Morgan Stanley Second Quarter 2025 Earnings Results

Morgan Stanley Reports Net Revenues of \$16.8 Billion, EPS of \$2.13 and ROTCE of 18.2%

NEW YORK, July 16, 2025 – Morgan Stanley (NYSE: MS) today reported net revenues of \$16.8 billion for the second quarter ended June 30, 2025 compared with \$15.0 billion a year ago. Net income applicable to Morgan Stanley was \$3.5 billion, or \$2.13 per diluted share,¹ compared with \$3.1 billion, or \$1.82 per diluted share,¹ for the same period a year ago.

Ted Pick, Chairman and Chief Executive Officer, said, “Morgan Stanley delivered another strong quarter. Six sequential quarters of consistent earnings – \$2.02, \$1.82, \$1.88, \$2.22, \$2.60 and \$2.13 – reflect higher levels of performance in different market environments. Institutional Securities saw strength and balance across businesses and geographies. Wealth continues to deliver, adding \$59 billion of net new assets and \$43 billion of fee-based flows. Total client assets across Wealth and Investment Management reached \$8.2 trillion. We announced an increase of our quarterly common stock dividend to \$1.00 per share with flexibility to deploy incremental capital. The management team is executing across the Integrated Firm, acting as a trusted advisor to clients and driving durable growth and long-term returns for our shareholders.”

Highlights

- Net revenues for the second quarter were \$16.8 billion, demonstrating the strength of our Integrated Firm with contributions across our business segments amidst a mixed market backdrop.
- The Firm delivered an ROTCE of 18.2% in the second quarter and 20.6% for the first half of the year.^{2,4}
- The Firm expense efficiency ratio was 70% for the first half of the year benefiting from our scale and disciplined expense management.^{3,8,19}
- The Standardized Common Equity Tier 1 capital ratio was 15.0%.¹⁶
- Institutional Securities reported net revenues of \$7.6 billion reflecting strong performance in our Markets businesses on higher client activity, with notable strength in Equity.
- Wealth Management delivered a pre-tax margin of 28.3% for the quarter.⁷ Net revenues of \$7.8 billion reflect strong asset management revenues, higher levels of client activity and the positive impact of DCP.⁵ The business demonstrated continued strength with net new assets of \$59 billion and fee-based asset flows of \$43 billion for the quarter.^{10,11}
- Investment Management results reflect net revenues of \$1.6 billion, primarily driven by asset management fees on higher average AUM. The quarter included positive long-term net flows of \$11 billion.¹³

Second Quarter Results

Institutional Securities

Institutional Securities reported net revenues of \$7.6 billion compared with \$7.0 billion a year ago. Pre-tax income was \$2.1 billion compared with \$2.0 billion a year ago.⁶

Investment Banking revenues down 5%:

- Advisory revenues decreased from a year ago on lower completed M&A transactions.
- Equity underwriting revenues increased from a year ago on higher follow-ons, convertibles and IPOs.
- Fixed income underwriting revenues decreased from a year ago driven by lower non-investment grade issuances.

Equity net revenues up 23%:

- Equity net revenues reflect increases from a year ago across business lines and regions on higher client activity, with robust results in prime brokerage.

Fixed Income net revenues up 9%:

- Fixed Income net revenues increased from a year ago, primarily driven by higher results in macro products on higher client activity in a more volatile market environment, partially offset by lower results in commodities.

Other:

- Other revenues decreased from a year ago primarily driven by lower net interest income and fees on corporate loans.

Provision for credit losses:

- Provision for credit losses increased from a year ago, primarily driven by growth in the corporate loan portfolio and secured lending facilities as well as the impact of a moderately weaker macroeconomic outlook.

Total Expenses:

- Compensation expense increased from a year ago on higher expenses related to deferred compensation.⁵
- Non-compensation expenses increased from a year ago on higher execution-related expenses.

