Risk warning

The Program Securities may not be a suitable investment for all investors

An investment in the Program Securities entails certain risks, which vary depending on the specification and type or structure of the Program Securities.

Each potential investor should determine whether an investment in the Program Securities is appropriate in its particular circumstances. An investment in the Program Securities requires a thorough understanding of the nature of

the relevant transaction. Potential investors should be experienced with respect to an investment in the Program Securities and be aware of the related risks.

An investment in the Program Securities is only suitable for potential investors who:

- (a) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Program Securities and the information contained or incorporated by reference into this document;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Program Securities will have on their overall investment portfolio;
- (c) understand thoroughly the terms of the Program Securities and are familiar with the behaviour of the Relevant Underlying or Relevant Factor as applicable and financial markets;
- (d) are capable of bearing the economic risk of an investment in the Program Securities until the maturity date of the Notes or exercise date of the Warrants or Certificates;
- (e) recognise that it may not be possible to dispose of the Program Securities for a substantial period of time, if at all before the maturity date; and
- (f) are familiar with the behaviour of the Relevant Underlying or Relevant Factor, as applicable and relevant financial markets and be able to evaluate (either alone or with the help of a financial and legal adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Program Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as standalone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in the Program Securities unless it has the expertise (either alone or with a financial and legal adviser) to evaluate how the Program Securities will perform under changing conditions, the resulting effects on the value of the Program Securities and the impact this investment will have on the potential investor's overall investment portfolio. The Issuers, the Guarantor and Morgan Stanley & Co. International plc and Morgan Stanley & Co LLC as Distribution Agents, disclaim any responsibility to advise prospective investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Program Securities.

Investing in the Program Securities involves risks. See "*Risk Factors Relating to the Program Securities*" beginning on page 5 of this Offering Circular.

Risks

The following is a summary only and must be read in conjunction with the section entitled "Risk Factors" of the Registration Document as supplemented by the First Registration Document Supplement dated 6 November 2015 and the Second Registration Document Supplement dated 31 March 2016 (which is incorporated by reference into this Offering Circular).

Key Risks Specific to the Issuers:

The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSFL, also impact MSFL:

Market Risk: Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley.

Credit Risk: Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising

when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Operational Risk: Morgan Stanley is subject to the risk of loss, or of damage to its reputation, resulting from inadequate or failed processes, people and systems or from external events (e.g. fraud, theft, legal and compliance risks, cyber attacks or damage to physical assets). Morgan Stanley may incur operational risk across the full scope of its business activities, including revenue-generating activities (e.g. sales and trading) and support and control groups (e.g. information technology and trade processing).

Liquidity and Funding Risk: Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend significantly on its credit ratings. Morgan Stanley is a holding company and depends on payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets; or be unable to meet its financial obligations without experiencing significant business disruption or reputational damage that may threaten its viability as a going concern.

Legal, Regulatory and Compliance Risk: Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering and terrorist financing rules and regulations. Further, in today's environment of rapid and possibly transformational regulatory change, Morgan Stanley also views regulatory change as a component of legal, regulatory and compliance risk.

Risk Management: Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposure in all market environments or against all types of risk.

Competitive Environment: Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets may adversely affect Morgan Stanley's business and may increase competition (for example, by putting increased pressure on bid-offer spreads, commissions, markups or comparable fees). Finally, Morgan Stanley's ability to retain and attract qualified employees is critical to the success of its business and the failure to do so may materially adversely affect its performance.

International Risk: Morgan Stanley is subject to numerous political, economic, legal, operational, franchise and other risks as a result of its international operations (including risks of possible nationalisation, expropriation, price controls, capital controls, exchange controls, increased taxes and levies and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability) which could adversely impact its businesses in many ways.

Acquisition, Divestiture and Joint Venture Risk: Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, minority stakes and strategic alliances.

Risk Relating to the Exercise of Potential Resolution Measures Powers: The application of regulatory requirements and strategies in the United States to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for the security

Hedging transactions involving any "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder) may only be conducted in accordance with the Securities Act. The Program Securities are subject to transfer restrictions. See "*Subscription and Sale*" and "*No Ownership by U.S. Persons*".

Structural subordination: Morgan Stanley's access to assets held by subsidiaries may be restricted: The securities issued by Morgan Stanley, including the guarantees of the MSFL Program Securities, are Morgan Stanley's unsecured senior obligations, but Morgan Stanley's assets consist primarily of equity in, and receivables from, its subsidiaries. As a result, Morgan Stanley's ability (i) to make payments on its Notes, Warrants and Certificates, (ii) to make payments with respect to its guarantee of Program Securities issued by MSFL and (iii) to pay dividends on its preferred stock and common stock, in each case depends upon its receipt of dividends, loan payments and other funds from its subsidiaries. In addition, the direct creditors of any subsidiary will have a prior claim on the subsidiary's assets, if any, and Morgan Stanley's rights and the rights of its creditors, including your rights as an owner of Morgan Stanley's Notes, Warrants and Certificates or your rights under its guarantee of MSFL Program Securities, will be subject to that prior claim, except to the extent that any claims Morgan Stanley may have as a creditor of that subsidiary are paid. This subordination of parent company creditors to prior claims of creditors of subsidiaries over the subsidiaries' assets is referred to as structural subordination.

In addition, various statutes and regulations restrict some of Morgan Stanley's subsidiaries from paying dividends or making loans or advances to Morgan Stanley. These restrictions could prevent those subsidiaries from paying the cash to Morgan Stanley that it needs in order to pay you. These restrictions include:

- the net capital requirements under the Exchange Act, and the rules of some exchanges and other regulatory bodies, which apply to some of Morgan Stanley's principal subsidiaries, such as Morgan Stanley & Co. LLC and Morgan Stanley & Co. International plc, and
- banking regulations, which apply to Morgan Stanley Bank, N.A., a national bank, Morgan Stanley Private Bank, National Association (formerly Morgan Stanley Trust FSB), a national bank, and other bank subsidiaries of Morgan Stanley.

Status of the MSFL Program Securities; relationship with Morgan Stanley securities: The Program Securities issued by MSFL are its unsecured obligations and holders of these Program Securities are direct creditors of MSFL, as well as direct creditors of Morgan Stanley under the related guarantee. As a finance subsidiary, MSFL has no independent operations beyond the issuance and administration of its securities and is expected to have no independent assets available for distributions to holders of MSFL Program Securities if they make claims in respect of the securities in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related guarantee by Morgan Stanley and that guarantee will rank *pari passu* with all other unsecured, unsubordinated obligations of Morgan Stanley. Holders of Program Securities issued by MSFL should accordingly assume that in any such proceedings they would not have any priority over and should be treated *pari passu* with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley-issued securities.

Guarantee: Payment of all amounts due in respect of Program Securities issued by MSFL will be guaranteed by Morgan Stanley.

Distribution: Each Issuer is offering Program Securities on a continuing basis through the Distribution Agents, who have agreed to use reasonable efforts to solicit offers to purchase the same. Each Issuer may also sell Program Securities to the Distribution Agents as principal for their own account at prices agreed upon at the time of sale. The Distribution Agents may resell Program Securities purchased as principal. Each Issuer or the Distribution Agents may reject any offer to purchase Program Securities.

Form: Each Issuer may issue Program Securities in registered form only, which may be in global registered form or individual registered form.

U.S. withholding requirement: A Non-U.S. Holder should expect that a withholding agent will treat coupon payments (if any) on Program Securities as subject to U.S. federal withholding tax, unless the Non-U.S. Holder certifies on a properly completed appropriate IRS Form W-8BEN or W-8BEN-E that it is not a United States person and that it is eligible for the benefits of a Qualifying Treaty as defined in "*United States Federal Taxation*", or meets other certification and eligibility requirements as described in "*United States Federal Taxation*". For additional information on withholding requirements applicable to the Program Securities, see the discussion in "*United States Federal Taxation*".

Denomination of Notes: Notes may be denominated or payable in any currency, be issued at any price and have any maturity, in each case subject to all applicable consents being obtained and compliance with applicable legal and regulatory requirements.

Redemption of Notes: Notes may be redeemed at par or at such other redemption amount (detailed in a formula or otherwise) or by delivery of securities of an issuer not affiliated with Morgan Stanley, as specified in the applicable Pricing Supplement.

Early redemption: Early redemption will be permitted for taxation reasons but will otherwise be permitted only to the extent specified in the applicable Pricing Supplement or as may be required in the event of a default by the Issuer. In the case of certain Notes, if such Notes are redeemed early for any reason, the amount payable by the Issuer may be less than the amount that would have been paid had the Notes been redeemed at maturity. In the event of default by the Issuer, the investor would have an unsecured claim against the Issuer or, if applicable, the Guarantor.

Interest on Notes: Notes may be interest bearing or non interest bearing. Interest (if any) may accrue at a fixed rate or a floating rate, or a rate which varies during the lifetime of the relevant Series.

Exercise of Warrants and Certificates: Upon exercise, Warrants and Certificates may entitle the holder to receive from the Issuer a Cash Settlement Amount, or may entitle the holder to receive delivery of or to deliver an amount of securities (each as specified or calculated in accordance with the applicable Pricing Supplement), and may be American, European or Bermudan Style Securities, as specified in the applicable Pricing Supplement.

Governing law: Notes issued by Morgan Stanley may be governed by New York law or English law, as specified in the applicable Pricing Supplement. Notes issued by MSFL will be governed by English law. Warrants and Certificates will be governed by English law.

Use of proceeds: The net proceeds from the sale of Program Securities by Morgan Stanley will be used by Morgan Stanley for general corporate purposes, in connection with hedging Morgan Stanley's obligations under the Program Securities, or both.

Unless specified otherwise in the applicable Pricing Supplement, MSFL intends to lend the net proceeds from the sale of the Program Securities it offers to Morgan Stanley. Unless specified otherwise in the applicable Pricing Supplement, Morgan Stanley intends to use the proceeds from such loans for general corporate purposes.

Debt or derivative securities: Program Securities may not be ordinary debt securities and the return and/or interest and/or principal may be linked to the performance of, amongst other things, one or more of an index or formula, changes in the prices of securities, funds or commodities, movements in currency exchange rates and to the credit of one or more entities not affiliated with the Issuers (such items are referred to in this Offering Circular in relation to Notes as the "**Relevant Underlying**" and in relation to Certificates and Warrants, as the "**Relevant Factor**"). The return on such Program Securities may be influenced by unpredictable factors, including the value of the underlying or factor which may in turn be linked to the creditworthiness of an underlying entity, market prices of underlying, market volatility, interest rates, currency exchange rates, inflation, the length of time until maturity and other economic, financial, environmental, legal, regulatory, social and political influences which may not be within the Issuers' control.

Where Program Securities are linked to emerging market countries or currencies, the impact of the factors outlined previously are magnified. **These factors may cause a partial or total loss of an investor's investment in Program Securities and may involve the investor receiving a return that they might not have anticipated when purchasing Program Securities.**

Credit risk: An investment in the Program Securities bears the risk that the relevant Issuer and/or the Guarantor, if applicable, is not able to fulfil its obligations in respect of such Program Securities.

No rights in the underlying: Investment in Program Securities may carry similar risks to a direct investment in the Relevant Underlying or Relevant Factor; however investors will not have legal or beneficial ownership in such underlying.

Illiquid secondary market: Investment in Program Securities may be illiquid and investors should be prepared to hold Program Securities to maturity or expiration as there may be no secondary market therefor.

Conflicts of interest: Investors should be aware of potential conflicts of interest with the Determination Agent.

Stamp duty and tax generally: There may be stamp duty implications for investors in the Warrants or Certificates. Investors should seek professional tax advice in relation to the tax implications to them of an investment in Program Securities.

Consult professional advisers: Prospective investors should consult with their own professional advisors if they consider it necessary before purchasing any Program Securities.

Where to obtain documents: Certain documents relating to the Program Securities will be available at The Bank of New York Mellon, One Canada Square, London E14 5AL and also at the principal executive office of Morgan Stanley and the principal executive office of MSFL.

RISK FACTORS RELATING TO THE PROGRAM SECURITIES

Prospective investors should read the entire Offering Circular (and where appropriate, any applicable Pricing Supplement). Words and expressions defined elsewhere in this Offering Circular have the same meanings in this section.

Prospective investors should consider the section entitled "Risk Factors" at pages 1 to 2 in the Registration Document as supplemented by the supplements dated 6 November 2015 and 31 March 2016 in respect of Morgan Stanley referred to in the section entitled "Incorporation by Reference" in this Offering Circular and the factors described below and consult with their own professional advisors if they consider it necessary. Prospective investors should note that the risks described below are not the only risks the Issuers and/or the Guarantor face. Each of the Issuers and the Guarantor believes that such factors represent the principal risks inherent in investing in Program Securities issued under the Program but the inability of an Issuer and/or the Guarantor, if applicable, to pay interest, principal or other amounts on or in connection with any Program Securities may occur for other reasons, which may not be considered significant risks by such Issuer based on information currently available to it or which it may not currently be able to anticipate.

The Issuers and Morgan Stanley & Co. International plc and/or Morgan Stanley & Co LLC as Distribution Agents, disclaim any responsibility to advise prospective purchasers of any matters arising under the laws of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments on the Program Securities. These persons should consult their own legal and financial advisors concerning these matters. This section describes generally the most significant risks of investing in Program Securities linked to securities, indices or funds, to commodity prices, to currency prices, to the credit of one or more entities not affiliated with the Issuers or to other assets. Each investor should carefully consider whether the Program Securities, as described herein and in the applicable Pricing Supplement, are suited to its particular circumstances before deciding to purchase any Program Securities.

Risk Factors relating to MSFL Notes and MSFL Securities

The principal risks with respect to Morgan Stanley described in the Registration Document (as supplemented from time to time) will also represent the principal risks with respect to MSFL, either as an individual entity or as part of the Morgan Stanley Group.

As a finance subsidiary, MSFL has no independent operations and is expected to have no independent assets

MSFL has no independent operations beyond the issuance and administration of its securities and is expected to have no independent assets available for distributions to holders of MSFL Program Securities if they make claims in respect of the Program Securities in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related guarantee by Morgan Stanley and that guarantee will rank *pari passu* with all other outstanding, unsecured and unsubordinated obligations of Morgan Stanley present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights. Holders will have recourse only to a single claim against Morgan Stanley and its assets under the guarantee. Holders of Program Securities issued by MSFL should accordingly assume that in any such proceedings they would not have any priority over and should be treated *pari passu* with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley-issued securities.

Program Securities issued by MSFL will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSFL or Morgan Stanley; A Morgan Stanley covenant default or bankruptcy, insolvency or reorganization event does not constitute an Event of Default with respect to MSFL Program Securities

Unless otherwise stated in the applicable Pricing Supplement, the Program Securities issued by MSFL will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSFL or Morgan Stanley. In addition, a covenant default by Morgan Stanley, as guarantor, or an event of bankruptcy, insolvency or reorganization of Morgan Stanley, as guarantor, does not constitute an event of default with respect to any Program Securities issued by MSFL.

Risk Factors relating to the Program Securities

Program Securities linked to one or more securities, indices, funds, commodities, currencies and/or underlying credits

The Issuers may issue (i) Notes with principal and/or interest determined by reference to a single security, index, exchange traded fund ("ETF") or other funds, to baskets of securities, indices, ETFs or other funds, to currency prices, commodity prices, interest rates, to the credit of one or more entities not affiliated with the Issuer, or other assets or instruments (each, a "**Relevant Underlying**") and (ii) Warrants and Certificates with a return determined by reference to an index or formula, to changes in the prices of securities, indices, ETFs, funds or commodities, to movements in currency exchange rates or other factors (each a "**Relevant Factor**"). In addition, the Issuers may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (a) they may lose all or a substantial portion of their principal or investment, depending on the performance of each Relevant Underlying or Relevant Factor, as applicable;
- (b) the market price of such Program Securities may be very volatile;
- (c) investors in Notes may receive no interest;
- (d) payment or payment of principal or interest, if applicable, may occur at a different time or in a different currency than expected;
- (e) a Relevant Underlying or Relevant Factor, as applicable may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (f) if a Relevant Underlying is applied to Notes or a Relevant Factor is applied to Warrants and Certificates in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Underlying on principal or interest payable on such Notes or Relevant Factor, on such Warrants to Certificates, is likely to be magnified; and
- (g) the timing of changes in a Relevant Underlying or Relevant Factor, as applicable may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Underlying or Relevant Factor, the greater the effect on yield.

The Program Securities are not ordinary debt securities

The terms of certain Notes and of the Warrants and Certificates differ from those of ordinary debt securities because the Notes may not pay interest, the Warrants and Certificates do not pay interest and, on maturity, depending on the performance of the Relevant Underlying or Relevant Factor, as applicable, may return less than the amount invested or nothing, or may return assets or securities of an issuer that is not affiliated with the Issuers, the value of which is less than the amount invested. Prospective investors who consider purchasing the Program Securities should reach an investment decision only after carefully considering the suitability of the Program Securities in light of their particular circumstances. The price of the Program Securities may fall in value as rapidly as it may rise, and investors in the Program Securities may potentially lose all of their investment. Investors in Warrants or Certificates will sustain a total loss of their investment if the Warrants or Certificates expire out of the money.

The value of the Program Securities linked to the Relevant Underlying or Relevant Factor, as applicable may be influenced by unpredictable factors

The value of the Program Securities may be influenced by several factors beyond each Issuer's and/or its respective Affiliates' and, where applicable, the Guarantor's control, including:

- (a) *Valuation of the Relevant Underlying or Relevant Factor.* The market price or value of a Program Security at any time is expected to be affected primarily by changes in the level of the Relevant Underlying or Relevant Factor to which the Program Securities are linked. It is impossible to predict how the level of the Relevant Underlying or Relevant Factor will vary over time. The historical performance value (if any) of the Relevant Underlying or Relevant Factor does not indicate the future performance of the Relevant Underlying or Relevant Factor. Factors which may have an effect on the value of the Relevant Underlying or Relevant Factor include the rate of return of the Relevant Underlying or Relevant Factor and, where relevant, the financial position and prospects of the issuer of the Relevant Underlying or Relevant Factor, the specified entity with respect to Credit-Linked Notes or the market price or value of the applicable underlying security, index, ETF, fund or basket of securities, indices, ETFs or funds. In addition, the level of the Relevant Underlying or Relevant Factor may depend on a number of inter related factors including economic

financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential investors should also note that whilst the market value of the Program Securities is linked to the Relevant Underlying or Relevant Factor and will be influenced (positively or negatively) by the Relevant Underlying or Relevant Factor, any change may not be comparable and may be disproportionate. It is possible that while the Relevant Underlying or Relevant Factor is increasing in value, the value of the Program Securities may fall. Further, the Conditions of the Program Securities will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Program Securities or any exchanges or price sources are affected by market disruption, adjustment events or circumstances affecting normal activities;

- (b) *Volatility.* The term "**volatility**" refers to the actual and anticipated frequency and magnitude of changes of the market price with respect to a Relevant Underlying or Relevant Factor. Volatility is affected by a number of factors such as macroeconomic factors (i.e. those economic factors which have broad economic effects), speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of a Relevant Underlying or Relevant Factor will move up and down over time (sometimes more sharply than at other times) and different Relevant Underlyings or Relevant Factors will most likely have separate volatilities at any particular time;
- (c) *Dividend Rates and other Distributions.* The value of certain Equity-Linked Notes and Fund-Linked Notes and of the Warrants and Certificates could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or other distributions on a Relevant Underlying or Relevant Factor;
- (d) *Interest Rates.* Investments in the Notes may involve interest rate risk. The interest rate level may fluctuate on a daily basis and cause the value of the Notes to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. In general, the effects of this risk increase as the market interest rates increase;
- (e) *Remaining Term.* Generally, the effect of pricing factors over the term of the Program Securities will decrease as the maturity date approaches. However, this reduction in the effect of pricing factors will not necessarily develop consistently up until the maturity date, but may undergo temporary acceleration and/or deceleration. Even if the price of the Relevant Underlying or Relevant Factor rises or falls there may a reduction or increase, as the case may be, in the value of the Program Securities due to the other value determining factors. Given that the term of the Program Securities is limited, investors cannot rely on the price of the Relevant Underlying or Relevant Factor or the value of the Program Securities recovering again prior to maturity;
- (f) *Creditworthiness.* Any prospective investor who purchases the Program Securities is relying upon the creditworthiness of the relevant Issuer and/or the Guarantor, if applicable, and has no rights against any other person. If the relevant Issuer becomes insolvent, investors may suffer potential loss of their entire investment irrespective of any favourable development of the other value determining factors, such as a Relevant Underlying or Relevant Factor; and
- (g) *Exchange Rates.* Even where payments in respect of the Program Securities are not expressly linked to a rate or rates of exchange between currencies, the value of the Program Securities could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Program Securities is to be made and any currency in which a Relevant Underlying or Relevant Factor is traded, appreciation or depreciation of any such currencies and any existing or future or governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant currencies which are current rates at the date of issue of the Program Securities will be representative of the relevant rates of exchange used in computing the value of the Program Securities at any time thereafter. Where Notes are described as being "quantoed", the value of the Relevant Underlying will be converted from one currency (the "**Relevant Underlying Currency**") into a new currency (the "**Settlement Currency**") on the date and in the manner specified in, or implied by, the Conditions using a fixed exchange rate. The cost to the Issuer of maintaining such a fixing between the Relevant Underlying Currency and the Settlement Currency will have an implication on the value of the Notes. The implication will vary during the term of the Notes. No assurance can be given as to whether or not, taking into account relative exchange rate and interest rate fluctuations between the Relevant Underlying Currency and the Settlement Currency, a quanto feature in a Note would at any time enhance the return on the Note over a level of a similar security issued without such a quanto feature, and a quanto feature may worsen the return.

Some or all of the above factors will influence the price investors will receive if an investor sells its Program Securities prior to maturity, which is usually referred to as "secondary market practice". For example, investors may have to sell certain Program Securities at a substantial discount from the principal amount or investment amount if the market price or value of the applicable Relevant Underlying or Relevant Factor is at, below, or not sufficiently above the initial market price or value or if market interest rates rise. The secondary market price may be lower than the market value of the issued Program Securities as at the Issue Date to take into account, amongst other things, amounts paid to distributors and other intermediaries relating to the issue and sale of the Program Securities and amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, any investor that sells the Program Securities before the stated expiration or maturity date, may receive an amount in the secondary market which may be less than the then intrinsic market value of the Program Securities and which may also be less than the amount the investor would have received had the investor held the Program Securities through to maturity.

Credit risk

Holders of Program Securities bear the credit risk of the Issuer that is the risk that the relevant Issuer and, if applicable, the Guarantor is not able to meet its obligations under such Program Securities, irrespective of whether such Program Securities are referred to as capital or principal protected or how any principal, interest or other payments under such Program Securities are to be calculated. Any rating of the relevant Issuer or the Guarantor reflects the independent opinion of the relevant rating agency and is not a guarantee of the credit quality of such Issuer or Guarantor.

Currency exchange conversions may affect payments on some Warrants and Certificates

The applicable Pricing Supplement may provide for (i) payments on a non-U.S. dollar denominated Warrant or Certificate to be made in U.S. dollars or (ii) payments in respect of Warrants or Certificates to be made in a currency other than U.S. dollars. In these cases, Morgan Stanley & Co. International plc, in its capacity as Exchange Rate Agent (the "**Exchange Rate Agent**"), or such other exchange rate agent identified in the applicable Pricing Supplement, will convert the applicable currency into U.S. dollars or U.S. dollars into the applicable currency. The investor will bear the costs of the conversion through deductions from those payments.

Certain considerations regarding the use of the Program Securities as hedging instruments

Any person intending to use the Program Securities as a hedge instrument should recognise the "correlation risk" of doing this. Correlation risk is the potential differences in exposure for a potential investor that may arise from the ownership of more than one financial instrument. The Program Securities may not hedge exactly a Relevant Underlying, Relevant Factor or portfolio of which a Relevant Underlying or Relevant Factor forms a part. In addition, it may not be possible to liquidate the Program Securities at a level which directly reflects the price of the Relevant Underlying, Relevant Factor or portfolio of which the Relevant Underlying or Relevant Factor forms a part. Potential investors should not rely on the ability to conclude transactions during the term of the Program Securities to offset or limit the relevant risks. This depends on the market situation and the specific Relevant Underlying or Relevant Factor conditions. It is possible that such transactions will only be concluded at an unfavourable market price, resulting in a corresponding loss for the Noteholder or the Securityholder.

Effect on the Program Securities of hedging transactions by the Issuer

The Issuer may use a portion of the total proceeds from the sale of the Program Securities for transactions to hedge the risks of the Issuer relating to the Program Securities. In such case, the Issuer or any of its Affiliates may conclude transactions that correspond to the obligations of the Issuer under the Program Securities. As a rule, such transactions are concluded prior to or on the Issue Date, but it is also possible to conclude such transactions after issue of the Program Securities. On or before a valuation date the Issuer or any of its Affiliates may take the steps necessary for closing out any hedging transactions. It cannot, however, be ruled out that the price of a Relevant Underlying or Relevant Factor will be influenced by such transactions. Entering into or closing out these hedging transactions may influence the probability of occurrence or non occurrence of determining events in the case of Program Securities with a value based on the occurrence of a certain event in relation to a Relevant Underlying or Relevant Factor.

Financial Transaction Tax Risk

If "*Implementation of Financial Transaction Tax*" is specified in the applicable Pricing Supplement to be applicable to a Series, then if, on or after the Trade Date, due to the adoption of or any change in any applicable law or regulation (including, without limitation, any law or regulation implementing a system of financial transaction tax in any

jurisdiction, including the European Union, relating to any tax payable in respect of the transfer of, or issue or modification or redemption of, any financial instruments), the Issuer determines that it (directly or through an Affiliate) would incur or has incurred a materially increased amount of tax, transfer tax, duty, stamp duty, stamp duty reserve tax, expense or fee (other than brokerage commissions) in relation to its obligations under such Series or its related hedge positions ("**Additional Tax**"), the Issuer may adjust the Conditions of such Series to reduce the amount otherwise payable under such Series to holders of such Program Securities in order to pass on to the holders of such Program Securities the full amount of such Additional Tax imposed on the Issuer.

Issuer call option risk

The Issuer may have the right to call for the termination of the Program Securities at any time or at the time as specified in the applicable Pricing Supplement. Following the exercise by the Issuer of such Issuer call option, the investors will be entitled to receive a pre-determined amount which may be less than the amount that the investors would have been entitled to receive under the terms of the Program Securities if such option had not been exercised.

In addition, investors in such Program Securities will no longer be able to realise his or her expectation for a gain in the value of such Program Securities and, if applicable, will no longer participate in the performance of the Relevant Underlying or Relevant Factor, as applicable.

An optional termination feature of the Program Securities is likely to limit their market value. During any period when the Issuer may elect to terminate the Program Securities, the market value of those Program Securities generally will not rise substantially above the price at which they can be terminated.

The Issuer may be expected to terminate the Program Securities when its cost of borrowing is lower than the interest rate on the Program Securities. At those times, an investor generally would not be able to reinvest the termination proceeds at an effective interest rate as high as the interest rate on the Program Securities being terminated and may only be able to do so at a significantly lower rate. Investors should consider reinvestment risk in light of other investments available at the time.

Program Securities linked to a single emerging market security, a single emerging market ETF or other fund, or a basket of securities or a basket of indices composed, in part or in whole, of emerging market securities or a basket of ETFs or other funds composed, in part or in whole, of emerging market ETFs or funds.

