required to be authorised, registered, recognised, endorsed or otherwise included in an official register in order for the Issuer, the Determination Agent or the Calculation Agent to be permitted to use the Relevant Benchmark and perform their respective obligations under the Notes. In the case where the Relevant Underlying or the rate by reference to which interest is payable under the Notes is a “Relevant Benchmark” and the Determination Agent determines that any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register of the

Relevant Benchmark or its administrator or sponsor has not been obtained with the effect that any of the Issuer, the Determination Agent or Calculation Agent is not or will not be permitted to use the Relevant Benchmark in respect of the Notes, an “Administrator/ Benchmark Event” will occur. In such a case the Determination Agent will apply certain fallbacks. These may include one or more of replacing the Relevant Benchmark with any “Alternative Pre-nominated Index” (in the case of a Relevant Underlying) or any “Alternative Pre-nominated Reference Rate” (otherwise in the case of a rate by reference to which interest is payable under the Notes) which has been specified in the applicable Final Terms, making adjustments to the amounts payable by the Issuer under the Notes, adjusting the other terms and conditions of the Notes or redeeming the Notes. The application of any of these fallbacks may adversely affect the value of the Noteholder’s investment in the Notes.

Prospective investors should review the Conditions to ascertain whether and how such provisions apply to the Notes and what constitutes an Administrator/ Benchmark Event. See also “*Risk Factors—LIBOR, EURIBOR and Benchmark rates discontinuance or prohibition on use may lead to adjustments to the terms of the Notes or an early redemption of the Notes*” below.

Potential replacement of LIBOR may adversely affect the return on any Notes linked to LIBOR and their secondary market prices

Central banks around the world, including the U.S. Federal Reserve, have commissioned working groups that include market participants (the **Alternative Rate Committees**) with the goal of finding suitable replacements for their currency’s LIBOR that are based on observable market transactions. The search for replacements accelerated after the Financial Stability Board reported that uncertainty surrounding the integrity of LIBOR represents a potentially serious systemic vulnerability and risk due to limited transactions in the underlying inter-bank lending market. In July 2017, the Chief Executive of the FCA, which regulates LIBOR, called for an orderly transition over a 4-5 year period from LIBOR to the reference rates selected by the Alternative Rate Committees. The FCA’s announcement stated that it expects that it would not be in a position to sustain LIBOR through its influence or legal compulsion powers after the end of 2021. Any transition away from LIBOR, as well as the uncertainty surrounding the future of LIBOR and future regulatory and market developments, could have a materially adverse effect on the return on any Notes linked to LIBOR and their secondary market prices. See also “*Risk Factors—Reform of LIBOR and EURIBOR and other interest rate index and equity and foreign exchange rate index ‘Benchmarks’*” above.

LIBOR, EURIBOR and other benchmark rate discontinuance or prohibition on use may lead to adjustments to the terms of the Notes or an early redemption of the Notes

In order to address the risk of a possible discontinuance of LIBOR (referred to above) and other reference rates the Conditions include certain fallback provisions. These provisions apply to “Relevant Rates Benchmarks” (which will include LIBOR, EURIBOR and other similar interbank rates). The fallback provisions will be triggered if the Determination Agent determines that (i) the administrator or regulatory supervisor (or other applicable regulatory body) in connection with such Relevant Rates Benchmark announces that the administrator has ceased or will cease permanently or indefinitely to provide such Relevant Rates Benchmark and there is no successor administrator that will continue to provide the Relevant Rates Benchmark, or (ii) unless otherwise specified in the applicable Final Terms, an Administrator/Benchmark Event occurs in relation to such Relevant Rates Benchmark.

Following the occurrence of any of these events the Determination Agent may replace the Relevant Rates Benchmark with any “Alternative Pre-nominated Reference Rate” which has been specified in the applicable Final Terms or if no Alternative Pre-nominated Reference

Rate is specified in the applicable Final Terms, with an alternative rate that is consistent with accepted market practice for debt obligations such as the Notes. If an Alternative Pre-nominated Reference Rate or other alternative rate is used then the Determination Agent may also make other adjustments to the Notes, including to the new rate and to the Margin, which are consistent with accepted market practice. If the Determination Agent is unable to identify an alternative rate and determine the necessary adjustments to the terms of the Notes then the Issuer may redeem the Notes.

The application of any of these fallbacks may adversely affect the value of the Noteholder's investment in the Notes. See also "*Risk Factors—Administrator/Benchmark Events*" above.

Market Disruption Event, Disrupted Day, Adjustments and Early Redemption or Early Termination of Notes

The Determination Agent may determine in its reasonable discretion that a Market Disruption Event or a failure to open of an Exchange or Related Exchange has occurred or exists on a relevant date of valuation, and any consequential postponement of such date of valuation may have an adverse effect on the value of the Notes.

In addition the Determination Agent may in its reasonable discretion make adjustments to the Notes to account for relevant adjustments or events in relation to the Relevant Underlying including, but not limited to, determining a successor to the Relevant Underlying or its sponsor (in the case of an Index), determining a successor or substitute futures contract (in the case of a Futures Contract). In addition, in certain circumstances, the Issuer may redeem or terminate the Notes prior to the Maturity Date following any such event. In this case, in relation to each Note, the Issuer will pay an amount, if any, determined as provided in the Terms and Conditions.

Prospective investors should review the Terms and Conditions of the Notes to ascertain whether and how such provisions apply to the Notes and what constitutes a Market Disruption Event or relevant adjustment event.

Issuer call option risk

If Call Option is specified in the applicable Final Terms as being applicable, the Issuer will have the right to terminate the Notes on any Optional Redemption Date (Call). Following the exercise by the Issuer of such Call Option, the investors will be entitled to receive a pre-determined amount which may be less than the amount that the investors would have been entitled to receive under the terms of the Notes if such Call Option had not been exercised.

The determination to terminate the Notes will be made by the Issuer taking into account a number of factors, including the current level of the reference asset and the likelihood that such levels will be maintained, or will increase or decrease, in the future. In making such determination, the Issuer will consider whether the expected performance of the reference asset could imply that a higher amount could be payable in the future under the Notes than Optional Redemption Amount (Call). **As a result, it is likely that the Issuer will exercise the Call Option at a time in which the termination of the Notes is least favourable for the investors. The Issuer shall make such determination without taking into account the interest of the investors. The Call Option therefore can limit the possibility for investors to realise in full the expected returns.**

If the Issuer exercises the Call Option, investors in the Securities will no longer be able to participate in the performance of the reference asset.

An optional termination feature of the Notes is likely to limit their market value. During any period when the Issuer may elect to terminate the Notes, the market value of those Notes generally will not rise substantially above the price at which they can be terminated.

If the Issuer exercises the Call Option, investors generally might not be able to reinvest the termination proceeds rate in the same market environment as it was available at the time in which they invested in the Notes and they might be unable to re-invest at a comparable rate of returns. Investors should consider reinvestment risk in light of other investments available at the time of their investment decision.

The Notes may be redeemed prior to maturity

In the event that one of the Issuer or the Guarantor (if applicable) would be obliged by law to make any withholding or deduction for or on account of tax with respect to the Notes, the relevant Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions at the redemption price specified in the applicable Final Terms.

If in the case of any particular Tranche of Notes the relevant Final Terms specify that the Notes are redeemable at the relevant Issuer's option in certain other circumstances then the relevant Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In addition, if "Automatic Early Redemption Event" is specified as being applicable in the applicable Final Terms, on the occurrence of an Automatic Early Redemption Event the Notes will be automatically redeemed at their Automatic Early Redemption Amount. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

An optional redemption feature or an Issuer Automatic Early Redemption feature in any particular Tranche of Notes is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

In the case of certain Notes, if such Notes are redeemed early for any reason, the amount payable by the Issuer may be less than the amount that would have been paid had the Notes been redeemed at maturity.

If an event of default occurs in respect of the relevant Issuer and acceleration of the Notes, the investor would have an unsecured claim against the relevant Issuer or, if applicable, the Guarantor for the amount due on the early redemption of the Notes.

Risks relating to the occurrence of a Regulatory Event

Noteholders of Notes issued by MSBV should note that the Issuer shall have the right to redeem the Notes early (at the amount specified in the relevant Final Terms) if the Issuer has determined that a Regulatory Event has occurred.

Noteholders should note in this regard the circumstances in which a Regulatory Event may be deemed by the Issuer to have occurred pursuant to the definition of "Regulatory Event" under Condition 2.1 (*Definitions*). There can be no assurance that a Regulatory Event will not occur and Noteholders should be aware that, should a Regulatory Event occur, it may lead to an early redemption of the Notes.

Risks relating to the provision of notices

Pursuant to the Conditions, the Issuer, the Determination Agent or the Calculation Agent, as applicable, in certain circumstances have obligations to provide Noteholders with notice of the occurrence of particular events with respect to the Notes including, without limitation, (i) notice of the occurrence of an event which the Issuer has determined shall lead to the early redemption of the Notes, or (ii) notice of a determination by the Determination Agent that certain adjustments are to be made to the terms of the Notes following the occurrence of a particular event in respect of which the Issuer has determined that the Notes shall continue. Notwithstanding any such obligation to provide notice, in accordance with Condition 24 (*Notices*), any failure by the Issuer, the Calculation Agent, the Determination Agent or any other party to provide Noteholders with any notice due to be given to Noteholders in accordance with the Terms and Conditions of the Notes shall not of itself affect the validity of the determination, adjustment, event or any other occurrence to which such notice relates.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Feature-specific Risk Factors

Caps and floors

Caps on value/performance of the Relevant Underlying. The formula or other basis for determining the value and/or performance of the Relevant Underlying in respect of a Series of Notes (or of individual Basket Components comprised in a Relevant Underlying which is a Basket) may provide for a maximum value, or cap, such that any value and/or performance of the Relevant Underlying (or individual Basket Components) in excess of the applicable cap will not be taken into account for the purposes of the relevant determination. Amounts payable on the Notes linked to such capped value and/or performance will be limited accordingly.

Floors on value/performance of the Relevant Underlying. The formula or other basis for determining the value and/or performance of the Relevant Underlying in respect of a Series of Notes (or of individual Basket Components comprised in a Relevant Underlying which is a Basket) may alternatively, or additionally, be subject to a minimum value, or floor, such that any value and/or performance of the Relevant Underlying (or individual Basket Components) below the applicable floor will not be taken into account for the purposes of the relevant determination. Amounts payable on the Notes linked to such floored value and/or performance will be limited accordingly. However, depending on the relevant formula or other basis for determination, such a floor may entitle holders to receive payment(s) greater than they would have received if the relevant determination had not been subject to the floor.

Caps and floors on interest rates. In addition, the rate of interest payable on certain Floating Rate Notes may be subject to a maximum rate of interest or a minimum rate of interest specified in the applicable Final Terms, provided that in no event, will the relevant interest amount be less than zero. If a maximum rate of interest is specified, the rate of interest payable on such Floating Rate Notes will be limited to such maximum rate. However, if a floor or a minimum rate of interest is specified in respect of any Floating Rate Notes, the rate of interest payable on such Notes may entitle holders to receive payment(s) greater than they would have received if the relevant rate of interest had not been subject to the floor.

Basket Notes - "Best of" Average/"Worst of" Average/"Selection" Average

Determinations of amounts payable under Notes linked to the value and/or performance of a basket of Shares, Indices, ETFs, Inflation Indices, Funds and/or Futures Contracts may take into account the average value and/or performance of only a limited number of the components of the relevant basket, identified by reference to their value and/or performance relative to the other components of the basket as of one or more relevant dates. For the purpose of such determinations, the Determination Agent will order the values and/or performances of the components, high to low, and the relevant determination will be based on an average of the values (or performances) of an identified number of components having the highest values or performances (in the case of Notes in respect of which "Best of Average" applies), or having the lowest values or performances (in the case of Notes in respect of which "Worst of Average" applies) or which are otherwise identified by reference to such order (in the case of Notes in respect of which "Selected Average" applies).

Weighting of Basket Components

Determinations of amounts payable under Notes linked to the value and/or performance of a basket of Shares, Indices, ETFs, Inflation Indices, Funds and/or Futures Contracts may be determined by reference to the arithmetic mean of the values and/or performances of all (or some only, in the case of "Best of Average", Worst of Average" or "Selected Average") of the Basket Components, which may be equally-weighted or, if so specified in the applicable Final Terms, given different weightings. The higher the weighting applicable to a particular Basket Component, the more Noteholders will be exposed to the value and/or performance of that Basket Component in comparison with the remaining Basket Components.

Averaging features

Determinations of amounts payable under Notes linked to the value and/or performance of a basket of Shares, Indices, ETFs, Inflation Indices, Funds and/or Future Contracts may be determined based the arithmetic mean of values determined as of a series of Averaging Dates. This will limit the extent to which a sudden increase or decrease in value and/or performance of the Relevant Underlying on a single date affects the relevant determination.

Memory feature (coupons)

Where the determination of interest payable on the Notes includes a "Memory" feature (i.e., where any of Memory Barrier Conditional Coupon, Lock in Memory Barrier Conditional Coupon, Capitalised Memory Barrier Conditional Coupon, Capitalised Lock in Memory Barrier Conditional Coupon, Locked Participation Coupon or Capitalised Locked Participation Coupon (each as provided for in the Additional Terms and Conditions) is applicable) the interest accrued with respect to each Interest Determination Date will be conditional on the value or performance of the Relevant Underlying determined as of such Interest Determination Date being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, a specified barrier value, and the interest so accrued will therefore be zero if the condition is not satisfied. However, the amount of interest to be accrued if such condition is satisfied will be an amount which is increased on each successive Interest Determination Date but from which is deducted the sum of all interest accrued in respect of prior Interest Determination Dates. Accordingly, if the interest accrued in respect of an Interest Determination Date (two or more successive Interest Determination Dates) is zero, the interest accrued in respect of the next following Interest Determination Date (if any) where such condition is satisfied will be in an increased amount which will typically equal the sum of the amounts which would have accrued had such condition been satisfied in respect of both (or all) such Interest Determination Dates, but without any interest or other allowance for the deferred accrual.

Capitalised interest feature

Where "capitalised" is used to identify the terms for determining interest payable on any the Notes (for instance, where "Capitalised Non Memory Barrier Conditional Coupon", as provided for in the Additional Terms and Conditions, is applicable), all interest accruing in respect of the Notes will be payable only on the on the earliest of the dates specified as the Redemption Date and by a single payment. Therefore, an investor will not receive any periodic or other payment of interest on such Notes prior to such Redemption Date.

Participation feature (interest and Final Redemption Amount)

Interest - Where "participation" is used to identify the terms for determining interest payable on any Notes (for instance, where "Capitalised Participation & Barrier Conditional Coupon", as provided for in the Additional Terms and Conditions, is applicable), the formula for determining such interest will include a percentage multiplication factor (or **Participation Rate**) applied to the calculation of the performance of the Relevant Underlying. The Participation Rate shall be a percentage rate between 0 per cent. and 100 per cent., and where such percentage is less than 100 per cent., interest payments will accordingly be linked to part only of such performance and may be less than the interest that would have been payable if linked to the full value of such performance.

Final Redemption Amount – Where "participation" is used to identify the terms for determining the Final Redemption Amount payable on any Notes (for instance, where "Participation (Floored) Redemption (Principal at Risk)", as provided for in the Additional Terms and Conditions, is applicable), the formula for determining such Final Redemption Amount may include a percentage multiplication factor (or **Participation Rate**) applied to the calculation of the performance of the Relevant Underlying. Where such percentage is less than 100 per cent., the Final Redemption Amount will accordingly be linked to part only of such performance and may be less than the amount that would have been payable if linked to the full value of such performance, and may be less than Par.

The formula for determining the Final Redemption Amount may also apply an amount which is 100 per cent. minus such a percentage (or **Participation Factor**) as a multiplication factor to a fixed amount in determining the Final Redemption Amount (for instance, where "Participation (Low Barrier) Redemption (Principal at Risk)", as provided for in the Additional Terms and Conditions, is applicable), in which case the deduction of such percentage will reduce the Final Redemption Amount that would otherwise be payable in respect of the Notes.

Barrier feature (interest and Final Redemption Amount) and "airbag" feature (Final Redemption Amount)

Interest - Where "barrier" is used to identify the terms for determining interest payable on any Notes (for instance, where "Non Memory Barrier Conditional Coupon", as provided for in the Additional Terms and Conditions, is applicable), each such payment of interest on the Notes will be conditional on the value or performance of the Relevant Underlying, as determined in accordance with the applicable Conditions as of the relevant Interest Determination Date, being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, a specified barrier value, and if such condition is not satisfied, then the amount of interest payable will be zero.

Redemption - Where "barrier" is used to identify the terms for determining the Final Redemption Amount payable on any Notes (for instance, where "Barrier Redemption", as provided for in the Additional Terms and Conditions, is applicable), the redemption amount payable will be Par if the value or performance of the Relevant Underlying, as determined in accordance with the applicable Conditions as of the relevant Determination Date, is (i) greater

than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, a specified barrier value, and if such condition is not satisfied, an amount determined by reference to the performance of the Relevant Underlying, which may be less than Par.

Where, additionally, "airbag" is used to identify the terms for determining the Final Redemption Amount payable on any Notes (for instance, where "Airbag Barrier Redemption (Principal at Risk)", as provided for in the Additional Terms and Conditions, is applicable), and the condition mentioned in the preceding paragraph is not satisfied, the Final Redemption Amount payable will be an amount determined by reference to a percentage (defined as the "Airbag Rate") of the performance of the Relevant Underlying. The application of such a rate less than 100% will limit the extent to which the Final Redemption Amount is reduced by reference to the performance of the Relevant Underlying.

Automatic Early Redemption (Autocall)

Where one of the Early Redemption Terms provided for in Section 5 (*Early Redemption Terms*) of the Additional Terms and Conditions, is applicable, and an Automatic Early Redemption Event (as defined in the applicable Early Redemption Terms) has occurred as of any Automatic Early Redemption Valuation Date (for example, where "Barrier Automatic Early Redemption" or "Partial Automatic Early Redemption (Principal at Risk)" is specified as applicable, an Automatic Early Redemption Event will occur if the Relevant Underlying Performance as of any specified Automatic Early Redemption Valuation Date is as applicable, (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, the applicable Autocall Barrier Value), then the Issuer shall redeem the Notes on the immediately following Automatic Early Redemption Date at a percentage (specified as the Autocall Early Redemption Rate) of Par. Note also the risks described in paragraph entitled "*The Notes may be redeemed prior to maturity*" above.

Lock in feature (interest and Final Redemption Amount)

Interest - Where "lock in" is used to identify the terms for determining interest payable on any Notes (for instance, where "Lock In Non Memory Barrier Conditional Coupon", as provided for in the Additional Terms and Conditions, is applicable), payments of interest which are otherwise conditional on the value or performance of the Relevant Underlying as of the relevant Interest Determination Date being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, a value specified as the Coupon Barrier Value may be payable, notwithstanding that such condition is not satisfied, if a second "lock in" condition was satisfied as of any prior Interest Determination Date, such second condition being that the value or performance of the Relevant Underlying as of the relevant prior Interest Determination Date is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, the value specified as the Lock In Barrier Value. Accordingly, interest will be payable on the Notes on the Interest Payment Date immediately following an Interest Determination Date if either the first or the second condition is satisfied with respect to that Interest Determination Date. However, if neither condition is satisfied, then no interest will be payable on the Notes on such Interest Payment Date.

Redemption - Where "lock in" is used to identify the terms for determination of the Final Redemption Amount payable with respect to any Notes (for instance, where "Lock In Redemption", as provided for in the Additional Terms and Conditions, is applicable), the Final Redemption Amount may be a specified fixed amount if, as of any specified Barrier Observation Date, the value or performance of the Relevant Underlying is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, a value specified as the Lock In Barrier Value, and, if such condition is not satisfied (and subject to any further conditions applicable to the determination of the Final Redemption Amount), an amount linked to the performance of the Relevant Underlying determined as of the specified Determination Date, which may be less than Par.

Multiple features i.e. different combinations of payout features

Investors should note that a series of Notes issued under the Programme may contain one or more of the features described in this section entitled "*Feature-specific risk factors*" in various different combinations. As a result, the risks highlighted in respect of each such feature above may be compounded where a number of features apply to a single Series of Notes. Depending on the features that apply to a Series of Notes, an investor may bear the risk that no interest is payable throughout the life of the Notes and that the redemption amount in respect of the Notes may be less than Par and, in certain circumstances, may be zero.

Each Note will cease to bear interest from the due date for final redemption unless the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is fifteen Business Days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such fifteenth Business Day (except to the extent that there is any subsequent default in payment).