(\$ millions)	2Q 2025	2Q 2024
Net Revenues	\$7,643	\$6,982
Investment Banking	\$1,540	\$1,619
Advisory	\$508	\$592
Equity underwriting	\$500	\$352
Fixed income underwriting	\$532	\$675
Equity	\$3,721	\$3,018
Fixed Income	\$2,180	\$1,999
Other	\$202	\$346
Provision for credit losses	\$168	\$54
Total Expenses	\$5,364	\$4,882
Compensation	\$2,430	\$2,291
Non-compensation	\$2,934	\$2,591

Wealth Management

Wealth Management reported net revenues of \$7.8 billion compared with \$6.8 billion a year ago. Pre-tax income of \$2.2 billion resulted in a pre-tax margin of 28.3%.^{6, 7}

Net revenues up 14%:

- Asset management revenues increased from a year ago on higher asset levels and the cumulative impact of positive fee-based flows.¹⁰
- Transactional revenues increased 17% from a year ago excluding the impact of mark-to-market on investments associated with DCP.^{5, 14} Results for the quarter were driven by a broad-based increase in levels of client activity.
- Net interest income increased from a year ago primarily driven by the cumulative impact of lending growth.

(\$ millions)	2Q 2025	2Q 2024
Net Revenues	\$7,764	\$6,792
Asset management	\$4,411	\$3,989
Transactional ¹⁴	\$1,264	\$782
Net interest	\$1,910	\$1,798
Other	\$179	\$223
Provision for credit losses	\$28	\$22
Total Expenses	\$5,536	\$4,949
Compensation	\$4,147	\$3,601
Non-compensation	\$1,389	\$1,348

Provision for credit losses:

- Provision for credit losses increased from a year ago driven by higher assessments for specific loans.

Total Expenses:

- Compensation expense increased from a year ago on higher compensable revenues and higher expenses related to DCP.⁵
- Non-compensation expenses increased from a year ago on higher marketing and business development and increased technology spend.

Investment Management

Investment Management reported net revenues of \$1.6 billion compared with \$1.4 billion a year ago. Pre-tax income was \$323 million compared with \$222 million a year ago.⁶

Net revenues up 12%:

- Asset management and related fees increased from a year ago on higher average AUM primarily driven by higher market levels and the cumulative impact of positive long-term net flows.¹³
- Performance-based income and other revenues increased from a year ago on higher accrued carried interest in our infrastructure funds and mark-to-market gains on investments associated with DCP versus losses a year ago.

(\$ millions)	2Q 2025	2Q 2024
Net Revenues	\$1,552	\$1,386
Asset management and related fees	\$1,434	\$1,342
Performance-based income and other	\$118	\$44
Total Expenses	\$1,229	\$1,164
Compensation	\$613	\$568
Non-compensation	\$616	\$596

Total Expenses:

- Compensation expense increased from a year ago primarily driven by compensation associated with carried interest and higher expenses related to DCP.⁵
- Non-compensation expenses increased from a year ago primarily driven by distribution expenses on higher average AUM.

Other Matters

- The Firm repurchased \$1.0 billion of its outstanding common stock during the quarter as part of its Share Repurchase Program.
- The Board of Directors reauthorized a multi-year common equity share repurchase program of up to \$20 billion, without a set expiration date, beginning in the third quarter of 2025.
- The Board of Directors declared a \$1.00 quarterly dividend per share, an increase of 7.5 cents, payable on August 15, 2025 to common shareholders of record on July 31, 2025.
- The effective tax rate for the current quarter was 22.7%.

Morgan Stanley (NYSE: MS) is a leading global financial services firm providing a wide range of investment banking, securities, wealth management and investment management services. With offices in 42 countries, the Firm's employees serve clients worldwide including corporations, governments, institutions and individuals. For further information about Morgan Stanley, please visit www.morganstanley.com.

A financial summary follows. Financial, statistical and business-related information, as well as information regarding business and segment trends, is included in the financial supplement. Both the earnings release and the financial supplement are available online in the Investor Relations section at www.morganstanley.com.

NOTICE:

The information provided herein and in the financial supplement, including information provided on the Firm's earnings conference calls, may include certain non-GAAP financial measures. The definition of such measures or reconciliation of such measures to the comparable U.S. GAAP figures are included in this earnings release and the financial supplement, both of which are available on www.morganstanley.com.