Fluctuations in the trading prices of the underlying emerging market equity will affect the value of Equity-Linked Notes, Fund-Linked Notes and of Warrant and Certificates linked to emerging market securities and/or ETFs or other funds. Changes may result over time from the interaction of many factors directly or indirectly affecting economic and political conditions in the related countries or member nations, including economic and political developments in other countries. Of particular importance to potential risks are: (i) rates of inflation; (ii) interest rate levels; (iii) balance of payments; and (iv) the extent of governmental surpluses or deficits in the relevant country. All of these factors are, in turn, sensitive to the monetary, fiscal and trade policies pursued by the related countries, the governments of the related countries and member nations (if any), and other countries important to international trade and finance. Government intervention could materially and adversely affect the value of such Program Securities. Governments use a variety of techniques, such as intervention by their central bank or imposition of regulatory controls or taxes to affect the trading of the underlying equity. Thus, a special risk in purchasing such Program Securities is that their trading value and amount payable at maturity could be affected by the actions of governments, fluctuations in response to other market forces and the movement of currencies across borders. Emerging markets stocks may be more volatile than the stocks in more developed markets.

General Risks relating to Notes linked to preference shares

Morgan Stanley and MSFL may issue Notes with principal determined by reference to the changes in the value of the preference shares ("**Preference Shares**"), which may fluctuate up or down depending on the performance of the relevant underlying asset(s) or basis of reference to which Preference Shares are linked (the "**Preference Share Underlying**") as set out in the terms and conditions of the Preference Shares (the "**Terms of the Preference Shares**"). If, as a result of the performance of the Preference Share Underlying, the performance of the Preference Shares is negative the value of the Preference Share-Linked Notes will be adversely affected. Purchasers of Preference Share-Linked Notes risk losing all or a part of their investment if the value of the Preference Shares falls.

An investment in Preference Share-Linked Notes will entail significant risks not associated with a conventional debt or equity security. Purchasers of Preference Share-Linked Notes should conduct their own investigations and, in

deciding whether or not to purchase the Preference Share-Linked Notes, prospective purchasers should form their own views of the merits of an investment related to the Preference Shares based upon such investigations and not in reliance on any information given in this document.

As set out below, Preference Share-Linked Notes will be subject to early redemption if an Extraordinary Event or, if applicable, an Additional Disruption Event occurs or if an Early Redemption Event occurs. In these circumstances the Issuer may redeem the Notes at the Early Redemption Amount or the Early Share Redemption Note Amount, as applicable. The Early Redemption Amount or Early Preference Share Redemption Note Amount may be less (and in certain circumstances, significantly less) than investors' initial investment.

Exposure to the Preference Share Underlying

The Preference Share Underlying may be a specified index or basket of indices, a specified equity or basket of equities, a specified currency or basket of currencies, a specified fund share or unit or basket of fund shares or units or such other underlying instruments, bases of reference or factors as may be determined by the issuer of the relevant Preference Shares (the "**Preference Share Issuer**") and specified in the terms and conditions of the relevant series of Preference Shares. **Consequently potential investors should also consider the risk factors set out on pages 7 to 27 in respect of the risks involved in investing in Notes (in this case the Preference Shares) linked to certain Relevant Underlying(s).**

The Terms of the Preference Shares provide that the Preference Shares will be redeemable on their final redemption date (or otherwise in accordance with the Terms of the Preference Shares). On redemption, the Preference Shares will carry preferred rights to receive an amount calculated by reference to the Preference Share Underlying.

Investors should review the Terms of the Preference Shares and consult with their own professional advisers if they consider it necessary.

Credit and Fraud Risk of Preference Share Issuer

Preference Share-Linked Notes are linked to the performance of the relevant Preference Shares. Investors bear the risk of an investment in Preference Share Issuer. The value of the Preference Share-Linked Notes is dependent on the value of the Preference Shares, which will depend in part on the creditworthiness of Preference Share Issuer, which may vary over the term of the Preference Share-Linked Notes. Preference Share Issuer is not an operating company. Its sole business activity is the issue of redeemable preference shares. Preference Share Issuer does not have any trading assets and does not generate any significant net income. As its funds are limited any misappropriation of funds or other fraudulent action by Preference Share Issuer or person acting on its behalf would have a significant effect on the value of the Preference Shares and will affect the value of the Preference Share-Linked Notes.

Potential Conflicts of Interest

The calculation agent in respect of the Preference Shares (the "**Preference Share Calculation Agent**") is a member of Morgan Stanley group of companies. As a result, potential conflicts of interest may arise in acting in its capacity as Preference Share Calculation Agent and other capacities in which it acts under the Preference Share-Linked Notes. Subject to any relevant regulatory obligations, the Preference Share Calculation Agent owes no duty or responsibility to any Noteholder to avoid any conflict or to act in the interests of any Noteholder. Preference Share Issuer may also rely on members of Morgan Stanley (including the Preference Share Calculation Agent) or other service providers to perform its operational requirements. In the event any relevant Morgan Stanley entities or other service providers fail to perform any obligations, this may adversely affect the value of the Preference Shares and potentially the amounts payable under the Preference Share-Linked Notes. In addition to providing calculation agency services to Preference Share Issuer, Morgan Stanley or any of its affiliates may perform further or alternative roles relating to Preference Share Issuer and any series of Preference Shares including, but not limited to, for example, being involved in arrangements relating to any of the underlying reference assets (for example as a calculation agent). Further, Morgan Stanley or any of its affiliates may contract with Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to Preference Share Issuer or the Preference Shares and as a result Morgan Stanley may face a conflict between its obligations as Preference Share Calculation Agent and its and/or its affiliates' interests in other capacities.

Determination of Extraordinary Events and Additional Disruption Events

The Determination Agent may determine the occurrence of a Merger Event, Tender Offer, Insolvency or Additional Disruption Event in relation to the Preference Share-Linked Notes. Upon such determination, the relevant Issuer may, at its option redeem the Preference Share-Linked Notes in whole at the Early Redemption Amount which may be less than the amount invested in the Preference Share-Linked Notes. Noteholders will not benefit from any appreciation of the Preference Shares that may occur following such redemption.

No ownership rights

An investment in Preference Share-Linked Notes is not the same as an investment in the Preference Shares and does not confer any legal or beneficial interest in the Preference Shares or any Preference Share Underlying or any voting rights, right to receive dividends or other rights that a holder of the Preference Shares or any Preference Share Underlying may have. The Preference Share-Linked Notes are unsubordinated and unsecured obligations of the Issuer.

Hedging activities of the Issuer and affiliates

The relevant Issuer or its affiliates may carry out hedging activities related to the Preference Share-Linked Notes, including purchasing the Preference Shares and/or the Preference Share Underlying, but will not be obliged to do so. Certain of the Issuer's affiliates may also purchase and sell the Preference Shares and/or purchase and sell the Preference Share Underlying on a regular basis as part of their securities businesses. Any of these activities could potentially affect the value of the Preference Share Underlying and, accordingly, the value of the Preference Shares and the Preference Share-Linked Notes.

Program Securities linked to commodities

Commodity markets are influenced by, among other things, changing supply and demand relationships, weather, governmental, agricultural, commercial and trade programs and policies designed to influence commodity prices, world political and economic events, changes in interest rates and factors affecting the exchange(s) or quotation system(s) on which any such commodities may be traded.

Where a Program Security linked to a commodity references a futures contract, this reference should be taken as if the futures contract had the specified commodity as the underlying commodity. Investments in futures and options contracts involve additional risks including, without limitation, leverage (margin is usually a percentage of the face value of the contract and exposure can be nearly unlimited).

A holder of a futures position may find such positions become illiquid because certain commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits". Under such daily limits during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the liquidation of unfavourable positions and subject an investor in a Note linked to such contract prices to substantial losses.

Commodity future prices reflect the expectations of the market players as to the future value of the commodity and may not be consistent with the current prices of the relevant commodity.

Emerging markets currencies

Where the Program Securities are denominated in an emerging market currency or linked to one or more emerging market currencies, such emerging market currencies can be significantly more volatile than currencies of more developed markets. Emerging markets currencies are highly exposed to the risk of a currency crisis happening in the future and this could trigger the need for the Determination Agent (Morgan Stanley & Co. International plc or other specified entity) to make adjustments to the terms and conditions of the Program Securities.

Risks related to CNY Notes

Renminbi is not a freely convertible currency at present, and there are significant restrictions on remittance of Renminbi into and outside the People's Republic of China ("PRC") which may affect the liquidity of the Notes.

The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar, despite a reduction in recent years by the PRC government of control over routine foreign exchange transactions for current account items such as payments for imported goods and salary payments. Participating banks in Hong Kong have been permitted to engage in the settlement of Renminbi trade transactions under a pilot scheme introduced in July 2009. The pilot scheme was extended in June 2010 to cover 20 provinces and cities in the PRC and was further extended in August 2011 to cover all of the PRC and to make Renminbi trade and other current account item settlement available in all countries worldwide.

However, remittance of Renminbi by foreign investors into the PRC for purposes such as capital contributions, known as capital account items, is generally only permitted upon obtaining specific approvals from, or completing specific regulations or filings with, the relevant authorities on a case-by-case basis and subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

On 12 October 2011, the Ministry of Commerce of the PRC ("**MOFCOM**") promulgated the "Circular on Certain Issues Concerning Direct Investment Involving Cross border Renminbi" (the "**MOFCOM Circular**"). Pursuant to the MOFCOM Circular, the appropriate office of MOFCOM and/or its local counterparts were authorised to approve Renminbi foreign direct investments ("**FDI**") with certain exceptions based on, amongst others, the size and industry of the investment. The MOFCOM Circular also stipulates that the proceeds of FDI may not be used towards investment in securities, financial derivatives or entrustment loans in the PRC, except for investments in domestic companies listed in the PRC through private placements or share transfers by agreement.

On 13 October 2011, the People's Bank of China (the "**PBOC**") promulgated the "Administrative Measures on Renminbi Settlement of Foreign Direct Investment" (the "**PBOC FDI Measures**") as part of the implementation of the PBOC's detailed FDI accounts administration system. The system covers almost all aspects in relation to FDI, including capital injections, payments for the acquisition of PRC domestic enterprises, repatriation of dividends and other distributions, as well as Renminbi-denominated cross-border loans. On 14 June 2012, the PBOC further issued the implementing rules for the PBOC FDI Measures. Under the PBOC FDI Measures, special approval for RMB FDI and shareholder loans from the PBOC, which was previously required, is no longer necessary. In some cases however, post-event filing with the PBOC is still necessary.

On 3 December 2013, MOFCOM promulgated the "Circular on issues in relation to Cross-border Renminbi Foreign Direct Investment" (the "**2013 MOFCOM Circular**"), which became effective on 1 January 2014, to further facilitate FDI by simplifying and streamlining the applicable regulatory framework. The 2013 MOFCOM Circular replaced the MOFCOM Circular. Pursuant to the 2013 MOFCOM Circular, written approval from the appropriate office of MOFCOM and/or its local counterparts specifying "Renminbi Foreign Direct Investment" and the amount of capital contribution is required for each FDI. Compared with the MOFCOM Circular, the 2013 MOFCOM Circular no longer contains the requirements for central level MOFCOM approvals for investments of RMB300 million or above, or in certain industries, such as financial guarantee, financial leasing, micro-credit, auction, foreign-invested investment companies, venture capital and equity investment vehicles, cement, iron and steel, electrolyse aluminum, ship building and other industries under the state macro-regulation. Unlike the MOFCOM Circular, the 2013 MOFCOM Circular has also removed the approval requirement for foreign investors who intend to change the currency of their existing capital contribution from a foreign currency to Renminbi. In addition, the 2013 MOFCOM Circular also clearly prohibits FDI funds from being used for any investments in securities and financial derivatives (except for investments in PRC-listed companies by strategic investors) or for entrustment loans in the PRC.

As the 2013 MOFCOM Circular and the PBOC FDI Measures are relatively new circulars, they will be subject to interpretation and application by the relevant authorities in the PRC.

There is no assurance that the PRC government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that the pilot scheme introduced in July 2009 (as extended) will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to finance its obligations under the Notes.

The limited availability of Renminbi outside the PRC may affect the liquidity of the CNY Notes and the Issuer's ability to source Renminbi to make payments in respect of the CNY Notes.

As a result of the restrictions by the PRC government on cross-border Renminbi funds flows, there are limits on availability of Renminbi outside the PRC. Since February 2004, in accordance with arrangements between the PRC central government and the Hong Kong government, licensed banks in Hong Kong may offer limited CNY-

established a Renminbi clearing and settlement system for participating banks in Hong Kong. On 19 July 2010, further amendments were made to the Settlement Agreement on the Clearing of Renminbi Business (the "**Settlement Agreement**") between the PBOC and Bank of China (Hong Kong) Limited (the "**CNY Clearing Bank**") to expand the scope of Renminbi business for participating banks in Hong Kong. Pursuant to the revised arrangements, all corporations are allowed to open Renminbi accounts in Hong Kong, there is no longer any limit on the ability of corporations to convert Renminbi and there is no longer any restriction on the transfer of Renminbi funds between different accounts in Hong Kong.

The current amount of Renminbi-denominated financial assets outside the PRC is limited. As of 30 November 2014, the total amount of Renminbi deposits held by institutions authorised to engage in the Renminbi banking business in Hong Kong totalled approximately RMB974.1 billion, according to data published by the Hong Kong Monetary Authority. In addition, participating banks are also required by the Hong Kong Monetary Authority to maintain a total amount of Renminbi (in the form of (i) RMB cash, (ii) its settlement account balance with the CNY Clearing Bank, (iii) cash balances maintained in its fiduciary account (through the CNY Clearing Bank with PBOC), (iv) holding of Renminbi-denominated sovereign bonds issued in Hong Kong by the PRC Ministry of Finance, and (v) holding of Renminbi-denominated bond investment through the PRC interbank bond market under arrangements as approved by the People's Bank of China) of not less than 25% of their Renminbi customer deposits, which further limits the availability of Renminbi that participating banks may utilise for conversion services for their customers. While participating banks may request a Renminbi liquidity facility from the Hong Kong Monetary Authority to manage their short-term liquidity needs, such facility should not be regarded as a steady source of funding. Moreover, such participating banks do not have direct Renminbi liquidity support from PBOC. Participating banks are only allowed to square their open positions with the CNY Clearing Bank in the Shanghai foreign exchange market for Renminbi conversions conducted with customers for certain eligible trade transactions and subject to requirements set by the PRC authorities. The CNY Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. The Issuer cannot assure the investor that new PRC regulations will not be promulgated or the Settlement Agreement will not be terminated or amended in the future, which will have the effect of restricting the availability of Renminbi offshore. The limited availability of Renminbi outside of the PRC may affect the liquidity of the Notes issued hereunder. The Issuer cannot assure the investor that it will be able to source Renminbi on satisfactory terms, if at all, to make payments on the Notes in such currency.

Investment in CNY Notes is subject to exchange rate risks

The value of Renminbi against the Hong Kong dollar and other foreign currencies fluctuates and is affected by developments in or affecting the PRC, international political and economic conditions and many other factors. All payments of interest and principal will be made with respect to the Notes in CNY, except in the case of CNY Inconvertibility, CNY Non-transferability or CNY Illiquidity (as defined in Condition 20), in which case all payments and settlement in CNY will be made in accordance with the Disruption Fallbacks described in Condition 20. As a result, the value of CNY payments may vary with the prevailing exchange rates in the marketplace. If the value of CNY depreciates against the relevant currency, the value of the investment in relevant currency will have declined. In the case of CNY Inconvertibility, CNY Non-transferability or CNY Illiquidity (as defined in Condition 20), such a decline may be very substantial.

Payments for the CNY Notes will only be made to investors in the manner specified in the CNY Notes

All payments to investors in respect of the Notes will be made solely (i) for so long as the CNY Notes are represented by a Global Registered Note held with the common depository for Clearstream Banking société anonyme and Euroclear Bank S.A./N.V. or any alternative clearing system by transfer to a CNY bank account maintained in the relevant offshore CNY centre(s) specified therein, or (ii) for so long as the Notes are in definitive form, by transfer to a CNY bank account maintained in the relevant offshore CNY centre(s) specified therein in accordance with prevailing rules and regulations. The Issuer cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC).

Effect of the liquidity of the Relevant Underlying or Relevant Factor on Program Security pricing

An Issuer's and/or its Affiliates' hedging costs tend to be higher the less liquidity the Relevant Underlying or Relevant Factor has or the greater the difference between the "buy" and "sell" prices for the Relevant Underlying, Relevant Factor or derivatives contracts referenced to the Relevant Underlying or Relevant Factor. When quoting prices for the

Program Securities, the Issuer and/or its Affiliates will factor in such hedging costs and will pass them on to the Noteholders and Securityholders by incorporating them into the "buy" and "sell" prices. Thus, Noteholders and Securityholders selling their Program Securities on an exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Program Securities at the time of sale.

No affiliation with underlying companies

The underlying issuer for any single security or basket security, ETF or other fund or any Fund Adviser, the publisher of an underlying index, or any specified entity with respect to Credit-Linked Notes, will not be an affiliate of Morgan Stanley or MSFL unless otherwise specified in the applicable Pricing Supplement. Morgan Stanley or its subsidiaries may presently or from time to time engage in business with any underlying company, fund or any specified entity, including entering into loans with, or making equity investments in, the underlying company, fund or specified entity, or its affiliates or subsidiaries or providing investment advisory services to the underlying company, fund or specified entity, including merger and acquisition advisory services. Moreover, no Issuer has the ability to control or predict the actions of the underlying company, fund, index publisher, or specified entity, including any actions, or reconstitution of index components, of the type that would require the Determination Agent to adjust the payout to the investor at maturity. No underlying company, fund or Fund Adviser, index publisher, or specified entity, for any issuance of Program Securities is involved in the offering of the Program Securities in any way or has any obligation to consider the investor's interest as an owner of the Program Securities in taking any corporate actions that might affect the value of the Program Securities. None of the money an investor pays for the Program Securities will go to the underlying company, fund or Fund Adviser or specified entity, for such Program Securities.

Fluctuations in the value of any one component of the Relevant Underlying may, where applicable, be offset or intensified by fluctuations in the value of other components. The historical value (if any) of the Relevant Underlying or the components of the Relevant Underlying does not indicate their future performance. Where the value of the components is determined in a different currency to the value of the Relevant Underlying, investors may be exposed to exchange rate risk.

Exchange rates and exchange controls may affect the value or return of the Program Securities

General Exchange Rate and Exchange Control Risks. An investment in a Program Security denominated in, or the payment of which is linked to the value of, currencies other than the investor's home currency entails significant risks. These risks include the possibility of significant changes in rates of exchange between its home currency and the other relevant currencies and the possibility of the imposition or modification of exchange controls by the relevant governmental authorities. These risks generally depend on economic and political events over which the Issuers have no control. Investors should consult their financial and legal advisors as to any specific risks entailed by an investment in Program Securities that are denominated or payable in, or the payment of which is linked to the value of, a currency other than the currency of the country in which such investor resides or in which such investor conducts its business, which is referred to as their home currency. Such Program Securities are not appropriate investments for investors who are not sophisticated in foreign currency transactions.

Exchange Rates Will Affect the Investor's Investment. In recent years, rates of exchange between some currencies have been highly volatile and this volatility may continue in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Program Security. Depreciation against the investor's home currency or the currency in which a Program Security is payable would result in a decrease in the effective yield of the Program Security (in the case of a Note) below its coupon rate and could result in an overall loss to an investor on the basis of the investor's home currency. In addition, depending on the specific terms of a Currency-Linked Note or Warrant or Certificate, changes in exchange rates relating to any of the relevant currencies could result in a decrease in its effective yield and in the investor's loss of all or a substantial portion of the value of that Program Security.

The Issuers Have No Control Over Exchange Rates. Currency exchange rates can either float or be fixed. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes, or changes in interest rate to influence the exchange rates of their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and currency fluctuations that would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

As a consequence, these government actions could adversely affect yields or payouts in the investor's home currency for (i) Program Securities denominated or payable in currencies other than U.S. dollars and (ii) Currency-Linked Notes or Currency Program Securities.

The Issuers will not make any adjustment or change in the terms of the Program Securities in the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting any currency. The investor will bear those risks.

Some Currencies May Become Unavailable. Governments have imposed from time to time, and may in the future impose, exchange controls that could also affect the availability of a Specified Currency (as defined herein). Even if there are no actual exchange controls, it is possible that the applicable currency for any security would not be available when payments on that security are due.

Alternative Payment Method Used If Payment Currency Becomes Unavailable. In relation to the New York Law Notes, if a payment currency is unavailable in respect of such Notes, Morgan Stanley would make required payments in U.S. dollars on the basis of the Market Exchange Rate (as defined below under "Description of New York Law Notes – General"). However, if the applicable currency for any such Note is not available because the euro has been substituted for that currency, the relevant Issuer would make the payments in euro. Some Notes may specify a different form of payment if a non U.S. payment currency is unavailable to the relevant Issuer.

Currency Exchange Information may be provided in the Pricing Supplement. The applicable Pricing Supplement or offering circular supplement, where relevant, may include information with respect to any relevant exchange controls and any relevant historic exchange rate information for any Program Security. The investor should not assume that any historic information concerning currency exchange rates will be representative of the range of, or trends in, fluctuations in currency exchange rates that may occur in the future.

Risks associated with the reform of LIBOR and EURIBOR and other interest rate index and equity, commodity and foreign exchange rate index "benchmarks"

The London Interbank Offered Rate ("LIBOR"), the Euro Interbank Offered Rate ("EURIBOR") and other indices which are deemed "benchmarks" are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any securities linked to a "benchmark."

Key international proposals for reform of "benchmarks" include IOSCO's Principles for Financial Market Benchmarks (July 2013) (the "IOSCO Benchmark Principles") and the European Commission's Proposal for a Regulation of the European Parliament and of the Council on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (December 2015) (the "Benchmark Regulation").

The IOSCO Benchmark Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering governance and accountability, as well as the quality and transparency of benchmark design and methodologies. A review published in February 2015 on the status of the voluntary market adoption of the IOSCO Benchmark Principles noted that, as the benchmarks industry is in a state of change, further steps may need to be taken by IOSCO in the future, but that it is too early to determine what those steps should be. The review noted that there has been a significant market reaction to the publication of the IOSCO Benchmark Principles, and widespread efforts being made to implement the IOSCO Benchmark Principles by the majority of administrators surveyed.

On November 24, 2015, the European Commission announced that the European Parliament and the Council of the EU had reached agreement on a compromise text of the Benchmark Regulation. Final agreement on the text of the Benchmark Regulation by the EU Council, Commission and Parliament is due to conclude by early 2016. Once adopted, the Benchmark Regulation will enter into force on the day following that of its publication in the Official Journal of the EU and is currently anticipated to apply 18 months from the date of entry into force.

The Benchmark Regulation would apply to "contributors," "administrators" and "users of" "benchmarks" in the EU, and would, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of "benchmarks" and (ii) ban the use of "benchmarks" of unauthorised administrators. The scope of the Benchmark

Regulation is wide and, in addition to so-called "critical benchmark" indices such as LIBOR and EURIBOR, could also potentially apply to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including "proprietary" indices or strategies) which are referenced in listed financial instruments (including listed securities), financial contracts and investment funds.

The Benchmark Regulation could also have a material impact on any listed securities linked to a "benchmark" index, including in any of the following circumstances:

- an index which is a "benchmark" could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to any applicable transitional provisions) does not have equivalent regulation. In such event, depending on the particular "benchmark" and the applicable terms of the securities, the securities could be de-listed, adjusted, redeemed or otherwise impacted; and
- the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the securities, including calculation agent determination of the rate or level in its discretion.

In addition to the international proposals for reform of "benchmarks" described above, there are numerous other proposals, initiatives and investigations which may impact "benchmarks." For example, in the United Kingdom (the "UK"), the national government has extended the legislation originally put in place to cover LIBOR to regulate a number of additional major UK-based financial benchmarks in the fixed income, commodity and currency markets, which could be further expanded in the future.

The UK's Financial Conduct Authority has also released "Financial Benchmarks: Thematic review of oversight and controls," which reviewed the activities of firms in relation to a much broader spectrum of "benchmarks" that ultimately could impact inputs, governance and availability of certain "benchmarks."

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks," trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks." The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the calculation agent, delisting or other consequence in relation to securities linked to such "benchmark." Any such consequence could have a material adverse effect on the value of and return on any such securities.

Secondary trading of the Program Securities may be limited

Potential investors should be willing to hold the Program Securities until maturity. The nature and extent of any secondary market in the Program Securities cannot be predicted and there may be little or no secondary market in the Program Securities. As a consequence any person intending to hold the Program Securities should consider liquidity in the Program Securities as a risk. Where the Program Securities are listed or quoted on an exchange or quotation system, this does not imply greater or lesser liquidity than if equivalent Program Securities were not so listed or quoted and the Issuer cannot guarantee that the listing or quotation will be permanently maintained. Where the Program Securities are not listed or quoted, it becomes more difficult to purchase and sell such Program Securities and there may also be a lack of transparency with regard to pricing information.

Further, although an Issuer may apply to have certain issuances of Program Securities admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market, admitted to listing on the SIX Swiss Exchange and to trading on the main segment of the SIX Swiss Exchange or admitted to listing, trading and/or quotation by any other listing authority, stock exchange and/or quotation system, approval for any listing is subject to meeting the relevant listing requirements. Even if there is a secondary market, it may not provide enough liquidity to allow the investor to sell or trade the Program Securities easily. Morgan Stanley & Co. International plc and other affiliates of Morgan Stanley may from time to time, make a market in the Program Securities, but they are not required to do so. If at any time Morgan Stanley & Co. International plc and other affiliates of the Issuers were to cease making a market in the Program Securities, it is likely that there would be little or no secondary market for the Program Securities.

Investors have no shareholder rights

As an owner of Program Securities, investors will not have voting rights or rights to receive dividends, interest or other distributions, as applicable, or any other rights with respect to any underlying security, ETF, other fund or index.

Exchange rates may affect the value of a judgment

The English law Notes and the Warrants and Certificates and any non-contractual obligations arising out of or in connection with them shall be governed by English law. Although an English court has the power to grant judgment in the currency in which a Program Security is denominated, it may decline to do so in its discretion. If judgment were granted in a currency other than that in which a Program Security is denominated, the investor will bear the relevant currency risk.

The New York Law Notes will be governed by the laws of the State of New York. If a New York court were to enter a judgment in an action on any securities denominated in a foreign currency, such court would either enter a judgment in U.S. dollars based on the prevailing rate of exchange between the foreign currency and U.S. dollars on the date such judgment is entered or enter judgment in the foreign currency and convert the judgment or decree into U.S. dollars at the prevailing rate of exchange on the date such judgment or decree is entered.

Potential conflicts of interest between the investor and the Determination Agent

Potential conflicts of interest may exist between the investor and the Determination Agent, which may be an affiliate of the Issuer and the Guarantor, if applicable. Certain determinations made by the Determination Agent may require it to exercise discretion and make subjective judgments. As Determination Agent for Program Securities linked to a single security, index, ETF or other fund or a basket of securities, indices, ETFs or other funds or, Credit-Linked Notes, or Program Securities linked to commodities or other underlying instruments, assets or obligations, Morgan Stanley & Co. International plc (unless otherwise specified) will determine the payout to the investor at maturity. Morgan Stanley & Co. International plc and other affiliates may also carry out hedging activities related to any Program Securities linked to a single security, index, ETF or other fund or a basket of securities, indices, ETFs, other funds, Credit-Linked Notes, or Program Securities linked to commodities or to other instruments, assets or obligations including trading in the underlying securities, indices, ETFs or commodities as well as in other instruments related to the underlying securities, indices, ETFs or commodities. Morgan Stanley & Co. International plc and some of Morgan Stanley's other subsidiaries may also trade the applicable underlying securities, indices or commodities and other financial instruments related to the underlying securities, indices or commodities on a regular basis as part of their general broker dealer and other businesses. Any of these activities could influence the Determination Agent's potentially subjective determination of adjustments made to any Program Securities linked to a single security, index, ETF or other fund or a basket of securities, indices, ETFs or other funds, Credit-Linked Notes, or Program Securities linked to commodities or other underlying instruments, assets or obligations and any such trading activity could potentially affect the price of the underlying securities, indices, ETFs, other funds, commodities or other underlying instruments, assets or obligations and, accordingly, could affect the investor's payout on any Program Securities.