- is longer or shorter than a Regular Period, then the Notes shall nevertheless be deemed to be Regular Interest Period Notes, **provided, however, that** if the interval between the Maturity Date and the immediately preceding Interest Payment Date is longer or shorter than a Regular Period, the day and month on which the Maturity Date falls shall not be a **Regular Date**. - 5.7.1 if the Day Count Fraction is specified in the applicable Final Terms as being 30/360, the relevant Day Count Fraction will be the number of days in the relevant period (calculated on the basis of a year of 360 days consisting of 12 months of 30 days each and, in the case of an incomplete month, the actual number of days elapsed) divided by 360;
- 5.7.2 if the Day Count Fraction is specified in the applicable Final Terms as being Actual/Actual (ICMA) and the relevant period falls during a Regular Period, the relevant Day Count Fraction will be the number of days in the relevant period divided by the product of (A) the number of days in the Regular Period in which the relevant period falls and (B) the number of Regular Periods in any period of one year; and
- 5.7.3 if the Day Count Fraction is specified in the applicable Final Terms as being Actual/Actual (ICMA) and the relevant period begins in one Regular Period and ends in the next succeeding Regular Period, interest will be calculated on the basis of the sum of:
- (a) the number of days in the relevant period falling within the first such Regular Period divided by the product of (1) the number of days in the first such Regular Period and (2) the number of Regular Periods in any period of one year; and
 - (b) the number of days in the relevant period falling within the second such Regular Period divided by the product of (1) the number of days in the second such Regular Period and (2) the number of Regular Periods in any period of one year.

- 5.8 *Number of days:* For the purposes of this Condition 5 (*Fixed Rate Note Provisions*), unless the Day Count Fraction is specified in the applicable Final Terms as being 30/360 (in which case the provisions of Condition 5.7.1 above shall apply), the number of days in any period shall be calculated on the basis of actual calendar days from and including the first day of the relevant period to but excluding the last day of the relevant period.
- 5.9 *Irregular Interest Periods:* If the Notes are not Regular Interest Period Notes and interest is required to be calculated for any period other than an Interest Period, interest shall be calculated on such basis as is described in the applicable Final Terms.

- 6.1 *Application:* This Condition 6 (*Floating Rate Note, Equity-Linked, Currency-Linked, Inflation-Linked Interest, Fund-Linked and Futures Contract-Linked Note Provisions*) is applicable to the Notes only if one or more of the Floating Rate Note Provisions, the Equity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked or Futures Contract-Linked Interest Note Provisions are specified in the applicable Final Terms as being applicable.
- 6.2 *Accrual of interest:* The Floating Rate Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date. Each Note will cease to bear interest from the due date for final redemption unless the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (*Floating Rate Note, Equity-Linked, Currency-Linked, Inflation-Linked Interest, Fund-Linked and Futures Contract-Linked Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is fifteen Business Days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such fifteenth Day (except to the extent that there is any subsequent default in payment). The Rate of Interest in respect of all or any Interest Periods shall, if so specified in the applicable Final Terms, be zero.
- 6.3 *Screen Rate Determination:* Subject to Condition 6.11 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*), if Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:
- 6.3.1 if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- 6.3.2 in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- 6.3.3 if, in the case of Condition 6.3.1 above, such rate does not appear on that page or, in the case of Condition 6.3.2 above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
- (a) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre

interbank market in an amount that is representative for a single transaction in that market at that time; and

(b) determine the arithmetic mean of such quotations; and

- 6.3.4 if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined, **provided, however, that** if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate (or as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

- 6.4 *ISDA Determination:* Subject to Condition 6.11 (*Relevant Rates Benchmark Discontinuance or Prohibition on Use*), if ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "ISDA Rate" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- 6.4.1 the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the applicable Final Terms;
- 6.4.2 the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the applicable Final Terms; and
- 6.4.3 the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that Interest Period or (B) in any other case, as specified in the applicable Final Terms.

- 6.5 *Equity-Linked, Currency-Linked, Inflation-Linked Interest, Fund-Linked and Futures Contract-Linked Note Provisions:* If one or more of the Equity-Linked, Currency-Linked, Inflation-Linked, Fund-Linked or Futures Contract-Linked Interest Note Provisions are specified in the applicable Final Terms as being applicable, the interest payable in respect of the Notes for each Interest Period will be determined in accordance with such applicable provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Final Terms. If more than one of the Equity-Linked, Currency-Linked, Inflation-Linked Interest, Fund-Linked or Futures Contract-Linked Note Provisions are specified in the applicable Final Terms as being applicable such Note shall constitute **Hybrid Notes**.

- 6.7 *Rate Multiplier:* if the applicable Final Terms specify a Rate Multiplier (the **Rate Multiplier**) for any Interest Period, then the Rate of Interest in respect of any such Interest Period shall be multiplied by the relevant Rate Multiplier, subject always to the Minimum Rate of Interest and/or Maximum Rate of Interest as described above.
- 6.8 *Calculation of Interest Amount:* In respect of Floating Rate Notes, the Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Floating Rate Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a **sub-unit** means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- 6.9 *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it under these Conditions, together with any relevant payment date(s), to be notified to the Paying Agents and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have been admitted to listing, trading and/or quotation as soon as practicable after such determination and in any event not later than 15 Business Days after such determination. Notice thereof shall also be given to the Noteholders as soon as practicable after such determination and in any event not later than 15 Business Days after such determination. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) in the event of an extension or shortening of the relevant Interest Period and shall be required to notify the Noteholders, the Paying Agents and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have been admitted to listing, trading and/or quotation as soon as practicable after such recalculation and in any event not more than 15 Business Days after such recalculation has been made.
- 6.10 *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 6 (*Floating Rate Note, Equity-Linked, Currency-Linked, Inflation-Linked Interest, Fund-Linked and Futures Contract-Linked Note Provisions*) by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents and the Noteholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.
- 6.11 *Relevant Rates Benchmark Discontinuance or Prohibition on Use:* Notwithstanding the terms set forth elsewhere in these Conditions, if the Determination Agent determines that any of the following events has occurred
- 6.11.1 a public statement or publication of information by or on behalf of the administrator of the Relevant Rates Benchmark announcing that it has ceased or will cease to provide the Relevant Rates Benchmark permanently or indefinitely, provided that, at

the time of statement or publication, there is no successor administrator that will continue to provide the Relevant Rates Benchmark; or

6.11.2 a public statement or publication of information by the regulatory supervisor for the administrator of the Relevant Rates Benchmark, the central bank for the currency of the Relevant Rates Benchmark, an insolvency official with jurisdiction over the administrator of the Relevant Rates Benchmark, a resolution authority with jurisdiction over the administrator of the Relevant Rates Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator of the Relevant Rates Benchmark, which states that the administrator of the Relevant Rates Benchmark has ceased or will cease to provide the Relevant Rates Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide the Relevant Rates Benchmark; or

6.11.3 unless otherwise specified in the Final Terms, an Administrator/Benchmark Event occurs in relation to a Relevant Rates Benchmark,

then the Determination Agent may use, as a substitute for the Relevant Rates Benchmark, and for each future Interest Determination Date, the alternative rates benchmark determined in accordance with the following provisions:

- (i) if an alternative reference rate, index or benchmark is specified in the Final Terms for this purpose (an **Alternative Pre-nominated Reference Rate**), such Alternative Pre-nominated Reference Rate; or
- (ii) if an Alternative Pre-nominated Reference Rate is not specified in the Final Terms, the alternative reference rate, index or benchmark selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) in the jurisdiction of the applicable index currency that is consistent with accepted market practice (the rate determined under subparagraph (i) above or this sub-paragraph (ii), the **Alternative Rate**).

The Determination Agent may, after consultation with the Issuer, determine any adjustments to the Alternative Rate or the Margin (which may include the addition of an adjustment spread, which may be positive or negative, in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value to or from the Issuer as a result of the replacement of the Relevant Rates Benchmark with the Alternative Rate), as well as the applicable Business Day Convention, Interest Determination Dates and related provisions and definitions of the Notes, in each case that are consistent with accepted market practice for the use of such Alternative Rate for debt obligations such as the Notes.

If the Determination Agent determines, after consultation with the Issuer, that no such Alternative Rate exists on the relevant date, it may, after consultation with the Issuer, determine an alternative rate to be used as a substitute for the Relevant Rates Benchmark (which shall be the “Alternative Rate” for the purposes of these provisions), as well as any adjustments to the Margin (including any adjustment spread), the Business Day Convention, the Interest Determination Dates and related provisions and definitions in respect of the Notes, in each case, that are consistent with accepted market practice for the use of such Alternative Rate for debt obligations such as the Notes.

The Issuer will then provide a notice, in accordance with Condition 24 (*Notices*), to Noteholders to inform them of the occurrence of any of events listed in Clauses 6.11.1 to 6.11.3 above, the Alternative Rate and any adjustment determinations which will apply to the Notes. The notice shall also confirm the effective date of the Alternative Rate and any adjustments.

Notwithstanding anything else in this Condition 6.11, if the Determination Agent determines that the selection of a particular index, benchmark or other price as an “Alternative Rate” (taking into account any necessary adjustments that would need to be made in accordance with this Condition 6.11) (1) is or would be unlawful under any applicable law or regulation; or (2) would contravene any applicable licensing requirements; or (3) would result in the Determination Agent, the Issuer or the Calculation Agent being considered to be administering a benchmark, index or other price source whose production, publication, methodology or governance would subject the Determination Agent, the Issuer or the Calculation Agent to material additional regulatory obligations which it is unwilling to undertake, then the Determination Agent shall not select such index, benchmark or price source as the Alternative Rate).

If the Determination Agent is unable to identify an Alternative Rate and determine the necessary adjustments to the terms of the Notes, then the Issuer may, in its reasonable discretion, determine that the Notes shall be redeemed as of any later date. If the Issuer so determines that the Notes shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Noteholders to redeem the Notes and upon redemption the Issuer will pay in respect of each Note an amount equal to either:

- (A) If “Early Redemption Amount (Benchmark Trigger Event) - Fair Market Value Less Costs” is specified in the Final Terms, the fair market value of such Note, on such date as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Notes of the reasonable cost to the Issuer and/ or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
- (B) If “Early Redemption Amount (Benchmark Trigger Event) - Fair Market Value” is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

The Issuer’s obligations under the Notes shall be satisfied in full upon payment of such amount.

7. ZERO COUPON NOTE PROVISIONS

7.1 *Application:* This Condition 7 (*Zero Coupon Note Provisions*) is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the applicable Final Terms as being applicable.

7.2 *Late payment on Zero Coupon Notes:* If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

7.2.1 the Reference Price; and

7.2.2 the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is fifteen Business Days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such fifteenth Business Days (except to the extent that there is any subsequent default in payment).

9.1 Valuation, Market Disruption, Reference Dates and Averaging Dates

- (a) If any Scheduled Reference Date is a Disrupted Day, then:
- (i) relevant Reference Date shall be the earlier of (i) the first succeeding Scheduled Trading Day that is not in the determination of the Determination Agent a Disrupted Day and (ii) the Reference Cut-Off Date (notwithstanding that such Scheduled Trading Day is a Disrupted Day).
 - (ii) in the case of an Index Basket Note, a Share Basket Note or an ETF Basket Note (as the case may be):
 - (A) where "Individual Scheduled Trading Days and Individual Disrupted Days" is specified to be applicable in the relevant Final Terms, if any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:
 - (1) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and
 - (2) the Reference Date for any Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an **Affected Basket Component**) shall be the earlier of (A) the first Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component; and (B) the Reference Cut-Off Date for such Affected Basket Component (notwithstanding that such day may not be a Scheduled Trading Day).

(i) If an Averaging Date is, in respect of a Single Index Note, a Single Share Note or a Single ETF Note, a Scheduled Averaging Date is determined by the Determination Agent to be a Disrupted Day, then if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is:

(A) Omission, then such date will be deemed not to be a relevant Averaging Date in respect of such Reference Date for the purposes of determining the Relevant Underlying Value, as applicable **provided that**, if through the operation of this provision no Averaging Date would occur with respect to the relevant Reference Date, then Condition 9.1(a)(i) will apply for purposes of determining the Relevant Underlying Value on the final Averaging Date in respect of that Reference Date as if such final Averaging Date were a Reference Date that was a Disrupted Day;

(B) Postponement, then Condition 9.1(a)(i) will apply for the purposes of determining the Relevant Underlying Value on that date as if such date were a Reference Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date in respect of the Reference Date; or

(C) Modified Postponement, then the Averaging Date shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Date and (II) the Averaging Cut-Off Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date.

(1) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Omission":

(a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and

(b) such date shall not be an Averaging Date in respect of such Reference Date for any Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**), provided that if through the operation of this provision there would not be any Averaging Date in respect of such Reference Date for the Affected Basket Component, then the sole Averaging Date for such Affected Basket Component shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Date that is not a Disrupted Day in respect of each such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component;

- (2) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Postponement":

 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component. Any day (including, for the avoidance of doubt, the Averaging Cut-Off Date) determined to be an Averaging Date as a result of the operation of this Condition 9.1(b)(ii)(A)(2)(b) shall be an Averaging Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date; or

 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Date in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;
- (B) where "Common Scheduled Trading Days and Common Disrupted Days" is specified to be applicable in the relevant Final Terms:
 - (1) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Omission", such date will be deemed not to be a relevant Averaging Date in respect of any Basket Component for the purposes of determining the Relevant Underlying Value, as applicable **provided that**, if through the operation of this provision there would be no Averaging Date in respect of such Reference Date, then the sole Averaging Date for each Basket Component shall be the earlier of (A) the first Common Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day for any Basket Component and (B) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day);
 - (2) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Postponement", then the Averaging Date shall be the earlier of (A) the first Common

Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day in respect of any Basket Component and (B) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Cut-Off Date) determined to be an Averaging Date as a result of the operation of this Condition 9.1(b)(ii)(B)(2) shall be an Averaging Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date; or

- (3) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Modified Postponement", then the Averaging Date for each Basket Component shall be the earlier of (A) the first Common Valid Date following the Scheduled Averaging Date and (II) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day), irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;
- (C) where "Common Scheduled Trading Days and Individual Disrupted Days" is specified to be applicable in the relevant Final Terms:
- (1) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Omission":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) such date shall not be an Averaging Date in respect of such Reference Date for any Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**), provided that if through the operation of this provision there would not be any Averaging Date in respect of such Reference Date for the Affected Basket Component, then the sole Averaging Date for such Affected Basket Component shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day may not be a Common Scheduled Trading Day);
 - (2) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Postponement":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Date that is

not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Cut-Off Date) determined to be an Averaging Date as a result of the operation of this Condition 9.1(b)(ii)(C)(2)(b) shall be an Averaging Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date; or

- (3) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Modified Postponement":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Valid Date (that is a Scheduled Trading Day) following the Scheduled Averaging Date in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;
- (iii) If, in respect of any Single Index Note, Single Underlying Share Note, Single ETF Note, Index Basket Note, Share Basket Note or ETF Basket Note (as the case may be), an Averaging Date falls on the relevant Averaging Cut-Off Date pursuant to this Condition 9.1(b)(iii):
 - (A) (as the case may be), the Determination Agent shall determine the level of such Index or the value of such Share or ETF Interest (as the case may be) as at the Determination Time on such Averaging Cut-Off Date; or
 - (B) if such Averaging Cut-Off Date is a Disrupted Day:
 - (1) Determination Agent shall determine, in its reasonable discretion, the level of such Index as of the Determination Time on such date in accordance with the formula for and method of calculating such Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Determination Time on such Averaging Cut-Off Date of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on such Averaging Cut-Off Date, its estimate of the value for the relevant security as of the Determination Time on such Averaging Cut-Off Date, acting in good faith and a commercially reasonable manner); and
 - (2) in respect of Single Share Notes, Single ETF Notes, Share Basket Notes and ETF Basket Notes (as the case may be), the Determination Agent shall determine, in its discretion, its estimate of the value for such Share or ETF Interest (as the case may be) as of the Determination Time on such Averaging Cut-Off Date, acting in good faith and a commercially reasonable manner.

- (iv) If any Averaging Dates in relation to a Reference Date occur after that Reference Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Interest Payment Date, Maturity Date, Automatic Early Redemption Date or (ii) the occurrence of an Extraordinary Event, an Extraordinary ETF Event, an Index Adjustment Event, a Potential Adjustment Event or an Additional Disruption Event shall be determined by reference to the last such Averaging Date as though it were that Reference Date.

9.2 *Adjustments to Indices:*

This Condition 9.2 (*Adjustments to Indices*) is applicable only in relation to Notes specified in the relevant Final Terms as being Single Index Notes or Index Basket Notes.

(a) *Successor Index:*

If a relevant Index is (a) not calculated and announced by the Index Sponsor, but is calculated and announced by a successor sponsor acceptable to the Determination Agent acting in good faith and in a commercially reasonable manner or (b) replaced by a Successor Index using, in the determination of the Determination Agent (such determination to be at the Determination Agent's reasonable discretion), the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the Index.

(b) *Index Cancellation or Administrator/ Benchmark Event Date:*

If on or prior to any Reference Date either (1) the Index Sponsor permanently cancels the Index and no Successor Index exists (an **Index Cancellation**) or (2) the applicable Final Terms specify that the Benchmark Trigger Provisions are applicable and an Administrator/ Benchmark Event and an Administrator/ Benchmark Event Date occurs in respect of such Index, then:

- (i) If the applicable Final Terms specify that the Benchmark Trigger Provisions are applicable and if an Alternative Pre-nominated Index has been specified in relation to such Index in the applicable Final Terms, then:

- (A) the Determination Agent shall attempt to determine an Adjustment Payment;

- (B) if the Determination Agent determines an Adjustment Payment,

- (aa) it shall notify the Issuer of the Adjustment Payment and if the Adjustment Payment is an amount that the Noteholder would (but for Condition 9.2(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Note, request the Issuer to notify the Determination Agent whether it intends to redeem the Notes pursuant to Condition 9.2(d). If the Issuer does not intend to redeem the Notes pursuant to Condition 9.2(d) then the following provisions of this Condition 9.2(b)(i) shall apply;

- (bb) the terms of the Notes shall be amended so that references to the Index are replaced by references to the Alternative Pre-nominated Index;

- (cc) the Conditions shall be adjusted to implement the Adjustment Payment as follows:

- a. if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Note, the Determination

Agent shall adjust the Conditions to provide for the payment of the Adjustment Payment on the immediately succeeding Interest Payment Date or if there is no such immediately succeeding Interest Payment Date, on the Maturity Date or other date when the Notes are redeemed in full; or

- b. if the Adjustment Payment is an amount that the Noteholder would (but for this Condition 9.2(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Note, the Determination Agent shall adjust the Conditions to provide for the reduction of the amounts due by the Issuer until the aggregate amount of such reductions is equal to the Adjustment Payment, (subject, in the determination of the Determination Agent, to any minimum redemption amount of the Notes which the Determination Agent determines is required pursuant to any applicable law or regulation (including, without limitation, any tax law) and the rules of each listing authority, stock exchange and/or quotation system by which the Notes have then been admitted to listing, trading and/or quotation);
 - (dd) the Determination Agent shall make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of the Index with the Alternative Pre-nominated Index and/or to preserve as nearly as practicable the economic equivalence of the Notes before and after the replacement of the Index with the Alternative Pre-nominated Index; and
 - (ee) the Determination Agent shall notify the Issuer and the Fiscal Agent of any the replacement of the Index by the Alternative Pre-nominated Index, the Adjustment Payment and any other adjustments to the Conditions. The Fiscal Agent shall provide notice to the Noteholders of the replacement of the Index by the Alternative Pre-nominated Index, the Adjustment Payment and any other adjustments to the Conditions in accordance with Condition 24.8 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of the foregoing.
- (C) If the Determination Agent is unable to determine an Adjustment Payment then Condition 9.2(d) shall apply.
- (ii) If the applicable Final Terms do not specify that the Benchmark Trigger Provisions are applicable or, if the Final Terms specify that the Benchmark Trigger Provisions are applicable but do not specify an Alternative Pre-nominated Index in relation to the Relevant Equity Benchmark, then Condition 9.2(d) shall apply.

(c) *Index Modification and Index Disruption:*

- If (i) on or prior to any Reference Date or Averaging Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events) (an **Index Modification**) or (ii) on any Reference Date or Averaging Date, the Index Sponsor fails to calculate and

announce a relevant Index (provided that, the Determination Agent may, in its reasonable discretion, determine that, in respect of a Multi-exchange Index, such failure to calculate and announce such Index shall instead be a Disrupted Day in respect of such Index) (an **Index Disruption**), then the Determination Agent shall determine if such Index Modification or Index Disruption has a material effect on the Notes and, if so, subject to Condition 9.2(d), shall calculate in its reasonable discretion the Relevant Underlying Value using, in lieu of a published level for that Index, the level for that Index as at that Reference Date or, as the case may be, that Averaging Date as determined by the Determination Agent in its reasonable discretion in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event.