This earnings release may contain forward-looking statements, including the attainment of certain financial and other targets, objectives and goals. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date on which they are made, which reflect management's current estimates, projections, expectations, assumptions, interpretations or beliefs and which are subject to risks and uncertainties that may cause actual results to differ materially. For a discussion of risks and uncertainties that may affect the future results of the Firm, please see "Forward-Looking Statements" preceding Part I, Item 1, "Competition" and "Supervision and Regulation" in Part I, Item 1, "Risk Factors" in Part I, Item 1A, "Legal Proceedings" in Part I, Item 3, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7 and "Quantitative and Qualitative Disclosures about Risk" in Part II, Item 7A in the Firm's Annual Report on Form 10-K for the year ended December 31, 2024 and other items throughout the Form 10-K, the Firm's Quarterly Reports on Form 10-Q and the Firm's Current Reports on Form 8-K, including any amendments thereto.

¹ Includes preferred dividends related to the calculation of earnings per share for the second quarter of 2025 and 2024 of approximately \$147 million and \$134 million, respectively.

² The Firm prepares its Consolidated Financial Statements using accounting principles generally accepted in the United States (U.S. GAAP). From time to time, Morgan Stanley may disclose certain “non-GAAP financial measures” in the course of its earnings releases, earnings conference calls, financial presentations and otherwise. The Securities and Exchange Commission defines a “non-GAAP financial measure” as a numerical measure of historical or future financial performance, financial position, or cash flows that is subject to adjustments that effectively exclude, or include amounts from the most directly comparable measure calculated and presented in accordance with U.S. GAAP. Non-GAAP financial measures disclosed by Morgan Stanley are provided as additional information to analysts, investors and other stakeholders in order to provide them with greater transparency about, or an alternative method for assessing our financial condition, operating results, or capital adequacy. These measures are not in accordance with, or a substitute for U.S. GAAP, and may be different from or inconsistent with non-GAAP financial measures used by other companies. Whenever we refer to a non-GAAP financial measure, we will also generally define it or present the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP, along with a reconciliation of the differences between the non-GAAP financial measure we reference and such comparable U.S. GAAP financial measure.

³ Our earnings releases, earnings conference calls, financial presentations and other communications may also include certain metrics which we believe to be useful to us, analysts, investors, and other stakeholders by providing further transparency about, or an additional means of assessing, our financial condition and operating results.

⁴ Tangible common equity is a non-GAAP financial measure that the Firm considers useful for analysts, investors and other stakeholders to allow comparability of period-to-period operating performance and capital adequacy. Tangible common equity represents common equity less goodwill and intangible assets net of allowable mortgage servicing rights deduction. The calculation of return on average tangible common equity, also a non-GAAP financial measure, represents full year or annualized net income applicable to Morgan Stanley less preferred dividends as a percentage of average tangible common equity. The calculation of tangible book value per common share, also a non-GAAP financial measure, represents tangible common shareholder's equity divided by common shares outstanding.

⁵ “DCP” refers to certain employee deferred cash-based compensation programs. Please refer to “Management's Discussion and Analysis of Financial Condition and Results of Operations – Other Matters – Deferred Cash-Based Compensation” in the Firm's Annual Report on Form 10-K for the year ended December 31, 2024.

⁶ Pre-tax income represents income before provision for income taxes.

⁷ Pre-tax margin represents income before provision for income taxes divided by net revenues.

⁸ The expense efficiency ratio represents total non-interest expenses as a percentage of net revenues.

⁹ Wealth Management fee-based client assets represent the amount of assets in client accounts where the basis of payment for services is a fee calculated on those assets.

¹⁰ Wealth Management fee-based asset flows include net new fee-based assets (including asset acquisitions), net account transfers, dividends, interest, and client fees, and exclude institutional cash management related activity.

¹¹ Wealth Management net new assets represent client asset inflows, inclusive of interest, dividends and asset acquisitions, less client asset outflows, and exclude the impact of business combinations/divestitures and the impact of fees and commissions.

¹² AUM is defined as assets under management or supervision.

¹³ Long-term net flows include the Equity, Fixed Income and Alternative and Solutions asset classes and excludes the Liquidity and Overlay Services asset class.

¹⁴ Transactional revenues include investment banking, trading, and commissions and fee revenues.

¹⁵ Capital ratios are estimates as of the press release date, July 16, 2025.

¹⁶ CET1 capital is defined as Common Equity Tier 1 capital. The Firm's risk-based capital ratios are computed under each of the (i) standardized approaches for calculating credit risk and market risk risk-weighted assets (RWAs) (the “Standardized Approach”) and (ii) applicable advanced approaches for calculating credit risk, market risk and operational risk RWAs (the “Advanced Approach”). For information on the calculation of regulatory capital and ratios, and associated regulatory requirements, please refer to “Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Regulatory Requirements” in the Firm's Annual Report on Form 10-K for the year ended December 31, 2024.