Actions taken by the Determination Agent may affect the Relevant Underlying or Relevant Factor

The Determination Agent may make such adjustments as it considers appropriate as a consequence of certain corporate actions affecting the Relevant Underlying or Relevant Factor. In making these adjustments the Determination Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest, including the conflicts of interest highlighted above, in exercising this discretion. The Determination Agent is not required but has the discretion to make adjustments with respect to each and every corporate action. These potentially subjective determinations may adversely affect the amount payable to the investor.

Program Securities in Global Form

Because the Global Registered Securities (as defined below) may be held by or on behalf of Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**") and/or any other clearing system as may be specified in the applicable Pricing Supplement (such system or systems hereinafter referred to as the "**Relevant Clearing System**"), investors will have to rely on their procedures for transfer, payment and communication with the relevant Issuer.

Program Securities issued in registered form will be represented by interests in a permanent global registered instrument (each an "**Registered Global Instrument**"). Such Registered Global Instruments will be registered in the name of a nominee for, and deposited with a common depositary on behalf of, Euroclear and Clearstream, Luxembourg.

Interests in the Registered Global Instruments will be shown on, and transfers thereof will be effected only through, records maintained by Euroclear and Clearstream, Luxembourg and its direct and indirect participants, including depositaries for Euroclear and Clearstream, Luxembourg, as the case may be.

While the Program Securities are represented by one or more Global Instruments, the Issuer will discharge its payment obligations under the Program Securities by making payments through the Relevant Clearing System for distribution to their account holders. A holder of an interest in a Global Instrument must rely on the procedures of the Relevant Clearing System to receive payments under the relevant Program Securities. Neither the relevant Issuer nor the Guarantor has responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Instruments.

Holders of beneficial interests in the Global Instruments will not have a direct right to vote in respect of the relevant Program Securities. Instead, such holders will be permitted to act only to the extent that they are enabled by the Relevant Clearing System to appoint appropriate proxies.

Modification and waiver

The Conditions of the English Law Notes and the Conditions of the Warrants and Certificates contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders of the relevant Program Securities, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

The Conditions of the New York Law Notes contain provisions for Noteholder votes to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not vote and Noteholders who voted in a manner contrary to the majority.

Change of law

The Conditions of the Program Securities are based on English law or New York law (as applicable) in effect as at the date of this Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to English law, New York law or administrative practice in England or the State of New York after the date of this Offering Circular.

Restricted secondary trading if the electronic trading system is unavailable

Trading in the Program Securities may be conducted via one or more electronic trading systems so that "buy" and "sell" prices can be quoted for exchange and off exchange trading. If an electronic trading system used by the Issuer and/or its Affiliates were to become partially or completely unavailable, such a development would have a corresponding effect on the ability of investors to trade the Program Securities.

Risk associated with estimating the price of the Relevant Underlying or Relevant Factor if its domestic market is closed while secondary trading in the Program Securities is open

If the Relevant Underlying or Relevant Factor is traded on its domestic market during the opening hours for secondary trading in the Program Securities by the Issuers or their Affiliates or any stock exchange on which the Program Securities are listed, the price of the Relevant Underlying or Relevant Factor is incorporated into the price calculation for the Program Securities. In certain cases, however, the price of the Relevant Underlying or Relevant Factor may need to be estimated if the Program Securities are traded at a time when the market for the Relevant Underlying or Relevant Factor is closed. In general, this problem could apply to the Program Securities irrespective of the time at which they are traded because the Issuers and/or their Affiliates currently offer off exchange trading in the Program Securities at times when the Relevant Underlying or Relevant Factor is not traded on the local markets or stock exchanges. This problem applies in particular to a Relevant Underlying or Relevant Factor that is traded in time zones different from European time zones. The same problem arises if the Program Securities are traded on days on which the domestic market for the Relevant Underlying or Relevant Factor is closed because of a public holiday. If the Issuers and/or any of their Affiliates estimates the price of the Relevant Underlying or Relevant Factor when the domestic market is closed, its estimate may prove to be accurate, too high or too low within just a few hours of the domestic market re-opening for trade in the Relevant Underlying or Relevant Factor. Correspondingly, the prices used by the Issuers and/or any of their Affiliates for the Program Securities prior to the opening of business on the domestic market may subsequently prove to be too high or too low.

Provision of information

None of the Issuers or any of their Affiliates makes any representation as to the issuer for any single security or basket security, fund or Fund Service Provider, the publisher of an underlying index, or any specified entity with respect to Credit-Linked Notes. Any of such persons may have acquired, or during the term of the Program Securities may acquire, non public information with respect to any such issuer, publisher or specified entity, their respective affiliates or any guarantors that is or may be material in the context of the Program Securities. The issue of Program Securities will not create any obligation on the part of any such persons to disclose to the Noteholders and Securityholders or any other party such information (whether or not confidential).

Independent review and advice

Each prospective investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Program Securities is (i) fully consistent with its (or if it is acquiring the Program Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Program Securities as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Program Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Program Securities. Each Issuer disclaims any responsibility to advise prospective investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Program Securities.

Selling Agent remuneration

Each Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the applicable Issuer (each a "**Selling Agent**"). Each Selling Agent will agree, subject to the satisfaction of certain conditions, to subscribe for the Program Securities at a price equivalent to or below the Issue Price. Any difference between the price at which the Selling Agent subscribes the Program Securities and the price at which the Selling Agent sells the Program Securities to investors will be a remuneration of the Selling Agent. In addition, a periodic fee may also be payable to the Selling Agents in respect of all outstanding Program Securities up to and including the maturity date at a rate determined by the applicable Issuer and which may vary from time to time. Any remuneration received by the Selling Agent including any periodic payments may influence the Selling Agent's recommendation of the Program Securities to potential investors and may also increase the purchase price to be paid by the investor. Each Selling Agent will agree to comply with the selling restrictions set out in the document as amended and supplemented by the additional selling restrictions set out in the relevant distribution agreements.

Subscription periods

The relevant Issuer has the right to close the offering of the Program Securities prior to the end of the subscription period in its sole discretion.

Settlement risk

If (with respect to any Program Securities that are physically settled) prior to the delivery of any specified asset(s), the Determination Agent for the Notes determines that a settlement disruption event (as defined, (in respect of the English Law Notes) in Condition 23.3 (*Settlement Disruption of Physical Settlement*) and Condition 23.4 (*Delivery Disruption of Physical Settlement*) and in Condition 11.1(c) (*Settlement Disruption*) (in respect of the Warrants and Certificates), a "**Settlement Disruption Event**") is subsisting, then the obligation to deliver such asset(s) shall be postponed to the first following business day on which no Settlement Disruption Event is subsisting. Prospective investors should note that any such determination may affect the value of the Program Securities and/or may delay settlement in respect of the Program Securities.

Prospective investors should note that for so long as any delivery of any part of the specified asset(s) is not practicable by reason of a Settlement Disruption Event, then the relevant Issuer may, in its sole and absolute discretion, satisfy its obligations to deliver such part of the specified asset(s) by payment of a disrupted cash settlement price. Prospective investors should note that the disrupted cash settlement price will reflect the fair market value of the Program Securities less the cost to the relevant Issuer and/or any of its Affiliates of unwinding any Relevant Underlying or Relevant Factor related hedging arrangements and that any such determination may affect the value of the Program Securities.

Market Disruption Event, Disrupted Day, Adjustments and Early Redemption or termination of Program Securities

The Determination Agent may determine that a Market Disruption Event or a failure to open of an Exchange or Related Exchange has occurred or exists on a relevant date of valuation, and any consequential postponement of such date of valuation may have an adverse effect on the value of the Program Securities.

In addition the Determination Agent may make adjustments to the Program Securities to account for relevant adjustments or events in relation to the Relevant Underlying or Relevant Factor including, but not limited to, determining a successor to the Relevant Underlying or Relevant Factor or its sponsor (in the case of an Index). In addition, in certain circumstances, the relevant Issuer may redeem or terminate the Program Securities early following any such event. In this case, in relation to each Note, the relevant Issuer will pay an amount, if any, determined as provided in the Conditions.

Prospective investors should review the Conditions to ascertain whether and how such provisions apply to the Program Securities and what constitutes a Market Disruption Event or relevant adjustment event.

Issuers' credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Issuers. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold Notes and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Program Securities are legal investments for it, (ii) Program Securities can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Program Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Program Securities under any applicable risk based capital or similar rules.

Representations and acknowledgments by Noteholders and Securityholders

Representations and acknowledgments by Noteholders and Securityholders. Each Noteholder and Securityholder shall be deemed to represent and acknowledge to the relevant Issuer on acquiring any Program Security that:

- (a) neither the Issuers and/or any of their Affiliates nor any of their agents is acting as a fiduciary for it or provides investment, tax, accounting, legal or other advice in respect of the Program Securities and that such holder and its advisors are not relying on any communication (written or oral and including, without limitation, opinions of third party advisors) of the Issuers or any Affiliate as (a) legal, regulatory, tax, business, investment, financial, accounting or other advice, (b) a recommendation to invest in any Program Securities or (c) an assurance or guarantee as to the expected results of an investment in the Program Securities (it being understood that information and explanations related to the terms and conditions of the Program Securities shall not be considered to be any such advice, recommendation, assurance or guarantee and should be independently confirmed by the recipient and its advisors prior to making any such investment);
- (b) such Program Security holder (a) has consulted with its own legal, regulatory, tax, business, investments, financial and accounting advisors to the extent that it has deemed necessary, and has made its own investment, hedging, and trading decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuers or any Affiliate or any of their agents and (b) is acquiring Program Securities with a full understanding of the terms, conditions and risks thereof and it is capable of and willing to assume those risks; and
- (c) the Issuers and/or any Affiliates may have banking or other commercial relationships with issuers of any securities to which the Program Securities relate and may engage in proprietary trading in any equity securities, indices or other property to which the Program Securities relate or options, futures, derivatives or other instruments relating thereto (including such trading as the Issuers and/or any Affiliate deem appropriate in their sole discretion to hedge the market risk on the Program Securities and other transactions between the

Issuers and/or any Affiliates and any third parties), and that such trading (a) may affect the price or level thereof and consequently the amounts payable under the Program Securities and (b) may be effected at any time.

Disclosure

Neither the issuer of any single security or basket security, an ETF, other fund, any Fund Service Provider, the publisher of an underlying index, nor any specified entity with respect to Credit-Linked Notes has participated in the preparation of this document or in establishing the Conditions of the Program Securities and neither the Issuers nor any of their Affiliates will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer, ETF, other fund, Fund Service Provider, publisher, or specified entity contained in this document or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the issue date (including events that would affect the accuracy or completeness of any publicly available information described in this document) that would affect the trading price and/or level of the Relevant Underlying or Relevant Factor will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer, ETF, other fund, Fund Service Provider, publisher or specified entity could affect the trading price and/or level of the Relevant Underlying or Relevant Factor and therefore the trading price of the Program Securities.

Program Securities linked to the performance of funds

The Issuers may issue Program Securities where the redemption amount or, if applicable, the interest amount in relation to Fund-Linked Notes or the return, in relation to Fund Securities (together with the Fund-Linked Notes, "**Fund-Linked Program Securities**") is linked to the performance of a unit, share or other interest in a fund (each a "Fund Interest Unit") or a basket of Fund Interest Units. Such funds may include mutual funds or any other types of fund in any jurisdiction, or any combination of the foregoing. Investments offering direct or indirect exposure to the performance of funds are generally considered to be particularly risky and may bear similar risks, including but not limited to, market risks to a direct investment in funds.

Prospective investors should note that payments on redemption or termination of Fund-Linked Program Securities at maturity, expiration, early redemption or early termination may be postponed, in accordance with the Conditions, up to a specified long stop date and if the specified long stop date is reached, for the purposes of determining the Redemption Amount or any other such redemption amounts, as applicable, the affected fund interest units or shares may be deemed to have a zero value. Prospective investors should also be aware that if one or more events occurs in relation to the Fund or any Fund Service Provider, including insolvency of the Fund or Fund Service Provider, then the Issuer, may in its sole and absolute discretion, determine whether the Fund-Linked Program Securities will continue or whether they will be redeemed or terminated early. If the Issuer determines that the Fund-Linked Program Securities will continue, this may result in the substitution of the affected Fund Interest Unit with other Fund Interest Units with similar characteristics or adjustments to the Conditions of the Program Securities to account for the occurrence of the relevant event. These actions may have an adverse effect on the return and risk profile of the relevant Fund-Linked Program Securities, and consequently, the value of such Fund-Linked Program Securities and if the Fund-Linked Program Securities are redeemed or terminated early the amount investors receive may be considerably less than their original investment and may even be zero.

The risks associated with investing in Fund-Linked Program Securities are similar to the risks attached to a direct investment in the underlying fund or funds. There are substantial risks in directly or indirectly investing in funds including, without limitation, the risks set out below. Prospective investors should note that references to funds below can refer both to the funds referenced in any Fund-Linked Program Securities and also to any funds in which any of those funds invests its assets from time to time:

Investments risks that prospective investors should be aware of include the following:

- (a) Different types of funds are subject to differing levels of regulatory supervision.
- (b) Funds may have varying restrictions on leverage. Leverage presents the potential for a higher rate of return but also increases the volatility of the fund and increases the risk of a total loss of the amount invested.
- (c) Funds may have differing investment restrictions and some funds may invest in assets which are illiquid or difficult to transfer. This may have an effect on the realisation of such assets and in turn, the value and performance of the fund. In addition, a fund's assets or investments may be concentrated in a few markets,

countries, industries, commodities, sectors of an economy or issuers. If so, adverse movements in a particular market, country, industry, commodity, economy or industry or in the value of the securities of a particular issuer could have a severely negative effect on the value of such a fund. In addition, a fund may use a single advisor or employ a single strategy, which could mean a lack of diversification and higher risk.

- (d) Substantial redemptions by holders of Fund Interest Units in a fund within a short period of time could require the fund's investment manager(s) and/or adviser(s) to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the fund's assets.
- (e) The performance of a fund will be heavily dependent on the performance of investments selected by its advisers or investment managers and the skill and expertise of such fund service providers in making successful and profitable investment decisions. Such skill and expertise may be concentrated in a number of the adviser's or investment manager's key personnel. Should these key personnel leave or become no longer associated with the fund's adviser or investment manager, the value or profitability of the fund's investments may be adversely affected as a result.

Program Securities linked to property indices

The Issuers may issue Notes with principal and/or interest, or Warrants and Certificates whose return is, determined by reference to a residential or commercial property index or indices ("Property Indices"). Property Indices may only be a reference guide to a certain property market and may not be representative of the relevant property market as a whole. The relevant Property Index may only measure the capital growth component of property only and may not include any income return component. A Property Index may be based on valuation data only; as such, a Property Index may not necessarily reflect actual market prices and may rely on the ability of the index provider to gather property valuations and conduct continuous, close monitoring of such property valuations.

Property markets are illiquid and complex. The impact of price fluctuations in the property market may not immediately be reflected in the relevant Property Index (if at all). Properties may only be valued on an annual basis for the purposes of calculating the relevant Property Index and, as such, the level at which the Property Index stands may not be representative of actual market prices or transactions in the relevant property market. The provider of a Property Index may reserve the right to change the constituents of the relevant Property Index and the methodology used in its calculation. The publication of the Property Index may be delayed and/or subject to correction. Any of the foregoing may affect the return of the Notes.

Potential Withholding Tax under FATCA and on U.S. Dividend Equivalent Amounts

As discussed in "United States Federal Taxation" below, sections 1471 through 1474 of the U.S. Internal Revenue Code (the "**Code**") and any regulations thereunder, an agreement entered into with the IRS pursuant to such sections of the Code, or an intergovernmental agreement (an "**IGA**") between the United States and another jurisdiction in furtherance of such sections of the Code (collectively referred to as "**FATCA**") may impose a withholding tax of 30 per cent. on payments made on the Program Securities (including payments made by financial intermediaries), unless various U.S. information reporting and due diligence requirements have been satisfied.

Furthermore, Section 871(m) of the Code and the regulations thereunder require withholding (up to 30 per cent depending on whether an income tax treaty applies) on payments or deemed payments made to non-U.S. persons on certain financial instruments to the extent that such payments are treated, for U.S. federal income tax purposes, as being U.S.-source dividend equivalent amounts.

If withholding is so required, none of Morgan Stanley, MSFL or any intermediary will be required to pay any additional amounts with respect to the amounts so withheld. Either of the foregoing rules may affect the amounts paid to an investor on the Program Securities.

Potential U.S. Federal Withholding Tax

Due to the uncertain treatment of the Program Securities for U.S. federal income tax purposes, a Non-U.S. Holder should expect that a withholding agent will treat coupon payments, if any, on Program Securities as subject to U.S. federal withholding tax at a rate of 30 per cent., unless a Non-U.S. Holder qualifies for an exemption under the "other income" provision of a Qualifying Treaty (as defined below). An income tax treaty between a non-U.S. jurisdiction and the United States is a "**Qualifying Treaty**" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Accordingly, if a Non-U.S. Holder is a

resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, it should generally be eligible for an exemption under the "other income" provision referred to above if the Non-U.S. Holder complies with the certification requirement described in *"United States Federal Taxation"*. However, because most income tax treaties contain complex eligibility rules and limitations, a Non-U.S. Holder should consult its tax advisor about its eligibility for this exemption. To demonstrate eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, Non-U.S. Holders generally will be required to provide a properly completed appropriate IRS Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of a Qualifying Treaty (or, if the Non-U.S. Holder holds its Program Securities through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate Form W-8BEN to establish that it is not a U.S. person and that it is eligible for the benefits of a Qualifying Treaty) as discussed in *"United States Federal Taxation"* below. Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Program Securities is unclear, the coupon payments, if any, on the Program Securities could alternatively be treated in whole or part as payments of interest. Nonetheless, even if the coupon payments are treated as interest, under current law and administrative practice a Non-U.S. Holder generally will qualify for the "portfolio interest exemption" with respect to coupon payments on the Program Securities so long as the Non-U.S. Holder has demonstrated its eligibility for the "other income" exemption as described above. Non-U.S. Holders should consult their tax advisors regarding their eligibility for the "portfolio interest exemption" in light of their particular circumstances.

As discussed in *"United States Federal Taxation"* below, FATCA imposes a withholding tax of 30 per cent. on certain payments made to certain non-U.S. entities (including financial intermediaries), unless various U.S. information reporting and due diligence requirements have been satisfied.

If withholding is so required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.

Risk factors specific to the Notes

The Notes may be redeemed prior to maturity

Unless in the case of any particular Tranche of Notes the applicable Pricing Supplement specifies otherwise, in the event that the relevant Issuer or Guarantor (if applicable) would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any relevant jurisdiction, the relevant Issuer may redeem all outstanding Notes in accordance with the Conditions at the redemption price specified in the applicable Pricing Supplement.

In addition, if in the case of any particular Tranche of Notes the applicable Pricing Supplement specifies that the Notes are redeemable at the relevant Issuer's option in certain other circumstances the relevant Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

In addition, an optional redemption feature in any particular Tranche of Notes is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

In the case of certain Notes, if such Notes are redeemed early for any reason, the amount payable by the Issuer may be less than the amount that would have been paid had the Notes been redeemed at maturity.

In addition, in the circumstance of an event of default by the Issuer, the investor would have an unsecured claim against the relevant Issuer or, if applicable, the Guarantor for the amount due on the early redemption of the Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the relevant Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The relevant Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable

Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the relevant Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest bearing securities with comparable maturities.

Notes linked to the credit of one or more specified entities entail significant risks not associated with similar investments in conventional debt securities.

Because the payment of principal and interest on Credit-Linked Notes is contingent on the credit of one or more specified entities and such specified entities' satisfaction of their present and future financial obligations, investors will take credit risk with respect to such specified entities in addition to credit risk with respect to the relevant Issuer and/or the Guarantor, if applicable. If one or more of such specified entities becomes bankrupt or subject to other insolvency procedures or fails to make payments on, repudiates or restructures any of the debt or other obligations described in the applicable Pricing Supplement, a credit event may occur.

If a credit event occurs, the maturity of the Credit-Linked Notes will be accelerated. Upon acceleration of the Credit-Linked Notes, the investor will receive the deliverable obligations, or a cash amount calculated by reference to the value of certain obligations, each as described in the applicable Pricing Supplement instead of the principal amount of the Credit-Linked Notes and, if so provided in the applicable Pricing Supplement, interest payments on the Credit-Linked Notes will cease. The market value of those deliverable obligations following a credit event will probably be significantly less than the principal amount of the Credit-Linked Notes. Such obligations may even be worthless. Thus, if a credit event occurs, the investor may lose all of its investment in the Credit-Linked Notes.

Several factors, many of which are beyond the relevant Issuer's and, where applicable, the Guarantor's control will influence the value of the Credit-Linked Notes and the possibility of early acceleration, including: (i) the creditworthiness of the specified entity or entities underlying the Credit-Linked Notes, (ii) the creditworthiness of the relevant Issuer and/or the Guarantor, if applicable, and (iii) economic, financial and political events that affect the markets in which such specified entity or entities and the relevant Issuer and, where applicable, the Guarantor do business and the markets for the debt or other obligations of such specified entity or entities and of the relevant Issuer and, where applicable, the Guarantor.

The relevant Issuer may amend the terms and condition of the Notes, the Guarantee and (i) the deed of covenant entered into by Morgan Stanley dated 17 August 2015 (as supplemented and/or amended and/or restated and/or replaced from time to time, the "**Morgan Stanley Deed of Covenant**") and (ii) the deed of covenant entered into by MSFL dated 29 April 2016 (as supplemented and/or amended and/or restated from time to time, the "**MSFL Deed of Covenant**") together with the Morgan Stanley Deed of Covenant, the "**Deeds of Covenant**") without Noteholder consent if, in its opinion, such amendments are not materially prejudicial to Noteholders.

Condition 30.2 (*Modification*) of the terms and condition of the Notes allows an Issuer to amend the terms and conditions of the Notes, the Guarantee and the Deeds of Covenant without the consent of the Noteholders if, in the relevant Issuer's opinion, the amendment is to correct a manifest error, where the effect of the amendment is of a formal, minor or technical nature or the amendment is not materially prejudicial to Noteholders. Prospective investors should be aware that an Issuer is not required to consult with any other party, including the Noteholders, prior to amending the terms and conditions of the Notes, the Guarantee and/or the Deeds of Covenant pursuant to Condition 30.2 (*Modification*). An Issuer is entitled to exercise its discretion in making these determinations and Noteholders will be bound by any such amendments made pursuant to Condition 30.2 (*Modification*).

Risk factors specific to the Warrants and Certificates

United Kingdom stamp duty and stamp duty reserve tax

Potential purchasers of Warrants or Certificates should note that each Warrant or Certificate may constitute an instrument which is subject to United Kingdom stamp duty on issue by reference to the amount of the consideration given for the Warrants or Certificates so represented. If stamp duty is payable on the Warrants or Certificates, interest

will be payable (in addition to the stamp duty) in respect of the period from 30 days after the date of execution of the Warrants or Certificates to the date of payment. Penalties may also be payable if the Warrants or Certificates are not stamped within 30 days of the date of execution of the Warrants or Certificates. If a Warrant or Certificate is subject to United Kingdom stamp duty, it would be inadmissible in evidence in an English court unless duly stamped. Potential purchasers should note that UK stamp duty reserve tax may become payable upon the issue of the Warrants or Certificates depending on the nature of the underlying securities and the precise terms of the Warrants or Certificates. Furthermore, potential purchasers should also note that UK stamp duty or stamp duty reserve tax may be payable on the transfer and/or exercise of the Warrants or Certificates depending on the nature of the Relevant Factor and the precise terms of the Warrants or Certificates.

Holders must exercise Warrants and Certificates or risk loss of investment

Where the terms and conditions of the Warrants and Certificates provide that the Warrants and Certificates must be exercised in order for the purchasers of the Warrants and Certificates to receive their settlement amount in respect of such Warrants and Certificates, and the applicable Pricing Supplement specifies "Deemed Exercise" to be not applicable, you must exercise your rights to receive payment in accordance with the terms and conditions of the Warrants and Certificates and the requirements of relevant clearing system or the relevant Agent, as applicable; otherwise you may lose your initial investment.

DESCRIPTION OF THE NEW YORK LAW NOTES

The particular terms of any Notes offered herein will be set forth in the applicable Pricing Supplement (which will, in the case of Notes that are to be admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market, when appropriate, be comprised in a supplement to the Offering Circular). **The terms and conditions set forth in this "Description of New York Law Notes" will apply to each New York Law Note as specified in the applicable Pricing Supplement and in that Note. The Notes will be offered on a continuing basis.**

If any Note is not to be denominated in U.S. dollars, the applicable Pricing Supplement will specify the currency or currencies in which the principal, premium, if any, interest, if any, and supplemental amounts, if any, with respect to that Note are to be paid, along with any other terms relating to the non U.S. dollar denomination, including for certain issuances historical exchange rates for each relevant foreign currency as against the U.S. dollar and any exchange controls affecting any relevant foreign currency. See " — *Interest and Principal Payments*".

General

Notes governed by New York law will be issued under a senior debt Indenture dated as of 15 November 2000 between Morgan Stanley and The Bank of New York Mellon as Trustee (the "**Trustee**") (as supplemented from time to time, the "**Indenture**"). The Notes issued under the Indenture will constitute a single series under that Indenture.

The following summaries of certain provisions of the Indenture and the Notes, and the summaries of additional provisions of the Indenture described under the heading "*Indenture*" do not purport to be complete, and those summaries are subject to the detailed provisions of the Indenture. The Notes offered by this Offering Circular and the accompanying Pricing Supplement are sometimes referred to herein as the "**Offered Notes**".

The Indenture does not limit the amount of additional indebtedness that Morgan Stanley or any of its subsidiaries may incur, nor does it include a negative pledge provision that would require Morgan Stanley to secure the Notes if it were to secure other senior indebtedness. The Indenture allows Morgan Stanley to "reopen" a previous issue of Notes and issue additional Notes of that issue. The Notes will be direct and general obligations of Morgan Stanley. Most of the assets of Morgan Stanley are owned by its subsidiaries. Therefore, Morgan Stanley's rights and the rights of its creditors, including holders of Notes, to participate in the assets of any subsidiary upon that subsidiary's liquidation or recapitalisation will be subject to the prior claims of that subsidiary's creditors, except to the extent that Morgan Stanley may itself be a creditor with recognised claims against the subsidiary. In addition, dividends, loans and advances from certain subsidiaries to Morgan Stanley are restricted by legal requirements, including (in the case of Morgan Stanley & Co. LLC ("**MS & Co.**")) net capital requirements under the U.S. Securities Exchange Act of 1934, as amended, and under rules of certain exchanges and other regulatory bodies and (in the case of Morgan Stanley Bank, N.A., an indirect wholly owned subsidiary of Morgan Stanley, and other bank subsidiaries) by banking regulations.

The Indenture provides that Notes may be issued from time to time in one or more series and may be denominated and payable in currencies other than U.S. dollars.

The applicable Pricing Supplement (which will, in the case of Notes that are to be admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market, when appropriate, be comprised in a supplement to the Offering Circular) will contain, where applicable, the following terms of, and information relating to, any Offered Notes:

- (a) the currency in which the Offered Notes are denominated and/or in which principal, and any premium, interest and/or supplemental amounts, will or may be payable (the "**Specified Currency**"), along with any other terms relating to the non U.S. dollar denomination, including, if applicable, exchange rates for the Specified Currency as against the U.S. dollar at selected times during previous years, and any exchange controls affecting that Specified Currency;
- (b) the stated maturity date and any terms related to any extension of the maturity date;
- (c) whether the Offered Notes are Notes bearing interest at a fixed rate ("**Fixed Rate Notes**"), Notes bearing interest at a floating rate ("**Floating Rate Notes**"), Notes with original issue discount and/or Amortising Notes;

- (g) if the Offered Notes are Amortising Notes, the amortisation schedule;
- (h) whether the Offered Notes may be redeemed, in whole or in part, at the option of Morgan Stanley or repaid at the option of the investor, prior to the stated maturity date, and the terms of any redemption or repayment;

- (k) whether the Offered Notes will be issued in individually certificated registered form or in global registered form;
- (l) whether the Offered Notes will be admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market, admitted to listing on the SIX Swiss Exchange and to trading on the main segment of the SIX Swiss Exchange or admitted to listing, trading and/or quotation by any other listing authority, stock exchange and/or quotation system;

These services will be provided without charge except for any tax or other governmental charge payable in connection with these services and subject to any limitations provided in the Indenture.