(d) *Redemption for Index Adjustment Event:*

If:

- (i) an Index Cancellation occurs and the Final Terms do not specify that the Benchmark Trigger Provisions are applicable;
- (ii) an Index Cancellation or an Administrator/Benchmark Event Date occurs, the Final Terms specify that the Benchmark Trigger Provisions are applicable but do not specify an Alternative Pre-nominated Index;
- (iii) an Index Cancellation or an Administrator/ Benchmark Event Date occurs, the Final Terms specify that the Benchmark Trigger Provisions are applicable and specify an Alternative Pre-nominated Index but the Determination Agent is unable to determine the Adjustment Payment;
- (iv) an Index Cancellation or an Administrator/ Benchmark Event Date occurs, the Final Terms specify that the Benchmark Trigger Provisions are applicable and specify an Alternative Pre-nominated Index and the Determination Agent determines that the Adjustment Payment would be an amount that the Noteholder would (but for Condition 9.2(b)(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Note; or
- (v) an Index Modification or an Index Disruption occurs and it (a) would be unlawful at any time under any applicable law or regulation or (b) would contravene any applicable licensing requirements, in each case for the Determination Agent to calculate the Relevant Underlying Value in accordance with Condition 9.2(c),

then the Issuer may, at any time thereafter and in its reasonable discretion, determine that the Notes shall be redeemed as of any later date. If the Issuer so determines that the Notes shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Noteholders to redeem the Notes and upon redemption the Issuer will pay in respect of each Note an amount equal to either:

- (i) if "**Early Redemption Amount (Index Cancellation) – Fair Market Value Less Costs**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or

- (ii) if "**Early Redemption Amount (Index Cancellation) – Fair Market Value**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

The Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount.

If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula and other provisions for determining the Final Redemption Amount, any Interest Amount or the Relevant Underlying Value (as defined in the Additional Terms and Conditions) set out in these Conditions and such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Final Terms and any other variable relevant to the settlement or payment terms of the Notes, which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Noteholders of any such change or adjustment, in accordance with Condition 24.68 (*Notices*), giving summary details of the relevant change or adjustment, provided that any failure to give such notice shall not affect the validity of any such change or adjustment.

(e) *Correction of Index Levels:*

If the level of an Index published by the Index Sponsor and which is utilised by the Determination Agent for any calculation or determination (the **Original Determination**) under the Notes is subsequently corrected and the correction (the **Corrected Value**) is published by the Index Sponsor by such time (the **Correction Cut Off Time**) as may be specified in the relevant Final Terms (or, if none is so specified, within one Settlement Cycle after the original publication and prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Early Redemption Date or Maturity Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the **Replacement Determination**) using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may, acting in good faith and a commercially reasonable manner, adjust any relevant terms accordingly. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment, giving summary details of the adjustment in accordance with Condition 24.8 (*Notices*), provided that any failure to give such notice shall not affect the validity of any such adjustment.

9.3 *Adjustments affecting Underlying Shares and ETF Interests:*

This Condition 9.3 (*Adjustments affecting Underlying Shares and ETF Interests*) is applicable only in relation to Single Share Notes, Single ETF Notes, Share Basket Notes and ETF Basket Notes.

(a) *Adjustments for Potential Adjustment Events:*

Following the declaration by the Underlying Issuer, the relevant ETF or an ETF Service Provider of the terms of a Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Underlying Shares or ETF Interests and, if so, will (i)

make such adjustment as it, in its reasonable discretion, considers appropriate, if any, to the formula or other provisions for determining the Final Redemption Amount, any Interest Amount and/or the Relevant Underlying Value set out in these Conditions or such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Final Terms, the number of Underlying Shares or ETF Interests to which each Note relates, the number of Underlying Shares or ETF Interests comprised in a Basket of Shares or Basket of ETF Interests and/or any other adjustment and, in any case, to any other variable relevant to the payment or other terms of the relevant Notes as the Determination Agent determines, in its reasonable discretion, to be appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate, or liquidity relative to such Shares or ETF Interests) and (ii) determine, in its reasonable discretion, the effective date(s) of such adjustment(s). The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24.8 (*Notices*) giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

(b) *Correction of Underlying Share and ETF Interest Prices:*

If any price published on the Exchange and which is utilised by the Determination Agent for any calculation or determination (the **Original Determination**) under the Notes is subsequently corrected and the correction (the **Corrected Value**) is published by the Exchange by such time (the **Correction Cut Off Time**) as may be specified in the relevant Final Terms (or, if none is so specified, within one Settlement Cycle after the original publication and prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Early Redemption Date or Maturity Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the **Replacement Determination**) using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may, acting in good faith and a commercially reasonable manner, adjust any relevant terms accordingly. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24.8 (*Notices*) giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

9.4 *Extraordinary Events:*

This Condition 9.4 (*Extraordinary Events*) is applicable only in relation to Notes specified in the relevant Final Terms as being Single Share Notes, Single ETF Notes, Share Basket Notes or ETF Basket Notes.

(a) *Merger Event or Tender Offer:*

- (i) Following the occurrence of any Merger Event or Tender Offer, the Issuer will, in its reasonable discretion, determine whether the relevant Notes shall continue or shall be redeemed early.
- (ii) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula or other provisions for determining the Final Redemption Amount, any Interest Amount and/or the Relevant Underlying Value set out in these Conditions or such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Final Terms, the number of Underlying Shares or ETF Interests to which each Note relates, the number of Underlying Shares or ETF Interests comprised in a Basket of Shares or Basket of ETF

Interests (as the case may be) and, in any case, any other variable relevant to the payment terms of the relevant Notes and/or any other adjustment (including, without limitation, in relation to Share Basket Notes or ETF Basket Notes, the cancellation of terms applicable in respect of Underlying Shares or ETF Interests affected by the relevant Merger Event or Tender Offer) which adjustment shall be effective on such date as the Determination Agent shall determine. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24.8 (*Notices*) giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

- (iii) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to the Noteholders to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment of (in the case of a Merger Event) the Merger Event Settlement Amount – Fair Market Value Less Costs or the Merger Event Settlement Amount – Fair Market Value (each as defined below), as applicable, or of (in the case of a Tender Offer) the Tender Offer Settlement Amount – Fair Market Value Less Costs or the Tender Offer Settlement Amount – Fair Market Value (each as defined below), as applicable.

Merger Event Settlement Amount – Fair Market Value means in respect of each Note, an amount equal to the fair market value of such Note, on such day as is

selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

(b) *Nationalisation, Insolvency and Delisting:*

- (i) If in the determination of the Determination Agent, acting in a commercially reasonable manner:
 - (A) all the Underlying Shares or ETF Interests or all or substantially all the assets of an Underlying Issuer, ETF or ETF Service Provider are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof (**Nationalisation**); or

then the Issuer will, in its reasonable discretion, determine whether or not the Notes shall continue.

- (ii) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula or other provisions for determining the Final Redemption Amount, any Interest Amount and/or the Relevant Underlying Value set out in these Conditions or such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Final Terms, the number of Underlying Shares or ETF Interests to which each Note relates, the number of Underlying Shares or ETF Interests comprised in a Basket of Shares or a Basket of ETF Interests (as the case may be) and, in any case, any other variable relevant to the payment terms of the relevant Notes and/or any other adjustment (including without limitation, in relation to Share Basket Notes or ETF Basket Notes, the cancellation of terms applicable in respect of Underlying Shares or ETF Interests affected by the relevant Extraordinary Event) which change or adjustment shall be effective on such date as the Determination Agent shall determine. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24.8 (*Notices*) giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

The Issuer's obligations under the Notes shall be satisfied in full upon payment of, in respect of each Note, an amount equal to either:

- (B) if "**Early Redemption Amount (Nationalisation, Insolvency and Delisting) – Fair Market Value**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15

days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

9.5 *Extraordinary ETF Events*

This Condition 9.5 (*Extraordinary ETF Events*) is applicable only in relation to Single ETF Notes or ETF Basket Notes.

- (a) Following the occurrence of any Extraordinary ETF Event, the Issuer will, in its reasonable discretion, determine whether the relevant Notes shall continue or shall be redeemed early. The Determination Agent shall not have any obligation to monitor the occurrence of an Extraordinary ETF Event nor shall it have any obligation to make a determination that an Extraordinary ETF Event has occurred and is continuing.
- (b) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may:
 - (i) substitute any Affected ETF Interest with the Successor ETF Interest relating to such Affected ETF interest, provided that if no Successor ETF Interest has been identified in the manner set forth below within 10 Business Days of the Extraordinary ETF Event Notice Date (as defined below), then sub-paragraph (ii) below shall apply; and/or

Fiscal Agent shall provide notice to the Noteholders of (a) any Successor ETF Interest identified in accordance with sub-paragraph (i) above and (b) any adjustment made in accordance with sub-paragraph (ii) above, in each case, in accordance with Condition 24.8 (*Notices*), giving summary details of the adjustment, if applicable, provided that any failure to give such notice shall not affect the validity of any such adjustment.

- (c) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to the Noteholders to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment of an amount equal to either:
 - (i) if "**Early Redemption Amount (Extraordinary ETF Event) – Fair Market Value Less Costs**" is specified in the Final Terms, the fair market

value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or

- (ii) if "**Early Redemption Amount (Extraordinary ETF Event) – Fair Market Value**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

 - (iv) a material modification of or deviation from any of the investment objectives, investment restrictions, investment process or investment guidelines of the ETF (howsoever described, including the underlying type of assets in which the ETF invests), from those set out in the ETF Documents, or any announcement

- (vii) the ETF ceases to be an undertaking for collective investment under the legislation of its relevant jurisdiction, provided that on the relevant Issue Date, the ETF was such an undertaking and any such cessation would have a material adverse effect on any investor in such ETF Interests as determined by the Determination Agent, in its reasonable discretion;
- (viii) (A) any relevant activities of or in relation to the ETF or any ETF Service Provider are or become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any present or future law, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power, or in the interpretation thereof, in any applicable jurisdiction (including, but not limited to, any cancellation, suspension or revocation of the registration or approval of the ETF by any governmental, legal or regulatory entity with authority over the ETF), (B) a relevant authorisation or licence is revoked, lapses or is under review by a competent authority in respect of the ETF or the ETF Service Provider or new conditions are imposed, or existing conditions varied, with respect to any such authorisation or licence, (C) the ETF is required by a competent authority to redeem any ETF Interests, (D) any hedge provider is required by a competent authority or any other relevant entity to dispose of or compulsorily redeem any ETF Interests held in connection with any hedging arrangements relating to the Notes and/or (E) any change in the legal, tax, accounting or regulatory treatment of the ETF or any ETF Service Provider that is reasonably likely to have an adverse impact on the value of the ETF Interests or other activities or undertakings of the ETF or on the rights or remedies of any investor therein; or
- (ix) the value of any ETF Interest held by the Issuer and its Affiliates is greater than 10 per cent. of the aggregate net asset value of the relevant ETF (whether or not all of such holding results from hedging transactions entered into in connection with the Notes) and including, where the excess holding results from a reduction in the aggregate net asset value of the relevant ETF; and

For these purposes, **Successor ETF Interest** means, in respect of an Affected ETF Interest, (1) if specified in the applicable Final Terms, any Eligible ETF Interest; (2) if no Eligible ETF Interest is specified, the successor ETF Interest as determined by the Determination Agent, using commercially reasonable efforts, taking into account any factors which the Determination Agent determines to be relevant, including (but not limited to) the existence of other ETFs that are linked to the same underlying index or asset as the Affected ETF Interest, liquidity of the proposed successor ETF Interest, the prevailing market conditions at the time the Determination Agent makes its determination and the Issuer's hedging arrangements in

- (b) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula or other provisions for determining the Final Redemption Amount, any Interest Amount and/or the Relevant Underlying Value set out in the relevant Final Terms, the number of Underlying Shares or ETF Interests to which each Note relates, the number of Underlying Shares or ETF Interest comprised in a Basket, the amount and, in any case, any other variable relevant to the payment terms of the relevant Notes and/or any other adjustment (including without limitation, in relation to Share Basket Notes, Index Basket Notes or ETF Basket Notes, the cancellation of terms applicable in respect of any Underlying Shares, Index or ETF Interest, as the case may be, affected by the relevant Additional Disruption Event), to account for the economic effect on the Notes of such Additional Disruption Event (including adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes), which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24.8 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

The Fiscal Agent shall provide notice to the Noteholders of any such adjustment, giving summary details of the adjustment in accordance with Condition 24.8 (*Notices*), provided that any failure to give such notice shall not affect the validity of any such adjustment.
- (c) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to either:
 - (i) if "**Early Redemption Amount (Additional Disruption Event) – Fair Market Value Less Costs**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion.
 - (ii) if "**Early Redemption Amount (Additional Disruption Event) – Fair Market Value**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

changes), then, unless otherwise specified in the applicable Final Terms, references to that Relevant FX Benchmark shall be to the Relevant FX Benchmark as changed.

The Determination Agent will request each of the Reference Dealers to provide a firm quotation of its Specified Rate for a transaction where the amount of Reference Currency equals the Specified Amount. If four quotations are provided, the rate for a Rate Calculation Date will be the arithmetic mean of the Specified Rates, without regard to the Specified Rates having the highest and lowest value. If exactly three quotations are provided, the rate for a Rate Calculation Date will be the Specified Rate provided by the Reference Dealer that remains after disregarding the Specified Rates having the highest and lowest values. For this purpose, if more than one quotation has the same highest value or lowest value, then the Specified Rate of one of such quotations shall be disregarded. If exactly two quotations are provided, the rate for a Rate Calculation Date will be the arithmetic mean of the Specified Rates. If only one quotation is provided, the rate for a Rate Calculation Date will be the Specified Rate quoted by that Reference Dealer. The quotations used to determine the Spot Rate for a Rate Calculation Date will be determined in each case at the Specified Time on that Rate Calculation Date;

Hedge Positions means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Notes;

Increased Cost of Hedging means that the Issuer would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the Notes or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s) **provided that** any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging;

Price Materiality Percentage means the percentage specified as such in the applicable Final Terms;

Primary Rate means the rate determined using the Settlement Rate Option specified for such purpose in the applicable Final Terms;

Rate Calculation Date means any Valuation Date or Averaging Date (as defined in Conditions 10.1 (*Valuation Date*, *Interest Determination Date*, *Observation Date*, *Determination Date*) and 10.2 (*Averaging*), respectively);

Secondary Rate means the rate determined using the Settlement Rate Option specified for such purpose in the applicable Final Terms;

Settlement Currency means the currency specified as such in the applicable Final Terms;

Settlement Rate means the rate as determined by the Determination Agent, in its reasonable absolute discretion, in accordance with the applicable Final Terms and, where applicable shall be determined in accordance with Condition 11.2 (*Averaging*);

11. PROVISIONS RELATING TO INFLATION-LINKED NOTES

This Condition 11 (*Provisions Relating to Inflation-Linked Notes*) is applicable only in relation to Notes specified in the relevant Final Terms as being Inflation Linked Notes. The definitions set out in Condition 9.7 (*Definitions applicable to Equity-Linked Notes*) will also apply in relation to a Series of Inflation Linked Notes unless the context otherwise requires, or such term is defined otherwise herein, and for the purposes of this clause, the definition of Index under Condition 9.7 shall be deemed to include an Inflation Index.

11.1 Delay of Publication

If any level of an Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Notes (a **Relevant Level**) has not been published or announced by the day that is five Business Days prior to the next Specified Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date under the Notes or other relevant payment date as may be specified in the applicable Final Terms in relation to the Notes, the Determination Agent shall determine a Substitute Inflation Index Level (in place of such Relevant Level) in a commercially reasonable manner in its reasonable discretion. If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next Specified Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date as may be specified in the applicable Final Terms in relation to the Notes, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Condition 11.1 (*Delay of Publication*), will be the definitive level for that Reference Month.

11.2 Cessation of Publication

If a level for the Inflation Index has not been published or announced for two consecutive months or the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index then the Determination Agent shall determine a Successor Index (in lieu of any previously applicable Inflation Index) for the purposes of the Notes by using the following methodology:

- 11.2.1 If at any time a Successor Inflation Index has been designated by the Determination Agent pursuant to the terms and conditions of the Related Bond, such Successor Inflation Index shall be designated a "Successor Inflation Index" for the purposes of all subsequent Specified Interest Payment Dates or other relevant payment date as may be specified in the applicable Final Terms in relation to the Notes, notwithstanding that any other Successor Inflation Index may previously have been determined under Conditions 11.2.2, 11.2.3 or 11.2.4 below; or
- 11.2.2 If a Successor Inflation Index has not been determined under Condition 11.2.1 above and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Inflation Index Sponsor, and the Determination Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect; or
- 11.2.3 If a Successor Inflation Index has not been determined under Condition 11.2.1 or Condition 11.2.2 above, the Determination Agent shall ask five leading independent dealers to state what the replacement Index for the Inflation Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same Inflation Index, this Index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same Inflation Index, this Inflation Index will be deemed the "Successor Inflation Index". If fewer than three responses are received, the Determination Agent will proceed to Condition 11.2.4 below; or
- 11.2.4 If no Successor Inflation Index has been deemed under Conditions 11.2.1, 11.2.2 or 11.2.3 above by the fifth Business Day prior to the next Affected Payment Date the Determination Agent will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "Successor Inflation Index"; or
- 11.2.5 If the Determination Agent determines that there is no appropriate alternative index, the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to either:
- (i) if "Early Redemption Amount (Inflation Index Cessation) - Fair Market Value Less Costs" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
 - (ii) if "Early Redemption Amount (Inflation Index Cessation) - Fair Market Value" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

11.3 *Rebasing of the Inflation Index*

If the Determination Agent determines that an Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the **Rebased Index**) will be used for purposes of determining the level of such Index from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the Determination Agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Determination Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

11.4 *Material Modification Prior to Payment Date*

If, on or prior to the day that is five Business Days before an Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Notes, an Inflation Index Sponsor announces that it will make a material change to an Inflation Index then the Determination Agent shall make any such adjustments to the Inflation Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

11.5 *Manifest Error in Publication*

If, within thirty days of publication and prior to the redemption of the Notes or payments in respect of any relevant Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Notes, the Determination Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Determination Agent will notify the holders of the Notes in accordance with Condition 24 (*Notices*) of (i) that correction, (ii) the adjusted amount that is then payable under the Notes as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction, provided that any amount payable pursuant to sub-paragraph (ii) above shall be paid (with no interest accruing thereon) (a) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which the Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Notes has occurred, within 15 Business Days after notice of such amount payable by the Determination Agent, (b) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which the Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Notes has not occurred, as an adjustment to the payment obligation on the next Specified Interest Payment Date or (c) if there is no further Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date in relation to the Notes, within 15 Business Days after notice of such amount payable by the Determination Agent.

11.6 *Index Level Adjustment Correction*

In relation to any Inflation Index, as specified in the Final Terms, either (i) the first publication or announcement of the level of the Inflation Index (disregarding estimates) by the relevant Inflation Index Sponsor for any Reference Month shall be final and conclusive and, subject to this Condition 11, later revisions to the level of the Inflation Index for such Reference Month will not be used in any calculations; or (ii) the first publication or announcement of a level of the Inflation Index (disregarding estimates) published by the relevant Index Sponsor or, if revised, any subsequent revision of such level for a Reference Month shall be final and conclusive for such Reference Month, provided that such revisions are published or announced up to and including the day that is two Business Days prior to any relevant Interest Payment Date, Maturity Date or any other payment in respect of the Notes. The Issuer shall give notice to Noteholders of Inflation Linked Notes of any

valid revision in accordance with Condition 24 (*Notices*) within 15 Business Days of the publication or announcement of such revision.

11.7 *Additional Disruption Events:*

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its reasonable discretion, determine whether or not the relevant Notes shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to any variable relevant to the redemption or payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.
- (c) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to
 - (i) if "**Early Redemption Amount (Additional Disruption Event) – Fair Market Value Less Costs**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion; or
 - (ii) if "**Early Redemption Amount (Additional Disruption Event) – Fair Market Value**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.
- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Determination Agent of the occurrence of an Additional Disruption Event.

11.8 *Definitions Applicable to Inflation-Linked Notes*

In relation to Inflation Linked Notes, the following expressions have the meanings set out below:

Additional Disruption Event means, with respect to any Series of Inflation-Linked Notes, such Change in Law, Hedging Disruption or Increased Cost of Hedging as specified as applicable in the applicable Final Terms.