¹⁷ The Tier 1 leverage ratio is a leverage-based capital requirement that measures the Firm's leverage. Tier 1 leverage ratio utilizes Tier 1 capital as the numerator and average adjusted assets as the denominator.

¹⁸ The Firm's supplementary leverage ratio (SLR) utilizes a Tier 1 capital numerator of approximately \$88.4 billion and \$80.5 billion, and supplementary leverage exposure denominator of approximately \$1.62 trillion and \$1.47 trillion, for the second quarter of 2025 and 2024, respectively.

¹⁹ During the first quarter of 2025 as a result of a March employee action, we recognized severance costs associated with a reduction in force ("RIF") of \$144 million, included in Compensation and benefits expense. The RIF occurred across our business segments and geographic regions and impacted approximately 2% of our global workforce at that time. The RIF was related to performance management and the alignment of our workforce to our business needs, rather than a change in strategy or exit of businesses. We recorded first quarter severance costs of \$78 million in the Institutional Securities business segment, \$50 million in the Wealth Management business segment, and \$16 million in the Investment Management business segment. These costs were incurred across all regions, with the majority in the Americas.

Definition of U.S. GAAP to Non-GAAP Measures

- (a) We prepare our financial statements using U.S. GAAP. From time to time, we may disclose certain “non-GAAP financial measures” in this document or in the course of our earnings releases, earnings and other conference calls, financial presentations, definitive proxy statements and other public disclosures. A “non-GAAP financial measure” excludes, or includes, amounts from the most directly comparable measure calculated and presented in accordance with U.S. GAAP. We consider the non-GAAP financial measures we disclose to be useful to us, investors, analysts and other stakeholders by providing further transparency about, or an alternate means of assessing or comparing our financial condition, operating results and capital adequacy. These measures are not in accordance with, or a substitute for, U.S. GAAP and may be different from or inconsistent with non-GAAP financial measures used by other companies. Whenever we refer to a non-GAAP financial measure, we will also generally define it or present the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP, along with a reconciliation of the differences between the U.S. GAAP financial measure and the non-GAAP financial measure. We present certain non-GAAP financial measures that exclude the impact of mark-to-market gains and losses on DCP investments from net revenues and compensation expenses. The impact of DCP is primarily reflected in our Wealth Management business segment results. These measures allow for better comparability of period-to-period underlying operating performance and revenue trends, especially in our Wealth Management business segment. By excluding the impact of these items, we are better able to describe the business drivers and resulting impact to net revenues and corresponding change to the associated compensation expenses. For more information, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Executive Summary” in the 2024 Form 10-K.
- (b) The following are considered non-GAAP financial measures:
- Tangible common equity represents common shareholders’ equity less goodwill and intangible assets net of allowable mortgage servicing rights deduction. In addition, we believe that certain ratios that utilize tangible common equity, such as return on average tangible common equity (“ROTCE”) and tangible book value per common share, also non-GAAP financial measures, are useful for evaluating the operating performance and capital adequacy of the business period-to-period, respectively.
 - ROTCE represents annualized earnings applicable to Morgan Stanley common shareholders as a percentage of average tangible common equity.
 - Tangible book value per common share represents tangible common equity divided by common shares outstanding.
 - Segment return on average common equity and return on average tangible common equity represent net income applicable to Morgan Stanley by segment less preferred dividends allocated to each segment, annualized as a percentage of average common equity and average tangible common equity, respectively, allocated to each segment. The amount of capital allocated to the business segments is generally set at the beginning of each year and remains fixed throughout the year until the next annual reset unless a significant business change occurs (e.g., acquisition or disposition).
 - Net revenues excluding DCP represents net revenues adjusted for the impact of mark-to-market gains and losses on economic hedges associated with certain employee deferred cash-based compensation plans.
 - Compensation expense excluding DCP represents compensation adjusted for the impact related to certain employee deferred cash-based compensation plans linked to investment performance.

Definitions of Performance Metrics and Terms

Our earnings releases, earnings conference calls, financial presentations and other communications may also include certain metrics that we believe to be useful to us, investors, analysts and other stakeholders by providing further transparency about, or an additional means of assessing, our financial condition and operating results.