The Notes will be Fixed Rate Notes or Floating Rate Notes or may pay interest at a rate which varies or may pay no interest. The Notes, including Notes bearing no interest or interest at a rate that at the time of issuance is below the prevailing market rate, may be sold at a discount below their stated principal amount.

Form and Title

The Notes will be issued in registered form, without coupons attached. For a more complete description of the form of Notes and of the consequences of holding an interest in a global registered form, see "Form of Notes" below.

The investor may transfer the Notes and present them for payment and exchange in the manner set forth below.

Global Registered Notes. The Principal Paying Agent or any other paying agent will pay the principal, premium, if any, interest and/or supplemental amounts, if any, on the global registered note through the common depository therefor to the Relevant Clearing System with respect to that portion of any global registered note held for its account.

At maturity, redemption or repayment or on an Interest Payment Date, the Relevant Clearing System will credit the principal, premium, if any, interest and/or supplemental amounts, if any, received to the respective accounts of the beneficial owners of the global registered note who are recorded on the book of the clearing systems at the close of business on the Clearing System Business Day before the due date of such payment ("**Clearing System Business Day**" means a day on which each clearing system for this the global registered note is being held is open for business). Payment of principal, premium, if any, interest and/or supplemental amounts, if any, made on any global registered note will be made to the Relevant Clearing System in immediately available funds, subject to any applicable laws and regulations.

Individually Certificated Registered Notes. The Principal Paying Agent or any other paying agent will pay principal, premium, if any, interest and/or supplemental amounts, if any, on an individually certificated registered note at maturity, upon redemption or repayment only if such note is presented. U.S. dollar payments of interest, other than interest due at maturity or on any date of redemption or repayment, will be made by U.S. dollar check mailed to the holder's address, as it appears in the note register on the record date. A holder of U.S. \$10,000,000 or more in aggregate principal amount of Notes having the same Interest Payment Date will be entitled to receive payments of interest, other than interest due at maturity or on any date of redemption or repayment, by wire transfer of immediately available funds if appropriate wire transfer instructions have been received by the Principal Paying Agent in writing not less than 15 calendar days prior to the applicable Interest Payment Date. If an individually certificated registered note is denominated in a currency other than U.S. dollars, payments of interest thereon will be made by wire transfer of immediately available funds to an account maintained by the holder of such note with a bank located outside the United States, and in the case the denominated currency is euro, in a country for which the euro is the lawful currency, if appropriate wire transfer instructions have been received by the Principal Paying Agent in writing on or prior to the fifth business day after the applicable record date. If such wire transfer instructions are not so received, such interest payments will be made by check payable in such currency mailed to the holder's address, as it appears in the note register on the record date.

Unavailability of Currency. The relevant Specified Currency may not be available to Morgan Stanley for making payments of principal of, and premium, interest and/or supplemental amounts, if any, on any Note. This could occur due to the imposition of exchange controls or other circumstances beyond the control of Morgan Stanley or if the Specified Currency is no longer used by the government of the country issuing that currency or by public institutions within the international banking community for the settlement of transactions. If the Specified Currency is unavailable, Morgan Stanley may satisfy its obligations to Noteholders by making those payments on the date of payment in U.S. dollars on the basis of the Market Exchange Rate on the date of the payment or of the most recent practicable date, or if that rate of exchange is not then available or is not published for that particular payment currency, the Market Exchange Rate will be based on the highest bid quotation in The City of New York received by the Exchange Rate Agent at approximately 11:00 a.m., New York City time, on the second Business Day preceding the applicable payment date from three recognised foreign exchange dealers for the purchase by the quoting dealer:

- (a) of the Specified Currency for U.S. dollars for settlement on the payment date;
- (b) in the aggregate amount of the Specified Currency payable to those holders or beneficial owners of Notes; and
- (c) at which the applicable dealer commits to execute a contract.

If those bid quotations are not available, the Exchange Rate Agent will determine the Market Exchange Rate at its sole discretion. All determinations by the Exchange Rate Agent will, in the absence of manifest error, be conclusive for all purposes and binding on Morgan Stanley and the Noteholders. The Exchange Rate Agent will be Morgan Stanley & Co. International plc, an affiliate of Morgan Stanley, unless otherwise noted in the applicable Pricing Supplement. If the Exchange Rate Agent is not an affiliate of Morgan Stanley, it may be one of the dealers providing quotations.

For the avoidance of doubt, any payment made in U.S. dollars on the basis of the Market Exchange Rate where the required payment is in an unavailable Specified Currency will not constitute an Event of Default under the Indenture.

These provisions do not apply if a Specified Currency is unavailable because it has been replaced by the euro. If the euro has been substituted for a Specified Currency, we may at our option (or will, if required by applicable law)

any Note denominated in the Specified Currency in euro instead of the Specified Currency, in conformity with legally applicable measures taken pursuant to, or by virtue of, the Treaty, subject to and in accordance with the terms described in Redenomination below. Any payment made in U.S. dollars or in euro, as described above where the required payment is in an unavailable Specified Currency, will not constitute an Event of Default under the Indenture.

Unclaimed Payments. If Morgan Stanley has made, and the Trustee or the Principal Paying Agent or any other paying agent has held, any payment of the principal of, or any premium, interest and/or supplemental amounts on, any Notes that remains unclaimed at the end of two years after that payment has become due and payable (whether at maturity or upon call for redemption or otherwise):

(a) *the Trustee or such paying agent will notify the holders of such Notes that moneys will be repaid to Morgan Stanley, and any person claiming such moneys will thereafter look only to Morgan Stanley for payment thereof; and*

(b) *those moneys will be so repaid to Morgan Stanley.*

Upon that repayment all liability of the Trustee or such paying agent with respect to those moneys will thereupon cease, without, however, limiting in any way any obligation that Morgan Stanley may have to pay the principal of, or any premium, interest and/or supplemental amounts on, the Notes as the same will become due.

Original Issue Par Notes. Certain Notes may be Original Issue Par Notes. Unless otherwise specified in the applicable Pricing Supplement, if the principal of any Note that is considered to be issued with original issue discount is declared to be due and payable immediately as described under "—Events of Default" below is surrendered for optional repayment or is redeemed as described under "—Tax Redemption" below, the amount of principal due and payable on that Note will be limited to:

(a) the aggregate principal amount of the Note multiplied by

(b) the sum of its issue price, expressed as a percentage of the aggregate principal amount, plus

(c) the original issue discount accrued from the date of issue to the date of declaration, expressed as a percentage of the aggregate principal amount, with the amount of original issue discount accrued being calculated using a constant yield method.

The constant yield shall be calculated using a 30-day month, 360-day year convention, a compounding period that, except for the initial period (as defined below), corresponds to the shortest period between Interest Payment Dates (with rateable accruals within a compounding period), and an assumption that the maturity will not be accelerated. If the period from the original issue date to the first Interest Payment Date, (the "**initial period**") is shorter than the compounding period for such Note, a proportionate amount of the yield for an entire compounding period will be accrued. If the initial period is longer than the compounding period, then the period will be divided into a regular compounding period and short compounding period with the short period being treated as provided in the preceding sentence. See the applicable Pricing Supplement for any special considerations applicable to these Notes.

Transfers and Exchanges

Global Registered Notes. Global registered notes are held by a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. Global registered notes name the depositary or its nominee as the holder. The clearing system maintains a computerized system that will reflect each investor's beneficial ownership of such notes through an account maintained by the investor with its broker/dealer, bank, trust company or other representative. The procedures for transfer of interests in global registered notes depend upon the procedures of the clearing system.

Individually Certificated Registered Notes. Holders of individually certificated registered notes may present such notes to register the transfer thereof at the offices of the Principal Paying Agent in London or at the office of any agent that Morgan Stanley designates for that purpose. No service charge will be made for any registration of transfer of the notes, but Morgan Stanley may require payment of a sum sufficient to cover any tax or other governmental charge in connection therewith. The terms of, and procedures established under, the Indenture govern any registration of transfer of such notes.

For a description of certain restrictions on offers, sales and deliveries of the Notes and on the distribution of offering material in the United States and in certain other countries, see "*Subscription and Sale*" and "*No Ownership by U.S. Persons*".

Paying Agent for the Notes

Morgan Stanley has designated The Bank of New York Mellon as its Principal Paying Agent for the Notes. Morgan Stanley may at any time appoint additional paying agents for the Notes outside the United States. Any initial designation by Morgan Stanley of an agent may be rescinded at any time, except that, so long as any Notes remain outstanding, Morgan Stanley will maintain a paying agent having a specified office in (i) Dublin, so long as any Notes are admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market and the Irish Stock Exchange requires it and (ii) Switzerland, so long as any Notes are admitted to the main segment of the SIX Swiss Exchange and to trading on the main segment of the SIX Swiss Exchange and the SIX Swiss Exchange requires it. Morgan Stanley will (if necessary and to the extent practicable) maintain a paying agent in a Member State of the European Union that will not be obligated to withhold or deduct tax pursuant to European Union Directive 2003/48/EC on the taxation of savings or any other directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 or any law implementing or complying with, or introduced in order to conform to, such Directive.

Fixed Rate Notes

Each Fixed Rate Note will bear interest from the date of issuance at the annual rate stated on its face until the principal is paid or made available for payment.

How Interest Is Calculated. Interest on Fixed Rate Notes will be computed on the basis of a 360 day year of twelve 30 day months.

How Interest Accrues. Interest on Fixed Rate Notes will accrue from and including the most recent Interest Payment Date to which interest has been paid or duly provided for, or, if no interest has been paid or duly provided for, from and including the issue date or any other date specified in a Pricing Supplement on which interest begins to accrue. Interest will accrue to but excluding the next Interest Payment Date or, if earlier, excluding the date on which the principal has been paid or duly made available for payment (except as described below under " — *If a Payment Date is Not a Business Day*").

When Interest Is Paid. Payments of interest on Fixed Rate Notes will be made on the Interest Payment Dates specified in the applicable Pricing Supplement. If the Original Issue Date of a registered note is between a record date and the next succeeding Interest Payment Date, interest payments will commence on the second succeeding Interest Payment Date and will be payable to the holder as of the record date next preceding such Interest Payment Date.

Amount of Interest Payable. Interest payments for Fixed Rate Notes will include accrued interest from and including the date of issue or from and including the last date in respect of which interest has been paid, as the case may be, to but excluding the relevant interest payment date or date of maturity or earlier redemption or repayment, as the case may be.

If a Payment Date Is Not a Business Day. If any scheduled Interest Payment Date is not a Business Day, Morgan Stanley will pay interest on the next Business Day, but interest on that payment will not accrue during the period from and after the Interest Payment Date. If the scheduled maturity date or date of redemption or repayment is not a Business Day, Morgan Stanley may pay principal, premium, interest and/or supplemental amounts, if any, on the next succeeding Business Day, but interest on that payment will not accrue during the period from and after the maturity date or date of redemption or repayment.

Amortising Notes. A Fixed Rate Note may pay a level amount in respect of both interest and principal amortised over the life of the Note. Payments of principal and interest on Amortising Notes will be made on the Interest Payment Dates specified in the applicable Pricing Supplement, and at maturity or upon any earlier date of redemption or repayment. Payments on Amortising Notes will be applied first to interest due and payable and then to the reduction of the unpaid principal amount. Morgan Stanley will provide to the original purchaser, and will furnish to subsequent holders upon request to Morgan Stanley, a table setting forth repayment information for each Amortising Note.

Floating Rate Notes

Each Floating Rate Note will mature on the date specified in the applicable Pricing Supplement.

Each Floating Rate Note will bear interest at a floating rate determined by reference to an interest rate or interest rate formula (the "**Base Rate**"). The Base Rate may be one or more of the following:

- (a) the CD Rate;
- (b) the Commercial Paper Rate;
- (c) EURIBOR;
- (d) the Federal Funds Rate;
- (e) the Federal Funds (Open) Rate;
- (f) LIBOR;
- (g) the Prime Rate;
- (h) the Treasury Rate;
- (i) the CMT Rate; or
- (j) any other rate or interest rate formula specified in the applicable Pricing Supplement and in the Floating Rate Note.

Formula for Interest Rates. The interest rate on each Floating Rate Note will be calculated by reference to:

- (a) the specified Base Rate based on the Index Maturity;
- (b) *plus or minus* the Spread, if any; and/or
- (c) *multiplied* by the Spread Multiplier, if any.

The interest rate on each Floating Rate Note may, during all or any part of the period that it is outstanding, be set at zero.

"Index Maturity" means, for any Floating Rate Note, the period of maturity of the instrument or obligation from which the Base Rate is calculated and will be specified in the applicable Pricing Supplement. The **"Spread"** is the number of basis points (one one hundredth of a percentage point) specified in the applicable Pricing Supplement to be added to or subtracted from the Base Rate for a Floating Rate Note. The **"Spread Multiplier"** is the percentage specified in the applicable Pricing Supplement to be applied to the Base Rate for a Floating Rate Note. The interest rate on any inverse Floating Rate Note will also be calculated by reference to a fixed rate.

Limitations on Interest Rate. A Floating Rate Note may also have either or both of the following limitations on the interest rate:

- (a) a maximum limitation, or ceiling, on the rate of interest which may accrue during any interest period ("**Maximum Interest Rate**"); and/or
- (b) a minimum limitation, or floor, on the rate of interest that may accrue during any interest period ("**Minimum Interest Rate**").

Any applicable Maximum Interest Rate or Minimum Interest Rate will be set forth in the applicable Pricing Supplement.

In addition, the interest rate on a Floating Rate Note may not be higher than the maximum rate permitted by New York law, as that rate may be modified by United States federal law of general application. Under current New York law,

cent. and for any loan in the amount of U.S.\$250,000 or more but less than U.S.\$2,500,000 is 25 per cent. per annum on a simple interest basis. These limits do not apply to loans of U.S.\$2,500,000 or more.

How Floating Interest Rates Are Reset. The interest rate in effect from the date of issue to the first Interest Reset Date for a Floating Rate Note will be the initial interest rate specified in the applicable Pricing Supplement. This rate is the "**Initial Interest Rate**". The interest rate on each Floating Rate Note may be reset daily, weekly, monthly, quarterly, semi-annually or annually. This period is the "**Interest Reset Period**" and the first day of each Interest Reset Period is the "**Interest Reset Date**". The "**Interest Determination Date**" pertaining to any Interest Reset Date is the day the Calculation Agent (which will be specified for any issue of Floating Rate Notes in the applicable Pricing Supplement) will refer to when determining the new interest rate at which a Floating Rate Note will reset, and is applicable as follows:

- (a) for Federal Funds Rate Notes, Federal Funds (Open) Rate Notes, and Prime Rate Notes, the Interest Determination Date will be on the Business Day prior to the Interest Rate Reset Date;
- (b) for CD Rate Notes, Commercial Paper Rate Notes and CMT Rate Notes, the Interest Determination Date will be the second Business Day prior to the Interest Reset Date;
- (c) for EURIBOR Notes or Euro LIBOR Notes, the Interest Determination Date will be the second TARGET Settlement Day (as defined under "General") prior to the Interest Reset Date;
- (d) for LIBOR Notes (other than Euro LIBOR Notes), the Interest Determination Date will be the second London Banking Day prior to the Interest Reset Date, except that the Interest Determination Date pertaining to an Interest Reset Date for a LIBOR Note for which the Index Currency is Sterling will be the Interest Reset Date;
- (e) for Treasury Rate Notes, the Interest Determination Date will be the day of the week in which the Interest Reset Date falls on which Treasury bills would normally be auctioned; and
- (f) for Notes with two or more Base Rates, the Interest Determination Date will be the latest Business Day that is at least two Business Days before the Interest Reset Date for the applicable Note on which each Base Rate is determinable.

Treasury bills are normally sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction is normally held on the following Tuesday, except that the auction may be held on the preceding Friday; provided, however, that if an auction is held on the Friday of the week preceding the Interest Reset Date, the Interest Determination Date will be that preceding Friday. If an auction falls on a day that is an Interest Reset Date, that Interest Reset Date will be the next succeeding Business Day.

The Interest Reset Dates will be specified in the applicable Pricing Supplement. If an Interest Reset Date for any Floating Rate Note falls on a day that is not a Business Day, it will be postponed to the following Business Day, except that, in the case of a EURIBOR Note or a LIBOR Note, if that Business Day is in the next calendar month, the Interest Reset Date will be the immediately preceding Business Day. With respect to the EURIBOR Notes, for the purpose of determining the Initial Interest Rate, the term "Interest Reset Date" refers to the issue date.

The interest rate in effect for the ten calendar days immediately prior to maturity, redemption or repayment will be the one in effect on the tenth calendar day preceding the maturity, redemption or repayment date.

In the detailed descriptions of the various Base Rates which follow, the "Calculation Date" pertaining to an Interest Determination Date, including the Interest Determination Date as of which the Initial Interest Rate is determined, means the earlier of (i) the tenth calendar day after the Interest Determination Date, or, if that day is not a Business Day, the next succeeding Business Day, and (ii) the Business Day immediately preceding the applicable Interest Payment Date or maturity date or, for any principal amount to be redeemed or repaid, any redemption or repayment date.

How Interest is Calculated. Interest on Floating Rate Notes will accrue from and include the most recent Interest Payment Date to which interest has been paid or duly provided for, or, if no interest has been paid or duly provided for, from and including the issue date or any other date specified in a Pricing Supplement on which interest begins to accrue. Interest will accrue to but exclude the next Interest Payment Date, or, if earlier, the date on which the principal

has been paid or duly made available for payment (except as described under " — *If a Payment Date Is Not a Business Day*" below).

The applicable Pricing Supplement will specify a calculation agent for any issue of Floating Rate Notes (the "**Calculation Agent**"). Upon the request of the holder of any Floating Rate Note, the Calculation Agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective on the next Interest Reset Date for that Floating Rate Note. As long as any Floating Rate Notes have been admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market and the rules of the Irish Stock Exchange require it, the Calculation Agent will, no later than the first day of the applicable Interest Reset Period, notify the Irish Stock Exchange as to the interest rate in effect for such Interest Reset Period and will also publish notice of the relevant interest rate and the applicable Interest Reset Period in the manner described below under " — *Notices*" or make such information available to holders at the offices of the Principal Paying Agent.

For a Floating Rate Note, accrued interest will be calculated by multiplying the principal amount of the Floating Rate Note by an accrued interest factor. This accrued interest factor will be computed by adding the interest factors calculated for each day in the period for which interest is being paid. The interest factor for each day is computed by *dividing* the interest rate applicable to that day:

- (a) by 360, in the case of CD Rate Notes, Commercial Paper Rate Notes, EURIBOR Notes, Federal Funds Rate Notes, Federal Funds (Open) Rate Notes, LIBOR Notes (except for LIBOR Notes denominated in Sterling) and Prime Rate Notes;
- (b) by 365, in the case of LIBOR Notes denominated in Sterling; or
- (c) by the actual number of days in the year, in the case of Treasury Rate Notes and CMT Rate Notes.

For these calculations, the interest rate in effect on any Interest Reset Date will be the applicable rate as reset on that date. The interest rate applicable to any other day is the interest rate from the immediately preceding Interest Reset Date (or, if none, the Initial Interest Rate).

All percentages used in or resulting from any calculation of the rate of interest on a Floating Rate Note will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with 0.000005 per cent. rounded up to 0.00001 per cent., and all U.S. dollar amounts used in or resulting from these calculations on Floating Rate Notes will be rounded to the nearest cent, with one half cent rounded upward. All Japanese Yen amounts used in or resulting from such calculations will be rounded downward to the next lower whole Japanese Yen amount. All amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 rounded up to 0.01.

When Interest Is Paid. Morgan Stanley will pay interest on Floating Rate Notes on the Interest Payment Dates specified in the applicable Pricing Supplement. If the Original Issue Date of a registered note is between a record date and the next succeeding Interest Payment Date, interest payments will commence on the second succeeding Interest Payment Date and will be payable to the holder as of the record date next preceding such Interest Payment Date.

If a Payment Date Is Not a Business Day. If any scheduled Interest Payment Date, other than the maturity date or any earlier redemption or repayment date, for any Floating Rate Note falls on a day that is not a Business Day, it will be postponed to the following Business Day, except that, in the case of a EURIBOR Note or a LIBOR Note, if that Business Day would fall in the next calendar month, the Interest Payment Date will be the immediately preceding Business Day. If the scheduled maturity date or any earlier redemption or repayment date of a Floating Rate Note falls on a day that is not a Business Day, the payment of principal, premium, if any, and interest and/or supplemental amounts, if any, will be made on the next succeeding Business Day, but interest on that payment will not accrue during the period from and after the maturity, redemption or repayment date.

Base Rates

CD Rate Notes

CD Rate Notes will bear interest at the interest rates specified in the CD Rate Notes and in the applicable Pricing Supplement. Those interest rates will be based on the CD Rate and any spread and/or spread multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

The "**CD Rate**" means, for any Interest Determination Date, the rate on that date for negotiable U.S. dollar certificates of deposit having the Index Maturity specified in the applicable Pricing Supplement as published by the U.S. Federal Reserve System (the "**Fed**") in "Statistical Release H.15(519), Selected Interest Rates", or any successor publication of the Board of Governors of the Federal Reserve System ("**H.15(519)**") under the heading "CDs (*Secondary Market*)".

The following procedures will be followed if the CD Rate cannot be determined as described above:

- (a) If the above rate is not published in H.15(519) by 3:00 p.m., New York City time, on the Calculation Date, the CD Rate will be the rate on that Interest Determination Date set forth in the daily update of H.15(519), available through the world wide website of the Board of Governors of the Federal Reserve System at <http://www.federalreserve.gov/releases/h15/update> or any successor site or publication ("**H.15 Daily Update**") for the Interest Determination Date for certificates of deposit having the Index Maturity specified in the applicable Pricing Supplement under the caption "CDs (*Secondary Market*)".
- (b) If the above rate is not yet published in either H.15(519) or the H.15 Daily Update by 3:00 p.m., New York City time, on the Calculation Date, the Calculation Agent will determine the CD Rate to be the arithmetic mean of the secondary market offered rates as of 10:00 a.m., New York City time, on that Interest Determination Date of three leading nonbank dealers in negotiable U.S. dollar certificates of deposit in The City of New York, which may include the Distribution Agents or their affiliates, selected by the Calculation Agent, after consultation with Morgan Stanley, for negotiable U.S. dollar certificates of deposit of major U.S. money center banks of the highest credit standing in the market for negotiable certificates of deposit with a remaining maturity closest to the Index Maturity specified in the applicable Pricing Supplement in an amount that is representative for a single transaction in that market at that time.
- (c) If the dealers selected by the Calculation Agent are not quoting as set forth above, the CD Rate for that Interest Determination Date will remain the CD Rate for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

Commercial Paper Rate Notes

Commercial Paper Rate Notes will bear interest at the interest rates specified in the Commercial Paper Rate Notes and in the applicable Pricing Supplement. Those interest rates will be based on the Commercial Paper Rate and any Spread and/or Spread Multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

The "**Commercial Paper Rate**" means, for any Interest Determination Date, the Money Market Yield, calculated as described below, computed using the rate on that date for U.S. dollar commercial paper having the Index Maturity specified in the applicable Pricing Supplement, as that rate is published in H.15(519), under the heading "*Commercial Paper — Nonfinancial*".

The following procedures will be followed if the Commercial Paper Rate cannot be determined as described above:

- (a) If the above rate is not published by 3:00 p.m., New York City time, on the Calculation Date, then the Commercial Paper Rate will be the Money Market Yield computed using the rate on that Interest Determination Date for commercial paper of the Index Maturity specified in the applicable Pricing Supplement as published in the H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, under the heading "*Commercial Paper — Nonfinancial*".
- (b) If by 3:00 p.m., New York City time, on that Calculation Date the rate is not yet published in either H.15(519) or the H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, then the Calculation Agent will determine the Commercial Paper Rate to be the Money Market Yield computed using the arithmetic mean of the offered rates as of 11:00 a.m., New York City time, on that Interest Determination Date of three leading dealers of U.S. dollar commercial paper in The City of New York, which may include the Distribution Agents or their affiliates, selected by the Calculation Agent, after consultation with Morgan Stanley, for commercial paper of the Index Maturity specified in the applicable Pricing Supplement, placed for an industrial issuer whose bond rating is "Aa" or the equivalent, from a nationally recognised statistical rating agency.
- (c) If the dealers selected by the Calculation Agent are not quoting as set forth above, the Commercial Paper Rate for that Interest Determination Date will remain the Commercial Paper Rate for the immediately

preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

The "**Money Market Yield**" will be a yield calculated in accordance with the following formula:

$$\text{Money Market Yield} = \frac{D \times 360}{360 - (D \times M)} \times 100$$

Where "D" refers to the applicable per year rate for commercial paper quoted on a bank discount basis and expressed as a decimal and "M" refers to the actual number of days in the interest period for which interest is being calculated.

EURIBOR Notes

EURIBOR Notes will bear interest at the interest rates specified in the EURIBOR Notes and in the applicable Pricing Supplement. That interest rate will be based on EURIBOR and any Spread and/or Spread Multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

"**EURIBOR**" means, for any Interest Determination Date, the rate for deposits in euros as sponsored, calculated and published jointly by the European Banking Federation and ACI - The Financial Market Association, or any company established by the joint sponsors for purposes of compiling and publishing those rates, for the Index Maturity specified in the applicable Pricing Supplement as that rate appears on the display on Reuters 3000 Xtra Service ("**Reuters**"), or any successor service, on page EURIBOR01 or any other page as may replace page EURIBOR01 on that service ("**Reuters Page EURIBOR01**") as of 11:00 a.m., Brussels time.

The following procedures will be followed if the rate cannot be determined as described above:

- (a) If the above rate does not appear, the Calculation Agent will request the principal Euro-zone office of each of four major banks in the Euro-zone interbank market, as selected by the Calculation Agent, after consultation with Morgan Stanley, to provide the Calculation Agent with its offered rate for deposits in euros, at approximately 11:00 a.m., Brussels time, on the Interest Determination Date, to prime banks in the Euro-zone interbank market for the Index Maturity specified in the applicable Pricing Supplement commencing on the applicable Interest Reset Date, and in a principal amount not less than the equivalent of U.S.\$1 million in euro that is representative of a single transaction in euro, in that market at that time. If at least two quotations are provided, EURIBOR will be the arithmetic mean of those quotations.
- (b) If fewer than two quotations are provided, EURIBOR will be the arithmetic mean of the rates quoted by four major banks in the Euro-zone interbank market, as selected by the Calculation Agent, after consultation with Morgan Stanley, at approximately 11:00 a.m., Brussels time, on the applicable Interest Reset Date for loans in euro to leading European banks for a period of time equivalent to the Index Maturity specified in the applicable Pricing Supplement commencing on that Interest Reset Date in a principal amount not less than the equivalent of U.S.\$1 million in euro.
- (c) If the banks selected by the Calculation Agent are not quoting as set forth above, EURIBOR for that Interest Determination Date will remain EURIBOR for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

"**Euro-zone**" means the region comprising Member States of the European Union that have adopted the single currency in accordance with the Treaty.