Affected Payment Date means each Interest Payment Date, Automatic Early Redemption Date, Maturity Date or other relevant payment date as may be specified in the applicable Final Terms in relation to the Notes in respect of which an Inflation Index has not been published or announced;

Change in Law means that, on or after the Trade Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the

promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (x) it has become illegal to hold, acquire or dispose of Hedge Positions or (y) it will incur a materially increased cost in performing its obligations with respect to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

Fallback Bond means an inflation linked bond selected by the Determination Agent and issued by the government of a country to whose level of inflation the Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same date as the Maturity Date, or (b) if no such bond as described in (a) can be determined, the next longest maturity after the Maturity Date, or (c) if no such bond as described in either (a) or (b) can be determined, the next shortest maturity before the Maturity Date. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Determination Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Determination Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Settlement Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Determination Agent from those bonds. If the Fallback Bond redeems the Determination Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

Hedge Positions means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Notes;

Hedging Disruption means that the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations under the Notes, or (B) realise, recover or remit the proceeds of any such transactions or asset(s);

Increased Cost of Hedging means that the Issuer would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the Notes or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s) provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging;

Inflation Index means any index specified as such in the applicable Final Terms;

Inflation Index Sponsor means, in respect of an Inflation Index, the entity specified as such in the relevant Final Terms or, if no entity is specified, the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index;

Reference Month means the calendar month for which the level of the relevant Inflation Index was reported, regardless of when this information is published or announced, and, where such Reference Month is relevant to determine the Relevant Underlying Value (as defined in the Additional Terms and Conditions) on any Interest Determination Date, Barrier Observation Date (as defined in the Additional Terms and Conditions) or Automatic Early Redemption Valuation Date or Determination Date (as defined in the Additional Terms and Conditions), means the Reference Month specified in respect of each such date. If the period for which the Inflation Index level was reported is a period

other than a month, the Reference Month will be the period for which the Inflation Index level was reported;

Related Bond means the bond specified in the applicable Final Terms, or if no bond is so specified, the Fallback Bond. If the Related Bond is "Fallback Bond", then for any Related Bond determination under these Conditions, the Determination Agent shall use the Fallback Bond (as that is defined in this Condition 11.7 (*Additional Disruption Events*) herein). If no bond is specified in the applicable Final Terms as the Related Bond and "Fallback Bond: Not applicable" is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms, and that bond redeems or matures before the relevant Maturity Date, unless "Fallback Bond: Not applicable" is specified in the applicable Final Terms, the Determination Agent shall use the Fallback Bond for any Related Bond determination;

Substitute Inflation Index Level means an Inflation Index level, determined by the Determination Agent pursuant to the provisions of Condition 11.1 (*Delay of Publication*), in respect of an Affected Payment Date; and

Successor Inflation Index has the meaning specified in Condition 11.2 (*Cessation of Publication*).

12. PROVISIONS RELATING TO FUND-LINKED NOTES

This Condition 12 (*Provisions relating to Fund-Linked Notes*) shall apply only to Notes specified in the applicable Final Terms as being Single Fund-Linked Notes or Fund Basket-Linked Notes.

12.1 *Market Disruption, Reference Dates and Averaging Dates*

- (a) The Determination Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence or continuance of a Disrupted Day, would have been a Reference Date.
- (b) If any Reference Date is a Disrupted Day, then:
 - (i) in the case of Single Fund Notes, the relevant Reference Date shall be the next succeeding Fund Business Day that is not in the determination of the Determination Agent a Disrupted Day, unless no Fund Business Day that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for the Fund Interest as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner; or
 - (ii) in the case of Fund Basket Notes:
 - (A) where "Individual Fund Business Days and Individual Disrupted Days" is specified to be applicable in the relevant Final Terms, if the Determination Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:
 - (1) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and
 - (2) the Reference Date for any Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an **Affected Basket Component**) shall be the first Fund Business Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such

Affected Basket Component, unless no Fund Business Day that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for that Fund Interest as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner;

- (B) where “Common Fund Business Days and Common Disrupted Days” is specified to be applicable in the relevant Final Terms, then if the Determination Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, the Reference Date for each such Basket Component shall be the first Common Fund Business Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of any Basket Component, unless no Common Fund Business Day that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for that Fund Interest as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner;
- (C) where “Common Fund Business Days and Individual Disrupted Days” is specified to be applicable in the relevant Final Terms, if the Determination Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:
 - (aa) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and
 - (bb) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an **Affected Basket Component**) shall be the first Fund Business Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component, unless no Fund Business Day for such Basket Component that is not a Disrupted Day has occurred prior to the last Fund Business Day of one Cut-off Period following the Scheduled Reference Date. In that case, (i) the last Fund Business Day of such Cut-off Period shall be deemed to be the Reference Date, notwithstanding the fact that such Fund Business Day is a Disrupted Day, and (ii) the Determination Agent shall determine its estimate of the value for that Fund Interest as of the Valuation Time on that deemed Reference Date, acting in good faith and a commercially reasonable manner;

In addition, the Determination Agent will account for such occurrence or continuance of a Disrupted Day as it sees fit which may include but is not limited to delaying calculation and payment of the Final Redemption Amount and/or any other amounts payable under the Notes, and no interest or other amount shall be payable to Noteholders in respect of any such delay, or making the appropriate adjustment to the

calculation of the Final Redemption Amount and/or any such other amounts, all in the determination of the Determination Agent.

- (c) If Averaging Dates are specified in the applicable Final Terms with respect to a Reference Date then, notwithstanding any other provisions of the Conditions, the following provisions will apply to the valuation of the relevant Fund Interest or Basket of Fund Interests in relation to the relevant Reference Date:
- (i) If, in respect of Single Fund Notes, any Averaging Date in respect of a Reference Date is a Disrupted Day, then the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (2) the Determination Agent shall determine its estimate of the value for the Fund Interest as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner; and,
 - (ii) If, in the case of Fund Basket Notes, a Scheduled Averaging Date in respect of a Reference Date is determined by the Determination Agent to be a Disrupted Day in respect of any Basket Component, then:
 - (A) where "Individual Fund Business Days and Individual Disrupted Days" is specified to be applicable in the relevant Final Terms:
 - (1) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (2) the Averaging Date for each Basket Component in respect of which the final Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the first succeeding Valid Date in relation to such Fund Interest. If the first succeeding Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date notwithstanding the fact that such day may not be a Valid Date), and (2) the Determination Agent shall determine its estimate of the value for that Fund Interest as of the Valuation Time on that deemed Averaging Date acting in good faith and a commercially reasonable manner ;
 - (B) in the case of where "Common Fund Business Days and Common Disrupted Days" is specified to be applicable in the relevant Final Terms, then the Averaging Date for each Basket Component shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date and notwithstanding the fact that such day may not be a Common Valid Date), and (2) the Determination Agent shall determine its

estimate of the value for that Fund Interest as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner;

- (C) where "Common Fund Business Days and Individual Disrupted Days" is specified to be applicable in the relevant Final Terms:
- (1) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (2) the Averaging Date for each Basket Component in respect of which the final Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) first succeeding Valid Date in relation to such Fund Interest. If the first succeeding Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Reference Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date and notwithstanding the fact that such day may not be a Valid Date), and (2) the Determination Agent shall determine its estimate of the value for that Fund Interest as of the Valuation Time on that deemed Averaging Date, acting in good faith and a commercially reasonable manner;

In addition, the Determination Agent will account for such occurrence or continuance of a Disrupted Day as it sees fit which may include but is not limited to delaying calculation and payment of the Final Redemption Amount and/or any other amounts payable under the Notes, and no interest or other amount shall be payable to Noteholders in respect of any such delay, or making the appropriate adjustment to the calculation of the Final Redemption Amount and/or any such other amounts, all in the determination of the Determination Agent.

12.2 *Postponement of Settlement*

- 12.2.1 If the Determination Agent determines on the date which is not later than 3 Business Days (or such other period specified for this purpose in the applicable Final Terms (the **Settlement Determination Period**)) prior to any date on which the Final Redemption Amount, Interest Amount or any other amounts would otherwise be due to be paid (each a **Scheduled Settlement Date**) that a Settlement Postponement Event has occurred, then the Determination Agent shall make such adjustment to account for such Settlement Postponement Event and such adjustment shall include the postponement of the obligation of the Issuer to pay the Final Redemption Amount or any such other amounts, as applicable, until the Postponed Settlement Date and no interest or other amount shall be payable to Noteholders in respect of such postponement.
- 12.2.2 If the Postponed Settlement Date is the Postponed Settlement Long Stop Date, for the purposes of determining the Final Redemption Amount or any other relevant amounts, as applicable, whether determined by reference to the Reference Price or otherwise, each Fund Interest Unit will be deemed to have a value equal to the redemption proceeds (if any) that a Hypothetical Investor which had submitted a Final Redemption Notice in respect of such Fund Interest Unit would have received in respect of such redemption on or before the Postponed Settlement Long Stop Date (in the case of Single Fund Notes) or each Long Stop Date Fund Interest Unit (if any) comprising the Basket of Funds will be deemed to have a

value equal to the redemption proceeds (if any) that a Hypothetical Investor which had submitted a Final Redemption Notice in respect of such Long Stop Date Fund Interest Unit would have received in respect of such redemption on or before the Postponed Settlement Long Stop Date.

12.2.3 *For the purposes hereof:*

- (a) a **Settlement Postponement Event** shall be deemed to occur if, as determined by the Determination Agent, a Hypothetical Investor which had submitted a Final Redemption Notice in respect of the Fund Interest Units (in the case of a Single Fund Note) or each Fund Interest Unit comprised in the Basket of Funds (in the case of a Fund Basket Note) would not have received in full the redemption proceeds in respect of such redemptions on or before the date which is 4 Business Days prior to the Scheduled Settlement Date;
- (b) the **Postponed Settlement Date** means, unless otherwise specified in the applicable Final Terms, the earlier of (x) the date which is 3 Business Days after the date on which, as determined by the Determination Agent, such Hypothetical Investor would have received such redemption proceeds in full and (y) the Postponed Settlement Long Stop Date;

12.4 *Corrections and Adjustment*

With the exception of any Adjustments (as defined below) made after the day which is 5 Business Days (or such other period specified for this purpose in the applicable Final Terms (the **Adjustment Determination Period**)) prior to a due date for any payment under the Notes calculated by reference to the price or level of any Fund Interest Unit, if the Determination Agent determines that a Fund adjusts the Redemption Proceeds that would have been paid to a Hypothetical Investor redeeming the number of Fund Interest Units that are subject to valuation and such adjustment would be reflected in

either an additional payment to such Hypothetical Investor or a claim for repayment of excess Redemption Proceeds made against such Hypothetical Investor (each an **Adjustment**), then the price or level to be used shall be the price or level of the relevant Fund Interest Units as so adjusted.

12.5 *Fund Events*

12.5.1 If at any time the Determination Agent determines that a Fund Event has occurred and/or is continuing then the Determination Agent shall provide written notice thereof to the Issuer (a **Fund Event Notice**). - (a) to substitute any Affected Fund Interest with the Successor Fund Interest relating to such Affected Fund Interest, provided that if no Successor Fund Interest has been identified in the manner set forth below within 10 Business Days of the Fund Event Notice, then sub-paragraph (ii) below shall apply; or
- (b) to make such adjustment to account for such Fund Event as it considers appropriate which may include, without limitation, delaying the calculation and payment of the Redemption Amount and/or any such other amounts payable under the Notes, and no interest or other amount shall be payable to Noteholders in respect of any such delay, or making an adjustment to the calculation of the Redemption Amount and/or any such other amounts due under the Notes, all in the determination of the Determination Agent, acting in good faith and a commercially reasonable manner. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24.6 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

- (a) **Successor Fund Interest** means, in respect of any Affected Fund Interest, the related Eligible Fund Interest or, if the applicable Final Terms do not specify any Eligible Fund Interest relating to such Affected Fund Interest, then the Determination Agent will use commercially reasonable efforts to identify a Successor Fund Interest based on the eligibility criteria specified in the applicable Final Terms or, if the applicable Final Terms do not specify any such eligibility criteria, with characteristics, investment objectives and policies similar to those in effect for the Affected Fund Interest immediately prior to the occurrence of the relevant Fund Event; and
- (b) any substitution of the Successor Fund Interest for the Affected Fund Interest shall be effected at such time and in such manner as specified in the applicable Final Terms or, if the time and manner for substitution of the Successor Fund Interest is not specified in the applicable Final Terms, then the Affected Fund Interest shall be replaced by a number of Fund Interest Units of the Successor Fund Interest with a combined value (as determined by the Determination Agent) equal to the relevant Removal Value of the applicable number of Fund Interest Units of the Affected Fund Interest. Such replacement shall be effected, from time to time whenever the Removal

Value changes, on the date, as determined by the Determination Agent, on which the Fund issuing the Successor Fund Interest would admit a Hypothetical Investor who, on the Fund Business Day next following the date on which any Removal Value not previously applied toward any Successor Fund Interest would be received by such Hypothetical Investor redeeming out of the relevant amount of Affected Fund Interest, had submitted a valid order to purchase such amount of the Successor Fund Interest; and

- (c) if necessary, the Determination Agent will adjust any relevant terms, including, but not limited to adjustments to account for changes in volatility, investment strategy or liquidity relevant to such Fund Interests or the Notes.

12.5.4 If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall redeem each Note at either its Fund-Linked Early Redemption Amount – Fair Market Value Less Costs or its Fund-Linked Early Redemption Amount – Fair Market Value, as specified in the applicable Final Terms, on such date as the Issuer may notify to Noteholders in accordance with Condition 24 (*Notices*), provided that not less than 10 Business Days' notice of such date is given to Noteholders.

12.6 *Notice of Fund Event*

Notice of the consequences of a Fund Event shall be given to the Noteholders in accordance with Condition 24 (*Notices*) within 10 Business Days of the consequences of a Fund Event having been determined. Such notice shall (i) identify the Affected Fund Interest (if applicable) and the relevant Fund Event and contain a summary of the facts constituting such event, (ii) if applicable, identify the Successor Fund Interest and specify the effective date of such substitution, (iii) if applicable, specify adjustments made or expected to be made by the Determination Agent and (iv) if applicable, specify the date on which the Notes are to be redeemed.

 - (i) the relevant Reference Date shall be the earlier of (i) the first succeeding Scheduled Trading Day that is not in the determination of the Determination Agent a Disrupted Day and (ii) the Reference Cut-Off Date (notwithstanding that such Scheduled Trading Day is a Disrupted Day).
 - (ii) in the case of a Futures Contract Basket-Linked Note:
 - (A) where “Individual Scheduled Trading Days and Individual Disrupted Days” is specified to be applicable in the relevant Final Terms, if any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:
 - (1) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and
 - (2) the Reference Date for any Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an **Affected Basket Component**) shall be the earlier of (A) the first Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component; and (B) the Reference Cut-Off Date for such Affected Basket Component (notwithstanding that such day may not be a Scheduled Trading Day).

(i) If, in respect of a Single Futures Contract-Linked Note, a Scheduled Averaging Date is determined by the Determination Agent to be a Disrupted Day, then if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is:

(A) Omission, then such date will be deemed not to be a relevant Averaging Date in respect of such Reference Date for the purposes of determining the Relevant Underlying Value, as applicable **provided that**, if through the operation of this provision no Averaging Date would occur with respect to the relevant Reference Date, then Condition 13.1(a) will apply for purposes of determining the Relevant Underlying Value on the final Averaging Date in respect of that Reference Date as if such final Averaging Date were a Reference Date that was a Disrupted Day;

- (B) Postponement, then Condition 13.1(a) will apply for the purposes of determining the Relevant Underlying Value on that date as if such date were a Reference Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date in respect of the Reference Date; or
 - (C) Modified Postponement, then the Averaging Date shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Date and (II) the Averaging Cut-Off Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date.

 - (2) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Postponement":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component.  - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Date in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;
- (B) where "Common Scheduled Trading Days and Common Disrupted Days" is specified to be applicable in the relevant Final Terms:
 - (1) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Omission", such date will be deemed not to be a relevant Averaging Date in respect of any Basket Component for the purposes of determining the Relevant Underlying Value, as applicable **provided that**, if through the operation of this provision there would be no Averaging Date in respect of such Reference Date, then the sole Averaging Date for each Basket Component shall be the earlier of (A) the first Common Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day for any Basket Component and (B) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day);

 - (3) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Modified Postponement", then the Averaging Date for each Basket Component shall be the earlier of (A) the first Common Valid Date following the Scheduled Averaging Date and (II) the Averaging Cut-Off Date (notwithstanding the fact that such Averaging Cut-Off Date may not be a Common Scheduled Trading Day), irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;

- (C) where "Common Scheduled Trading Days and Individual Disrupted Days" is specified to be applicable in the relevant Final Terms:
- (1) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Omission":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) such date shall not be an Averaging Date in respect of such Reference Date for any Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**), provided that if through the operation of this provision there would not be any Averaging Date in respect of such Reference Date for the Affected Basket Component, then the sole Averaging Date for such Affected Basket Component shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day may not be a Common Scheduled Trading Day);

 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Cut-Off Date) determined to be an Averaging Date as a result of the operation of this Condition 1.1.1(i)(a)(i)(A)(b) shall be an Averaging Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date; or
 - (3) if, in relation to **Averaging Date Disruption**, the consequence specified in the relevant Final Terms is "Modified Postponement":
 - (a) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Date; and
 - (b) the Averaging Date for each Basket Component in respect of which the Scheduled Averaging Date is a Disrupted Day (each such Basket Component, an **Affected Basket Component**) shall be the earlier of (I) the first Valid Date (that is a Scheduled Trading Day) following the Scheduled Averaging Date in respect

of such Affected Basket Component and (II) the Averaging Cut-Off Date for such Affected Basket Component, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Date;

- (iii) If, in respect of any Single Futures Contract-Linked Notes or Futures Contract Basket-Linked Notes (as the case may be), an Averaging Date falls on the relevant Averaging Cut-Off Date pursuant to this Condition 9.1(b)(iii):

- (i) If the applicable Final Terms specify that the Benchmark Trigger Provisions are applicable and if an Alternative Pre-nominated Futures Contract has been specified in relation to such Futures Contract in the applicable Final Terms, then:
 - (A) the Determination Agent shall attempt to determine an Adjustment Payment;
 - (B) if the Determination Agent determines an Adjustment Payment,
 - (aa) it shall notify the Issuer of the Adjustment Payment and if the Adjustment Payment is an amount that the Noteholder would (but for Condition 13.2(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Note, request the Issuer to notify the Determination Agent whether it intends to redeem the Notes pursuant to Condition 13.4(ii). If the Issuer does not intend to redeem the Notes pursuant to Condition 13.4(ii) then the following provisions of this Condition 13.2(i) shall apply;

- (bb) the terms of the Notes shall be amended so that references to the Futures Contract are replaced by references to the Alternative Pre-nominated Futures Contract;
 - (cc) the Conditions shall be adjusted to implement the Adjustment Payment as follows:
 - a. if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Note, the Determination Agent shall adjust the Conditions to provide for the payment of the Adjustment Payment on the immediately succeeding Interest Payment Date or if there is no such immediately succeeding Interest Payment Date, on the Maturity Date or other date when the Notes are redeemed in full; or
 - b. if the Adjustment Payment is an amount that the Noteholder would (but for this Condition 13.2(i)(B)(cc)(b)) be required to pay to the Issuer in respect of each Note, the Determination Agent shall adjust the Conditions to provide for the reduction of the amounts due by the Issuer until the aggregate amount of such reductions is equal to the Adjustment Payment, (subject, in the determination of the Determination Agent, to any minimum redemption amount of the Notes which the Determination Agent determines is required pursuant to any applicable law or regulation (including, without limitation, any tax law) and the rules of each listing authority, stock exchange and/or quotation system by which the Notes have then been admitted to listing, trading and/or quotation);
 - (dd) the Determination Agent shall make such other adjustments to the Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of the Futures Contract with the Alternative Pre-nominated Futures Contract and/or to preserve as nearly as practicable the economic equivalence of the Notes before and after the replacement of the Futures Contract with the Alternative Pre-nominated Futures Contract; and
 - (ee) the Determination Agent shall notify the Issuer and the Fiscal Agent of any the replacement of the Futures Contract by the Alternative Pre-nominated Futures Contract, the Adjustment Payment and any other adjustments to the Conditions. - (C) If the Determination Agent is unable to determine an Adjustment Payment then Condition 13.4(ii) shall apply.
- (ii) If the applicable Final Terms do not specify that the Benchmark Trigger Provisions are applicable or, if the Final Terms specify that the Benchmark Trigger Provisions are applicable but do not specify an Alternative Pre-nominated Futures Contract in relation to the relevant Futures Contract, then Condition 13.4(ii) shall apply.
 - (iii) If it (A) is or would be unlawful at any time under any applicable law or regulation or (B) would contravene any applicable licensing requirements, in each case for the Issuer,

the Determination Agent or the Calculation Agent to perform the actions prescribed in this Condition 13.2 (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time), then Condition 13.4(ii) shall apply.