Page 1:

- (a) Provision for credit losses represents the provision for credit losses on loans held for investment and unfunded lending commitments.
- (b) Net income applicable to Morgan Stanley represents net income, less net income applicable to nonredeemable noncontrolling interests.
- (c) Earnings applicable to Morgan Stanley common shareholders represents net income applicable to Morgan Stanley, less preferred dividends.

Page 2:

- (a) Return on average common equity represents annualized earnings applicable to Morgan Stanley common shareholders as a percentage of average common equity.
- (b) Return on average tangible common equity represents a non-GAAP financial measure.
- (c) Book value per common share represents common equity divided by period end common shares outstanding.
- (d) Tangible book value per common share represents a non-GAAP financial measure.
- (e) Pre-tax margin represents income before provision for income taxes as a percentage of net revenues.
- (f) The Firm expense efficiency ratio represents total non-interest expenses as a percentage of net revenues.

Page 3:

- (a) Liquidity Resources, which are primarily held within the Parent Company and its major operating subsidiaries, are comprised of high quality liquid assets (HQLA) and cash deposits with banks. The total amount of Liquidity Resources is actively managed by us considering the following components: unsecured debt maturity profile; balance sheet size and composition; funding needs in a stressed environment, inclusive of contingent cash outflows; legal entity, regional and segment liquidity requirements; regulatory requirements; and collateral requirements. Average Liquidity Resources represents the average daily balance for the three months ended June 30, 2025, March 31, 2025 and June 30, 2024.
- (b) Our goodwill and intangible balances utilized in the calculation of tangible common equity are net of allowable mortgage servicing rights deduction.
- (c) Tangible common equity represents a non-GAAP financial measure.
- (d) U.S. Bank refers to our U.S. Bank Subsidiaries, Morgan Stanley Bank N.A. and Morgan Stanley Private Bank, National Association, and excludes transactions between the bank subsidiaries, as well as deposits from the Parent Company and affiliates.
- (e) Firmwide regional revenues reflect our consolidated net revenues on a managed basis. Further discussion regarding the geographic methodology for net revenues is disclosed in Note 22 to the consolidated financial statements included in the 2024 Form 10-K.

Page 4:

- (a) Our attribution of average common equity to the business segments is based on the Required Capital framework, an internal capital adequacy measure. This framework is a risk-based and leverage-based capital measure, which is compared with our regulatory capital to ensure that we maintain an amount of going concern capital after absorbing potential losses from stress events, where applicable, at a point in time. The amount of capital allocated to the business segments is generally set at the beginning of each year and remains fixed throughout the year until the next annual reset unless a significant business change occurs (e.g., acquisition or disposition). We define the difference between our total average common equity and the sum of the average common equity amounts allocated to our business segments as Parent Company common equity. The Required Capital framework is based on our regulatory capital requirements. We continue to evaluate our Required Capital framework with respect to the impact of evolving regulatory requirements, as appropriate. For further discussion of the framework, refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Regulatory Requirements" in the 2024 Form 10-K.
- (b) Our risk-based capital ratios are computed under each of (i) the standardized approaches for calculating credit risk and market risk risk-weighted assets (RWAs) ("Standardized Approach") and (ii) the applicable advanced approaches for calculating credit risk, market risk and operational risk RWAs ("Advanced Approach"). For information on the calculation of regulatory capital and ratios, and associated regulatory requirements, please refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Regulatory Requirements" in the 2024 Form 10-K.
- (c) Supplementary leverage ratio represents Tier 1 capital divided by the total supplementary leverage exposure.

Page 5:

- (a) Institutional Securities Equity and Fixed income net revenues include trading, net interest income (interest income less interest expense), asset management, commissions and fees, investments and other revenues which are directly attributable to those businesses.
- (b) Pre-tax margin represents income before provision for income taxes as a percentage of net revenues.
- (c) VaR represents the unrealized loss in portfolio value that, based on historically observed market risk factor movements, would have been exceeded with a frequency of 5%, or five times in every 100 trading days, if the portfolio were held constant for one day. Further discussion of the calculation of VaR and the limitations of our VaR methodology, is disclosed in "Quantitative and Qualitative Disclosures about Risk" included in the 2024 Form 10-K.