Federal Funds Rate Notes

Federal Funds Rate Notes will bear interest at the interest rates specified in the Federal Funds Rate Notes and in the applicable Pricing Supplement. Those interest rates will be based on the Federal Funds Rate and any Spread and/or Spread Multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

The "**Federal Funds Rate**" means, for any Interest Determination Date, the rate on that date for U.S. dollar Federal Funds as published in H.15(519) under the heading "Federal Funds (Effective)" as displayed on Reuters, or any successor service, on page FEDFUNDS1 or any other page as may replace the applicable page on that service, which is commonly referred to as "**Reuters Page FEDFUNDS1**".

The following procedures will be followed if the Federal Funds Rate cannot be determined as described above:

- (a) If the above rate is not published by 3:00 p.m., New York City time, on the Calculation Date, the Federal Funds Rate will be the rate on that Interest Determination Date as published in the H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, under the heading "*Federal Funds (Effective)*".
- (b) If the above rate is not yet published in either H.15(519) or the H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, by 3:00 p.m., New York City time, on the Calculation Date, the Calculation Agent will determine the Federal Funds Rate to be the arithmetic mean of the rates for the last transaction in overnight U.S. dollar federal funds prior to 9:00 a.m., New York City time, on that Interest Determination Date by each of three leading brokers of U.S. dollar Federal Funds transactions in The City of New York, which may include the Distribution Agents or their affiliates, selected by the Calculation Agent, after consultation with Morgan Stanley.
- (c) If the brokers selected by the Calculation Agent are not quoting as set forth above, the Federal Funds Rate for that Interest Determination Date will remain the Federal Funds Rate for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

Federal Funds (Open) Rate Notes.

Federal Funds (Open) Rate Notes will bear interest at the interest rates specified in the Federal Funds (Open) Rate Notes and in the Pricing Supplement. Those interest rates will be based on the Federal Funds (Open) Rate and any Spread and/or Spread Multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

The "Federal Funds (Open) Rate" means, for any Interest Determination Date, the rate on that date for U.S. dollar Federal Funds as published in H.15(519) under the heading "Federal Funds (Open)" as displayed by Reuters or any successor service, on page 5 or any other page as may replace the applicable page on that service ("**Reuters page 5**").

The following procedures will be followed if the Federal Funds (Open) Rate cannot be determined as described above:

- (a) If the above rate is not published by 3.00 p.m., New York City time, on the Calculation Date, the Federal Funds (Open) Rate will be the rate on that Interest Determination Date as published in the H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, under the heading "*Federal Funds (Open)*".
- (b) If the above rate is not yet published in either H.15(519) or the H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, by 3.00 p.m., New York City time, on the Calculation Date, the Calculation Agent will determine the Federal Funds (Open) Rate to be the arithmetic mean of the rates for the last transaction in overnight U.S. dollar Federal Funds, based on the Federal Funds (Open) Rate prior to 9.00 a.m., New York City time, on that Interest Determination Date, by each of three leading brokers of U.S. dollar Federal Funds transactions in The City of New York, which may include the Distribution Agent or their affiliates, selected by the Calculation Agent, after consultation with Morgan Stanley.
- (c) If the brokers selected by the Calculation Agent are not quoting as set forth above, the Federal Funds (Open) Rate for that Interest Determination Date will remain the Federal Funds (Open) Rate for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

LIBOR Notes

LIBOR Notes will bear interest at the interest rates specified in the LIBOR Notes and in the applicable Pricing Supplement. That interest rate will be based on London Interbank Offered Rate ("**LIBOR**") and any Spread and/or Spread Multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

"**LIBOR**" means, for any Interest Determination Date, the arithmetic mean of the offered rates for deposits in the Index Currency having the Index Maturity designated in the applicable Pricing Supplement, commencing on the

second London banking day immediately following that Interest Determination Date or, if Sterling is the Index Currency, commencing on that Interest Determination Date, that appear on the Designated LIBOR Page as of 11:00 a.m., London time, on that Interest Determination Date, if at least two offered rates appear on the Designated LIBOR Page, provided that if the specified Designated LIBOR Page, as defined below, by its terms provides only for a single rate, that single rate will be used.

- (a) If (i) fewer than two offered rates appear or (ii) no rate appears and the Designated LIBOR Page by its terms provides only for a single rate, then the Calculation Agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the Calculation Agent, after consultation with Morgan Stanley, to provide the Calculation Agent with its offered quotation for deposits in the Index Currency for the period of the Index Maturity specified in the applicable Pricing Supplement commencing on the second London banking day immediately following the Interest Determination Date or, if Sterling is the Index Currency, commencing on that Interest Determination Date, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that Interest Determination Date and in a principal amount that is representative of a single transaction in that Index Currency in that market at that time. If at least two quotations are provided, LIBOR determined on that Interest Determination Date will be the arithmetic mean of those quotations.
- (b) If fewer than two quotations are provided as described in the prior paragraph, LIBOR will be determined for the applicable Interest Reset Date as the arithmetic mean of the rates quoted at approximately 11:00 a.m., London time, or some other time specified in the applicable Pricing Supplement, in the applicable principal financial center for the country of the Index Currency on that Interest Reset Date, by three major banks in that principal financial center selected by the Calculation Agent, after consultation with Morgan Stanley, for loans in the Index Currency to leading European banks, having the Index Maturity specified in the applicable Pricing Supplement and in a principal amount that is representative of a single transaction in that Index Currency in that market at that time.
- (c) If the banks so selected by the Calculation Agent are not quoting as set forth above, LIBOR for that Interest Determination Date will remain LIBOR for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

The "**Index Currency**" means the currency specified in the applicable Pricing Supplement as the currency for which LIBOR will be calculated, or, if the euro is substituted for that currency, the Index Currency will be the euro. If that currency is not specified in the applicable Pricing Supplement, the Index Currency will be U.S. dollars.

"**Designated LIBOR Page**" means the display on Reuters, or any successor service, on page LIBOR01 or any other page as may replace that page on that service for the purpose of displaying the London interbank rates of major banks for the applicable Index Currency.

Prime Rate Notes

Prime Rate Notes will bear interest at the interest rates specified in the Prime Rate Notes and in the applicable Pricing Supplement. That interest rate will be based on the Prime Rate and any Spread and/or Spread Multiplier, and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

The "**Prime Rate**" means, for any Interest Determination Date, the rate on that date as published in H.15(519) under the heading "*Bank Prime Loan*".

The following procedures will be followed if the Prime Rate cannot be determined as described above:

- (a) If the above rate is not published prior to 3:00 p.m., New York City time, on the Calculation Date, the Prime Rate will be the rate on that Interest Determination Date as published in H.15 Daily Update under the heading "*Bank Prime Loan*".
- (b) If the above rate is not published in either H.15(519) or the H.15 Daily Update by 3:00 p.m., New York City time, on the Calculation Date, the Calculation Agent will determine the Prime Rate to be the arithmetic mean of the rates of interest publicly announced by each bank that appears on the Reuters Page US PRIME 1, as defined below, as that bank's Prime Rate or base lending rate as in effect for that Interest Determination Date.

- (c) If fewer than four rates for that Interest Determination Date appear on the Reuters Page US PRIME 1 by 3:00 p.m., New York City time, on the Calculation Date, the Calculation Agent will determine the Prime Rate to be the arithmetic mean of the Prime Rates quoted on the basis of the actual number of days in the year divided by 360 as of the close of business on that Interest Determination Date by at least three major banks in The City of New York, which may include the Distribution Agents or their affiliates, selected by the Calculation Agent, after consultation with Morgan Stanley.
- (d) If the banks selected by the Calculation Agent are not quoting as set forth above, the Prime Rate for that Interest Determination Date will remain the Prime Rate for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

"**Reuters Page US PRIME 1**" means the display designated as page "US PRIME 1" on Reuters, or any successor service, or any other page as may replace the US PRIME 1 page on that service for the purpose of displaying Prime Rates or base lending rates of major U.S. banks.

Treasury Rate Notes

Treasury Rate Notes will bear interest at the interest rates specified in the Treasury Rate Notes and in the applicable Pricing Supplement. That interest rate will be based on the Treasury Rate and any Spread and/or Spread Multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

The "**Treasury Rate**" means:

- (a) the rate from the auction held on the applicable Interest Determination Date (the "Auction") of direct obligations of the United States ("**Treasury Bills**") having the Index Maturity specified in the applicable Pricing Supplement as that rate appears under the caption "INVESTMENT RATE" on the display on Reuters Page USAUCTION 10 or on Reuters Page USAUCTION11 or such other page or pages as may replace Reuters Page USAUCTION10 or Reuters Page USAUCTION11 on that service, or any successor service, for the purpose of displaying such information; or
- (b) if the rate described in the first bullet point is not published by 3:00 p.m., New York City time, on the Calculation Date, the bond equivalent yield of the auction rate for the applicable Treasury Bills as published in the H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, under the caption "U.S. Government Securities/Treasury Bills/Auction High"; or
- (c) if the rate described in the second bullet point is not published by 3:00 p.m., New York City time, on the related Calculation Date, the bond equivalent yield of the auction rate of the applicable Treasury Bills, announced by the United States Department of the Treasury; or
- (d) if the rate referred to in the third bullet point is not announced by the United States Department of the Treasury, or if the Auction is not held, the bond equivalent yield of the auction rate on the applicable Interest Determination Date of Treasury Bills having the Index Maturity specified in the applicable Pricing Supplement published in H.15(519) under the caption "U.S. Government Securities/Treasury Bills/Secondary Market"; or
- (e) if the rate referred to in the fourth bullet point is not published by 3:00 p.m., New York City time, on the related Calculation Date, the rate on the applicable Interest Determination Date of the applicable Treasury Bills as published in H.15 Daily Update, or other recognised electronic source used for the purpose of displaying the applicable rate, under the caption "U.S. Government Securities/Treasury Bills/Secondary Market"; or
- (f) if the rate referred to in the fifth bullet point is not published by 3:00 p.m., New York City time, on the related Calculation Date, the rate on the applicable Interest Determination Date calculated by the Calculation Agent as the bond equivalent yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 p.m., New York City time, on the applicable Interest Determination Date, of three primary U.S. government securities dealers, which may include the Distribution Agents or their affiliates, selected by the Calculation Agent (after consultation with Morgan Stanley), for the issue of Treasury Bills with a remaining maturity closest to the Index Maturity specified in the applicable Pricing Supplement; or

- (g) if the dealers selected by the Calculation Agent are not quoting as set forth above, the Treasury Rate for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

The "**bond equivalent yield**" means a yield calculated in accordance with the following formula and expressed as a percentage:

$$\text{MoneyMarketYield} = \frac{D \times N}{360 - (D \times M)} \times 100$$

where "D" refers to the applicable per annum rate for Treasury Bills quoted on a bank discount basis, "N" refers to 365 or 366, as the case may be, and "M" refers to the actual number of days in the interest period for which interest is being calculated.

CMT Rate Notes

CMT Rate Notes will bear interest at the interest rates specified in the CMT Rate Notes and in the applicable Pricing Supplement. That interest rate will be based on the CMT Rate and any Spread and/or Spread Multiplier and will be subject to the Minimum Interest Rate and the Maximum Interest Rate, if any.

The "**CMT Rate**" means, for any Interest Determination Date, any of the following rates displayed on the Designated CMT Reuters Page, as defined below, under the caption ". . . Treasury Constant Maturities . . . Federal Reserve Board Release H.15 . . . Mondays Approximately 3:45 p.m.", under the column for the Designated CMT Maturity Index, as defined below, for:

- (a) the rate on that Interest Determination Date, if the Designated CMT Reuters Page is the Reuters Page FRBCMT; and
- (b) the week or the month, as applicable, ended immediately preceding the week in which the related Interest Determination Date occurs, if the Designated CMT Reuters Page is the Reuters Page FEDCMT.

The following procedures will be followed if the CMT Rate cannot be determined as described above:

- (a) If the above rate is no longer displayed on the relevant page, or if not displayed by 3:00 p.m., New York City time, on the Calculation Date, then the CMT Rate will be the Treasury Constant Maturities rate for the Designated CMT Maturity Index as published in the relevant H.15(519).
- (b) If the above rate described in the first bullet point is no longer published, or if not published by 3:00 p.m., New York City time, on the related Calculation Date, then the CMT Rate will be the Treasury Constant Maturities Rate for the Designated CMT Maturity Index or other U.S. Treasury rate for the Designated CMT Maturity Index, on the Interest Determination Date for the related Interest Reset Date as may then be published by either the Board of Governors of the Federal Reserve System or the United States Department of the Treasury that the Calculation Agent determines to be comparable to the rate formerly displayed on the Designated CMT Reuters Page and published in the relevant H.15(519).
- (c) If the information set forth above is not provided by 3:00 p.m., New York City time, on the related Calculation Date, then the Calculation Agent will determine the CMT Rate to be a yield to maturity, based on the arithmetic mean of the secondary market closing offer side prices as of approximately 3:30 p.m., New York City time, on the Interest Determination Date reported, according to their written records, by three leading primary U.S. government securities dealers (the "**Reference Dealers**") in The City of New York, which may include the Distribution Agents or their affiliates, selected by the Calculation Agent as described in the following sentence. The Calculation Agent will select five Reference Dealers, after consultation with Morgan Stanley, and will eliminate the highest quotation or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for the most recently issued direct noncallable fixed rate obligations of the United States ("**Treasury Notes**") with an original maturity of approximately the Designated CMT Maturity Index, a remaining term to maturity of no more than 1 year shorter than the Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at that time. If two Treasury Notes with an original maturity as described above have remaining terms to maturity equally close to the Designated CMT Maturity Index, the quotes for the Treasury Note with the shorter remaining term to maturity will be used.

- (d) If the Calculation Agent cannot obtain three Treasury Notes quotations as described in the immediately preceding paragraph, the Calculation Agent will determine the CMT Rate to be a yield to maturity based on the arithmetic mean of the secondary market offer side prices as of approximately 3:30 p.m., New York City time, on the Interest Determination Date of three Reference Dealers in The City of New York, selected using the same method described in the immediately preceding paragraph, for Treasury Notes with an original maturity equal to the number of years closest to but not less than the Designated CMT Maturity Index and a remaining term to maturity closest to the Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at that time.
- (e) If three or four, and not five, of the Reference Dealers are quoting as described above, then the CMT Rate for that Interest Determination Date will be based on the arithmetic mean of the offer prices obtained and neither the highest nor the lowest of those quotes will be eliminated.
- (f) If fewer than three Reference Dealers selected by the Calculation Agent are quoting as described above, the CMT Rate for that Interest Determination Date will remain the CMT Rate for the immediately preceding Interest Reset Period, or, if there was no Interest Reset Period, the rate of interest payable will be the Initial Interest Rate.

"Designated CMT Reuters Page" means the display on the Reuters page, or any successor service, specified in the applicable Pricing Supplement or any other page as may replace that page on that service for the purpose of displaying Treasury Constant Maturities as reported in H.15(519). If no Reuters page is specified in the applicable Pricing Supplement, the Designated CMT Reuters Page will be the Reuters Page FEDCMT, for the most recent week.

"Designated CMT Maturity Index" means the original period to maturity of the U.S. Treasury Securities, which is either 1, 2, 3, 5, 7, 10, 20 or 30 years, as specified in the applicable Pricing Supplement, for which the CMT Rate will be calculated. If no maturity is specified in the applicable Pricing Supplement, the Designated CMT Maturity Index will be two years.

Exchangeable Notes

Morgan Stanley may issue Notes that are optionally or mandatorily exchangeable (the **"Exchangeable Notes"**) into:

- (a) the securities of an entity not affiliated with Morgan Stanley;
- (b) a basket of those securities;
- (c) an index or indices of those securities; or
- (d) any combination of the above.

The Exchangeable Notes may or may not bear interest or be issued with original issue discount or at a premium. The general terms of the Exchangeable Notes are as described below. The particular terms of any Exchangeable Notes, including the procedures for exercising any exchange right and for calculating and delivering any securities to be delivered upon exchange, will be set forth in the applicable Pricing Supplement.

Optionally Exchangeable Notes. The holder of an optionally Exchangeable Note (the **"Optionally Exchangeable Notes"**) may, during a period, or at specific times, exchange the Notes for the underlying property at a specified rate of exchange. If specified in the applicable Pricing Supplement, Morgan Stanley will have the option to redeem the Optionally Exchangeable Note prior to maturity. If the holder of an Optionally Exchangeable Note does not elect to exchange the Note prior to maturity or any applicable redemption date, the holder will receive the principal amount of the Note plus any accrued interest at maturity or upon redemption.

Credit-Linked Notes. Morgan Stanley may issue Credit-Linked Notes. The terms of Credit-Linked Notes will be specified in the applicable Pricing Supplement.

Mandatorily Exchangeable Notes. At maturity, the holder of a mandatorily Exchangeable Note (the **"Mandatorily Exchangeable Notes"**) must exchange the Note for the underlying property at a specified rate of exchange, and, therefore, depending upon the value of the underlying property at maturity, the holder of a Mandatorily Exchangeable Note may receive less than the principal amount of the Note at maturity. If so indicated in the applicable Pricing Supplement, the specified rate at which a Mandatorily Exchangeable Note may be exchanged may vary depending on

the value of the underlying property so that, upon exchange, the holder participates in a percentage, which may be less than, equal to, or greater than 100 per cent. of the change in value of the underlying property. Mandatorily Exchangeable Notes may include Notes where Morgan Stanley has the right, but not the obligation, to require holders of Notes to exchange the Notes for the underlying property.

Payments upon Exchange. The applicable Pricing Supplement will specify if upon exchange, at maturity or otherwise, the holder of an Exchangeable Note may receive, at the specified exchange rate, either the underlying property or the cash value of the underlying property. The underlying property may be the securities of either U.S. or foreign entities or both. The Exchangeable Notes may or may not provide for protection against fluctuations in the exchange rate between the currency in which that Note is denominated and the currency or currencies in which the market prices of the underlying security or securities are quoted. Exchangeable Notes may have other terms, which will be specified in the applicable Pricing Supplement. Exchangeable Notes for which a holder may receive the underlying property will not be admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market unless a supplement to the Offering Circular about the underlying property has been approved by the Irish Stock Exchange.

Special Requirements for Exchange of Global Registered Notes. If an Optionally Exchangeable Note is represented by a global registered note that remain on deposit with a common depositary or specified depositary, as the case may be, for the Relevant Clearing System, the beneficial owner must exercise the right to exchange through the Relevant Clearing System. In order to ensure that the Relevant Clearing System will timely exercise a right to exchange a particular Optionally Exchangeable Note or any portion of a particular Optionally Exchangeable Note, the beneficial owner of the Optionally Exchangeable Note must instruct the broker or other direct or indirect participant through which it holds an interest in that Optionally Exchangeable Note to notify the Relevant Clearing System of its desire to exchange in accordance with the then applicable operating procedures of the Relevant Clearing System. Different firms have different deadlines for accepting instructions from their customers. Each beneficial owner should consult the broker or other participant through which it holds an interest in an Optionally Exchangeable Note in order to ascertain the deadline for ensuring that timely notice will be delivered to the Relevant Clearing System.

Payments upon Acceleration of Maturity or upon Tax Redemption. If the principal amount payable at maturity of any Exchangeable Note is declared due and payable prior to maturity as a result of an acceleration or tax redemption, the amount payable will be determined as set forth in the applicable Pricing Supplement.

Credit-Linked Notes, Commodity-Linked Notes and Equity-Linked Notes

Morgan Stanley may issue Notes with the principal amount payable on any principal payment date and/or the amount of interest payable on any Interest Payment Date to be determined by reference to the credit of one or more specified entities not affiliated with Morgan Stanley, to one or more commodity prices, securities of entities not affiliated with Morgan Stanley (as well as, in the case of Series B Notes, securities of an entity that is affiliated with Morgan Stanley), baskets of those securities or indices of those securities. These Notes may include other terms, which will be specified in the applicable Pricing Supplement or a drawdown prospectus, if required.

Currency-Linked Notes

Morgan Stanley may issue Notes with the principal amount payable on any principal payment date, and/or the amount of interest payable on any interest payment date to be determined by reference to the value of one or more currencies as compared to the value of one or more other currencies. The applicable Pricing Supplement will specify the following:

- (a) information as to the one or more currencies to which the principal amount payable on any principal payment date or the amount of interest payable on any interest payment date is linked or indexed;
- (b) the currency in which the face amount of the Currency-Linked Note is denominated (the "**Denominated Currency**");
- (c) the currency in which principal on the Currency-Linked Note will be paid (the "**Payment Currency**");
- (d) the interest rate per annum and the dates on which Morgan Stanley will make interest payments;
- (e) specific historic exchange rate information and any currency risks relating to the specific currencies selected; and

- (f) additional United States federal income tax considerations, if any.

The Denominated Currency and the Payment Currency may be the same currency or different currencies. Interest on Currency-Linked Notes will be paid in the Denominated Currency.

Redemption and Repurchase of Notes

Optional Redemption by Morgan Stanley. The applicable Pricing Supplement will indicate either that the Notes cannot be redeemed prior to maturity, other than as provided under " — *Tax Redemption*" below, or will indicate the terms of Morgan Stanley's option to redeem the Notes subject always to compliance with all applicable laws and regulations and the requirements of each listing authority, stock exchange and/or quotation system (if any) by which the relevant Notes have been admitted to listing, trading and/or quotation. Morgan Stanley will give notice of redemption as described below. The Notes, except for Amortising Notes, will not be subject to any sinking fund.

Notice of Redemption. Notice of redemption shall be given to holders of registered notes designated for redemption in the manner described under "Notices" below, and such notice will be given either not less than 30 nor more than 60 calendar days prior to the date fixed for redemption or within the redemption notice period specified in the Pricing Supplement.

Notice of redemption shall be given to holders of registered notes designated for redemption in the manner described under "Notices" below, and such notice will be given either not less than 30 nor more than 60 calendar days prior to the date fixed for redemption or within the redemption notice period specified in the Pricing Supplement.

Repayment at Option of Holder. If applicable, the applicable Pricing Supplement will indicate that the holder has the option to have Morgan Stanley repay the Notes on a date or dates specified prior to their maturity date. The repayment price will be equal to 100 per cent. of the principal amount of the Notes, together with accrued interest to the date of repayment. For Notes issued with original issue discount, the applicable Pricing Supplement will specify the amount payable upon a repayment.

For Morgan Stanley to repay a Note, the applicable paying agent must receive at least 15 days but not more than 30 days prior to the repayment date, or within the repayment notice period designated in the applicable Pricing Supplement, the Note with the form entitled "Option to Elect Repayment" on the reverse of the Note duly completed, together with any unmatured coupons.

Exercise of the repayment option by the holder of a Note will be irrevocable. The holder may exercise the repayment option for less than the entire principal amount of the Note but, in that event, the principal amount of the Note remaining outstanding after repayment must be an authorised denomination.

Special Requirements for Optional Repayment of Global Registered Notes. If a Note is represented by a global registered note that remains on deposit with a common depositary, or specified depositary, as the case may be, for the Relevant Clearing System, the beneficial owner must exercise the right to have Morgan Stanley repay that Note through the Relevant Clearing System. In order to ensure that the Relevant Clearing System will timely exercise a right to have Morgan Stanley repay a particular Note or any portion of a particular Note, the beneficial owner of the Note must instruct the broker or other direct or indirect participant through which it holds an interest in that Note to notify the Relevant Clearing System of its desire to have Morgan Stanley repay such Note or any portion of such Note in accordance with the then applicable operating procedures of the Relevant Clearing System. Different firms have different deadlines for accepting instructions from their customers. Each beneficial owner should consult the broker or other participant through which it holds an interest in a Note in order to ascertain the deadline for ensuring that timely notice will be delivered to the Relevant Clearing System.

Open Market Purchases by Morgan Stanley. Morgan Stanley may purchase Notes at any price in the open market or otherwise. Notes so purchased by Morgan Stanley may, at the discretion of Morgan Stanley, be held or resold or surrendered to the Trustee for cancellation.

Redenomination

Application. The following is applicable to the Notes only if specified in the applicable Pricing Supplement as being applicable.

Notice of redenomination. If the country of the Specified Currency becomes or, announces its intention to become, a Member State of the European Union which adopts the euro as its lawful currency in accordance with the Treaty (a "**Participating Member State**"), Morgan Stanley may, without the consent of the Noteholders, on giving at least 30 days' prior notice to the Noteholders and the paying agents, designate a date (the "**Redenomination Date**"), being an Interest Payment Date under the Notes falling on or after the date on which such country becomes a Participating Member State.

Redenomination. From the Redenomination Date:

- (a) the Notes shall be deemed to be redenominated into euro in the denomination of euro 0.01 with a principal amount for each Note equal to the principal amount of that Note in the specified currency, converted into euro at the rate for conversion of such currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Union regulations); provided, however, that, if Morgan Stanley determines that the then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from that specified above, such provisions shall be deemed to be amended so as to comply with such market practice and Morgan Stanley shall promptly notify the Noteholders, each listing authority, stock exchange and/or quotation system (if any) by which the Notes have been admitted to listing, trading and/or quotation and the paying agents of such deemed amendments; and
- (b) all payments in respect of the Notes (other than, unless the redenomination date is on or after such date as the Specified Currency ceases to be a sub division of the euro, payments of interest in respect of periods commencing before the Redenomination Date) will be made solely in euro by check drawn on, or by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) maintained by the payee with, a bank in the principal financial center of any Member State of the European Union.

Redenomination. Following redenomination of the Notes where Notes have been issued in definitive form, the amount of interest due in respect of such Notes will be calculated by reference to the aggregate principal amount of the Notes presented for payment by the relevant holder.

Interest Determination Date. If the Note is a Floating Rate Note, with effect from the redenomination date the Interest Determination Date shall be deemed to be the second TARGET Settlement Day before the first day of the relevant Interest Period.

Tax Redemption

All Notes. Notes may be redeemed as a whole (but not in part), at the option of Morgan Stanley at any time prior to maturity, upon the giving of a notice of redemption as described below if Morgan Stanley determines that, as a result of:

- (a) any change in or amendment to the laws, (including a holding, judgment or order by a court of competent jurisdiction), or any regulations or rulings promulgated under the laws, of the United States or of any political subdivision or taxing authority of or in the United States affecting taxation, or
- (b) any change in official position regarding the application or interpretation of the laws, regulations or rulings referred to above,

which change or amendment becomes effective on or after the date of the applicable Pricing Supplement in connection with the issuance of the Notes or any other date specified in the applicable Pricing Supplement, Morgan Stanley is or will become obligated to pay Additional Amounts with respect to the Notes, as described below under " — *Payment of Additional Amounts*". The redemption price will be equal to 100 per cent. of the principal amount of the Notes, except as otherwise specified in the applicable Pricing Supplement or unless the Note is an Original Issue Discount Note or an Exchangeable Note, together with accrued interest to the date fixed for redemption. See "*Description of New York Law Notes — Interest and Principal Payments—Original Issue Par Notes*" and "*Exchangeable Notes—Payments upon Acceleration of Maturity or upon Tax Redemption*" above for information on Original Issue Par Notes and Exchangeable Notes. Morgan Stanley will give notice of any tax redemption.

Prior to giving notice of tax redemption, Morgan Stanley will deliver to the Trustee, with a copy to the Principal Paying Agent:

- (a) a certificate stating that Morgan Stanley is entitled to effect the redemption and setting forth a statement of facts showing that the conditions precedent to the right of Morgan Stanley to so redeem have occurred (the date on which that certificate is delivered to the Trustee is the "**Redemption Determination Date**"); and
- (b) an opinion of independent legal counsel of recognised standing to that effect based on the statement of facts.

Notice of redemption will be given not less than 30 nor more than 60 days prior to the date fixed for redemption. The date and the applicable redemption price will be specified in the notice, which will be given in accordance with " — Notices" below.

Payment of Additional Amounts

Additional Amounts. If specified in the applicable Pricing Supplement, Morgan Stanley will, subject to certain exceptions and limitations set forth below, pay those additional amounts (the "**Additional Amounts**") to Noteholders who are U.S. Aliens as may be necessary in order that every net payment of the principal of and interest on the Note and any other amounts payable on the Note after withholding for or on account of any present or future tax, assessment or governmental charge imposed upon or as a result of that payment by the United States or any political subdivision or taxing authority thereof or therein, will not be less than the amount provided for in the Note to be then due and payable under the Notes.