- (B) substitute such Futures Contract with a new Futures Contract selected by the Determination Agent (which shall be a replacement futures contract using, in the determination of the Determination Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the Futures Contract or a replacement futures contract selected by the Determination Agent in accordance with any other criteria specified in the applicable Final Terms) and make such adjustments (if any) to the Conditions and/or the applicable Final Terms as it deems necessary or appropriate in relation to such substitution. Such new futures contract shall be deemed to be a Futures Contract in place of the Futures Contract the subject of the Futures Contract Adjustment Event .

If the Determination Agent determines that no calculation, adjustment and/or substitution can reasonably be made pursuant to the above, paragraph (ii) shall apply.

- (5) it (a) would be unlawful at any time under any applicable law or regulation or (b) would contravene any applicable licensing requirements, in each case for the Determination Agent to calculate the Relevant Underlying Value in accordance with Condition 13.4(i); or

- (B) any Futures Contract Adjustment Event (other than a Disappearance of Futures Contract or Settlement Price) occurs and the Determination Agent determines that no calculation, adjustment and/or substitution can reasonably be made pursuant to Condition 13.4(i),

then the Issuer may, at any time thereafter and in its reasonable discretion, determine that the Notes shall be redeemed as of any later date. If the Issuer so determines that the Notes shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Noteholders to redeem the Notes and upon redemption the Issuer will pay in respect of each Note an amount equal to either:

The Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount.

If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula and other provisions for determining the Final Redemption Amount, any Interest Amount or the Relevant Underlying Value (as defined in the Additional Terms and Conditions) set out in these Conditions and such provisions of the Additional Terms and Conditions as are specified as being applicable in the applicable Final Terms and any other variable relevant to the settlement or payment terms of the Notes, which change or adjustment shall be effective on such date as the Determination Agent shall determine. If any settlement price announced by the Futures Contract Sponsor or published by the Exchange and which is utilised by the Determination Agent for any calculation or determination (the **Original Determination**) under the Notes is subsequently corrected and the correction (the **Corrected Value**) is published by the Futures Contract Sponsor by such time (the **Correction Cut Off Time**) as may be specified in the relevant Final Terms (or, if none is so specified, at least 5 Business Days prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Early Redemption Date or Maturity Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the **Replacement Determination**) using the Corrected Value. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 22.8 (*Notices*) giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its reasonable discretion, determine whether or not the relevant Notes shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion, considers appropriate, if any, to the formula or other provisions for determining the Final Redemption Amount, any Interest Amount and/or the Relevant Underlying Value set out in the relevant Final Terms, the amount and, in any case, any other variable relevant to the payment terms of the relevant Notes and/or any other adjustment (including without limitation, in relation to Futures Contract Basked-Linked Notes, the cancellation of terms applicable in respect of any Futures Contracts affected by the relevant Additional Disruption Event), to account for the economic effect on the Notes of such Additional Disruption Event, which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Fiscal Agent shall provide notice to the Noteholders of any such adjustment in accordance with Condition 24.8 (*Notices*), giving summary details of the adjustment, provided that any failure to give such notice shall not affect the validity of any such adjustment.

 - (i) if "**Early Redemption Amount (Additional Disruption Event) – Fair Market Value Less Costs**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its reasonable discretion.
 - (ii) if "**Early Redemption Amount (Additional Disruption Event) – Fair Market Value**" is specified in the Final Terms, the fair market value of such Note, on such day as is selected by the Determination Agent in its reasonable discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), as calculated by the Determination Agent in its reasonable discretion.

Payments of principal and interest in respect of Notes shall (in the case of Notes in bearer dematerialised form or administered registered form) be made by transfer to the account (denominated in the relevant currency) of the relevant Euroclear France Account Holders for the benefit of the Noteholders and (in the case of Notes in fully registered form) to accounts (denominated in the relevant currency) with a Bank designated by the Noteholders. All payments validly made to such accounts of such Euroclear France Account Holders or Noteholders will be an effective discharge of the Issuer in respect of such payments.

If the date for payment of any amount in respect of any Note is not a Payment Business Day, the holder thereof shall instead be entitled to payment: (i) on the next following Payment Business Day in the relevant place, if "Following Payment Business Day" is specified in the applicable Final Terms; or (ii) on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place, if "Modified Following Payment Business Day" is specified in the applicable Final Terms; provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that any adjustment is made to the date for payment in accordance with this Condition 16 (*Payments*), the relevant amount due in respect of any Note shall not be affected by any such adjustment. For these purposes, unless otherwise specified in the applicable Final Terms, Payment Business Day means a day (other than a Saturday or a Sunday) (A) on which Euroclear France is open for business, (B) in such jurisdictions as shall be specified as Additional Business Centres in the relevant Final Terms and (C) (i) in the case of a payment in euro, on which the TARGET2 system is open or (ii) in the case of a payment in a currency other than euro, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency.

16.2 *Unavailability of Currency.*

If the Specified Currency is not available to the Issuer for making payments of principal of, and premium, interest and/or additional amounts, if any, on any Note (whether due to the imposition of exchange controls or other circumstances beyond the control of the Issuer, or if the Specified Currency is no longer used by the government of the country issuing that currency or by public institutions within the international banking community for the settlement of transactions), the Issuer may satisfy its obligations to Noteholders by making payments on the date of payment in U.S. Dollars on the basis of the prevailing exchange rate on the date of the payment or of the most recent

practicable date, such rate being based on the highest bid quotation in The City of New York received by the Exchange Rate Agent at approximately 11:00 a.m., New York City time, on the second Business Day preceding the applicable payment date from three recognised foreign exchange dealers for the purchase by the quoting dealer:

16.2.1 of the Specified Currency for U.S. Dollars for settlement on the payment date;

16.2.2 in the aggregate amount of the Specified Currency payable to those holders or beneficial owners of Notes; and

16.2.3 at which the applicable dealer commits to execute a contract.

If those bid quotations are not available, the Exchange Rate Agent will determine the Market Exchange Rate at its reasonable discretion. All determinations by the Exchange Rate Agent will, in the absence of manifest error, be conclusive for all purposes and binding on the Issuer, the Guarantor (if applicable) and the Noteholders. The Exchange Rate Agent will be Morgan Stanley & Co. International plc, unless otherwise noted in the applicable Final Terms. If the Exchange Rate Agent is not an affiliate of Morgan Stanley, it may be one of the dealers providing quotations.

Any payment made in U.S. Dollars on the basis of the prevailing exchange rate where the required payment is in an unavailable Specified Currency will not constitute an Event of Default.

The foregoing provisions do not apply if a Specified Currency is unavailable because it has been replaced by the euro. If the euro has been substituted for a Specified Currency, the Issuer may (or will, if required by applicable law) without the consent of the holders of the affected Notes, pay the principal of, premium, if any, or interest, if any, on any Note denominated in the Specified Currency in euro instead of the Specified Currency, in conformity with legally applicable measures taken pursuant to, or by virtue of, the Treaty. Any payment made in U.S. Dollars or in euro as described above where the required payment is in an unavailable Specified Currency will not constitute an Event of Default.

17. TAXATION

17.1 *Withholding tax:* All payments of principal and interest by the Issuers and the Guarantor in respect of the Notes shall be made free and clear of, and without withholding or deduction for any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied collected, withheld or assessed by any jurisdiction or any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law or agreement with such taxing authority.

17.2 *No gross-up:* None of the Issuer or the Guarantor shall be required to make any additional payments on account of any such withholding or deduction.

17.3 *Implementation of Financial Transaction Tax:* If **Implementation of Financial Transaction Tax Event** is specified in the applicable Final Terms to be applicable to any Series of Notes, then upon the occurrence of an Implementation of Financial Transaction Tax Event, the Issuer may (i) in its reasonable discretion, with immediate effect amend the Conditions of the Notes by adjusting downward any amount payable and/or any other value or term of the Conditions to account for the economic impact of the Implementation of Financial Transaction Tax on the Issuer and its Affiliates in relation to the Notes, and (ii) to the extent that at any time thereafter the Issuer determines (acting in good faith and in a commercially reasonable manner) that it (including its Affiliates) has incurred additional loss as a result of the Implementation of Financial Transaction Tax Event that has not been accounted for through the adjustment made pursuant to sub-paragraph (i) (such amount, **Additional Increased Tax**), it may reduce the amount otherwise payable on the Notes on the next payment date

(and any payment date thereafter) by an amount up to the Additional Increased Tax amount. Any such adjustments shall be notified to Noteholders as soon as reasonably practicable and in any event within 15 Business Days of such adjustments having been made. If an event or circumstance which would otherwise constitute a Change in Law or Increased Cost of Hedging (where applicable) also constitutes an Implementation of Financial Transaction Tax Event, it will be treated as an Implementation of Financial Transaction Tax Event.

18. EVENTS OF DEFAULT

If any of the following events (each, an **Event of Default**) occurs and is continuing:

- 18.1 *Non-payment:* in the case of Morgan Stanley Notes, Morgan Stanley or, in the case of MSIP Notes, MSIP or, in the case of MSBV Notes, either MSBV or the Guarantor fails to pay any amount of principal in respect of the Notes within thirty days of the due date for payment thereof or fails to pay any amount of interest in respect of the Notes within thirty days of the due date for payment thereof; or
- 18.2 *Insolvency, etc.:* (i) the Issuer becomes insolvent or is unable to pay its debts as they fall due, (ii) an administrator or liquidator of the Issuer or the whole or a substantial part of the undertaking, assets and revenues of the Issuer is appointed (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), (iii) the Issuer takes any action for a composition with or for the benefit of its creditors generally, or (iv) an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent) and, such order or effective resolution has remained in force and has not been rescinded, revoked or set aside for sixty days after the date on which such order is made or effective resolution is passed,

then Noteholders of not less than 25 per cent. in aggregate principal amount of the Notes may, by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, declare the Notes to be immediately due and payable, whereupon they shall become so due and payable at their Early Redemption Amount without further action or formality. Notice of any such declaration shall promptly, and in any event not more than 10 Business Days after such declaration is made, be given to the Noteholders.

In the case of MSBV Notes, nothing herein contained shall be deemed to authorise any Noteholder to exercise any remedy against the Issuer or the Guarantor solely as a result of, or because it is related directly or indirectly to, the insolvency of the Guarantor or the commencement of any proceedings relative to the Guarantor under Title 11 of the United States Bankruptcy Code, or the appointment of a receiver for the Guarantor under Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 or the commencement of any other applicable federal or state bankruptcy, insolvency, resolution or other similar law, or solely as a result of, or because it is related directly or indirectly to, a receiver, assignee or trustee in bankruptcy or reorganization, liquidator, sequestrator or similar official having been appointed for or having taken possession of the Guarantor or its property, or solely as a result of, or because it is related directly or indirectly to, the institution of any other comparable judicial or regulatory proceedings relative to the Guarantor, or to the creditors or property of the Guarantor. Notwithstanding the foregoing, Noteholders are authorised to exercise any remedy against the relevant Issuer as a result of an Event of Default described in Condition 18.2.

19. ILLEGALITY AND REGULATORY EVENT

- 19.1 The Issuer shall have the right to redeem the Notes early (at the amount specified in the applicable Final Terms), if it shall have determined that:
- (a) its performance thereunder, or, if applicable, the Guarantor's performance of its obligation under the Guarantee, shall have become or will be unlawful in whole or in part as a result of compliance

in good faith by the Issuer, or, if applicable, the Guarantor, with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power (**applicable law**) (an **Illegality Event**); or

(b) in respect of Notes issued by MSBV only, a Regulatory Event has occurred.

19.2 Subject to the conditions set out in Condition 19.1 above, if the Issuer determines that the Notes shall be redeemed early in accordance with this Condition 19, the Issuer shall give not less than five Business Days' notice to the Noteholders informing them that either an Illegality Event or, in respect of Notes issued by MSBV only, a Regulatory Event, as applicable, has occurred, as a result of which the Notes shall be redeemed early on the date specified for redemption in such notice. In such circumstances the Issuer will, if and to the extent permitted by applicable law, pay to each Noteholder in respect of each Note held by such Noteholder an amount determined by the Determination Agent, in reasonable discretion, as representing either:

- (i) the fair market value of such Note immediately prior to such redemption (ignoring such Illegality Event or Regulatory Event) less the cost to the Issuer (or its Affiliates) of, or the loss realised by the Issuer (or its Affiliates) on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its reasonable discretion, if "Early Redemption Amount (Illegality and Regulatory Event) – Fair Market Value Less Costs" is specified in the Final Terms;
- (ii) the fair market value of such Note immediately prior to such redemption (ignoring such Illegality Event or Regulatory Event), if "Early Redemption Amount (Illegality and Regulatory Event) – Fair Market Value" is specified in the Final Terms; or
- (iii) the Calculation Amount of such Note, if "Early Redemption Amount (Illegality and Regulatory Event) – Par" is specified in the Final Terms.

19.3 The Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of the amount determined by the Determination Agent to be payable in accordance with the provisions above, based on the elections made in the applicable Final Terms.

19.4 The Issuer shall also, as soon as reasonably practicable under the circumstances and in any event within 15 Business Days of such event occurring, notify the Fiscal Agent and the Determination Agent of the occurrence of an Illegality Event or, in respect of Notes issued by MSBV only, a Regulatory Event, as applicable.

20. PRESCRIPTION

Claims for payment in respect of Notes issued by an Issuer shall be prescribed and become void unless made within ten (10) years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

21. AGENTS

21.1 In acting under the Agency Agreement and in connection with the Notes, the Agents act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders. All calculation and determination functions required of the relevant Agent may be delegated to such persons as the relevant Agent may decide and all notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the Notes by the Agents or the Issuer shall (in the absence of manifest error or wilful misconduct) be binding on the Issuer and the Noteholders and (subject as aforesaid) no liability to the Noteholders (or any of them) shall attach to the Agents or the Issuer in connection with the exercise or non-exercise by any of them of their powers, duties and discretions for such purposes.

21.2 The initial Agents and their initial Specified Office are listed below on the inside back cover of this Base Prospectus. The initial Calculation Agent is the Fiscal Agent. The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint a successor Fiscal Agent or Calculation Agent and additional or successor paying agents; **provided, however, that:**

21.2.1 there shall at all times be a Fiscal Agent appointed in respect of the Notes;

21.2.2 if a Calculation Agent is specified in the applicable Final Terms, the Issuer shall at all times maintain a Calculation Agent; and

21.2.3 if and for so long as the Notes are admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent in any particular place, the Issuer shall maintain a Paying Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system

Notice of any change in any of the Paying Agents or in their Specified Offices shall promptly, and in any event not more than 15 Business Days after any such change has been confirmed, be given to the Noteholders in accordance with Condition 24 (*Notices*).

22. REPRESENTATION OF NOTEHOLDERS

The Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *Masse* (the **Masse**) which will be governed by the provisions of the French *Code de Commerce* with the exception of articles L. 228-71 and R. 228-79 of the French *Code de Commerce* subject to the following provisions:

22.1 Legal Personality

The Masse will be a separate legal entity and will act in part through a representative (the **Representative**) and in part through collective decisions of the Noteholders (the **Collective Decisions**).

The Masse alone, to the exclusion of all individual Noteholders, shall exercise the common rights, actions and benefits which now or in the future may accrue respectively with respect to the Notes.

22.2 Representative

The office of Representative may only be conferred to persons that are nationals of a Member State of the European Union or on persons domiciled in a Member State of the European Union, and associations and companies having their registered office therein. However, the following persons may not be chosen as Representatives:

- (i) the Issuer, the members of its Supervisory Board or Board of Directors, Management Board, its general manager, its statutory auditors, or its employees as well as their ascendants, descendants and spouse; or
- (ii) companies guaranteeing all or part of the obligations of the Issuer, their respective managers, general managers, members of their Supervisory Board or Board of Directors, Management Board, their statutory auditors, or employees as well as their ascendants, descendants and spouse; or
- (iii) companies holding 10 per cent. or more of the share capital of the Issuer or companies having 10 per cent. or more of their share capital held by the Issuer; or

- (iv) persons to whom the practice of banker is forbidden or who have been deprived of the right of directing, administering or managing an enterprise in whatever capacity.

The names and addresses of the initial Representative of the Masse will be set out in the relevant Final Terms. The Representative appointed in respect of the first Tranche of any Series of Notes will be the Representative of the single Masse of all Tranches in such Series.

The Representative will be entitled to such remuneration in connection with its functions or duties as set out in the relevant Final Terms.

In the event of death, liquidation (as the case may be), retirement or revocation of appointment of the Representative, such Representative will be replaced by another Representative. In the event of the death, liquidation (as the case may be), retirement or revocation of appointment of the alternate Representative, an alternate will be elected by the General Meeting.

All interested parties will at all times have the right to obtain the name and address of the Representative at the head office of the Issuer and the specified offices of any of the Paying Agents.

22.3 Powers of Representative

The Representative shall have the power to take all acts of management necessary in order to defend the common interests of the Noteholders.

All legal proceedings against the Noteholders or initiated by them, must be brought by or against the Representative.

The Representative may not be involved in the management of the affairs of the Issuer.

22.4 Collective Decisions

Collective Decisions are adopted either in a general meeting (the **General Meeting**) or by consent following a written consultation (the **Written Decision**).

In accordance with Articles R. 228-71 of the French *Code de commerce*, the rights of each Noteholder to participate in Collective Decisions will be evidenced by the entries in the books of the relevant Euroclear France Account Holder of the name of such Noteholder as of 0:00 Paris time, on the second (2nd) business day in Paris preceding the date set for the Collective Decision.

Collective Decisions must be published in accordance with Condition 22.10.

The Issuer shall hold a register of the Collective Decisions and shall make it available, upon request, to any subsequent holder of any of the Notes of such Series.

22.5 General Meeting

A General Meeting may be held at any time, on convocation either by the Issuer or by the Representative. One or more Noteholders, holding together at least one-30th of the principal amount of the Notes outstanding, may address to the Issuer and the Representative a demand for convocation of the General Meeting. If such General Meeting has not been convened within two months after such request, the Noteholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, hour, place and agenda of any General Meeting will be published as provided under Condition 22.10, not less than 15 calendar days prior to the date of the General Meeting on first convocation and not less than 5 calendar days prior to the date of the General Meeting on second convocation.

Each Noteholder has the right to participate in a General Meeting in person, by proxy or by correspondence. Each Note carries the right to one vote.

The General Meeting is empowered to deliberate on the dismissal and replacement of the Representative and the alternate Representative and to act with respect to any other matter that relates to the common rights, actions and benefits which may accrue now or in the future with respect to the Notes, including authorising the Representative to act (in legal proceedings) as plaintiff or defendant.

The General Meeting may further deliberate on any proposal relating to the modification of the Conditions including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions, it being specified, however, that the General Meeting may not increase amounts payable by Noteholders, nor establish any unequal treatment between the Noteholders, nor decide to convert Notes into shares.

General Meetings may deliberate validly on first convocation only if Noteholders present or represented hold at least a fifth of the principal amount of the Notes at such time outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a two-third majority of votes cast by Noteholders attending such General Meetings or represented thereat.

Each Noteholder or Representative thereof will have the right, during the 15 calendar days period preceding the holding of each General Meeting (on first convocation) or during the 5 calendar days (on second convocation), to consult or make a copy of the text of the resolutions which will be proposed and of the reports which will be presented at the General Meeting, all of which will be available for inspection by the relevant Noteholders at the principal office of the Issuer, at the specified offices of any of the Paying Agents and at any other place specified in the notice of the General Meeting.

22.6 Written Decision and Electronic Consent

At the initiative of the Issuer or the Representative, Collective Decisions may also be taken by a Written Decision.

Such Written Decision shall be signed by or on behalf of Noteholders holding not less than 66.67% of the Notes the relevant Series without having to comply with formalities and time limits referred to in Condition 22.10.

Any such Written Decision shall, for all purposes, have the same effect as a resolution passed at a General Meeting. Such Written Decision may be contained in one document or in several documents in like form each signed by or on behalf of one or more of such Noteholders and shall be published in accordance with Condition 22.10.

Pursuant to Article L.228-46-1 of the French *Code de commerce*, the Noteholders may also express their approval or rejection of the proposed Written Decision by way of electronic communication allowing the identification of Noteholders (the **Electronic Consent**).