Page 6:

- (a) Transactional revenues for the Wealth Management segment includes investment banking, trading, and commissions and fee revenues.
- (b) Net interest income represents interest income less interest expense.
- (c) Other revenues for the Wealth Management segment includes investments and other revenues.
- (d) Pre-tax margin represents income before provision for income taxes as a percentage of net revenues.

Definitions of Performance Metrics and Terms

Our earnings releases, earnings conference calls, financial presentations and other communications may also include certain metrics that we believe to be useful to us, investors, analysts and other stakeholders by providing further transparency about, or an additional means of assessing, our financial condition and operating results.

Page 7:

- (a) Client assets represent those for which Wealth Management is providing services including financial advisor-led brokerage, custody, administrative and investment advisory services; self-directed brokerage and investment advisory services; financial and wealth planning services; workplace services, including stock plan administration, and retirement plan services.
- (b) Net new assets represent client asset inflows, inclusive of interest, dividends and asset acquisitions, less client asset outflows, and exclude the impact of business combinations/divestitures and the impact of fees and commissions.
- (c) Margin and other lending represents margin lending arrangements, which allow customers to borrow against the value of qualifying securities and other lending which includes non-purpose securities-based lending on non-bank entities.
- (d) Deposits reflect liabilities sourced from Wealth Management clients and other sources of funding on our U.S. Bank Subsidiaries. Deposits include sweep deposit programs, savings and other deposits, and time deposits.
- (e) Annualized weighted average cost of deposits represents the total annualized weighted average cost of the various deposit products. Amounts at June 30, 2025 and March 31, 2025 include the effect of related hedging derivatives. Amounts at June 30, 2024 exclude the effect of related hedging derivatives, which did not have a material impact on the cost of deposits. The period end cost of deposits is based upon balances and rates as of June 30, 2025, March 31, 2025 and June 30, 2024. The period average is based on daily balances and rates for the period.
- (f) Advisor-led client assets represent client assets in accounts that have a Wealth Management representative assigned.
- (g) Fee-based client assets represent the amount of assets in client accounts where the basis of payment for services is a fee calculated on those assets.
- (h) Fee-based asset flows include net new fee-based assets (including asset acquisitions), net account transfers, dividends, interest and client fees, and exclude institutional cash management related activity. For a description of the Inflows and Outflows included in Fee-based asset flows, see Fee-based client assets in the 2024 Form 10-K.
- (i) Self-directed client assets represent active accounts which are not advisor-led. Active accounts are defined as having at least \$25 in assets.
- (j) Daily average revenue trades (DARTs) represent the total self-directed trades in a period divided by the number of trading days during that period.
- (k) Self-directed households represent the total number of households that include at least one active account with self-directed assets. Individual households or participants that are engaged in one or more of our Wealth Management channels are included in each of the respective channel counts.
- (l) The workplace channel assets includes equity compensation solutions for companies, their executives and employees. Stock plan unvested assets represent the market value of public company securities at the end of the period.
- (m) Stock plan participants represent total accounts with vested and/or unvested stock plan assets in the workplace channel. Individuals with accounts in multiple plans are counted as participants in each plan.

Page 8:

- (a) Asset management and related fees represents management and administrative fees, distribution fees, and performance-based fees, not in the form of carried interest. Asset management and related fees represents Asset management as reported on our consolidated income statement.
- (b) Performance-based income and other includes performance-based fees in the form of carried interest, gains and losses from investments, gains and losses from hedges on seed capital and certain employee deferred compensation plans, net interest, and other revenues. Performance-based income and other represents investments, investment banking, trading, net interest and other revenues as reported on our consolidated income statement.
- (c) Pre-tax margin represents income before provision for income taxes as a percentage of net revenues.

Page 9:

- (a) Investment Management Alternatives and Solutions asset class includes products in Fund of Funds, Real Estate, Private Equity and Credit strategies, Multi-Asset portfolios, as well as Custom Separate Account portfolios.
- (b) Investment Management net flows include new commitments, investments or reinvestments, net of client redemptions, returns of capital post-fund investment period and dividends not reinvested and excludes the impact of the transition of funds from their commitment period to the invested capital period.
- (c) Overlay Services represents investment strategies that use passive exposure instruments to obtain, offset, or substitute specific portfolio exposures beyond those provided by the underlying holdings of the fund.
- (d) Total assets under management or supervision excludes shares of minority stake assets which represent the Investment Management business segment's proportional share of assets managed by third-party asset managers in which we hold investments accounted for under the equity method.