Morgan Stanley will not, however, be required to make any payment of Additional Amounts to any Noteholder for or on account of:

- (a) any present or future tax, assessment or other governmental charge that would not have been so imposed but for:
 - (i) the existence of any present or former connection between the holder or beneficial owner, or between a fiduciary, settlor, beneficiary, member or shareholder of the holder or beneficial owner, if the holder or beneficial owner is an estate, a trust, a partnership or a corporation, and the United States and its possessions, including, without limitation, the holder or beneficial owner, or such fiduciary, settlor, beneficiary, member or shareholder, being or having been a citizen or resident of the United States or being or having been engaged in the conduct of a trade or business or present in the United States or having, or having had, a permanent establishment in the United States; or
 - (ii) the presentation by the Noteholder for payment on a date more than 15 days after the date on which payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later;
- (b) any estate, inheritance, gift, sales, transfer, capital gains, corporation, income or personal property tax or any similar tax, assessment or governmental charge;
- (c) any tax, assessment or other governmental charge imposed by reason of the holder's or beneficial owner's past or present status as a personal holding company or controlled foreign corporation or passive foreign investment company with respect to the United States or as a corporation that accumulates earnings to avoid U.S. federal income tax or as a private foundation or other tax exempt organisation;
- (d) any tax, assessment or other governmental charge that is payable otherwise than by withholding from payments on or in respect of any Note;
- (e) any tax, assessment or other governmental charge that would not have been imposed but for the failure to comply with certification, information or other reporting requirements concerning the nationality, residence or identity of the holder or beneficial owner of that Note, if compliance is required by statute or by regulation of the United States or of any political subdivision or taxing authority thereof or therein as a precondition to relief or exemption from the tax, assessment or other governmental charge;
- (f) any withholding tax imposed under Sections 1471 through 1474 of the Code, any applicable U.S. Treasury regulations promulgated thereunder or published administrative guidance implementing such sections and any analogous provisions of non-U.S. laws (including withholding resulting from any inter-governmental agreement or an individual agreement with a taxing authority in connection with such sections of the Code, regulations, guidance or laws);

- (g) any tax, assessment or other governmental charge imposed by reason of Section 871(m) of the Code, and any applicable U.S. Treasury regulations promulgated thereunder or published administrative guidance implementing such section;
- (h) any tax, assessment or other governmental charge imposed by reason the holder's or beneficial owner's past or present status as the actual or constructive owner of 10 per cent. or more of the total combined voting power of all classes of stock entitled to vote of Morgan Stanley or as a direct or indirect subsidiary of Morgan Stanley; or
- (i) any combination of the items listed above.

In addition, Morgan Stanley will not be required to make any payment of Additional Amounts with respect to any Note presented for payment:

- (a) where such withholding or deduction is required to be made pursuant to the European Union Directive on the taxation of savings or any other directive implementing the conclusions of the ECOFIN Council meeting of 26–27 November 2000 or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (b) by or on behalf of a holder or beneficial owner who would have been able to avoid such withholding or deduction by presenting the relevant Note to another paying agent in a Member State of the European Union.

Nor will Additional Amounts be paid with respect to any payment on a Note to a U.S. Alien who is a fiduciary or partnership or other than the sole beneficial owner of that payment to the extent that payment would be required by the laws of the United States (or any political subdivision thereof) to be included in the income, for tax purposes, of a beneficiary or settlor with respect to the fiduciary or a member of that partnership or a beneficial owner who would not have been entitled to the Additional Amounts had that beneficiary, settlor, member or beneficial owner been the Noteholder.

The term "**U.S. Alien**" means any person who, for U.S. federal income tax purposes, is a foreign corporation, a nonresident alien individual, a nonresident alien fiduciary of a foreign estate or trust, or a foreign partnership one or more of the members of which is a foreign corporation, a nonresident alien individual or a nonresident alien fiduciary of a foreign estate or trust.

Replacement of Notes

Any Notes that become mutilated, destroyed, lost or stolen or are apparently destroyed, lost or stolen will be replaced by Morgan Stanley at the expense of the holder upon delivery of those Notes or coupons or satisfactory evidence of the destruction, loss or theft thereof to Morgan Stanley, the Principal Paying Agent or any other paying agent and the Trustee. In each case, an indemnity satisfactory to Morgan Stanley, the Principal Paying Agent or any other paying agent and the Trustee may be required at the expense of the holder of that Note before a replacement Note will be issued.

Notices

Except as provided in the next sentence, Morgan Stanley will send notices to the holders of the registered notes at each such holder's address as that address appears in the register for the notes by first class mail, postage prepaid. Morgan Stanley may give notice to the beneficial owners of registered notes held only in global form through the customary notice procedures of the Relevant Clearing System in which case Morgan Stanley will not mail the notice. Those notices will be deemed to have been given on the date of such mailing (or other transmission as applicable).

Governing Law

The New York Law Notes and the Indenture will be governed by the laws of the State of New York.

Indenture

References in parentheses below are to sections in the Indenture. Wherever particular sections or defined terms of the Indenture are referred to, those sections or defined terms of the Indenture that are incorporated herein by reference as

Covenants Restricting Mergers and Other Significant Actions

Merger, Consolidation, Sale, Lease or Conveyance. The Indenture provides that Morgan Stanley will not merge or consolidate with any other person and will not sell, lease or convey all or substantially all of its assets to any person, unless:

- (a) Morgan Stanley will be the continuing corporation; or
- (b) the successor corporation or person that acquires all or substantially all of its assets:
 - (i) if a successor to Morgan Stanley, will be a corporation organised under the laws of the United States, a state of the United States or the District of Columbia;
 - (ii) will expressly assume all of the obligations of Morgan Stanley under the Indenture and the Notes issued under the Indenture; and
 - (iii) immediately after the merger, consolidation, sale, lease or conveyance, Morgan Stanley, that person or that successor corporation will not be in default in the performance of the covenants and conditions of the Indenture applicable to Morgan Stanley. (Section 9.01)

Absence of Protections Against All Potential Actions of Morgan Stanley. There are no covenants or other provisions in the Indenture that would afford Noteholders additional protection in the event of a recapitalisation transaction, a change of control of Morgan Stanley or a highly leveraged transaction. The merger covenant described above would only apply if the recapitalisation transaction, change of control or highly leveraged transaction were structured to include a merger or consolidation of Morgan Stanley or a sale, lease or conveyance of all or substantially all of the assets of Morgan Stanley. However, Morgan Stanley may provide specific protections, such as a put right or increased interest, for particular Notes, which Morgan Stanley would describe in the applicable Pricing Supplement.

Events of Default

The Indenture provides Noteholders with certain remedies if Morgan Stanley fails to perform specific obligations, such as making payments on the Notes or other indebtedness, or if Morgan Stanley becomes bankrupt. Holders should review these provisions and understand which of Morgan Stanley's actions trigger an Event of Default and which actions do not. The Indenture provisions permit the issuance of Notes in one or more series, and, in many cases, whether an Event of Default has occurred is determined on a series by series basis.

An Event of Default is defined under the Indenture, with respect to any series of Notes issued under the Indenture, as being:

- (a) default in payment for seven days of any principal, premium of the Notes of that series, either at maturity or upon any redemption, by declaration or otherwise;
- (b) default for 30 days in payment of any interest and/or supplemental amount payable in accordance with the terms of the Notes of that series;
- (c) default in the observance or performance of any other covenant of Morgan Stanley or agreement in the Notes of that series or the Indenture other than a covenant included solely for the benefit of a different series of Notes and continuance of that default for a period of 60 days after written notice thereof to Morgan Stanley by the Trustee, or to Morgan Stanley and the Trustee by the holders of not less than 25 per cent. in principal amount of the outstanding Notes affected thereby; and
- (d) events of bankruptcy, insolvency or reorganisation.

Acceleration of Notes upon Event of Default. The Indenture provides that:

- (a) if an Event of Default due to the default in payment of principal of, or any premium or interest on or supplemental amount due with respect to, any series of Notes issued under the Indenture, or due to the default in the performance or breach of any other covenant or warranty of Morgan Stanley applicable to the Notes of that series but not applicable to all outstanding Notes issued under that Indenture occurs and is continuing,

Notes of each affected series issued under the Indenture (treated as one class) by notice in writing to Morgan Stanley may declare the principal of all Notes of each affected series and interest accrued thereon to be due and payable immediately; and

- (b) if an Event of Default due to a default in the performance of any other covenants or agreements in the Indenture applicable to all outstanding Notes issued under the Indenture or due to certain events of bankruptcy, insolvency or reorganisation of Morgan Stanley will have occurred and be continuing, either the Trustee or the holders of not less than 25 per cent. in aggregate principal amount of all outstanding Notes issued under the Indenture (treated as one class) may declare the principal of all those Notes and interest accrued thereon to be due and payable immediately. (Section 5.01)

Annulment of Acceleration and Waiver of Defaults. In some circumstances, if any and all Events of Default under the Indenture, other than the non-payment of the principal of the Notes that has become due as a result of an acceleration, have been cured, waived or otherwise remedied, then the holders of a majority in principal amount of all series of outstanding Notes affected (voting as one class) may annul past declarations of acceleration of or waive past defaults of the Notes. However, any continuing default in payment of principal of or any premium or interest on those Notes may not be waived. (Sections 5.01 and 5.10)

Indemnification of Trustee for Certain Actions. The Indenture contains a provision entitling the Trustee, subject to the duty of the Trustee during a default to act with the required standard of care, to be indemnified by the Noteholders issued under the Indenture before proceeding to exercise any right or power under the Indenture at the request of such holders. (Section 6.02) Subject to these provisions and some other limitations, the holders of a majority in principal amount of each series of outstanding Notes of each affected series, voting as one class, issued under the Indenture may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee. (Section 5.09)

In connection with the exercise of its powers, trusts, authorities or discretions, the Trustee shall have regard to the interests of the holders of the relevant series of Notes affected or of all outstanding Notes affected, as the case may be, as a class. In particular, but without limitation, the Trustee shall not have regard to the consequences of such exercise for individual holders of the relevant series of Notes affected or of all outstanding Notes affected, as the case may be, resulting from such individual holders being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory. The Trustee shall not be entitled to require, nor shall any holder of the relevant series of Notes affected or of all outstanding Notes affected (as the case may be) be entitled to claim, from Morgan Stanley any indemnification or payment in respect of any tax consequence of any such exercise upon individual holders of the relevant series of Notes affected or of all outstanding Notes affected, as the case may be. (Sections 5.06 and 5.09)

Limitation on Actions by an Individual Holder. The Indenture provides that no individual holder of Notes issued under the Indenture may institute any action against Morgan Stanley under the Indenture, except actions for payment of overdue principal and interest, unless each of the following actions have occurred:

- (a) the holder must have previously given written notice to the Trustee of the continuing default;
- (b) the holders of not less than 25 per cent. in aggregate principal amount of each affected series of the outstanding Notes treated as one class, must have (i) requested the Trustee to institute that action and (ii) offered the Trustee reasonable indemnity;
- (c) the Trustee must have failed to institute that action within 60 days of the request referred to above; and
- (d) the holders of a majority in principal amount of the outstanding Notes of each affected series, treated as one class, must not have given directions to the Trustee inconsistent with those of the holders referred to above. (Sections 5.06 and 5.09)

Annual Certification. The Indenture contains a covenant that Morgan Stanley will file annually with the Trustee a certificate of no default or a certificate specifying any default that exists. (Section 3.05)

Discharge, Defeasance and Covenant Defeasance

Morgan Stanley has the ability to eliminate most or all of its obligations on any series of Notes prior to maturity if it complies with the following provisions. (Section 10.01)

Discharge of Indenture. Morgan Stanley may discharge all of the obligations, other than as to transfers and exchanges, in the Indenture after Morgan Stanley has:

- (a) paid or caused to be paid the principal and interest on all of the outstanding Notes in accordance with their terms;
- (b) delivered to the Trustee for cancellation all of the outstanding Notes; or
- (c) irrevocably deposited with the Trustee cash or U.S. government obligations in trust for the benefit of the holders of any series of Notes issued under the Indenture that have either become due and payable, or are by their terms due and payable, or are scheduled for redemption, within one year, in an amount certified to be sufficient to pay on each date that they become due and payable, the principal of and interest on, and any mandatory sinking fund payments for, those Notes, except that the deposit of cash or U.S. government obligations for the benefit of holders of a series of Notes that are due and payable, or are scheduled for redemption, within one year will discharge obligations under the Indenture relating only to that series of Notes.

Defeasance of Notes at Any Time. Morgan Stanley may also discharge all obligations, other than as to transfers and exchanges, under any series of Notes at any time ("**defeasance**"). However, Morgan Stanley may not, by defeasance, avoid any duty to register the transfer or exchange that series of Notes, to replace any mutilated, defaced, destroyed, lost, or stolen Notes of that series or to maintain an office or agency in respect of that series of Notes.

Morgan Stanley may be released with respect to any outstanding series of Notes from the obligations imposed by Sections 3.06 and 9.01, which Sections contain the covenants described above limiting liens and consolidations, mergers, asset sales and leases, and elect not to comply with those Sections without creating an Event of Default. Discharge under those procedures is called "**covenant defeasance**".

Defeasance or covenant defeasance may be effected only if, among other things:

- (a) Morgan Stanley irrevocably deposits with the Trustee cash or, in the case of Notes payable only in U.S. dollars, U.S. government obligations, as trust funds in an amount certified to be sufficient to pay on each date that they become due and payable, the principal of and interest on, and any mandatory sinking fund payments for, all outstanding Notes of the series being defeased; and
- (b) Morgan Stanley delivers to the Trustee an opinion of counsel to the effect that:
 - (i) the holders of the series of Notes being defeased will not recognise income, gain or loss for United States federal income tax purposes as a result of the defeasance or covenant defeasance; and
 - (ii) the defeasance or covenant defeasance will not otherwise alter those holders' United States federal income tax treatment of principal and interest payments on the series of Notes being defeased.

In the case of a defeasance, this opinion must be based on a ruling of the Internal Revenue Service or a change in United States federal income tax law occurring after the date of this Offering Circular, since such a result would not occur under current tax law.

Substitution for Morgan Stanley

Subject to such amendment of the Indenture and such other conditions as Morgan Stanley may agree with the Trustee, but without the consent of the Noteholders or any series or the holders of the coupons appertaining thereto (if any), Morgan Stanley may, subject to such Notes and the coupons appertaining thereto being unconditionally and irrevocably guaranteed by Morgan Stanley, substitute a subsidiary of Morgan Stanley in place of Morgan Stanley as principal debtor under such Notes and the coupons appertaining thereto (if any) and the Indenture. (Sections 8.01 and 13.01)

Any Notes issued by a substitute issuer will be fully and unconditionally guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts (as defined above) on those Notes when and as the same will become due and payable, whether at maturity or otherwise. See "*Description of New York Law Notes—Payment of Additional Amounts*". Under the terms

of the guarantee, Noteholders will not be required to exercise their remedies against the substitute issuer prior to proceeding directly against Morgan Stanley. (Section 13.01)

Modification of the Indenture

Modification Without Consent of Holders. Morgan Stanley and the Trustee may enter into supplemental indentures without the consent of the Noteholders to:

- (a) secure any Notes;
- (b) evidence the assumption by a successor corporation of the obligations of Morgan Stanley;
- (c) evidence the assumption of a substitute issuer, in accordance with the provision described under "*Substitution for Morgan Stanley*" above;
- (d) add covenants for the protection of the Noteholders;
- (e) cure any ambiguity or correct any inconsistency;
- (f) establish the forms or terms of Notes of any series; and
- (g) evidence the acceptance of appointment by a successor Trustee. (Section 8.01)

Modification with Consent of Holders. Morgan Stanley and the Trustee may, with the consent of the holders of not less than a majority in aggregate principal amount of each affected series of outstanding Notes (voting as one class), add any provisions to, or change in any manner or eliminate any of the provisions of, the Indenture or modify in any manner the rights of the holders of those Notes. However, none of the following changes may be made to any outstanding Note without the consent of each holder that would be affected by such change:

- (a) extend the final maturity of the principal;
- (b) reduce the principal amount;
- (c) reduce the rate or extend the time of payment of interest;
- (d) reduce any amount payable on redemption;
- (e) change the currency in which the principal, including any amount of original issue discount, premium, or interest thereon is payable;
- (f) modify or amend the provisions for conversion of any currency into another currency;
- (g) reduce the amount of any original issue discount security payable upon acceleration or provable in bankruptcy;
- (h) alter the terms on which Noteholders may convert or exchange Notes for stock or other securities of Morgan Stanley or of other entities or for other property or the cash value of the property, other than in accordance with the antidilution provisions or other similar adjustment provisions included in the terms of the Notes;
- (i) alter the terms by which any supplemental amounts are determined, other than in accordance with the antidilution provisions or other similar adjustment provisions included in the terms of the Notes;
- (j) impair the right to institute suit for the enforcement of any payment on any debt security when due; or
- (k) reduce the percentage of Notes the consent of whose owners is required for modification of the Indenture.

TERMS AND CONDITIONS OF THE ENGLISH LAW NOTES

The following is the text of the terms and conditions which, as supplemented, modified and/or replaced by the applicable Pricing Supplement, will be endorsed on each Note issued in individual registered form issued under the Program specified as being governed by English law. The terms and conditions applicable to any Note issued in the registered form will differ from those terms and conditions which would apply to the Note were it in individual registered form to the extent described under "Summary of Provisions relating to the English Law Notes while in Global Form" below.

1. INTRODUCTION

- 1.1 *Program:* Morgan Stanley ("**Morgan Stanley**") and Morgan Stanley Finance LLC ("**MSFL**") have established a Program (the "**Program**") for the issuance of up to U.S.\$55,000,000,000 in aggregate principal amount, *inter alia*, of notes which are expressed to be governed by English law (the "**Notes**" or the "**English Law Notes**").

References to the "**Issuer**" in these terms and conditions shall mean (i) if the Notes to which these terms and conditions apply are issued by Morgan Stanley, Morgan Stanley or (ii) if the Notes to which these terms and conditions apply are issued by MSFL, MSFL.

The payment obligations of MSFL in respect of Notes issued by MSFL under the Program and which are issued under the Issue and Paying Agency Agreement (as defined below) are (unless otherwise specified in the applicable Pricing Supplement) guaranteed by Morgan Stanley (in its capacity as guarantor (the "**Guarantor**")) under the terms of a guarantee dated as of 10 May 2016 (as supplemented and/or amended and/or restated and/or replaced from time to time the "**Guarantee**").

- 1.2 *Pricing Supplement:* Notes issued under the Program which are Relevant Securities are issued in series (each a "**Series**") and each Series may comprise one or more tranches (each a "**Tranche**") of Notes. Each Tranche is the subject of a Pricing Supplement (each, a "**Pricing Supplement**") which supplement, modify and/or replace these terms and conditions (the "**Conditions**"). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as supplemented by the applicable Pricing Supplement. In the event of any inconsistency between these Conditions and the applicable Pricing Supplement, the applicable Pricing Supplement shall prevail.
- 1.3 *Issue and Paying Agency Agreement:* The Notes are the subject of an issue and paying agency agreement dated 30 November 2000 (such issue and paying agency agreement as modified and restated on 4 December 2001, 14 June 2005, 11 July 2006, 22 June 2007, 19 June 2008, 17 June 2009, 15 June 2010, 11 May 2011, 10 June 2011, 7 June 2012, 27 June 2013, 18 August 2014 and 17 August 2015 and as from time to time further modified and/or restated and/or replaced, the "**Issue and Paying Agency Agreement**") between Morgan Stanley, Morgan Stanley & Co. A certificate (each, an "**Individual Note Certificate**") will be issued to each holder of Registered Notes in respect of its registered holding. Each Individual Note Certificate will be numbered serially with an identifying number which will be recorded in the Register. A "holder" means, in the case of Registered Notes, the person in whose name such Registered Note is for the time being registered in the Register (or, in the case of a joint holding, the first named thereof) and "Noteholder" shall be construed accordingly.

3.3 *Ownership:* The holder of any Registered Note shall (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or on the Individual Note Certificate relating thereto (other than the endorsed form of transfer) or any notice of any previous loss or theft thereof) and no Person shall be liable for so treating such holder.

- (a) *Transfers:* Subject to Conditions 3.3(d) (*Closed Periods*) and 3.3(e) (*Regulations concerning transfers and registration*) below, a Registered Note may be transferred upon surrender of the relevant Individual Note Certificate, with the endorsed form of transfer duly completed, at the Specified Office of the Registrar or any Transfer Agent, together with such evidence as the Registrar or (as the case may be) such Transfer Agent may reasonably require to prove the title of the transferor and the authority of the individuals who have executed the form of transfer; provided,

Note transferred and (where not all of the Registered Notes held by a holder are being transferred) the principal amount of the balance of Registered Notes not transferred are Specified Denominations. Where not all the Registered Notes represented by the surrendered Individual Note Certificate are the subject of the transfer, a new Individual Note Certificate in respect of the balance of the Registered Notes will be issued to the transferor.

- (b) *Registration and Delivery:* Within five business days of the surrender of an Individual Note Certificate in accordance with Condition 3.3(a) (*Transfers*) above, the Registrar will register the transfer in question and deliver a new Individual Note Certificate of a like principal amount to the Registered Notes transferred to each relevant holder at its Specified Office or (as the case may be) the Specified Office of any Transfer Agent or (at the request and risk of any such relevant holder) by uninsured first class mail (airmail if overseas) to the address specified for the purpose by such relevant holder. In this Condition 3.3(b), "**business day**" means a day on which commercial banks are open for general business (including dealings in foreign currencies) in the city where the Registrar or (as the case may be) the relevant Transfer Agent has its Specified Office.
- (c) *No charge:* The transfer of a Registered Note will be effected without charge by or on behalf of the Issuer or the Registrar or any Transfer Agent but against such indemnity as the Registrar or (as the case may be) such Transfer Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such transfer.
- (d) *Closed Periods:* Holders of Registered Notes may not require transfers to be registered during the period of 15 days ending on the due date for any payment of principal or interest in respect of the Registered Notes.
- (e) *Regulations concerning transfers and registration:* All transfers of Registered Notes and entries on the Register are subject to the detailed regulations concerning the transfer of Registered Notes scheduled to the Issue and Paying Agency Agreement. The regulations may be changed by the Issuer with the prior written approval of the Registrar. A copy of the current regulations will be mailed (free of charge) by the Registrar to any holder of Registered Notes who requests in writing a copy of such regulations. The relevant Issuer shall have the right to refuse to honor the transfer of any Notes to a person who is a U.S. Person (as defined in Regulation S) or is in the United States.

4. STATUS

- 4.1 *Status of the Notes:* The Notes constitute direct and general obligations of the Issuer which rank *pari passu* among themselves.
- 4.2 *Status of Guarantee:* The Guarantor's obligations in respect of the Notes issued by MSFL (other than Notes the Pricing Supplement relating to which specifies that such Notes are not guaranteed by Morgan Stanley) constitute direct, unconditional and unsecured obligations of the Guarantor which rank without preference among themselves and *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights.

5. FIXED RATE NOTE PROVISIONS

- 5.1 *Application:* This Condition 5 (*Fixed Rate Note Provisions*) is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the applicable Pricing Supplement as being applicable.
- 5.2 *Accrual of interest:* The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 22 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon such due date, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

- 5.3 *Fixed Coupon Amount:* The amount of interest payable in respect of each Note for any Interest Period which is a Regular Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination, provided that if a Broken Amount is specified in the applicable Pricing Supplement in respect of an Interest Payment Date in respect of each Calculation Amount, the Interest Amount payable on such Interest Payment Date in respect of such Note per Calculation Amount shall be the Broken Amount.
- 5.4 *Regular Interest Periods:* If all of the Interest Payment Dates fall at regular intervals between the Issue Date and the Maturity Date, then:
- (a) the Notes shall for the purposes of this Condition 5 (*Fixed Rate Note Provisions*) be "**Regular Interest Period Notes**";
 - (b) the day and month (but not the year) on which any Interest Payment Date falls shall, for the purposes of this Condition 5 (*Fixed Rate Note Provisions*), be a "**Regular Date**"; and
 - (c) each period from and including a Regular Date falling in any year to but excluding the next succeeding Regular Date shall, for the purposes of this Condition 5 (*Fixed Rate Note Provisions*), be a "**Regular Period**".
- 5.5 *Irregular first or last Interest Periods:* If the Notes would be Regular Interest Period Notes but for the fact that either or both of:
- (a) the interval between the Issue Date and the first Interest Payment Date; and
 - (b) the interval between the Maturity Date and the immediately preceding Interest Payment Date
- is longer or shorter than a Regular Period, then the Notes shall nevertheless be deemed to be Regular Interest Period Notes, provided, however, that if the interval between the Maturity Date and the immediately preceding Interest Payment Date is longer or shorter than a Regular Period, the day and month on which the Maturity Date falls shall not be a "**Regular Date**".
- 5.6 *Irregular Interest Amount:* If the Notes are Regular Interest Period Notes, the amount of interest payable in respect of each Note for any period which is not a Regular Period shall be an amount per Calculation Amount calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub unit of the Specified Currency (half a sub unit being rounded upwards). For this purpose a "sub unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- 5.7 *Irregular Interest Periods:* If the Notes are not Regular Interest Period Notes and interest is required to be calculated for any period other than an Interest Period, interest shall be calculated on such basis as is described in the applicable Pricing Supplement.
6. **FLOATING RATE NOTE, EQUITY-LINKED, COMMODITY-LINKED, CURRENCY-LINKED, INFLATION-LINKED, PROPERTY-LINKED AND FUND-LINKED INTEREST NOTE PROVISIONS**
- 6.1 *Application:* This Condition 6 (*Floating Rate Note, Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Property-Linked and Fund-Linked Interest Note Provisions*) is applicable to the Notes only if one or more of the Floating Rate Note Provisions or the Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Property-Linked or Fund-Linked Interest Provisions are specified in the applicable Pricing Supplement as being applicable.
- 6.2 *Accrual of interest:* The Floating Rate Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 22 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon such due date, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (*Floating Rate Note, Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Property-Linked and Fund-Linked Interest Note Provisions*) (as well as after

as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment). The Rate of Interest in respect of all or any Interest Periods shall, if so specified in the applicable Pricing Supplement, be zero.

6.3 *Screen Rate Determination:* If Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Determination Agent on the following basis:

- (a) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (b) in any other case, the Determination Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (c) if, in the case of Condition 6.3(a) (*Screen Rate Determination*) above, such rate does not appear on that page or, in the case of Condition 6.3(b) (*Screen Rate Determination*) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Determination Agent will:
 - (i) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (ii) determine the arithmetic mean of such quotations; and
- (d) if fewer than two such quotations are provided as requested, the Determination Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Determination Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Determination Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined, provided, however, that if the Determination Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate (or as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

6.4 *ISDA Determination:* If ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Determination Agent under an interest rate swap transaction if the Determination Agent were acting as Determination Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the applicable Pricing Supplement;

- (b) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the applicable Pricing Supplement; and
 - (c) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter bank offered rate (LIBOR) for a currency, the first day of that Interest Period or (B) in any other case, as specified in the applicable Pricing Supplement.
- 6.5 *Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Property-Linked and Fund-Linked Interest Note Provisions:* If one or more of the Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Property-Linked or Fund-Linked Interest Provisions are specified in the applicable Pricing Supplement as being applicable, the interest payable in respect of the Notes for each Interest Period will be determined in the manner specified in the applicable Pricing Supplement.
- 6.6 *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the applicable Pricing Supplement, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- 6.7 *Calculation of Interest Amount:* In respect of Floating Rate Notes, the Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Floating Rate Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- 6.8 *Calculation of other amounts:* If the applicable Pricing Supplement specifies that any other amount is to be calculated by the Determination Agent, the Determination Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Determination Agent in the manner specified in the applicable Pricing Supplement.
- 6.9 *Publication:* The Determination Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Determination Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Determination Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- 6.10 *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 6 (Floating Rate Note, Equity-Linked, Commodity-Linked, Currency-Linked, Inflation-Linked, Property-Linked and Fund-Linked Interest Note Provisions) by the Determination Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders (subject as aforesaid) no liability to any such Person will attach to the Determination Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

7. ZERO COUPON NOTE PROVISIONS

- 7.1 *Application:* This Condition 7 (Zero Coupon Note Provisions) is applicable to the Notes only if the "Zero Coupon Note Provisions" are specified in the applicable Pricing Supplement as being applicable.
- 7.2 *Late payment on Zero Coupon Notes:*

If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount in respect of each Note shall thereafter be an amount equal to the product of (a) the Calculation Amount of such Note and (b) the percentage produced by the following formula:

$$\text{Reference Price} \times (1 + \text{Accrual Yield})^n$$

where "n" means the number of years from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment) and the calculation shall be made on the basis of such Day Count Fraction as may be specified in the applicable Pricing Supplement or, if none is so specified, a Day Count Fraction of 30/360.