22.7 Expenses

The Issuer will pay all expenses relating to the operation of the Masse, including expenses relating to the calling and holding of Collective Decisions and, more generally, all administrative expenses resolved upon by the Collective Decisions, it being expressly stipulated that no expenses may be imputed against interest payable under the Notes.

22.8 Single Masse

The holders of Notes of the same Series, and the holders of Notes of any other Series which have been assimilated with the Notes of another Series in accordance with Condition 23.1 (*Further Issues*), shall, for the defence of their respective common interests, be grouped in a single Masse. The Representative appointed in respect of the first Series of Notes issued will be the Representative of the single Masse of all such Series.

22.9 Single Noteholder

As long as the Notes are held by a single Noteholder, such Noteholder will exercise directly the powers delegated to the Representative and general meetings of Noteholders under the Conditions.

The Issuer (or its agent on its behalf) shall keep a record of the decisions taken by the sole Noteholder in such capacity, which shall be available, upon request, to any future Noteholders. A Representative shall be appointed when the Notes of a Series are held by more than one Noteholder.

22.10 Notices to Noteholders

Any notice to be given to Noteholders in accordance with this Condition 22.10 shall be given in accordance with Condition 24.5.

22.11 Full Masse

For Notes issued with a Specified Denomination of less than €100,000 (or its equivalent in any other currency), except if the Final Terms specify "Issue outside of France" as applicable, Condition 22.7 shall be deleted and replaced by the following:

"22.7 Expenses

The Issuer shall pay all expenses relating to the operations of the *Masse*, including all expenses relating to the calling and holding of Collective Decisions and, more generally, all administrative expenses resolved upon by Collective Decisions."

In this Condition 22, the expression "outstanding" (as defined in Condition 2) does not include the Notes subscribed or purchased by the Issuer and which are held by the Issuer and not cancelled.

23. FURTHER ISSUES AND CONSOLIDATION

23.1 Further Issues: Any of the Issuers may from time to time, without the consent of the Noteholders issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes.

23.2 Consolidation: Any of the Issuers, with the prior approval of the Fiscal Agent (which shall not be unreasonably withheld), may from time to time on any Interest Payment Date occurring on or after the Redenomination Date on giving not less than 15 Business Days' prior notice to the

Noteholders in accordance with Condition 24 (*Notices*), without the consent of the Noteholders, consolidate the Notes of one Series with the Notes of one or more other Series issued by it, whether or not originally issued in one of the European national currencies or in euro, provided such other Notes have been redenominated in Euro (if not originally denominated in euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

24. NOTICES

- 24.1 Notices to the holders of Notes in registered form (*au nominatif*) shall be valid if either, (i) they are mailed to them at their respective addresses, in which case they will be deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the mailing, or, (ii) at the option of the Issuer, as long as such Notes are listed and admitted to trading on Euronext Paris, they are published (a) in a daily leading newspaper of general circulation in France (which is expected to be *Les Echos*) or (b) in accordance with Articles 221-3 and 221-4 of the *Règlement Général* of the *Autorité des marchés financiers (AMF)* or (iii) so long as such Notes are listed and admitted to trading on any Regulated Market or other stock exchange and the rules of such Regulated Market or other stock exchange so require, in a leading daily newspaper with general circulation in the city where the Regulated Market or other stock exchange on which such Notes are listed and admitted to trading is located and on the website of any other competent authority or Regulated Market of the EEA Member State or Switzerland where the Notes are listed and admitted to trading.
- 24.2 Notices to the Noteholders in bearer form (*au porteur*) shall be valid if published (i) so long as such Notes are listed and admitted to trading on Euronext Paris, (a) in a leading daily newspaper of general circulation in France (which is expected to be *Les Echos*) or (b) in accordance with Articles 221-3 and 221-4 of the *Règlement Général* of the AMF or (ii) so long as such Notes are listed and admitted to trading on any Regulated Market or other stock exchange and the rules of such Regulated Market or other stock exchange so require, in a leading daily newspaper with general circulation in the city/ies where the Regulated Market(s) or other stock exchange(s) on which such Notes are listed and admitted to trading is located and on the website of any other competent authority or Regulated Market of the EEA Member State or Switzerland where the Notes are listed and admitted to trading.
- 24.3 If any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in Europe. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication.
- 24.4 Notices required to be given to the Noteholders (whether in registered or in bearer form) pursuant to these Conditions may be given by delivery of the relevant notice to Euroclear France, Euroclear, Clearstream and any other clearing system through which the Notes are for the time being cleared in substitution for the mailing and publication of a notice required by Conditions 24.1, 24.2 and 24.3 above; except that so long as the Notes are listed and admitted to trading on a Regulated Market or other stock exchange and the rules of such Regulated Market or other stock exchange so require, notices shall also be published in a leading daily newspaper of general circulation in the city where the Regulated Market or other stock exchange on which such Note(s) is/are listed and admitted to trading is located.
- 24.5 Notices relating to the convocation and decision(s) of the Collective Decisions pursuant to Condition 22, as well as any decision of the Issuer pursuant to Article R. 228-79 of the French *Code de commerce*, shall be given by delivery of the relevant notice to Euroclear France, Euroclear, Clearstream and any other clearing system through which the Notes are for the

time being cleared. For the avoidance of doubt, Conditions 22.1, 22.2, 22.3 and 22.4 above shall not apply to such notices.

- 24.6 Notices will, if published more than once, be deemed to have been given on the date of the first publication.
- 24.7 Notwithstanding the other provisions of these Conditions, any failure by the Issuer, the Calculation Agent, the Determination Agent or any other party to provide Noteholders with any notice due to be given to Noteholders in accordance with the Conditions shall not of itself affect the validity of the determination, adjustment, event or any other occurrence to which such notice relates.
- 24.8 If an adjustment is made, or any other action is taken, by the Determination Agent under any one or more of the following Conditions: 9.2(b), 9.2(c), 9.2(e), 9.3(a), 9.3(b), 9.4(a), 9.4(b), 9.5(b), 9.6(b), 10.5, 10.6(b), 11.1, 11.2, 11.3, 11.4, 11.7(b), 12.1.1, 12.3, 13.2, 13.4, 13.5, 13.6 or 13.7, the Determination Agent shall notify the Issuer and the Fiscal Agent of such adjustment. The Fiscal Agent shall, on behalf of and on instruction of the Issuer, provide notice (which notice shall, for the avoidance of doubt, be in the form provided to it by or on behalf of the Issuer) to the Noteholders of the relevant adjustment within 15 Business Days of receipt of such notification from the Determination Agent.

25. CURRENCY INDEMNITY

- 25.1 If any sum due from the Issuer in respect of the Notes or any order or judgment given or made in relation thereto has to be converted from the currency (the **first currency**) in which the same is payable under these Conditions or such order or judgment into another currency (the **second currency**) for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.
- 25.2 This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action. However, if a judgment awarded by a French court were to be expressed in euros, it would normally be expressed by reference to the exchange value of the relevant amount of the said foreign currency at the rate of exchange prevailing on the effective date of payment or on the date of the judgment; it should be noted, however, that if, after having obtained a judgment from a French court with respect to the Notes, any party were to seek a separate judgment on the basis of any indemnity clause with respect to currency indemnity, the court may hold that such clause did not survive the original judgment.

26. ROUNDING

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the applicable Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. rounded up to 0.00001 per cent.), (b) all U.S. Dollar amounts used in or resulting from such calculations will be rounded to the nearest cent

(with one-half cent rounded upward), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downward to the next lower whole Japanese Yen amount and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency (with 0.005 rounded up to 0.01).

27. REDENOMINATION

27.1 *Application:* This Condition 27 (*Redenomination*) is applicable to the Notes only if it is specified in the applicable Final Terms as being applicable.

27.2 *Notice of redenomination:* If the country of the Specified Currency becomes or, announces its intention to become, a Participating Member State, the Issuer may, without the consent of the Noteholders, on giving at least 15 Business Days' prior notice to the Noteholders and the Paying Agents, designate a date (the **Redenomination Date**), being an Interest Payment Date under the Notes falling on or after the date on which such country becomes a Participating Member State.

27.3 *Redenomination:* Notwithstanding the other provisions of these Conditions, with effect from the Redenomination Date, the Notes shall be deemed to be redenominated into euro in the denomination of euro 0.01 with a principal amount for each Note equal to the principal amount of that Note in the Specified Currency, converted into euro at the rate for conversion of such currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations); **provided, however, that**, if the Issuer determines, with the agreement of the Fiscal Agent that the then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from that specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly, and in any event within not more than 15 Business Days of the Issuer making such determination, notify the Noteholders, each listing authority, stock exchange and/or quotation system (if any) by which the Notes have been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendments.

29. SUBSTITUTION

29.1 *Substitution of Issuer with Morgan Stanley Group entities*

By its acquisition of the Notes, each Noteholder acknowledges, accepts, consents and agrees that, subject to the conditions set out in this Condition 29 (*Substitution*), but without the consent of Noteholders, each Issuer may, where the Issuer is:

- (a) Morgan Stanley, substitute a subsidiary of Morgan Stanley in place of Morgan Stanley as principal debtor under the Notes, provided that any Notes in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, on those Notes when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Noteholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor);
- (b) MSI plc, substitute Morgan Stanley or a subsidiary of Morgan Stanley in place of MSI plc as principal debtor under the Notes, provided that, unless Morgan Stanley is the substitute issuer, any Notes in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of MSI plc as to the payment of principal of, premium, interest and supplemental amounts, if any, on those Notes when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Noteholders will not be required to exercise their remedies against the substitute prior to proceeding directly against MSI plc (as guarantor);

- (c) MSBV, substitute Morgan Stanley or a subsidiary of Morgan Stanley in place of MSBV as principal debtor under the Notes, provided that, unless Morgan Stanley is the substitute issuer, any Notes in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, on those Notes when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Noteholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor).

29.2 *Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*

If this Condition 29.2 is specified in the Final Terms to be applicable to a Series of Notes, subject to the conditions set out in this Condition 29 (*Substitution*), including the rights of Noteholders under Condition 29.6 (*Right to Redemption in respect of substitutions with non Morgan Stanley Group entities*), but without the consent of Noteholders, the Issuer or the Guarantor (as applicable) may, in the event that the Issuer or the Guarantor (as the case may be) has determined that any of the following events has occurred in respect of the Issuer or the Guarantor (as the case may be): an insolvency, receivership or equivalent event under the jurisdiction of the Issuer or the Guarantor (as the case may be); a divestment mandated for regulatory reasons; any action being required to satisfy any regulatory licensing requirements; or a change of control (each a **Substitution Event**), substitute for itself any entity which is not a Morgan Stanley Group entity, provided that such entity has a long term credit rating from at least one rating agency of standard application on the international capital markets (including but not limited to S&P, Moody's and Fitch) which is at least as high as the long term credit rating of the relevant Issuer or Guarantor (as the case may be) being substituted immediately prior to the occurrence of the relevant Substitution Event). Notwithstanding the foregoing, for any Series of Notes in respect of which Morgan Stanley is the Issuer, Morgan Stanley may not be substituted as Issuer with any entity which is not a Morgan Stanley Group entity within one year of the Issue Date of such Notes or the Guarantee.

As a result of the above, each Noteholder, by its acquisition of Notes, is deemed to expressly accept the release of the original Issuer or Guarantor, as the case may be, from all its obligations under the Notes.

29.3 *Conditions to substitution*

Substitution of an Issuer or Guarantor for another entity (the **Substitute**) as provided in Condition 29.1 (*Substitution of Issuer with Morgan Stanley Group entities*) or 29.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) above (as applicable) are subject to the following conditions:

- (c) a supplement to the Base Prospectus or new base prospectus, as the case may be, being published to provide information regarding the Substitute becoming the new Issuer or new guarantor (as the case may be) in accordance with the Prospectus Directive and Regulation (EC) 809/2004, as amended;

- (d) the Substitute is validly existing under the laws under which it is established or incorporated, has capacity to assume all rights, obligations and liabilities under the Notes and Guarantee, as applicable, and has obtained all necessary corporate authorisations to assume all such rights, obligations and liabilities under the Notes or Guarantee (as applicable);
- (e) the Substitute has obtained all necessary governmental or regulatory approvals and consents for the performance by it of its obligations in connection with the Notes or Guarantee (as applicable) and that all such approvals and consents are in full force and effect and that the Substitute and the Notes comply with all applicable requirements of the Securities Act;
- (f) in the case of substitution of an Issuer or Guarantor pursuant to Condition 29.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) above only:
 - (i) the Substitute and the relevant Issuer having obtained (a) legal opinions from independent legal advisers of recognised standing in the country of incorporation of the Substitute and in France that the obligations of the Substitute, in the case of a substitution of an Issuer, under the Notes, or, in New York in the case of a substitution of the Guarantor under the Guarantee, are legal, valid and binding obligations of the Substitute and (b) in the case of the substitution of the Issuer which is MSBV (or any substitute thereof), a legal opinion from an independent legal adviser in New York of recognised standing, that the Guarantee will apply to the Substitute mutatis mutandis as it applies to the Issuer prior to the substitution and will constitute legal, valid and binding obligations of the Guarantor, in respect of the Substitute, provided that no opinion as referred to in this sub paragraph (d) shall be required where the Substitute is Morgan Stanley with respect to MSBV Notes; and
 - (ii) if the relevant Notes are rated at the relevant time, the Substitute has obtained, prior to the substitution date, acknowledgement from the relevant rating agencies that the substitution will not result in whole or in part in a withdrawal, downgrading, placement in creditwatch or negative outlook of the Notes;
- (g) all consents and approvals as required have been obtained and that the Substitute and the Notes comply with all applicable requirements under French law;
- (h) the Fiscal Agent has confirmed to the relevant Issuer or Guarantor (as the case may be) that it has completed its relevant “*know your customer*” requirements on the proposed Substitute;
- (i) such substitution being permitted by the rules of any stock exchange on which the Notes are listed and each such stock exchange confirming that, following the proposed substitution of the Substitute and applicable requirements, if any, the Notes will continue to be listed on such stock exchange;
- (j) no payment in respect of the Notes is overdue at the relevant time; and
- (k) at the time of any such substitution, the Substitute is in a position to fulfil all payment obligations arising from or in connection with the Notes in freely convertible and transferable lawful money without the necessity of any taxes or duties to be withheld

at source, and to transfer all amounts which are required therefor to the Fiscal Agent without any restrictions; et

- (l) in respect of Notes which benefit from the Guarantee, such Notes shall continue to benefit from the Guarantee following substitution of the Issuer and/or the Guarantor (as the case may be), pursuant to this Condition 29.

29.4 *Reference in the Conditions to the Issuer or the Guarantor (as the case may be)*

In the event of a substitution pursuant to this Condition 29, any reference in the Conditions to the relevant Issuer or the Guarantor (as the case may be) shall be construed as a reference to the entity substituted.

29.5 *Notification to Noteholders of substitutions with Morgan Stanley Group entities*

The relevant Issuer shall as soon as reasonably practicable, and in any event not more than 15 Business Days after the date on which a substitution pursuant to Condition 29.1 (*Substitution of Issuer with Morgan Stanley Group entities*) has taken place, notify Noteholders of such substitution in accordance with Condition 24 (*Notices*).

29.6 *Right to Redemption in respect of substitutions with non Morgan Stanley Group entities*

With respect to the right of substitution referred to in Condition 29.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*), the Issuer shall provide 60 calendar days' notice of any substitution under such Condition to Noteholders in accordance with Condition 24 (*Notices*). Noteholders who object to the substitution will have the right to require the Issuer to redeem their Notes at a price determined in accordance with the provisions of this Condition 29.6, by providing notice of their intention to exercise such right in the manner set out in this Condition 29.6 (the **Right to Redemption**).

The redemption of any Notes in respect of which the Right to Redemption has been exercised by Noteholders shall take place 10 Business Days prior to the relevant substitution becoming effective (the **Substitution Redemption Date**). The Issuer shall redeem any Notes in respect of which the Right to Redemption has been exercised at a price equal to (i) in the case of Notes the terms of which provide for the repayment in full of principal at maturity, the Replacement Value of such Notes or (ii) in every other case, the fair market value of such Notes on the day on which the relevant Right to Redemption Notice is deposited, in accordance with the provisions of this Condition 29.6, as determined by the Determination Agent in its reasonable discretion, together with interest (if any) accrued to such date (to the extent that such interest is not otherwise taken into account in determining the fair market value of such Notes).

For the purpose of this Condition 29.6, **Replacement Value** means an amount determined by the Determination Agent, acting in good faith and in a commercially reasonable manner, as at the day on which the relevant Right to Redemption Notice is deposited in accordance with the provisions of this Condition 29.6 to be the amount that a Qualified Financial Institution would charge to assume all of the Issuer's payment and other obligations with respect to the Notes as if the relevant Substitution Event described in Condition 29.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) and the substitution described in this Condition 29.6 had not occurred or to undertake obligations that would have the effect of preserving the economic equivalent of any payment by the Issuer to the Noteholder with respect to the Notes.

In order to exercise the option contained in this Condition 29.6 the holder of any Note must, not less than 15 Business Days before the date on which the substitution is due to take place, deposit with the Fiscal Agent a duly completed Right to Redemption Notice in the form set out in the Agency Agreement. The Fiscal Agent with which a Right to Redemption Notice is so deposited shall deliver a duly completed Right to Redemption Receipt to the depositing Noteholder. Once deposited a duly completed Right to Redemption Notice may not be withdrawn; provided, however, that if, prior to the relevant Substitution Redemption Date, the related Note becomes due and payable or, upon the relevant Substitution Redemption Date, payment of the redemption moneys is improperly withheld or refused, the Fiscal Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Right to Redemption Notice and the relevant depositing Noteholder and not the Fiscal Agent shall be deemed to be the holder of such Note for all purposes in such case.

Notwithstanding the foregoing, in respect of any Series of Notes for which Morgan Stanley is the Issuer, Noteholders shall only have the right to submit a Right to Redemption Notice from the date which is one calendar year after the Issue Date of such Notes.

Any payments made to Noteholders in accordance with this Condition 29.6 shall be made in accordance with the provisions of Condition 16 (*Payments*).

30. GOVERNING LAW AND JURISDICTION

- 30.1 *Governing Law:* The Notes shall be governed by and construed in accordance with French law (except in relation to the Issuer's right to repurchase Notes as specified in Condition 15.10 above). The Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee will be governed by, and shall be construed in accordance with, New York law.
- 30.2 *Jurisdiction:* Any claim against Morgan Stanley, MSIP or MSBV as Issuer, or Morgan Stanley as Guarantor, in connection with any Notes may exclusively be brought before the competent courts in Paris.

Fixed Interest Provisions

1. Fixed Coupon

If "Fixed Coupon" is applicable as specified in the applicable Final Terms, the Issuer will pay a fixed amount of interest in respect of the Notes on each Interest Payment Date.

If "Fixed Coupon" is applicable as specified in the applicable Final Terms, the Issuer shall pay interest on the Notes on each Interest Payment Date in an amount per Calculation Amount equal to the Coupon Amount determined by the Determination Agent as of the relevant Interest Determination Date immediately preceding such Interest Payment Date in accordance with the following formula:

$$\text{Coupon Amount} = \text{Coupon Rate} \times \text{Calculation Amount}$$

Where **Coupon Rate** means, for the relevant Interest Determination Date, the rate expressed as a percentage specified as such in the applicable Final Terms.

The Coupon Amount determined as being payable in accordance with this Paragraph 1 shall be referred to in these Conditions as the **Fixed Coupon Amount**.

2. Non Memory Barrier Conditional Coupon

If "Non Memory Barrier Conditional Coupon" is applicable as specified in the applicable Final Terms, the Issuer will pay an amount of interest in respect of the Notes on each Interest Payment Date, in each case conditional on the performance of the Relevant Underlying as of the or one of the relevant Interest Determination Dates being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, a specified barrier value. If such condition is not satisfied, no such interest will be payable.

If such condition is not satisfied, no such interest will be payable.

If "Bonus Coupon" is applicable as specified in the applicable Final Terms, in addition to any interest payable as calculated in accordance with the previous paragraphs, the Issuer will also pay interest in respect of the Notes on the earliest of the dates specified as the "Redemption Date", calculated as of each Bonus Coupon Interest Determination Date by the Determination Agent as being an amount which is a percentage multiplied by the total amount of interest determined in respect of the Notes on preceding Interest Determination Dates and, if specified as applicable, Additional Interest Determination Dates or Bonus Coupon Interest Determination Dates.