Page 10 and 11:

- (a) Corporate loans include relationship and event-driven loans and typically consist of revolving lines of credit, term loans and bridge loans.
- (b) Secured lending facilities include loans provided to clients, which are primarily secured by loans, which are, in turn, collateralized by various assets including residential real estate, commercial real estate, corporate and financial assets.
- (c) Securities-based lending and other includes financing extended to sales and trading customers and corporate loans purchased in the secondary market.
- (d) Institutional Securities Lending Commitments principally include Corporate lending activity.

Supplemental Quantitative Details and Calculations

Page 1:

(1) The following sets forth the net revenue impact of mark-to-market gains and losses on investments associated with DCP and compensation expense impact related to DCP:

	2Q25	1Q25	2Q24	2Q25 YTD	2Q24 YTD
Net revenues	\$ 16,792	\$ 17,739	\$ 15,019	34,531	30,155
Adjustment for mark-to-market on DCP	(377)	149	54	(228)	(133)
Adjusted Net revenues - non-GAAP	\$ 16,415	\$ 17,888	\$ 15,073	\$ 34,303	\$ 30,022
Compensation expense	\$ 7,190	\$ 7,521	\$ 6,460	\$ 14,711	\$ 13,156
Adjustment for mark-to-market on DCP	(371)	2	(55)	(369)	(304)
Adjusted Compensation expense - non-GAAP	\$ 6,819	\$ 7,523	\$ 6,405	\$ 14,342	\$ 12,852

- Compensation expense for deferred cash-based compensation plans awards is calculated based on the notional value of the award granted, adjusted for changes in the fair value of the referenced investments that employees select. Compensation expense is recognized over the vesting period relevant to each separately vesting portion of deferred awards. The table above presents non-GAAP adjusted Compensation expense which excludes amounts recognized in Compensation expense associated with certain cash-based deferred compensation plans.

- We invest directly, as principal, in financial instruments and other investments to economically hedge certain of our obligations under these deferred cash-based compensation plans. Changes in the fair value of such investments, net of financing costs, are recorded in net revenues, and included in Transactional revenues in the Wealth Management business segment. Although changes in compensation expense resulting from changes in the fair value of the referenced investments will generally be offset by changes in the fair value of investments recognized in net revenues, there is typically a timing difference between the immediate recognition of gains and losses on our investments and the deferred recognition of the related compensation expense over the vesting period. While this timing difference may not be material to our Income before provision for income taxes in any individual period, it may impact the Wealth Management business segment reported ratios and operating metrics in certain periods due to potentially significant impacts to net revenues and compensation expenses. The table above presents non-GAAP adjusted Net revenues which excludes amounts recognized in Net revenues related to mark-to-market gains and losses, net of financing costs, on investments associated with certain cash-based deferred compensation plans.

(2) The Firm non-interest expenses by category are as follows:

	2Q25	1Q25	2Q24	2Q25 YTD	2Q24 YTD
Compensation and benefits ^(a)	\$ 7,190	\$ 7,521	\$ 6,460	\$ 14,711	\$ 13,156
Non-compensation expenses:					
Brokerage, clearing and exchange fees	1,188	1,222	995	2,410	1,916
Information processing and communications	1,089	1,050	1,011	2,139	1,987
Professional services	711	674	753	1,385	1,392
Occupancy and equipment	459	449	464	908	905
Marketing and business development	297	238	245	535	462
Other	1,040	906	941	1,946	1,798
Total non-compensation expenses ^(b)	4,784	4,539	4,409	9,323	8,460
Total non-interest expenses	\$ 11,974	\$ 12,060	\$ 10,869	\$ 24,034	\$ 21,616

(a) During the quarter ended March 31, 2025 as a result of a March employee action, we recognized severance costs associated with a reduction in force ("RIF") of \$144 million, included in Compensation and benefits expenses. The RIF occurred across our business segments and geographic regions and impacted approximately 2% of our global workforce at that time. The RIF was related to performance management and the alignment of our workforce to our business needs, rather than a change in strategy or exit of businesses. We recorded severance costs of \$78 million in the Institutional Securities business segment, \$50 million in the Wealth Management business segment, and \$16 million in the Investment Management business segment for the quarter ended March 31, 2025. These costs were incurred across all regions, with the majority in the Americas.