8. DUAL CURRENCY-LINKED NOTE PROVISIONS

8.1 *Application:* This Condition 8 (*Dual Currency-Linked Note Provisions*) is applicable to the Notes only if the "Dual Currency Redemption Provisions" and/or "Dual Currency-Linked Note Interest Provisions" are specified in the applicable Pricing Supplement as being applicable.

8.2 *Rate of Interest:* If the rate or amount of interest fails to be determined by reference to an exchange rate, the rate or amount of interest payable shall be determined in the manner specified in the applicable Pricing Supplement.

9. EQUITY-LINKED, COMMODITY-LINKED, CURRENCY-LINKED, INFLATION-LINKED, CREDIT-LINKED, PROPERTY-LINKED AND FUND-LINKED NOTES

Morgan Stanley and MSFL may issue Notes:

- (a) the payment of principal of which and/or interest on which are linked to the shares of an entity or a basket of shares of entities not affiliated with the Issuer and/or to a single index or indices of shares and/or interests in a single exchange traded fund or basket of exchange traded funds (respectively, "Single Share Notes", "Share Basket Notes", "Single Index Notes", "Index Basket Notes", "Single ETF Notes" and "ETF Basket Notes", and together, "Equity-Linked Notes");
- (b) the payment of principal of which and/or interest on which are to be determined by reference to one or more commodity prices ("Commodity-Linked Notes");

in each case, in accordance with the Conditions herein which are specified as applicable to Equity-Linked Notes, Commodity-Linked Notes, Currency-Linked Notes, Inflation-Linked Notes, Credit-Linked Notes,

Property-Linked Notes or Fund-Linked Notes, as the case may be, and the detailed terms and conditions set out in the applicable Pricing Supplement.

10. PROVISIONS RELATING TO EQUITY-LINKED NOTES

This Condition 10 (*Provisions relating to Equity-Linked Notes*) is applicable only in relation to Notes specified in the applicable Pricing Supplement as being Single Share Notes, Share Basket Notes, Single Index Notes, Index Basket Notes, Single ETF Notes or ETF Basket Notes.

10.1 *Valuation, Market Disruption and Averaging Dates:*

- (a) **"Valuation Date"** means each date specified as such in the applicable Pricing Supplement or, each date specified as an Observation Date, Strike Date, Averaging Date or a Determination Date in the applicable Pricing Supplement (or, if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day), subject to the provisions of Condition 10.1 (c). If any Valuation Date is a Disrupted Day, then:
- (i) in the case of a Single Index Note, Single Share Note or Single ETF Note, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date (and, as the case may be, the relevant Observation Date or Determination Date) is a Disrupted Day. In that case, (1) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (2) the Determination Agent shall determine in its sole and absolute discretion:
 - (A) in respect of a Single Index Note, the level of the Index as of the Determination Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Determination Time on that eighth Scheduled Trading Day of each security or other property comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Determination Time on that eighth Scheduled Trading Day); and
 - (B) in respect of a Single Share Note or a Single ETF Note, its good faith estimate of the value for the Underlying Share or the ETF Interest (as the case may be) as of the Determination Time on that eighth Scheduled Trading Day;
 - (ii) in the case of an Index Basket Note, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Index. In that case, (1) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Index, notwithstanding the fact that such day is a Disrupted Day, and (2) the Determination Agent shall determine, in its sole and absolute discretion, the level of that Index as of the Determination Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Determination Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Determination Time on that eighth Scheduled Trading Day); and
 - (iii) in the case of a Share Basket Note and an ETF Basket Note, the Valuation Date for each Underlying Share or ETF Interest (as the case may be) not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and for each Underlying Share or ETF Interest (as the case may be) affected by the occurrence of a Disrupted Day shall be

Underlying Share or ETF Interest (as the case may be), unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Underlying Share or ETF Interest (as the case may be). In that case, (1) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Underlying Share or ETF Interest (as the case may be), notwithstanding the fact that such day is a Disrupted Day, and (2) the Determination Agent shall determine, in its sole and absolute discretion, its good faith estimate of the value for that Underlying Share or ETF Interest (as the case may be) as of the Determination Time on that eighth Scheduled Trading Day;

- (b) For the purposes hereof:

"Scheduled Valuation Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date.

- (c) If Averaging Dates are specified in the applicable Pricing Supplement as being applicable, then, notwithstanding any other provisions of these Conditions, the following provisions will apply to the valuation of the relevant Index, Underlying Share, ETF Interest, Basket of Indices, Basket of Shares or Basket of ETF Interests in relation to a Valuation Date:

- (i) **"Averaging Date"** means, in respect of each Valuation Date, each date specified or otherwise determined as provided in the applicable Pricing Supplement (or, if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day).

- (ii) For purposes of determining the Settlement Price in relation to a Valuation Date, the Settlement Price will be:

(A) in respect of a Single Index Note, a Single Share Note, a Single ETF Note, the arithmetic mean of the Relevant Prices of the Index, the Underlying Shares or the ETF Interest (as the case may be) on each Averaging Date;

(B) in respect of an Index Basket Note, the arithmetic mean of the amounts for the Basket of Indices determined by the Determination Agent in its sole and absolute discretion as provided in the applicable Pricing Supplement as of the relevant Determination Time(s) on each Averaging Date or, if no means for determining the Settlement Price are so provided, the arithmetic mean of the amounts for the Basket calculated on each Averaging Date as the sum of the Relevant Prices of each Index comprised in the Basket (weighted or adjusted in relation to each Index as provided in the applicable Pricing Supplement);

(C) in respect of a Share Basket Note, the arithmetic mean of the amounts for the Basket of Shares determined by the Determination Agent in its sole and absolute discretion as provided in the applicable Pricing Supplement as of the relevant Determination Time(s) on each Averaging Date or, if no means for determining the Settlement Price is so provided, the arithmetic mean of the amounts for the Basket calculated on each Averaging Date as the sum of the values calculated for the Underlying Shares of each Underlying Share Issuer as the product of (1) the Relevant Price of such Underlying Share and (2) the number of such Underlying Shares comprised in the Basket; and

(D) in respect of an ETF Basket Note, the arithmetic mean of the amounts for the Basket of ETF Interests determined by the Determination Agent in its sole and absolute discretion as provided in the applicable Pricing Supplement as of the relevant Determination Times(s) on each Averaging Date or, if no means for determining the Settlement Price is provided, the arithmetic mean of the amounts for the Basket calculated on each Averaging Date as the sum of the values calculated for the ETF Interests as the product of (1) the Relevant Price of such ETF Interest and (2) the number of such ETF Interests comprised in the Basket.

- (d) If an Averaging Date is a Disrupted Day, then if, in relation to "**Averaging Date Disruption**", the consequence specified in the applicable Pricing Supplement is:
- (i) "**Omission**", then such Averaging Date will be deemed not to be a relevant Averaging Date for the purposes of determining the relevant Settlement Price provided that, if through the operation of this provision no Averaging Date would occur with respect to the relevant Valuation Date, then Condition 10.1(a) will apply for purposes of determining the relevant level, price or amount on the final Averaging Date in respect of that Valuation Date as if such final Averaging Date were a Valuation Date that was a Disrupted Day;
 - (ii) "**Postponement**", then Condition 10.1(a) will apply for the purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date for the relevant Notes; or
 - (iii) "**Modified Postponement**", then:
 - (A) in the case of a Single Index Note, a Single Share Note or a Single ETF Note, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Determination Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date), and (B) the Determination Agent shall determine, in its sole and absolute discretion, the relevant level or price for that Averaging Date in accordance with (x) in the case of a Single Index Note, Condition 10.1(a)(i)(A) and (y) in the case of a Single Share Note or a Single ETF Note, Condition 10.1(a)(i)(B);
 - (B) in the case of an Index Basket Note, a Share Basket Note or an ETF Basket Note, the Averaging Date for each Index, Underlying Share or ETF Interest (as the case may be) not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Pricing Supplement as an Averaging Date in relation to the relevant Valuation Date, and the Averaging Date for an Index, Underlying Share or ETF Interest (as the case may be) affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Index, Underlying Share or ETF Interest (as the case may be). If the first succeeding Valid Date in relation to such Index, Underlying Share or ETF Interest (as the case may be) has not occurred as of the Determination Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in relation to such Index, Underlying Share or ETF Interest (as the case may be), and (B) the Determination Agent shall determine, in its sole and absolute discretion, the relevant level or amount for that Averaging Date in accordance with (x) in the case of an Index Basket Note, Condition 10.1(a)(ii) and (y) in the case of a Share Basket Note or an ETF Basket Note, Condition 10.1(a)(iii); and
 - (C) "**Valid Date**" shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not, or is not deemed to, occur.
- (e) If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Maturity Date or, as the case may be, the relevant Physical Settlement Date or (ii) the occurrence of an Extraordinary Event, an Extraordinary ETF Event, an Index Adjustment Event, a Potential Adjustment Event or an Additional Disruption

Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date.

10.2 *Adjustments to Indices and Additional Disruption Events:*

This Condition 10.2 (*Adjustments to Indices*) is applicable only in relation to Notes specified in the applicable Pricing Supplement as being Single Index Notes or Index Basket Notes.

(a) Successor Index:

If a relevant Index is (a) not calculated and announced by the Index Sponsor, but is calculated and announced by a successor sponsor acceptable to the Determination Agent in its sole and absolute discretion or (b) replaced by a Successor Index using, in the determination of the Determination Agent (such determination to be at the Determination Agent's sole and absolute discretion), the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

(b) Index Adjustment Events:

If (i) on or prior to any Valuation Date, or any Averaging Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events) (an "**Index Modification**") or permanently cancels the Index and no Successor Index exists (an "**Index Cancellation**") or (ii) on any Valuation Date, or any Averaging Date, the Index Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" (provided that the Determination Agent may, in its sole and absolute discretion, determine that, in respect of a Multi-Exchange Index, such failure to calculate and announce such Index shall instead be a Disrupted Day in respect of such Index), and together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then (A) in the case of an Index Modification or an Index Disruption, the Determination Agent shall determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate in its sole and absolute discretion the relevant Settlement Price using, in lieu of a published level for that Index, the level for that Index as at that Valuation Date or, as the case may be, that Averaging Date as determined by the Determination Agent in its sole and absolute discretion in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event and (B) in the case of an Index Cancellation, the Issuer may, at any time thereafter and in its sole and absolute discretion, determine that the Notes shall be redeemed as of any later date. If the Issuer so determines that the Notes shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Noteholders to redeem the Notes and upon redemption the Issuer will pay in respect of each Note an amount equal to the fair market value of such Note, on such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its sole and absolute discretion. The Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount. If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to the formula for the Final Redemption Amount or the Settlement Price set out in the applicable Pricing Supplement and any other variable relevant to the settlement or payment terms of the Notes, which change or adjustment shall be effective on such date as the Determination Agent shall determine.

(c) Correction of Index Levels:

If the level of an Index published by the Index Sponsor and which is utilised by the Determination Agent for any calculation or determination (the "**Original Determination**") under the Notes is subsequently corrected and the correction (the "**Corrected Value**") is published by the Index Sponsor by such time as may be specified in the applicable Pricing Supplement (or, if none is so

then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the "**Replacement Determination**") using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may adjust any relevant terms of the Notes accordingly.

(d) Additional Disruption Events:

If Additional Disruption Events are specified as applicable in the applicable Pricing Supplement, then, if an Additional Disruption Event occurs in respect of an Index or Indices:

- (iii) the Determination Agent will determine, in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the Conditions relating to the calculation of Interest, Final Redemption Amount and/or any other amounts applicable to the Notes set out in the applicable Pricing Supplement and/or remove and/or substitute the affected Index, to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (iv) by giving notice to Noteholders in accordance with Condition 32 (Notices), the Issuer, in its sole and absolute discretion, may redeem all, but not some only, of the Notes, each Note being redeemed at the Early Redemption Amount.

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice, as soon as practicable, to the Noteholders in accordance with Condition 32 (Notices) stating the occurrence of the Additional Disruption Event, as the case may be, giving details thereof and the action to be taken.

(e) Notice:

Upon the occurrence of an Index Adjustment Event, the Determination Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 32 (Notices) giving details of the action proposed to be taken in relation thereto.

(a) Adjustments for Potential Adjustment Events:

Following the declaration by the Underlying Share Issuer, the relevant ETF or an ETF Service Provider of the terms of a Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Underlying Shares or ETF Interests and, if so, will (i) make such adjustment as it in its sole and absolute discretion considers appropriate, if any, to the formula for the Final Redemption Amount and/or the Settlement Price set out in the applicable Pricing Supplement, the number of Underlying Shares or ETF Interests to which each Note relates, the number of Underlying Shares or ETF Interests comprised in a Basket of Shares or Basket of ETF Interests, the amount, the number of or type of shares, fund interests or other securities which may be delivered in respect of such Notes and/or any other adjustment and, in any case, any other variable relevant to the exercise, settlement, payment or other terms of the relevant Notes as the Determination Agent determines, in its sole and absolute discretion, to be appropriate to account for that diluting or concentrative effect and (ii) determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s).

(b) Correction of Underlying Share and ETF Interest Prices:

If any price published on the Exchange and which is utilised by the Determination Agent for any calculation or determination (the "**Original Determination**") under the Notes is subsequently corrected and the correction (the "**Corrected Value**") is published by the Exchange by such time as

Settlement Cycle after the original publication and prior to the Expiration Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the "**Replacement Determination**") using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may adjust any relevant terms accordingly.

In such case, the Issuer shall not redeem the Notes early and, following such replacement, references to Shares herein shall be replaced by references to such Replacement DRs or the Underlying Shares, as applicable, and the Determination Agent will determine the effective date of any adjustments.

- (vii) any other event having, in the opinion of the Determination Agent, a diluting, concentrative or other effect on the theoretical value of the relevant Shares and/or Underlying Shares; and

In such case, the Issuer shall not redeem the Notes early and, following such replacement, references to Shares herein shall be replaced by references to such Replacement DRs, and the Determination Agent will determine the effective date of any adjustments.
- (h) If the Determination Agent determines that a Delisting of Shares has occurred or if the Depositary announces that the Deposit Agreement is (or will be) terminated, then, notwithstanding anything to the contrary herein, the Determination Agent may determine that the affected Share be substituted with Replacement DRs or the Underlying Shares and may make any appropriate adjustments to the terms of these Conditions and/or the applicable Pricing Supplement. - (b) If the applicable Pricing Supplement for a Series of Commodity-Linked Notes specifies that any Commodity Disruption Event shall be applicable to such Series, then, where the Determination Agent determines, acting in a commercially reasonable manner, that such Commodity Disruption Event has occurred and is continuing in respect of such Series on the Pricing Date in respect of such Series (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source), or on any other day as may be specified for this purpose in the applicable Pricing Supplement, then the Relevant Price will be determined in accordance with the terms of the Commodity Disruption Fallback applicable pursuant to Condition 11.3 (*Commodity Disruption Fallbacks*).

11.3 *Commodity Disruption Fallbacks:*

Where one or more Commodity Disruption Event occurs or exists, then, unless the applicable Pricing Supplement specifies that any other Commodity Disruption Fallback shall apply in respect of any such Commodity Disruption Event, "Determination Agent Determination" shall apply.

11.4 *Common Pricing:*

With respect to Notes relating to a Basket, if "Common Pricing" has been selected in the applicable Pricing Supplement as:

- (a) "**Applicable**", then no date will be a Pricing Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced, as determined as of the time of issue of the Notes.
- (b) "**Inapplicable**", then if the Determination Agent determines that a Commodity Disruption Event has occurred or exists on the Pricing Date in respect of any Commodity in the Basket (the "**Affected Commodity**"), the Relevant Price of each Commodity within the basket which is not affected by the occurrence of a Commodity Disruption Event shall be determined on its scheduled Pricing Date and the Relevant Price for the Affected Commodity shall be determined in accordance with the first applicable Commodity Disruption Fallback that provides a Commodity Reference Price.

11.5 *Commodity Index Disruption Events:*

- (a) The following shall constitute "**Commodity Index Disruption Events**" for the purposes of any Series of Notes with respect to a Commodity Index:
 - (i) a temporary or permanent failure by the applicable exchange or other price source to announce or publish the final settlement price for the relevant Commodity Index; or
 - (ii) the occurrence in respect of any Component of the relevant Commodity Index of a Commodity Disruption Event (as defined in Condition 11.2(a) (*Commodity Disruption Events*)).
- (b) Where the Determination Agent determines, acting in a commercially reasonable manner, that a Commodity Index Disruption Event has occurred and is continuing in respect of a Series on the Pricing Date in respect of such Series (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source), or on any other day as may be specified for this purpose in the applicable Pricing Supplement, then (unless Condition 11.5(c) (*Physical Hedging Fallback*) applies) the following provisions shall apply (the "**Commodity Index Disruption Fallback**"): ~~determine the Relevant Price acting in good faith and in a commercially reasonable manner~~
 - (i) with respect to each Component which is not affected by the Commodity Index Disruption Event, the Relevant Price will be determined by the Determination Agent based on the closing prices of each such Component on the applicable Pricing Date;
 - (ii) with respect to each Component which is affected by the Commodity Index Disruption Event, the Relevant Price will be determined by the Determination Agent (in the case of any Dow Jones UBS Commodity Index) as set out in the DJ UBSCI Manual or (in the case of any S&P Commodity Index) as set out in the Index Methodology, and in respect of any other Commodity Index as set out in the applicable Pricing Supplement, in each case based on the closing prices of each such Component on the first day following the applicable Pricing Date on which no Commodity Index Disruption Event occurs with respect to such Component;
 - (iii) subject to (iv) below, the Determination Agent shall determine the Relevant Price by reference to the closing prices determined in (i) and (ii) above using the then current method for calculating the relevant Commodity Index; and
 - (iv) where a Commodity Index Disruption Event with respect to one or more Components continues to exist (measured from and including the first day following the applicable determination date) for five consecutive Trading Days, the Determination Agent shall

In calculating the Relevant Price as set out in this paragraph, the Determination Agent shall use the formula for calculating the relevant Commodity Index last in effect prior to the Commodity Index Disruption Event. For the purposes of this paragraph (iv), "**Trading Day**" shall mean a day when the exchanges for all Components included in the relevant Commodity Index are scheduled to be open for trading.

- (c) *Physical Hedging Fallback.* Where the Determination Agent determines that a Commodity Index Disruption Event has occurred and is continuing in respect of a Series on the Pricing Date in respect of such Series and "**Physical Hedging Fallback**" is specified as applicable in the applicable Pricing Supplement, then the following provisions shall apply;
- (d) with respect to each Component included in the Commodity Index which is not affected by the Commodity Index Disruption Event, the Relevant Price will be based on the closing prices of each such Component on the applicable determination date;
- (e) with respect to each Component included in the Commodity Index which is affected by the Commodity Index Disruption Event, the Relevant Price will be based on the closing price of each such Component on the first day following the applicable determination date on which no Commodity Index Disruption Event occurs with respect to such Component;
- (f) subject to (g) below, the Determination Agent shall determine the Relevant Price by reference to the closing prices determined in (a) and (b) above using the then current method for calculating the Relevant Price; and
- (g) where a Commodity Index Disruption Event with respect to one or more Components included in the Commodity Index continues to exist (measured from and including the first day following the applicable determination date) for five consecutive Trading Days, the Determination Agent shall determine the Relevant Price in good faith and in a commercially reasonable manner. For the purposes of this paragraph (g), "**Trading Day**" shall mean a day when the exchanges for all Components included in the relevant Commodity Index are scheduled to be open for trading with respect to each Component included in the Commodity Index which is not affected by the Commodity Index Disruption Event, the Relevant Price will be based on the closing prices of each such Component on the applicable determination date.

11.6 *Adjustments to Commodity Index:*

- (a) If a Commodity Index with respect to a Commodity Reference Price is permanently cancelled or is not calculated and announced by the sponsor of such Commodity Index or any of its affiliates (together the "**Sponsor**") but (i) is calculated and announced by a successor sponsor (the "**Successor Sponsor**") acceptable to the Determination Agent, or (ii) replaced by a Successor Index (the "**Successor Index**") using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Commodity Index, then the Commodity Reference Price will be determined by reference to the Index so calculated and announced by that Successor Sponsor or that Successor Index, as the case may be.
- (b) If, for a Commodity Index with respect to a Commodity Reference Price, on or prior to the Maturity Date or Early Redemption Date, (i) the Sponsor makes a material change in the formula for or the method of calculating such Commodity Index or in any other way materially modifies such Commodity Index (other than a modification prescribed in that formula or method to maintain the Commodity Index in the event of changes in constituent commodities and weightings and other routine events), (ii) the Sponsor permanently cancels the Commodity Index, or (iii) the Sponsor fails to calculate and announce the Commodity Index for a continuous period of three Trading Days and the Determination Agent determines that there is no Successor Sponsor or Successor Index, then the Determination Agent may at its option (in the case of (i)) and shall (in the case of (ii) and (iii)) (such events (i) (ii) and (iii) to be collectively referred to as "**Commodity Index Adjustment Events**") calculate the Relevant Price using in lieu of the published level for that Commodity Index (if any), the level for that Commodity Index as at the relevant determination date as determined by the Determination Agent in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Commodity Index Adjustment Event (as the case may be),

Commodity Index Adjustment Event (as the case may be) (other than those futures contracts that have ceased to be listed on any relevant exchange).

- (a) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the redemption, settlement, or payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine.
- (b) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to the fair market value of such Note, on such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its sole and absolute discretion.
- (c) The Issuer shall as soon as reasonably practicable under the circumstances notify the Fiscal Agent and the Determination Agent of the occurrence of an Additional Disruption Event.

12.3 *Currency Disruption Events:*

- (a) If so specified in the Pricing Supplement relating to any Series of Notes, the following shall constitute "**Currency Disruption Events**" for the purposes of such Series:

- (c) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to the fair market value of such Note, on such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its sole and absolute discretion.

If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next Specified Interest Payment Date or other relevant payment date as may be specified in the applicable Pricing Supplement, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Condition 13.1 (*Delay in Publication*), will be the definitive level for that Reference Month.
- 13.2 *Cessation of Publication:* If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index then the Determination Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Notes by using the following methodology:
- (a) If at any time a Successor Index has been designated by the calculation agent of the Related Bond pursuant to the terms and conditions of the Related Bond, such Successor Index shall be designated a "Successor Index" for the purposes of all subsequent Specified Interest Payment Dates or other relevant payment date as may be specified in the applicable Pricing Supplement in relation to the Notes, notwithstanding that any other Successor Index may previously have been determined under Conditions 13.2(b), 13.2(c) or 13.2(d) below; or
 - (b) If a Successor Index has not been determined under Condition 13.2(a) above and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Index will be superseded by a replacement index specified by the Index Sponsor, and the Determination Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Index for purposes of the Notes from the date that such replacement index comes into effect; or
 - (c) If a Successor Index has not been determined under Condition 13.2(a) or 13.2(b) above, the Determination Agent shall ask five leading independent dealers to state what the replacement Index for the Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same Index, this Index will be deemed the "**Successor Index**". If three responses are received, and two or more leading independent dealers state the same Index, this Index will be deemed the "Successor Index". If fewer than three responses are received, the Determination Agent will proceed to Condition 13.2(d) below; or
 - (d) If no Successor Index has been determined under Condition 13.2(a), 13.2(b) or 13.2(c) above by the fifth Business Day prior to the next Affected Payment Date the Determination Agent will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "**Successor Index**", provided that the Determination Agent shall determine the method of determining the Relevant Level if no such appropriate alternative Index is available.
- 13.3 *Rebasing of the Index:* If the Determination Agent determines that an Index has been or will be rebased at any time, the Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of such Index from the date of such rebasing; provided, however, that the Determination Agent shall make such adjustments as are made by the calculation agent of the Related Bond pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. If there is no Related Bond, the Determination Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.
- 13.4 *Material Modification Prior to Payment Date:* If, on or prior to the day that is five Business Days before a Specified Interest Payment Date under the Notes or other relevant payment date as may be specified in the applicable Pricing Supplement in relation to the Notes, an Index Sponsor announces that it will make a material change to an Index then the Determination Agent shall make any such adjustments to the Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments

13.5 *Manifest Error in Publication:* If, within thirty days of publication and prior to the redemption of the Notes or payments in respect of any relevant Specified Interest Payment Date or other relevant payment date as may be specified in the applicable Pricing Supplement in relation to the Notes, the Determination Agent determines that the Index Sponsor has corrected the level of the Index to remedy a manifest error in its original publication, the Determination Agent will notify the holders of the Notes in accordance with Condition 31 (Notices) of (i) that correction, (ii) the adjusted amount that is then payable under the Notes as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction, provided that any amount payable pursuant to sub-paragraph (ii) above shall be paid (with no interest accruing thereon) (a) in connection with an Index Sponsor's correction to remedy a manifest error in the level of an Index for a Reference Month for which the Specified Interest Payment Date or other relevant payment date as may be specified in the applicable Pricing Supplement in relation to the Notes has occurred, within five Business Days after notice of such amount payable by the Determination Agent, (b) in connection with an Index Sponsor's correction to remedy a manifest error in the level of an Index for a Reference Month for which the Specified Interest Payment Date or other relevant payment date as may be specified in the applicable Pricing Supplement in relation to the Notes has not occurred, as an adjustment to the payment obligation on the next Specified Interest Payment Date or (c) if there is no further Specified Interest Payment Date other relevant payment date as may be specified in the applicable Pricing Supplement in relation to the Notes, within five Business Days after notice of such amount payable by the Determination Agent.

13.6 *Additional Disruption Events:*

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the redemption, settlement, or payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine.
- (c) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to the fair market value of such Note, on such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its sole and absolute discretion.
- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Fiscal Agent and the Determination Agent of the occurrence of an Additional Disruption Event.
- (e) For the purposes hereof:

"Additional Disruption Event" means, if specified as applicable in the applicable Pricing Supplement, with respect to any Series of Notes, a Change in Law, Hedging Disruption, Increased Cost of Hedging, and any further event or events as may be specified in the applicable Pricing Supplement.