If "Non Memory Barrier Conditional Coupon" is applicable as specified in the applicable Final Terms, and if the Relevant Underlying Performance as of the or one of the Interest Determination Dates is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less

than or equal to, as specified in the applicable Final Terms, the Coupon Barrier Value for such Interest Determination Date, the Issuer will on the immediately following Interest Payment Date pay interest on the Notes in an amount per Calculation Amount (the **Coupon Amount**) determined by the Determination Agent in accordance with the following formula:

$$\text{Coupon Amount} = \text{Coupon Rate} \times \text{Calculation Amount}$$

Save for any amount payable in accordance with the following provision of this Paragraph 2, if applicable, no interest will otherwise be payable on the Notes on an Interest Payment Date.

If **Additional Non Memory Barrier Conditional Coupon** is also applicable as specified in the applicable Final Terms, and if the Relevant Underlying Performance as of any Additional Interest Determination Date is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, the Additional Coupon Barrier Value for such Additional Interest Determination Date, the Issuer will on the immediately following Interest Payment Date pay interest on the Notes (in addition to any interest payable in accordance with the foregoing provision of this Paragraph 2) in an amount per Calculation Amount (the **Additional Coupon Amount**) determined by the Determination Agent in accordance with the following formula:

$$\text{Additional Coupon Amount} = \text{Additional Coupon Rate} \times \text{Calculation Amount}$$

If "**Bonus Coupon**" is applicable as specified in the applicable Final Terms, and if the Relevant Underlying Performance as of each Bonus Coupon Interest Determination Date is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, the Bonus Coupon Barrier Value, the Issuer will, on the Redemption Date, and in addition to any other amounts which may be payable on such date, pay interest on the Notes in an amount per Calculation Amount (the **Bonus Coupon Amount**) determined by the Determination Agent in accordance with the following formula:

$$\text{Bonus Coupon Amount} = \text{Specified Rate} \times \text{Prior Coupon Amount}$$

The Coupon Amount and any Additional Coupon Amount or Bonus Coupon Amount determined as being payable in accordance with this Paragraph 2 shall be referred to in these Conditions as the **Non-Memory Barrier Conditional Coupon Amount**.

Save for any amount payable pursuant to any of the foregoing provisions, no interest will otherwise be payable on the Notes on an Interest Payment Date.

$$\text{Coupon Amount} = \text{Calculation Amount} \times (\text{Coupon Rate} \times \text{NPED}) - \text{Prior Coupon Amount}$$

where:

Relevant Underlying Performance means the percentage determined by the Determination Agent in accordance with such provisions of Section 3 (*Performance Determination Terms*) as are specified as being applicable in the applicable Final Terms, and where the Coupon Barrier Value is expressed in the Final Terms as a level of the Relevant Underlying, the Determination Agent shall, for the purposes of comparing the Relevant Underlying Performance and the Coupon Barrier Value, determine Relevant Underlying Performance by multiplying the percentage determined in accordance with such provisions of Section 3 (*Performance Determination Terms*) and the Initial Reference Value;

If "Participation & Barrier(s) Conditional Coupon" is applicable and if "Second Coupon Barrier Value" is not applicable as specified in the applicable Final Terms, the Issuer will pay interest in respect of the Notes on each Interest Payment Date, in each case conditional on the performance of the Relevant Underlying as of the relevant Interest Determination Date being (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, a specified first barrier value, in an amount which is calculated at the greater of (a) a specified fixed rate and (b) a rate linked to a percentage of the performance of the Relevant Underlying. If "Cap" is applicable and if, on any Interest Determination Date, the interest rate to be paid is greater than or equal to the Cap, the Coupon Amount for such Interest Determination Date will amount to the product of the Calculation Amount and the Cap.

In the two hypothesis above, the Relevant Underlying Performance for the purposes of determining the Coupon Amount, may, if specified in the applicable Final Terms, be determined by the Determination Agent in accordance with such provisions of Section 3 (Performance Determination Terms) treating as an absolute value any negative value of the Relevant Underlying Performance.

If none of these conditions is satisfied, no interest will be payable.

If "Participation & Barrier Conditional Coupon" is applicable as specified in the applicable Final Terms, the Issuer will pay, on the immediately following Interest Payment Date interest in respect of the Notes in an amount per Calculation Amount (the **Coupon Amount**) determined by the Determination Agent in accordance with the following formula:

Coupon Amount = Min (Cap; Max (Coupon Rate; Participation Rate × Relevant Underlying Performance)) × Calculation Amount

if "Second Coupon Barrier Value" is not applicable and the Relevant Underlying Performance as of any Interest Determination Date is (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, the First Coupon Barrier Value for such Interest Determination Date.

OR

Coupon Amount = Min (Cap; Max (Coupon Rate; Participation Rate × Relevant Underlying Performance)) × Calculation Amount

if "Second Coupon Barrier Value" is applicable and the Relevant Underlying Performance as of any Interest Determination Date is (a) (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, the First Coupon Barrier Value for such Interest Determination Date AND (b) (i) greater than, (ii) greater than or equal to, (iii) less than or (iv) less than or equal to, as specified in the applicable Final Terms, the Second Coupon Barrier Value for such Interest Determination Date.

where:

Relevant Underlying Performance means the percentage determined by the Determination Agent in accordance with such provisions of Section 3 (*Performance Determination Terms*) as are specified as being applicable in the applicable Final Terms, and (a) for the purposes of determining the Coupon Amount, the Determination Agent shall use such percentage, being specified that it shall use the absolute value of the performance if "Absolute Performance Value" is applicable as specified in the applicable Final Terms; and (b) for the purposes only of comparing the Relevant Underlying Performance, the First Coupon Barrier Value and, as the case may be, the Second Coupon Barrier Value and where the First Coupon Barrier Value and, as the case may be, the Second Coupon Barrier Value is expressed in the Final Terms as a level of the Relevant Underlying, the Determination Agent shall determine Relevant Underlying Performance by multiplying the percentage determined in accordance with such provisions of Section 3 (*Performance Determination Terms*) and the Initial Reference Value;

Interest Determination Date(s) means the date(s) specified as such in the applicable Final Terms, subject to adjustment in accordance with Condition 9.1 (Valuation, Market Disruption, Reference Dates and Averaging Dates), Condition 12.1 (Market Disruption, Reference Dates and Averaging Dates), Condition 13.1 (*Valuation Market Disruption, Reference Dates and Averaging Dates*) or Condition 14.1 (*Valuation, Market Disruption, Reference Dates and Averaging Dates*) (as the case may be) ;

If neither such condition is satisfied, no interest will be payable on an Interest Payment Date. Interest (if any) payable on an Interest Payment Date will be a fixed amount.

If "Lock in Non Memory Barrier Conditional Coupon" is applicable as specified in the applicable Final Terms, the Issuer will pay interest on an Interest Payment Date in an amount (the **Coupon Amount**) per Calculation Amount determined by the Determination Agent in accordance with the following formula:

ISSUE – SPECIFIC SUMMARY

*This summary relates to [description of the Notes issued] described in the final terms (the **Final Terms**) to which this summary is attached. This summary includes information contained in the summary of the Base Prospectus related to the Notes together with the relevant information from the Final Terms. Words and expressions which are defined in the Base Prospectus and the Final Terms shall have the same meanings where used in the following summary.*

*This summary should be read as introduction to the Base Prospectus and the Final Terms (together the **Prospectus**) and is provided in order to aid investors when considering whether to invest in the Notes, but it does not replace the Prospectus. Any decision to invest in the Notes should be based on consideration of the Prospectus as a whole by the investor, including documents incorporated by reference.*

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities[,/and] Issuer[s] [and Guarantor]. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities[,/and] Issuer[s] [and Guarantor], it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

		Section D – Risks
D.2	Key Risks Specific to the Issuer [and the Guarantor]:	<p>The following key risks affect Morgan Stanley [and, since Morgan Stanley is the ultimate holding company of [MSIP] / [MSBV], also affect [MSIP] / [MSBV]:</p> <p>Market Risk: Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors including changes in asset values. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley.</p> <p>Credit Risk: Morgan Stanley is exposed to the risk that third parties that</p>

	<p>are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.</p> <p>Operational Risk: Morgan Stanley is subject to the risk of loss, or of damage to its reputation, resulting from inadequate or failed processes, or systems, from human factors or from external events (e.g. fraud, theft, legal and compliance risks, cyber-attacks or damage to physical assets). Morgan Stanley may incur operational risk across the full scope of its business activities, including revenue-generating activities (e.g. sales and trading) and support and control groups (e.g. information technology and trade processing). A cyber attack, information or security breach or a technology failure could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result in disclosure or misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.</p> <p>Liquidity Risk: Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets. Additionally, liquidity risk encompasses Morgan Stanley's ability (or perceived ability) to meet its financial obligations without experiencing significant business disruption or reputational damage that may threaten its viability as a going concern. Morgan Stanley also experiences associated funding risks triggered by the market or idiosyncratic stress events that may negatively affect its liquidity or may impact its ability to raise new funding.</p> <p>Legal, Regulatory and Compliance Risk: Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anti-corruption and terrorist financing rules and regulations. The uncertainties and ambiguities as to the interpretation and application of the U.S. Tax Cuts and Jobs Act could adversely affect Morgan Stanley.</p> <p>Risk Management: Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk.</p> <p>Competitive Environment: Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that</p>
--	---

	<p>could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition (for example, by putting increased pressure on bid-offer spreads, commissions, markups or comparable fees). Finally, Morgan Stanley's ability to retain and attract qualified employees is critical to the success of its business and the failure to do so may materially adversely affect its performance.</p> <p>International Risk: Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways. The United Kingdom's anticipated withdrawal from the European Union could adversely affect Morgan Stanley.</p> <p>Acquisition, Divestiture and Joint Venture Risk: Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes or strategic alliances.</p> <p>Risk Relating to the Exercise of Resolution Measures Powers: The application of regulatory requirements and strategies in the United States or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions.</p> <p>[insert for MSBV: The following key risks also affect MSBV:</p> <p>All material assets of MSBV are obligations of one or more companies in the Morgan Stanley group and MSBV's ability to perform its obligations is dependent upon such companies fulfilling their obligations to MSBV. Should such companies prospects be impaired, holders of securities issued by MSBV may also be exposed to a risk of loss. Should this circumstance materialise, the payment obligations of MSBV under the terms of the securities would be guaranteed by Morgan Stanley.]</p> <p>[insert for MSIP: the following key risks also affect MSI plc:</p> <p>The existence of substantial inter-relationships (including the provision of funding, capital, services and logistical support to or by MSI plc, as well as common or shared business or operational platforms or systems, including employees) between MSI plc and other Morgan Stanley group companies exposes MSI plc to the risk that, factors which could affect the business and condition of Morgan Stanley or other companies in the Morgan Stanley Group may also affect the business and condition of MSI plc. Further, Notes issued by MSI plc will not be guaranteed by Morgan Stanley. The application of regulatory requirements and strategies in the United Kingdom to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the holders of securities issued by MSI Plc.</p>

TAXATION

The statements below regarding taxation are based on the laws in force in the United Kingdom, The Netherlands, France, the Grand Duchy of Luxembourg and/or, as the case may be, the United States as of the date of this Base Prospectus and are subject to any changes in law and/or interpretation thereof (potentially with a retroactive effect). The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe, purchase, own or dispose of the Notes. Each prospective holder or beneficial owner of Notes should consult its tax advisor as to the tax consequences of any investment in or ownership and disposition of the Notes.

French Taxation

The following is a summary addressing only withholding taxes applicable in France to income arising from the Notes. This summary is based on the laws and regulations in force in France as at the date of this Base Prospectus, which may be subject to changes, potentially with retroactive effect. Investors should be aware that the statements below are of a general nature and do not constitute legal or tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisors so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or disposal of the Notes.

Payments made by the Issuers or the Guarantor under the Notes

The following has been prepared on the assumption that the Issuers and the Guarantor are not (and will not be) French residents for French tax purposes and that the Notes (and any transaction in connection therewith) are not (and will not be) attributed or attributable to a branch, permanent establishment or other fixed place of business in France of any Issuer or Guarantor.

All payments by the Issuers or the Guarantor, as the case may be, in respect of the Notes will be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld or assessed by France or any political subdivision or taxing authority thereof or therein.

However, pursuant to Article 125 A, I of the French *Code général des impôts*, interest and similar revenues paid by a paying agent located in France and received by individuals who are fiscally domiciled in France are, subject to certain exceptions, subject to a 12.8% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the withholding has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at a global rate of 17.2% on such interest and similar revenues received by individuals who are fiscally domiciled in France.

Luxembourg Taxation

The following information is of a general nature and is based on the laws currently in force in Luxembourg and should not be construed to be legal or tax advice. The information contained within this section is limited to aspects relating to potential withholding taxes applicable in Luxembourg and prospective investors in the Notes should therefore consult their own professional advisers to determine the local, national or foreign laws, including Luxembourg tax laws, to which they may be subject.

Please be aware that the residence concept used in the statements below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature refers only to Luxembourg tax laws and/or concepts.

Withholding Tax

(i) Non-resident investors in the Notes

Under Luxembourg general tax laws currently in force, no withholding tax applies on payments of principal, premium or interest made to non-resident investors holding Notes or on accrued but unpaid interest in respect of the Notes. In the same way, no Luxembourg withholding tax applies upon the redemption or repurchase of Notes held by non-resident investors.

(ii) Resident investors in the Notes

Under Luxembourg general tax laws currently in force and without prejudice to the application of law of 23 December 2005, as amended (the **Law**), no withholding tax applies on payments of principal, premium or interest made to Luxembourg resident investors holding Notes or on accrued but unpaid interest in respect of Notes. In the same way, no Luxembourg withholding tax is applicable upon the redemption or repurchase of Notes held by a Luxembourg resident investor.

Under the Law, payments of interest or similar income made by a paying agent established in Luxembourg to a beneficial owner who is an individual resident of Luxembourg are currently subject to a withholding tax at the rate of 20%. Such withholding tax discharges liability to tax if the beneficial owner is an individual acting in the course of the management of his/her private assets. The Luxembourg paying agent is responsible for levying the withholding tax.

United Kingdom Taxation

The following disclosure applies in respect of Notes issued by Morgan Stanley, MSI plc or MSBV, and references in this section on United Kingdom taxation to "**Notes**" and references to "**Noteholders**", should be construed accordingly.

The following is a general description of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes. The comments do not deal with other United Kingdom tax aspects of acquiring, holding, disposing of, or abandoning Notes. Transactions involving Notes, including the issue and subscription of Notes, any purchase or disposal or settlement of Notes, may have United Kingdom tax consequences for potential purchasers (including but not limited to, transfer taxes and possible withholding or deduction for or on account of United Kingdom tax from payments made in respect of the Notes). The tax consequences may depend, amongst other things, on the status of the potential investor and the terms and conditions of a particular Note as specified in the Final Terms. It is based on current law and practice of HM Revenue and Customs (HMRC), both of which may be subject to change, sometimes with retrospective effect. The comments relate only to the position of persons who are absolute beneficial owners of the Notes. Prospective purchasers and Noteholders should be aware that the particular terms of issue of any series of Notes as specified in the relevant Final Terms may affect the tax treatment of that and other series of Notes. The following is a general guide and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Prospective purchasers and Noteholders who are in any doubt as to their tax position should consult their professional advisors about tax implications of purchasing and holding a Note, any transaction involving a Note, and any transaction involved in the exercise and settlement of a Note. Noteholders who may be liable to taxation in jurisdictions other than the United Kingdom are particularly advised to consult their professional advisors as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom withholding taxation aspects of payments in respect of the Notes. In particular, Noteholders and Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

1. NOTES – U.K. WITHHOLDING TAX ON INTEREST PAYMENTS BY THE ISSUERS

Interest on Notes issued for a term of less than one year (and which are not issued under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more) may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax. Interest on Notes issued for a term of one year or more (or under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more) may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax except in circumstances where such interest has a United Kingdom source. The location of the source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice. Case law has established that in determining the source of interest all relevant factors must be taken into account. HMRC has indicated (in guidance pre-dating recent case law) that the most important factors in determining the source of a payment are those which influence where a creditor would sue for payment and has stated that the place where the Issuer does business and the place where its assets are located are the most important factors in this regard; however, HMRC has also indicated that, depending on the circumstances, other relevant factors may include the place of performance of the contract, the method of payment, the proper law of contract, the competent jurisdiction for any legal action, the location of any security for the debt and the residence of the Guarantor, although other factors may also be relevant.

Interest which has a United Kingdom source (**U.K. interest**) may be paid by the relevant Issuer

without withholding or deduction for or on account of United Kingdom income tax if the Notes in respect of which the U.K. interest is paid constitute "quoted Eurobonds". Notes which carry a right to interest will constitute "quoted Eurobonds" provided they are and continue to be listed on a recognised stock exchange. Notes will be regarded as "listed on a recognised stock exchange" for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom's official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed in the country of that stock exchange in accordance with provisions corresponding to those generally applicable in European Economic Area states in a country outside the United Kingdom in which is a recognised stock exchange.

If the Notes do not constitute "quoted Eurobonds", payments of interest on the Notes may still be made without withholding or deduction for or on account of United Kingdom income tax, provided that the relevant Issuer is and continues to be authorised for the purposes of the Financial Services and Markets Act 2000 and its business is and continues to consist wholly or mainly of dealing in financial instruments (within the meaning of section 885 of the Income Tax Act 2007) as principal and that such payments are made in the ordinary course of that business. On the basis of HMRC published practice in the context of a similar provision, interest will be accepted as being paid in the ordinary course of business unless the characteristics of the transaction giving rise to the interest are primarily attributable to an intention to avoid United Kingdom tax.

In all other cases, U.K. interest on the Notes may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20%) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty or to any other exemption which may apply.

2. PAYMENTS BY GUARANTOR

If the Guarantor makes any payments in respect of interest on the Notes (or other amounts due under the Notes other than the repayment of amounts subscribed for the Notes) and such payment have a United Kingdom source, such payments may be subject to United Kingdom withholding tax at the basic rate (currently 20%) subject to such relief as may be available under the provisions of any applicable double taxation treaty or to any other exemption which may apply. Whether such payment made by the Guarantor have a United Kingdom source is a complex matter and is likely to be determined by reference to the factors set out in paragraph 1 above. Such payments by the Guarantor may not be eligible for the exemptions described in paragraph 1 above.

3. OTHER RULES RELATING TO UNITED KINGDOM WITHHOLDING TAX

Notes may be issued at an issue price of less than 100 per cent. of their principal amount. Whether any discount element on such Notes will be subject to any United Kingdom withholding tax pursuant to the provisions mentioned above, will depend on the precise terms of the Notes.

Where Notes are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax and reporting requirements as outlined above.

Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.

The references to "**interest**" above mean "interest" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation. Where a payment on a Note does not constitute (or is not treated as) interest for United Kingdom tax purposes, and the payment has a United Kingdom source, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment or a manufactured payment, rent or

royalties for United Kingdom tax purposes. Where a payment is subject to United Kingdom withholding tax, depending on the nature of the payment (which will be determined by, amongst other things, the terms and conditions specified by the Final Terms of the Note), the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding depending on the nature of the payment), subject to any exemption from withholding which may apply and to such relief as may be available under the provisions of any applicable double tax treaty.

The Netherlands Taxation

The following disclosure applies only in respect of Notes issued by MSBV and not in respect of Notes issued by Morgan Stanley or MSI plc. References in this section on Netherlands taxation to "Issuer" refer only to MSBV, reference to "Program Securities" refer only to Notes issued by MSBV and references to holders of Notes should be construed accordingly.

The following general description of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following general description does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Note, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of this general description it is assumed that no individual or entity holding a Note has or will have a substantial interest, or - in the case of a holder of a Note being an entity - a deemed substantial interest, in the Issuer and that no connected person (verbonden persoon) to the holder of a Note has or will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company

Generally speaking, an entity has a substantial interest in a company if such entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company. An entity holding a Note has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this general description, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this general description refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Note or otherwise being regarded as owning a Note for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the general description refers to "The Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

This summary does not address the Netherlands tax consequences for holders of Notes that are a resident of any non-European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of a Note.

1. WITHHOLDING TAX

All payments under the Notes may be made free of withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein, **provided that** (i) the Notes have a maturity – legally or *de facto* - of not more than 50 years, and (ii) the Notes will not represent, be linked to (the performance of) or be convertible (in part or in whole) into, (rights to purchase) (a) shares, (b) profit certificates (*winstbewijzen*), and/or (c) debt instruments having a maturity –

legally or *de facto* – of more than 50 years, issued by MSBV, the Guarantor or any other entity related to MSBV and/or the Guarantor.

2. TAXES ON INCOME AND CAPITAL GAINS

RESIDENTS

Resident entities

An entity holding a Note which is, or is deemed to be, resident in the Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax levied at a rate of 25% (20% over profits up to EUR 200,000) in respect of income or a capital gain derived from a Note (rates and brackets for the 2018 tax year).