(b) For the quarters ended June 30, 2025, March 31, 2025 and June 30, 2024 and six months ended June 30, 2025 and 2024, Firm results included an FDIC Special Assessment of \$(3) million, \$3 million, \$8 million, \$0 million and \$50 million, respectively. This FDIC Special Assessment was reported in the business segments' results as follows: Institutional Securities: 2Q25: \$(1) million, 1Q25: \$1 million, 2Q24: \$3 million, 2Q25 YTD: \$0 million, 2Q24 YTD: \$21 million; Wealth Management: 2Q25: \$(2) million, 1Q25: \$2 million, 2Q24: \$5 million, 2Q25 YTD: \$0 million, 2Q24 YTD: \$29 million.

Page 2:

(1) Refer to page 1(2) End Notes from above.

Page 3:

(1) Includes loans held for investment (net of allowance), loans held for sale and also includes loans at fair value which are included in Trading assets on the balance sheet.

(2) As of June 30, 2025, March 31, 2025 and June 30, 2024, the U.S. Bank investment securities portfolio included held to maturity investment securities of \$46.1 billion, \$47.2 billion and \$50.2 billion, respectively.

Page 5:

(1) Institutional Securities average tangible common equity represents average common equity adjusted to exclude goodwill and intangible assets net of allowable mortgage servicing rights deduction. The adjustments are as follows: 2Q25: \$457mm; 1Q25: \$457mm; 2Q24: \$482mm; 2Q25 YTD: \$457mm; 2Q24 YTD: \$482mm.

Supplemental Quantitative Details and Calculations

Page 6:

(1) The following sets forth the net revenue impact of mark-to-market gains and losses on investments associated with DCP and compensation expense impact related to DCP:

	2Q25	1Q25	2Q24	2Q25 YTD	2Q24 YTD
Net revenues	\$ 7,764	\$ 7,327	\$ 6,792	\$ 15,091	\$ 13,672
Adjustment for mark-to-market on DCP	(294)	131	45	(163)	(95)
Adjusted Net revenues - non-GAAP	\$ 7,470	\$ 7,458	\$ 6,837	\$ 14,928	\$ 13,577
Compensation expense	\$ 4,147	\$ 3,999	\$ 3,601	\$ 8,146	\$ 7,389
Adjustment for mark-to-market on DCP	(264)	17	(33)	(247)	(189)
Adjusted Compensation expense - non-GAAP	\$ 3,883	\$ 4,016	\$ 3,568	\$ 7,899	\$ 7,200

(2) Wealth Management average tangible common equity represents average common equity adjusted to exclude goodwill and intangible assets net of allowable mortgage servicing rights deduction. The adjustments are as follows: 2Q25: \$13,088mm; 1Q25: \$13,088mm; 2Q24: \$13,582mm; 2Q25 YTD: \$13,088mm; 2Q24 YTD: \$13,582mm.

Page 7:

(1) Wealth Management other lending included \$2 billion of non-purpose securities based lending on non-bank entities in each period ended June 30, 2025, March 31, 2025 and June 30, 2024.

(2) Wealth Management deposits details for the quarters ended June 30, 2025, March 31, 2025 and June 30, 2024, are as follows:

	2Q25	1Q25	2Q24
Brokerage sweep deposits	\$ 133	\$ 136	\$ 129
Other deposits	250	239	214
Total deposits	\$ 383	\$ 375	\$ 343

Page 8:

(1) Investment Management average tangible common equity represents average common equity adjusted to exclude goodwill and intangible assets net of allowable mortgage servicing rights deduction. The adjustments are as follows: 2Q25: \$9,557mm; 1Q25: \$9,557mm; 2Q24: \$9,676mm; 2Q25 YTD: \$9,557mm; 2Q24 YTD: \$9,676mm.

Page 10:

(1) For the quarters ended June 30, 2025, March 31, 2025 and June 30, 2024, Investment Management reflected loan balances of \$20 million, \$255 million and \$481 million, respectively.

Page 11:

(1) For the quarter ended June 30, 2025, the Allowance Rollforward for Loans and Lending Commitments is as follows:

	Institutional Securities	Wealth Management	Total
Loans			
Allowance for Credit Losses (ACL)