Resident individuals

An individual holding a Note who is, or is deemed to be, resident in the Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from a Note at rates up to 51.95 % if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If the above-mentioned conditions (i) and (ii) do not apply, a holder of Notes who is an individual, resident or deemed to be resident in the Netherlands for Netherlands tax purposes will not be subject to Dutch taxes on income actually received or gains actually realised. Instead, such individual is generally taxed at a flat rate of 30% on deemed income from "savings and investments" (*"sparen en beleggen"*), which deemed income is determined on the basis of the amount included in the individual's "yield basis" (*"rendementsgrondslag"*) at the beginning of the calendar year (minus a tax-free threshold). For the 2018 tax year, the deemed income derived from savings and investments will amount to 2.02% of the individual's yield basis up to EUR 70,800 (seventy thousand eight hundred Euro), 4.33% of the individual's yield basis exceeding EUR 70,800 (seventy thousand eight hundred Euro) up to and including EUR 978,000 (nine hundred and seventy eight thousand Euro) and 5.38% of the individual's yield basis in excess of EUR 978,000 (nine hundred and seventy eight thousand Euro). The percentages to determine the deemed income will be reassessed every year.

NON-RESIDENTS

A holder of a Note which is not, or is not deemed to be, resident in the Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from a Note unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands;
- (ii) the holder is entitled to a share in profits of an enterprise that is effectively managed in the Netherlands, and to which enterprise the income or capital gain is attributable, other than by way of securities; or
- (iii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in the Netherlands as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

3. GIFT AND INHERITANCE TAXES

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Note by way of gift by, or on the death of, a holder of a Note, unless:

- (i) the holder of a Note is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

4. VALUE ADDED TAX

There is no Dutch value added tax payable by a holder of a Note in respect of payments in consideration for the issue of the Notes or in respect of the payment of interest or principal under the Notes, or the transfer of the Notes.

5. OTHER TAXES AND DUTIES

There is no Dutch registration tax, stamp duty or any other similar tax or duty, other than court fees, payable in the Netherlands by a holder of a Note in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of the Netherlands) of the Notes or the performance of the Issuer's obligations under the Notes.

6. RESIDENCE

A holder of a Note will not be and will not be deemed to be resident in the Netherlands for tax purposes and, subject to the exceptions set out above, will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Note or the execution, performance, delivery and/or enforcement of a Note.

United States Federal Taxation

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the U.S. federal tax treatment of the Notes or the investors. Prospective investors should seek their own advice based upon their particular circumstances from an independent tax adviser.

The following are certain of the U.S. federal income and estate tax consequences of ownership and disposition of the Notes by Non-U.S. Holders (as defined below). This summary is based on the Internal Revenue Code of 1986, as amended (the **Code**), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations, all as of the date hereof, changes to any of which subsequent to the date of this Base Prospectus may affect the tax consequences described herein. As used herein, the term “Non-U.S. Holder” means a beneficial owner of a Note that is for U.S. federal income tax purposes:

- an individual who is classified as a non-resident alien;
- a foreign corporation; or
- a foreign estate or trust.

The term “Non-U.S. Holder” does not include any of the following persons:

- an individual present in the United States for 183 days or more in the taxable year of disposition;
- certain former citizens or residents of the United States;
- a person for whom income or gain in respect of the Notes is effectively connected with the conduct of a trade or business in the United States; or
- a person who has a “tax home” (as defined in Section 911(d)(3) of the Code) or an office or other fixed place of business in the United States.

Special rules may also apply to corporations that for U.S. federal income tax purposes are treated as personal holding companies, controlled foreign corporations, or passive foreign investment companies.

Such persons are urged to consult their own tax advisers regarding the U.S. federal income tax consequences of the ownership and disposition of a Note.

If an entity that is classified as a partnership holds a Note, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. Partners of partnerships holding Notes should consult their tax advisers regarding the U.S. federal income tax consequences of owning and disposing of a Note.

TAX TREATMENT OF THE NOTES

General

Except as otherwise discussed below in “ – Section 897 of the Code,” “ – Dividend Equivalent Amounts,” “ – FATCA” and “ – Backup Withholding and Information Reporting,” or otherwise indicated in the applicable Final Terms, a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on payments of principal, or interest (including original issue discount, if any) on a Note, or on proceeds from the sale or other disposition of a Note, **provided that**, in the case of a Note issued by Morgan Stanley for U.S. federal income tax purposes:

- the Note is treated as indebtedness of the relevant Issuer;
- the Non-U.S. Holder does not own (directly or by attribution) 10 per cent. or more of the total combined voting power of all classes of stock of Morgan Stanley entitled to vote;
- the Non-U.S. Holder is not a bank holding the Note in the context of an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or

business; and

- the certification requirement described below has been fulfilled with respect to the beneficial owner, as described below.

The certification requirements referred to in the preceding paragraphs will be fulfilled if the beneficial owner of the Note (or a financial institution holding the Note on behalf of the beneficial owner) furnishes the U.S. Internal Revenue Service (**IRS**) Form W-8BEN or W-8BEN-E (or with respect to certain holders and beneficial owners, other appropriate forms), on which, among other things, the beneficial owner certifies under penalties of perjury that it is not a United States person, as defined in the Code.

Notes Linked to Single Securities, Baskets of Securities, Indices, Exchange Traded Funds or other Funds, Currencies and Futures Contracts.

The U.S. federal income tax consequences to a Non-U.S. Holder of the ownership and disposition of Notes that have principal or interest determined by reference to securities of entities not affiliated with the relevant Issuer, baskets of securities or indices, exchange traded funds or other funds, currencies or futures contracts may vary depending upon the exact terms of the Notes and related factors. Except as otherwise discussed below in “– Section 897 of the Code,” “– Dividend Equivalent Amounts,” “– FATCA” and “– Backup Withholding and Information Reporting,” or otherwise indicated in the applicable Final Terms, the Issuers do not expect payments on such Notes to be subject to any U.S. federal withholding tax, provided that, if the Notes are treated in whole or in part as indebtedness issued by Morgan Stanley for U.S. federal income tax purposes, the requirements above under “–General” are met. However, Notes containing any of these features may be subject to rules that differ from the general rules discussed above. In these instances, the applicable Final Terms will disclose such special rules.

SECTION 897 OF THE CODE

No opinion is expressed herein as to whether any issuer of any shares to which a Note relates (such shares hereafter referred to as **Underlying Shares**) is treated as a “U.S. real property holding corporation” (**USRPHC**) within the meaning of Section 897 of the Code. If any issuer of Underlying Shares were so treated, certain adverse U.S. federal income tax consequences might apply upon the sale, exchange or other disposition of a Note (including potential U.S. withholding tax, notwithstanding the discussions above). Holders should refer to information filed with the Securities and Exchange Commission or other governmental authorities by the issuers of the Underlying Shares and consult their tax advisers regarding the possible consequences to such holders if any such issuer is or becomes a USRPHC.

DIVIDEND EQUIVALENT AMOUNTS

Section 871(m) of the Code and Treasury Regulations promulgated thereunder (**Section 871(m)**) impose a withholding tax of 30 per cent. (or lower treaty rate applicable to dividends) on certain “dividend equivalents” paid or deemed paid to Non-U.S. Holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Subject to the discussion below concerning Notes issued before January 1, 2021, a Note linked to U.S. equities or indices that include U.S. equities (a **U.S. equity linked Note**) will generally be subject to the Section 871(m) withholding regime if at issuance it (i) has a “delta” of 0.80 or higher with respect to the underlying U.S. stock or (ii) substantially replicates the economic performance of the underlying U.S. stock, as determined by a “substantial equivalence” test that, among other factors, takes into account the initial number of shares of the underlying U.S. stock needed to hedge the transaction fully. The tests described above are set forth in the regulations, and the applicable test will depend on the terms of the relevant U.S. equity linked Note. Under these rules, withholding may apply even where the relevant U.S. equity linked Note does not provide for

any payment that is explicitly linked to a dividend. The regulations provide for certain exceptions to the withholding requirements, in particular for instruments linked to certain broad-based indices (a “qualified index”) that meet standards set forth in the regulations, as well as certain notes that track a qualified index.

Pursuant to an IRS Notice, Section 871(m) will not apply to Notes issued before January 1, 2021, that do not have a “delta” of one with respect to any U.S. equity. If the terms of a U.S. equity linked Note are significantly modified (including in the event that a Benchmark is substituted in accordance with the terms of the Base Prospectus), and if such modification results in a deemed exchange of the Notes for U.S. federal income tax purposes, the U.S. equity linked Note will generally be treated as reissued at the time of the significant modification.

The calculations of “delta” are generally made at the “calculation date,” which is the earlier of (i) the time of pricing of the U.S. equity linked Note, i.e., when all material terms have been agreed on, and (ii) the issuance of the U.S. equity linked Note. However, if the time of pricing is more than 14 calendar days before the issuance of the U.S. equity linked Note, the calculation date is the date of the issuance of the U.S. equity linked Note. In those circumstances, information regarding the Issuer’s final determinations for purposes of Section 871(m) may be available only after the issuance of the U.S. equity linked Note. As a result, a Non-U.S. Holder should acquire such a U.S. equity linked Note only if it is willing to accept the risk that the U.S. equity linked Note is treated as subject to withholding.

The amount of a “dividend equivalent” is equal to, for a “simple” contract, the product of (a) the per-share dividend amount, (b) the number of shares of the underlying U.S. equity referenced in the U.S. equity linked Note and (c) the delta, and, for a “complex” contract, the product of (a) the per-share dividend amount and (b) the initial hedge.

The dividend equivalent amount will be determined on the earlier of (a) the record date of the dividend and (b) the day prior to the ex-dividend date. The dividend equivalent amount will include the amount of any actual or, under certain circumstances, estimated dividend. If a U.S. equity linked Note is subject to withholding in respect of dividend equivalents, withholding will, depending on the applicable withholding agent’s circumstances, generally be required either (i) on the underlying dividend payment date or (ii) when cash payments are made on the relevant U.S. equity linked Note or upon the date of maturity, lapse or other disposition thereof by the Non-U.S. Holder.

The relevant Issuer will determine whether a U.S. equity linked Note is subject to withholding under Section 871(m). If the relevant Issuer has determined, as specified in the Final Terms, that a U.S. equity linked Note should not be subject to withholding under Section 871(m), the Issuer will be deemed to instruct its agents and withholding agents that no withholding is required, unless such agent or withholding agent knows or has reason to know otherwise. If withholding is required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.

The relevant Issuer’s determination is not binding on the IRS, and the IRS may disagree with its determination. Section 871(m) is complex and its application may depend on the Non-U.S. Holder’s particular circumstances. For example, the application of Section 871(m) may be affected if a Non-U.S. Holder enters into another transaction in connection with the acquisition of a U.S. equity linked Note. Accordingly, Non-U.S. Holders should consult their tax advisers regarding the potential application of Section 871(m) to the U.S. equity linked Notes in their particular circumstances.

FATCA

Legislation commonly referred to as “FATCA” generally imposes a withholding tax of 30 per cent. on payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity’s jurisdiction may modify these requirements. FATCA generally applies to

certain financial instruments that are treated as paying U.S.-source interest or dividends or other U.S.-source “fixed or determinable annual or periodical” income. Withholding (if applicable) applies to any payment of amounts treated as interest or dividend equivalents (as discussed above under “—Dividend Equivalent Amounts”) on the Notes and, for dispositions after December 31, 2018, any payment of gross proceeds of the disposition (including upon retirement) of the Notes treated as providing for U.S.-source interest or dividends. Although under current law payments of non-U.S. source income are not subject to withholding under FATCA, there is no assurance that future Treasury regulations will not impose such withholding with respect to certain “foreign passthru payments”. If withholding under current or future law applies to the Notes, the relevant Issuer will not be required to pay any additional amounts with respect to amounts withheld under FATCA. Non-U.S. Holders should consult their tax advisers regarding the potential application of FATCA to the Notes.

BACKUP WITHHOLDING AND INFORMATION REPORTING

Information returns may be filed with the IRS in connection with payments on the Notes as well as in connection with the proceeds from a sale, exchange or other disposition. A Non-U.S. Holder may be subject to backup withholding in respect of amounts paid to the Non-U.S. Holder, unless such Non-U.S. Holder complies with applicable certification procedures to establish that it is not a United States person for U.S. federal income tax purposes or otherwise establishes an exemption. Compliance with the certification procedures described above will satisfy the certification requirements necessary to avoid backup withholding. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder’s U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

ESTATE TAX

Individual Non-U.S. Holders and entities the property of which is potentially includible in such an individual’s gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers) should note that, absent an applicable treaty exemption, a Note that is treated as indebtedness for U.S. federal estate tax purposes will be treated as U.S. situs property subject to U.S. federal estate tax if payments on the Note, if received by the decedent at the time of death, would have been subject to U.S. federal withholding tax (even if the IRS Form W-8BEN or W-8BENE certification requirement described above were satisfied and not taking into account an elimination of such U.S. federal withholding tax due to the application of an income tax treaty or withholding under FATCA).

Absent an applicable treaty benefit, a Note that is not treated as indebtedness for U.S. federal estate tax purposes may be treated as U.S. situs property subject to U.S. federal estate tax. Non-U.S. Holders should consult their own tax advisers regarding the U.S. federal estate tax consequences of an investment in the Notes and the availability of benefits provided by an applicable estate tax treaty, if any.

SUBSCRIPTION AND SALE

Morgan Stanley and MSBV are offering the Notes on a continuing basis through Morgan Stanley & Co. International plc of 25 Cabot Square, Canary Wharf, London E14 4QA (the **Distribution Agent**), who has agreed to use reasonable efforts to solicit offers to subscribe or purchase the Notes. Morgan Stanley and MSBV will each, respectively, have the sole right to accept offers to subscribe or purchase its Notes and may reject any offer in whole or in part. The Distribution Agent will have the right to reject any offer to subscribe or purchase Notes solicited by it in whole or in part. Morgan Stanley and MSBV may pay the Distribution Agent, in connection with sales of Notes resulting from a solicitation by the Distribution Agent made or an offer to subscribe or purchase received by the Distribution Agent, a commission, which may be in the form of a discount from the purchase price if the Distribution Agent is purchasing the Notes for their own account. MSIP will act as distributor and offeror of the Notes issued by MSIP.

Morgan Stanley and MSBV may each also offer or sell Notes to the Distribution Agent as principal for its own account at a price to be agreed upon at the time of such offer or sale. The Distribution Agent may resell any Notes they purchase as principal at prevailing market prices, or at other prices, as the Distribution Agent determines.

The arrangements for the offer and sale of the Notes from time to time are set out in the Distribution Agreement dated on or about 7 December 2018 (as modified and restated from time to time, the **Distribution Agreement**) among Morgan Stanley, MSIP, MSBV and the Distribution Agent. Pursuant to the Distribution Agreement, Morgan Stanley, MSBV and the Distribution Agent have agreed to indemnify each other against certain liabilities, or to contribute payments made in respect thereof. Morgan Stanley and MSBV have also agreed to reimburse the Distribution Agent for certain expenses. The Distribution Agreement makes provision for the appointment of additional Distribution Agents who may agree to become bound by its terms (either in relation to the Programme generally or in relation to a particular Series of Notes) in an accession letter provided by such additional Distribution Agent to Morgan Stanley or MSBV.

In order to facilitate the offering of the Notes, the Distribution Agent may in accordance with all applicable laws and regulations engage in transactions that stabilise, maintain or otherwise affect the price of the Notes or any other securities the prices of which may be used to determine payments on those Notes. Specifically, the Distribution Agent may overallocate in connection with any offering of the Notes, creating a short position in the Notes for their own accounts. In addition, to cover overallocations or to stabilise the price of the Notes or of any other securities, the Distribution Agent may bid for, and purchase, Notes or any other securities in the open market. Any of these activities may stabilise or maintain the market price of the Notes above independent market levels. The Distribution Agent is not required to engage in these activities and may end any of these activities at any time.

United States of America

The Notes, any interest therein and any Guarantee in respect thereof, have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and are subject to U.S. tax law requirements. None of the Issuers or the Guarantor are registered or will register under the Investment Company Act of 1940, as amended. Trading in the Notes has not been approved by the U.S. Commodity Futures Trading Commission pursuant to the Commodity Exchange Act of 1936, as amended. The Notes, any interest therein and any Guarantee in respect thereof, may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the Securities Act (**Regulation S**)). Each Distribution Agent (1) has acknowledged that the Notes, any interest therein and any Guarantee in respect thereof, have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, and the Notes are not being

offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed and may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. Persons; (2) has represented, as a condition to acquiring any interest in the Notes, that neither it nor any persons on whose behalf or for whose account or benefit the Notes are being acquired is a U.S. Person, that it is not located in the United States, and was not solicited to purchase Notes while present in the United States; (3) has agreed not to offer, sell, pledge, assign, deliver or otherwise transfer, exercise or redeem any of the Notes at any time, directly or indirectly, within the United States or to, or for the account or benefit of, any U.S. Person; (4) has agreed that any hedging transactions involving "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder), if any, will be conducted only in accordance with the Securities Act and (5) has agreed that, at or prior to confirmation of sale of any Notes (whether upon original issuance or in any secondary transaction), it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it a written notice containing language substantially the same as the foregoing. As used herein, "United States" means the United States of America (including the states and the District of Columbia), its territories and possessions, and all other areas subject to the jurisdiction of the United States.

In addition, the Distribution Agent has represented and agreed that it has not offered or sold Notes and any Guarantee in respect thereof and will not offer or sell Notes and any Guarantee in respect thereof at any time except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, the Distribution Agent has represented and agreed that neither it, its affiliates (if any) nor any person acting on behalf of any of them has engaged or will engage in any directed selling efforts with respect to Notes and any Guarantee in respect thereof, and they have all complied and will comply with the offering restrictions requirements of Regulation S. Terms used in this paragraph have the meanings given to them in Regulation S.

An offer or sale of Notes within the United States by any dealer (whether or not participating in the offering of such Notes) may violate the registration requirements of the Securities Act.

European Economic Area

In relation to each Member State of the European Economic Area (each, a **Member State**), the Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Programme will be required to represent and agree, in relation to each Tranche of Notes that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may make an offer of such Notes to the public in that Member State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Member State (a **Non-exempt Offer**), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the Distribution Agent or Distribution Agents nominated by the Issuer for any such offer; or

(d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive, **provided that** no such offer of Notes referred to in (b) to (d) above shall require the relevant Issuer or any Distribution Agent to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an **offer of Notes to the public** in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression **Prospectus Directive** means Directive 2003/71/EC, as amended, and included any relevant implementing measure in the Member State.

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", the Distribution Agent has represented and agreed, and each further Distribution Agent appointed under the Program will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (A) the expression "retail investor" means a person who is one (or more) of the following:
- (1) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (2) a customer within the meaning of Directive 2016/97/EU as amended (the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (3) not a qualified investor as defined in the Prospectus Directive; and
- (B) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

United Kingdom

In relation to each Tranche of Notes, the Distribution Agent has represented and agreed, subscribing for or purchasing such Notes, and each further Distribution Agent appointed under the Programme will be required to represent and agree, with the relevant Issuer and, if the Notes are issued by MSBV, the Guarantor, that:

Financial promotion: it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or

General compliance: it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

The Netherlands

For selling restrictions in respect of The Netherlands, see "European Economic Area" above and in addition:

Regulatory capacity to offer Notes in The Netherlands: The Distribution Agent, and each further Distribution Agent appointed under the Programme, which did and does not have the requisite Dutch regulatory capacity to make offers or sales of financial instruments in The Netherlands has represented and agreed respectively will be required to represent and agree with the Issuers that it has not offered or sold and will not offer or sell any of the Notes of any Issuer in The Netherlands, other than through one or more investment firms acting as principals and having the Dutch regulatory capacity to make such offers or sales.

France

The Distribution Agent and the Issuer have represented and agreed, and each further Distribution Agent appointed under the Programme will be required to represent and agree, that:

If any moneys shall become payable by the Guarantor under this Guarantee, the Guarantor shall not for so long as the same remain unpaid in respect of any amount paid by it under this Guarantee exercise any right of subrogation in relation to the applicable Issuer or any other right or remedy which may accrue to it in respect of or as a result of any such payment.

All payments pursuant to this Guarantee will be made without withholding or deduction for any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied collected, withheld or assessed by the United States of America, or any political subdivision or any authority thereof having power to tax unless such withholding or deduction is required by law. The Guarantor shall not be required to make any additional payments on account of such withholding or deduction. This guarantee shall be governed and construed in accordance with New York law, without regard to the conflict of laws principles.