13.7 *Definitions Applicable to Inflation-Linked Notes*

In relation to Inflation-Linked Notes, the following expressions have the meanings set out below:

"Affected Payment Date" means each Specified Interest Payment Date or other relevant payment date as may be specified in the applicable Pricing Supplement in relation to the Notes in respect of which an Index has not been published or announced;

"Change in Law" means that, on or after the Trade Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of

any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (x) it has become illegal to hold, acquire or dispose of Hedge Positions or (y) it will incur a materially increased cost in performing its obligations with respect to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

"Fallback Bond" means a bond selected by the Determination Agent and issued by the government of the country to whose level of inflation the Index relates and which pays a coupon or redemption amount which is calculated by reference to the Index, with a maturity date which falls on (a) the same date as the Maturity Date, (b) the next longest maturity after the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) and (b) is selected by the Determination Agent. If the Index relates to the level of inflation across the European Monetary Union, the Determination Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Determination Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Settlement Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Determination Agent from those bonds. If the Fallback Bond redeems the Determination Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

"Hedge Positions" means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, commodities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Notes;

"Hedging Disruption" means that the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations under the Notes, or (B) realise, recover or remit the proceeds of any such transactions or asset(s);

"Increased Cost of Hedging" means that the Issuer would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the Notes or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s) provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging;

"Index" means any index specified as such in the applicable Pricing Supplement;

"Index Sponsor" means, in respect of an Index, the entity specified as such in the applicable Pricing Supplement or, if no entity is specified, the entity that publishes or announces (directly or through an agent) the level of the relevant Index;

"Reference Month" means the calendar month for which the level of the relevant Index was reported, regardless of when this information is published or announced. If the period for which the Index level was reported is a period other than a month, the Reference Month will be the period for which the Index level was reported;

"Related Bond" means the bond specified in the applicable Pricing Supplement, or if no bond is so specified, the Fallback Bond. If the Related Bond is "Fallback Bond", then for any Related Bond determination under these Conditions, the Determination Agent shall use the Fallback Bond (as that is defined in this Condition 13.7 (*Definitions Applicable to Inflation-Linked Notes*) herein). If no bond is specified in the applicable Pricing Supplement as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Pricing Supplement there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Pricing Supplement, and that bond redeems or matures before the relevant Maturity Date, unless "Fallback Bond: Not Applicable" is specified in the applicable Pricing Supplement, the Determination Agent shall use the Fallback Bond for any Related Bond determination;

"Substitute Index Level" means an Index level, determined by the Determination Agent pursuant to the

"**Successor Index**" has the meaning specified in Condition 13.2 (*Cessation of Publication*).

14. **CREDIT-LINKED NOTES**

In respect of any Notes for which the Credit-Linked Interest Note Provisions and/or Credit-Linked Redemption Provisions are specified as applicable in the applicable Pricing Supplement, the Conditions shall be supplemented and modified by the terms and conditions set out in the applicable Pricing Supplement.

15. **PROVISIONS RELATING TO PROPERTY-LINKED NOTES**

This Condition 15 (*Provisions relating to Property-Linked Notes*) is applicable in respect of any Series of Notes ("**Property-Linked Notes**") where "Property-Linked Interest Note Provisions" and/or "Property-Linked Redemption Provisions" are specified in the applicable Pricing Supplement as being applicable.

15.1 *Rebasing of the Property Index*

If the Determination Agent determines that an Index has been or will be Rebased at any time (the Property Index as so Rebased, the "**Rebased Property Index**"), the Rebased Property Index will be used for the purposes of determining the level of the Property Index from the date of such Rebasing, provided however, that the Determination Agent shall adjust the terms of the Notes so that the use of the Rebased Property Index reflects what would have been the performance of the Index had the Rebasing not occurred save that any such Rebasing shall not affect any prior payments under the Notes.

15.2 *Error in Publication*

If the Determination Agent determines that an Error in Publication has occurred with respect to the Property Index, the Determination Agent may (a) use the corrected level of the Property Index to make any relevant calculations and/or (b) make any necessary adjustments to the relevant Property Index Level and such other terms of the Notes as it in its sole and absolute discretion determines to be appropriate to account for such Error in Publication.

For these purposes:

An "**Error in Publication**" will occur if the Property Index Sponsor announces that an error has occurred with respect to the Property Index Level as published on any Publication Date; the Property Index Level for such Publication Date is corrected to remedy such error; and the correction is published by the Index Sponsor at any time prior to the next following Scheduled Publication Date or if earlier any relevant determination date. An Error in Publication will not include a routine revision in the level of the Index in a regularly scheduled republication of the Index.

15.3 *Delay in Publication*

If the Property Index Level has not been announced by the Scheduled Publication Date or if earlier any relevant determination date, the following will apply:

- (a) if the Property Index Sponsor publishes a provisional Property Index Level prior to the next Scheduled Publication Date or if earlier any relevant determination date, such provisional level of the Property Index for that Measurement Period shall apply for the purposes of the Notes; or
- (b) if the Property Index Sponsor fails to publish the Property Index Level prior to the next occurring Scheduled Publication Date or if earlier any relevant determination date, a Property Index Disruption Event shall be deemed to have occurred and Condition 15.5 (*Property Index Disruption Event*) shall apply.

15.4 *Methodology Adjustment*

If the Property Index Sponsor announces that it has changed the methodology in calculating a Property Index and:

- (a) continues publication of a property index based on the original methodology (the "**Replacement Property Index**"), such Replacement Property Index shall apply in lieu of the original Property Index in relation to the Notes; or
- (b) discontinues publication of the Property Index based on the original Computational Methodology, a Property Index Disruption Event shall be deemed to have occurred and the procedure set out in Condition 15.5 (*Property Index Disruption Event*) shall apply.

15.5 *Property Index Disruption Event*

Following the occurrence of a Property Index Disruption Event, the Issuer shall, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue or be redeemed early. If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, to preserve the economic value of the Notes. If the Issuer determines that the Notes shall be redeemed early, then the Issuer shall give not less than five Business Days notice to the holders (in accordance with Condition 31 (*Notices*)) to redeem each Note at an amount equal to the fair market value of such Note, on such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its sole and absolute discretion.

15.6 *Additional Disruption Events:*

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Notes shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the redemption, settlement, or payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine.
- (c) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to the fair market value of such Note, on such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Determination Agent in its sole and absolute discretion.
- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Fiscal Agent and the Determination Agent of the occurrence of an Additional Disruption Event.
- (e) For the purposes hereof:

"**Additional Disruption Event**" means, if specified as applicable in the applicable Pricing Supplement, with respect to any Series of Notes, a Change in Law, Hedging Disruption, Increased Cost of Hedging, and any further event or events as may be specified in the applicable Pricing Supplement.

15.7 *Definitions Applicable to Property-Linked Notes*

In relation to Property-Linked Notes, the following expressions have the meanings set out below:

"**Change in Law**" means that, on or after the Trade Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of

any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (x) it has become illegal to hold, acquire or dispose of Hedge Positions or (y) it will incur a materially increased cost in performing its obligations with respect to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

"Data Pool" means the pool of properties underlying a Property Index.

"Hedge Positions" means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, commodities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Notes;

"Hedging Disruption" means that the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations under the Notes, or (B) realise, recover or remit the proceeds of any such transactions or asset(s);

"Increased Cost of Hedging" means that the Issuer would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the Notes or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s) provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging;

"Property Index" means any index specified as such in the applicable Pricing Supplement;

"Property Index Level" means the final level of the relevant Property Index for a specified period or a specified date (as set out in the Pricing Supplement), as published by the Property Index Sponsor (or otherwise determined as set out in the applicable Pricing Supplement);

"Rebasing" means the revaluation of a Property Index by the Property Index Sponsor by the application of a new Reference Price, without amendment to the formula for or the method of calculating the Index, and **"Rebased"** will be construed accordingly;

"Reference Price" means the historic value of the Data Pool used by the Property Index Sponsor as the benchmark for a Property Index; and

"Scheduled Publication Date" means the date on which the Property Index Level is scheduled to be published.

16. PROVISIONS RELATING TO FUND-LINKED NOTES

This Condition 16 (*Provisions relating to Fund-Linked Notes*) is applicable in respect of any Series of Notes ("**Fund-Linked Notes**") where "Fund-Linked Interest Note Provisions" and/or "Fund-Linked Redemption Provisions" are specified in the applicable Pricing Supplement as being applicable.

16.1 *Adjustments for Disrupted Days*

- (a) The Determination Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence or continuance of a Disrupted Day, would have been a Valuation Date.
- (b) If any Valuation Date is a Disrupted Day, then:
 - (i) in the case of Single Fund Notes, the Valuation Date shall be the next succeeding day that

last day of one Cut-off Period following the Scheduled Valuation Date. In that case, (i) the last day of such Cut-off Period shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Determination Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time on that deemed Valuation Date; or

- (ii) in the case of Fund Basket Notes, the Valuation Date for each Fund Interest not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Fund Interest affected by the occurrence of a Disrupted Day shall be the first succeeding day that is not a Disrupted Day relating to that Fund Interest, unless no day that is not a Disrupted Day has occurred prior to the last day of one Cut-off Period following the Scheduled Valuation Date. In that case, (i) the last day of such Cut-off Period shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Determination Agent shall determine its good faith estimate of the value for that Fund Interest as of the Valuation Time on that deemed Valuation Date.

In addition, the Determination Agent will account for such occurrence or continuance of a Disrupted Day as it sees fit which may include but is not limited to delaying calculation and payment of the Final Redemption Amount and/or any other amounts payable under the Notes, and no interest or other amount shall be payable to Noteholders in respect of any such delay, or making the appropriate adjustment to the calculation of the Final Redemption Amount and/or any such other amounts, all in the determination of the Determination Agent.

- (c) If Averaging Dates are specified in the applicable Pricing Supplement with respect to a Valuation Date then the following provisions will apply. If any Averaging Date is a Disrupted Day:
 - (i) in the case of Single Fund Notes, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (2) the Determination Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time on that deemed Averaging Date, where "Valid Date" means a Business Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur; and
 - (ii) in the case of Fund Basket Notes, the Averaging Date for each Fund Interest not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Pricing Supplement as that Averaging Date and the Averaging Date for any Fund Interest affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Fund Interest. If the first succeeding Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (2) the Determination Agent shall determine its good faith estimate of the value for that Fund Interest as of the Valuation Time on that deemed Averaging Date.

In addition, the Determination Agent will account for such occurrence or continuance of a Disrupted Day as it sees fit which may include but is not limited to delaying calculation and payment of the Final Redemption Amount and/or any other amounts payable under the Notes, and no interest or other amount shall be payable to Noteholders in respect of any such delay, or making the appropriate adjustment to the calculation of the Final Redemption Amount and/or any such other amounts, all in the determination of the Determination Agent.

16.2 *Postponement of Settlement*

- (a) Unless otherwise specified in the applicable Pricing Supplement, if the Determination Agent determines on the date which is not later than 3 Business Days prior to any date on which the Final

Settlement Date") that a Settlement Postponement Event has occurred, then the Determination Agent shall make such adjustment to account for such Settlement Postponement Event and such adjustment shall include the postponement of the obligation of the Issuer to pay the Final Redemption Amount or any such other amounts, as applicable, until the Postponed Settlement Date and no interest or other amount shall be payable to Noteholders in respect of such postponement.

- (b) If the Postponed Settlement Date is the Postponed Settlement Long Stop Date, for the purposes of determining the Final Redemption Amount or any other relevant amounts, as applicable, whether determined by reference to the Reference Price or otherwise, each Fund Interest Unit will be deemed to have a value equal to the redemption proceeds (if any) that a Hypothetical Investor which had submitted a Final Redemption Notice in respect of such Fund Interest Unit would have received in respect of such redemption on or before the Postponed Settlement Long Stop Date (in the case of Single Fund Notes) or each Long Stop Date Fund Interest Unit (if any) comprising the Basket of Funds will be deemed to have a value equal to the redemption proceeds (if any) that a Hypothetical Investor which had submitted a Final Redemption Notice in respect of such Long Stop Date Fund Interest Unit would have received in respect of such redemption on or before the Postponed Settlement Long Stop Date.
- (c) For the purposes hereof:
 - (i) a "**Settlement Postponement Event**" shall be deemed to occur if, as determined by the Determination Agent, a Hypothetical Investor which had submitted a Final Redemption Notice in respect of the Fund Interest Units (in the case of a Single Fund Note) or each Fund Interest Unit comprised in the Basket of Funds (in the case of a Fund Basket Note) would not have received in full the redemption proceeds in respect of such redemptions on or before the date which is 4 Business Days prior to the Scheduled Settlement Date;
 - (ii) the "**Postponed Settlement Date**" means, unless otherwise specified in the applicable Pricing Supplement, the earlier of (x) the date which is 3 Business Days after the date on which, as determined by the Determination Agent, such Hypothetical Investor would have received such redemption proceeds in full and (y) the Postponed Settlement Long Stop Date;
 - (iii) the "**Postponed Settlement Long Stop Date**" means, unless otherwise specified in the applicable Pricing Supplement, the date which is 3 months after the Scheduled Settlement Date;
 - (iv) "**Long Stop Date Fund Interest Unit**" means, in relation to a Basket of Funds, any Fund Interest Unit in respect of which, if a Hypothetical Investor had submitted a Final Redemption Notice in respect of such Fund Interest Unit, such Hypothetical Investor would not have received in full the redemption proceeds in respect of such redemption on or before the Postponed Settlement Long Stop Date; and
 - (v) a "**Final Redemption Notice**" means, in respect of a Fund Interest Unit, a valid redemption notice submitted on the last date permitted pursuant to the Fund Documents of the related Fund for a redemption notice that would be timely for redemption prior to the Scheduled Settlement Date.

16.3 *Potential Adjustment Events*

Following the declaration by any Fund or Fund Service Provider of the terms of any Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest Units or amount of Fund Interest and, if so, will (i) make the corresponding adjustment(s), if any, to any one or more of the Redemption Amount and/or any such other amounts payable under the Notes, the Reference Price, any Relevant Fund Interest Unit Price and, in any case, any other variable relevant to the calculation, valuation, payment or other terms of Notes as the Determination Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends or liquidity relative to the relevant Fund Interest) and (ii) determine the effective date(s) of the adjustment(s).

16.4 *Corrections and Adjustment*

With the exception of any Adjustments (as defined below) made after the day which is 5 Business Days (or such other period specified for this purpose in the applicable Pricing Supplement) prior to a due date for any payment under the Notes calculated by reference to the price or level of any Fund Interest Unit, if the Determination Agent determines that a Fund adjusts the Redemption Proceeds that would have been paid to a Hypothetical Investor redeeming the number of Fund Interest Units that are subject to valuation and such adjustment would be reflected in either an additional payment to such Hypothetical Investor or a claim for repayment of excess Redemption Proceeds made against such Hypothetical Investor (each an "**Adjustment**"), then the price or level to be used shall be the price or level of the relevant Fund Interest Units as so adjusted.

16.5 *Fund Events*

- (a) If at any time the Determination Agent determines that a Fund Event has occurred and/or is continuing then the Determination Agent shall provide written notice thereof to the Issuer (a "**Fund Event Notice**"). The Determination Agent shall not have any obligation to monitor the occurrence of a Fund Event nor shall it have any obligation to make a determination that a Fund Event has occurred or is continuing.
- (b) The Issuer will, in its sole and absolute discretion, determine whether the relevant Notes shall continue or shall be redeemed early and the mechanics for determining and calculating the valuation of any Affected Fund Interest and any payments under the Notes shall be suspended, subject to Condition 16.5(c) and Condition 16.5(d) below.
- (c) If the Issuer determines that the relevant Notes shall continue then, the Issuer may direct the Determination Agent:
 - (i) to substitute any Affected Fund Interest with the Successor Fund Interest relating to such Affected Fund Interest, provided that if no Successor Fund Interest has been identified in the manner set forth below within 10 Business Days of the Fund Event Notice, then subparagraph (ii) below shall apply; or
 - (ii) to make such adjustment to account for such Fund Event as it considers appropriate which may include, without limitation, delaying the calculation and payment of the Redemption Amount and/or any such other amounts payable under the Notes, and no interest or other amount shall be payable to Noteholders in respect of any such delay, or making an adjustment to the calculation of the Redemption Amount and/or any such other amounts due under the Notes, all in the determination of the Determination Agent.
 - (iii) For the purposes of this Condition 16.5(c):
 - (A) "**Successor Fund Interest**" means, in respect of any Affected Fund Interest, the related Eligible Fund Interest or, if the applicable Pricing Supplement do not specify any Eligible Fund Interest relating to such Affected Fund Interest, then the Determination Agent will use commercially reasonable efforts to identify a Successor Fund Interest based on the eligibility criteria specified in the applicable Pricing Supplement or, if the applicable Pricing Supplement do not specify any such eligibility criteria, with characteristics, investment objectives and policies similar to those in effect for the Affected Fund Interest immediately prior to the occurrence of the relevant Fund Event; and
 - (B) any substitution of the Successor Fund Interest for the Affected Fund Interest shall be effected at such time and in such manner as specified in the applicable Pricing Supplement or, if the time and manner for substitution of the Successor Fund Interest is not specified in the applicable Pricing Supplement, then the Affected Fund Interest shall be replaced by a number of Fund Interest Units of the Successor Fund Interest with a combined value (as determined by the Determination Agent) equal to the relevant Removal Value of the applicable number of Fund Interest Units of the Affected Fund Interest. Such replacement shall be effected, from time to time whenever the Removal Value changes, on the

date, as determined by the Determination Agent, on which the Fund issuing the Successor Fund Interest would admit a Hypothetical Investor who, on the Fund Business Day next following the date on which any Removal Value not previously applied toward any Successor Fund Interest would be received by such Hypothetical Investor redeeming out of the relevant amount of Affected Fund Interest, had submitted a valid order to purchase such amount of the Successor Fund Interest; and

(C) if necessary, the Determination Agent will adjust any relevant terms, including, but not limited to adjustments to account for changes in volatility, investment strategy or liquidity relevant to such Fund Interests or the Notes.

(d) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall redeem each Note at its Fund-Linked Early Redemption Amount on such date as the Issuer may notify to Noteholders in accordance with Condition 32 (*Notices*).

16.6 *Notice of Fund Event*

Following the determination of an Inconvertibility Event, the Issuer may, at its sole and absolute discretion, provide a notice of inconvertibility to the holders of the Notes in accordance with this Condition 19 or the appropriate means electing either:

- (a) If "**Converted Payment**" is specified in the applicable Pricing Supplement: to continue making any payments due under such Notes until the Maturity Date, in which case, any amount due under such Notes shall be converted from the Relevant Currency into the Inconvertibility Specified Currency at the Fallback FX Spot Rate determined by the Determination Agent in its sole and absolute discretion; or

For the avoidance of doubt, failure to deliver such notice or the failure of the recipient to receive such notice will not affect the Issuer's ability to make payments according to the option it selected.

For the purpose of this Condition 19:

"Fallback FX Spot Rate" has the meaning given in the applicable Pricing Supplement;

"Inconvertibility Early Redemption Amount" means, in respect of any Note either:

- (a) an amount as specified in the applicable Pricing Supplement;
- (b) if **"Early Redemption Amount"** is specified in the Pricing Supplement, an amount equal to (i), the Early Redemption Amount, (ii) converted from the Relevant Currency into the Inconvertibility Specified Currency at the exchange rate (expressed as a number of the Relevant Currency per one unit of the Inconvertibility Specified Currency) determined by the Determination Agent in its sole and absolute discretion for settlement on or about the relevant payment date and (iii) less the reasonable cost to and/or the loss realised by, the Issuer and/or any Affiliate in respect of break funding costs for the Issuer term financing associated with such early redemption of the Notes, in each case as calculated by the Determination Agent in its sole and absolute discretion; or
- (c) if **"Fair Market Value"** is specified in the Pricing Supplement, an amount, in the Inconvertibility Specified Currency, equal to the fair market value of such Notes, on such day as is selected by the Determination Agent in its sole and absolute discretion (provided that such day is not more than 15 days before the Inconvertibility Early Redemption Date), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements or in respect of break funding costs for the Issuer's term financing associated with such early redemption of the Notes, in each case as calculated by the Determination Agent in its sole and absolute discretion.

An **"Inconvertibility Event"** shall be deemed to have occurred if from (and including) the Trade Date to (and including) the Maturity Date, any event or circumstance occurs that generally makes it, in the sole and absolute discretion of the Determination Agent, impossible, unlawful or impracticable for the Issuer, the Determination Agent or any of its Affiliates for any reason beyond their reasonable control:

- (a) to convert the Relevant Currency into the Inconvertibility Specified Currency or the Inconvertibility Specified Currency into the Relevant Currency (whether directly or through a cross exchange rate) through customary legal channels; or
- (b) to determine the rate of conversion of the Inconvertibility Specified Currency into the Relevant Currency or the Relevant Currency into the Inconvertibility Specified Currency; or
- (c) to transfer, or make a payment in, or delivery of, the Relevant Currency from or to, outside, or inside, of the Relevant Jurisdiction], in each case under (i), (ii) or (iii), in an amount up to the Aggregate Nominal Amount or the relevant Interest Amount; or

- (f) to exchange or repatriate any funds outside of any jurisdiction in which any of the Underlying or the Underlyings, or each of their components, is issued; or
- (g) for the Issuer or any of its Affiliates to hold, purchase, sell or otherwise deal in any Notes, or any other property in order for the Issuer or any of its Affiliates to perform any related hedging arrangement, or for the purposes of the Issuer or the Issuer's obligations in respect of any Notes;

"Relevant Underlying" means, in relation to the Notes, any of the Share, Index, ETF Interest, Commodity, Commodity Index, Fund or other item underlying such Notes (and **"Relevant Underlyings"** means all of them).

20. **CNY DISRUPTION EVENTS**

(a) In the event that a CNY Disruption Event, as determined by the Determination Agent in its sole discretion, occurs on or prior to any date on which a payment is scheduled to be made under a CNY Note (including, but not limited to, an Interest Payment Date or the Maturity Date) and such CNY Disruption Event is continuing on such date (any such CNY Note so affected, an **"Affected CNY Note"**), the following terms will apply:

- (i) first, payments under the Affected CNY Note shall be postponed to two Hong Kong Business Days after the date on which the CNY Disruption Event ceases to exist, unless that CNY Disruption Event continues to exist for 14 consecutive calendar days from the original date that, but for the occurrence of the CNY Disruption Event, would have been the date for such payments (which payment date may be, but is not limited to, an Interest Payment Date or the Maturity Date). In that case, the provisions of sub-paragraph (ii) below will apply on the day immediately following the lapse of such 14 calendar day period;
- (ii) second, the relevant payment obligations under the Affected CNY Note shall be replaced by an obligation to pay an amount that would be due as if settlement were non-deliverable with the effect that any amounts in CNY payable under the Affected CNY Note shall be converted into an amount in USD as calculated by the Determination Agent in its sole discretion. All the payments hereunder shall be made in USD on the relevant Non-Deliverable Substitute Settlement Date. For the avoidance of doubt, this sub-paragraph (ii) shall only apply to any payment which is scheduled to occur on a date (which may be, but is not limited to, the Maturity Date or an Interest Payment Date) that is affected by the CNY Disruption Event and shall not affect any payments falling due on any other dates.

(b) For the purpose of this Condition 20 (*CNY Disruption Events*):

"CNY Disruption Event" means any of CNY Illiquidity, CNY Inconvertibility or CNY Non-Transferability.

"CNY Illiquidity" means, as determined by the Determination Agent in its sole discretion, the occurrence of any event that makes it impossible (where it had previously been possible) for the Issuer to obtain a firm quote of an offer price in respect of an amount in CNY equal to the then current outstanding Notional Amount of the relevant Affected CNY Notes, any interest or any other amount to be paid under such Notes (the **"Relevant Disrupted Amount"**), during the term of such Notes, either in one transaction or a commercially reasonable number of transactions that, when taken together, is no less than such Relevant Disrupted Amount, in the general CNY exchange market in each Offshore CNY Center in order to perform its obligations under the Affected CNY Notes.

"CNY Inconvertibility" means, as determined by the Determination Agent in its sole discretion, the occurrence of any event that makes it impossible (where it had previously been possible) for the Issuer to convert an amount of CNY no less than the Relevant Disrupted Amount into or from USD in the general CNY exchange market in each Offshore CNY Center.

"CNY Non-Transferability" means, as determined by the Determination Agent in its sole discretion, the occurrence in each Offshore CNY Center of any event that makes it impossible (where it had previously been possible) for the Issuer to transfer CNY (A) between accounts inside the Offshore CNY Center, (B) from an account inside the Offshore CNY Center to an account outside such Offshore CNY Center and outside mainland China, or (C) from an account outside an Offshore CNY Center and outside mainland China to an account inside the Offshore CNY Center. For the purpose of CNY Non-Transferability and Hong Kong as an Offshore CNY Center only, a segregated Chinese Renminbi fiduciary cash account with the People's Bank of China and operated by Bank of China (Hong Kong) Limited shall be deemed to be an account inside Hong Kong.

"Non-Deliverable Substitute Settlement Date" means, in respect of any payment date determined pursuant to the terms herein, subject to adjustment in accordance with the provisions of Condition 20 and/or any Business Day Convention applicable to the terms of an Affected CNY Note, the day determined by the Determination Agent which shall be as soon as practicable, but in no event later than two (2) Hong Kong Business Days after the date on which the USD/CNY Spot Rate is determined.

"Offshore CNY Center" means Hong Kong, or such other CNY Center as specified in the applicable Pricing Supplement.

"USD/CNY Spot Rate" means the Chinese Renminbi/U.S. dollar official fixing rate, expressed as the amount of Chinese Renminbi per one U.S. dollar, for settlement in two Hong Kong Business Days reported by the Treasury Markets Association which appears on Reuters page <CNHFIX=> at approximately 11:15 a.m., Hong Kong time (the **"Spot USD/CNY(HK) Fixing"**). In the event that the Spot USD/CNY(HK) Fixing is not available, the Determination Agent may in its sole discretion: (a) delay the determination of the USD/CNY Spot Rate until such day that the Spot USD/CNY(HK) Fixing is available or (b) determine the USD/CNY spot rate in its sole discretion.

For the avoidance of doubt, references to "general CNY exchange market in each Offshore CNY Center" in the definitions of CNY Illiquidity and CNY Inconvertibility refers to purchase, sale, lending or borrowing of CNY for general purpose (including, but not limited to, funding), and therefore any purchase or sale of CNY where such CNY is required by relevant laws or regulations for settlement of any cross-border trade transaction with an entity in mainland China, or any purchase or sale of CNY for personal customers residing in each such Offshore CNY Center, would not be purchase or sale made in such general CNY exchange market.

22.4 *Payments Subject to Fiscal Laws:* All payments in respect of the Registered Notes are subject in all cases to (i) any applicable fiscal or other law, regulations and directives and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the United States Internal Revenue Code of 1986 or otherwise imposed pursuant to Sections 1471 through 1474 of the United States Internal Revenue Code of 1986, any regulations or agreements thereunder, any official interpretations thereof or any law implementing an intergovernmental approach thereto, but without prejudice in each case to the provisions of Condition 24 (*Taxation*). No commissions or expenses shall be charged to the Noteholders in respect of such payments.

22.5 *Payments on Payment Business Days:* Where payment is to be made by transfer to an account, payment instructions (for value the due date, or, if the due date is not a Payment Business Day, for value the next succeeding Payment Business Day) will be initiated and, where payment is to be made by cheque, the cheque will be mailed (i) (in the case of payments of principal and interest payable on redemption) on the later of the due date for payment and the day on which the relevant Individual Note Certificate is surrendered (or, in the case of part payment only, endorsed) at the Specified Office of a Paying Agent and (ii) (in the case of payments of interest payable other than on redemption) on the due date for payment. A holder of a Registered Note shall not be entitled to any interest or other payment in respect of any delay in payment resulting from (A) the due date for a payment not being a Payment Business Day or (B) a cheque mailed in accordance with this Condition 22 (*Payments*) arriving after the due date for payment or being lost in the

- 22.6 *Partial payments:* If a Paying Agent makes a partial payment in respect of any Registered Note, the Issuer shall procure that the amount and date of such payment are noted on the Register and, in the case of partial payment upon presentation of an Individual Note Certificate, that a statement indicating the amount and the date of such payment is endorsed on the relevant Individual Note Certificate.
- 22.7 *Record date:* Each payment in respect of a Registered Note will be made to the person shown as the holder in the Register at the opening of business in the place of the Registrar's Specified Office on the fifteenth day before the due date for such payment (the "**Record Date**"). Where payment in respect of a Registered Note is to be made by cheque, the cheque will be mailed to the address shown as the address of the holder in the Register at the opening of business on the relevant Record Date.
- 22.8 *Unavailability of Currency.* If the Specified Currency is not available to the Issuer for making payments of principal of, and premium, interest and/or additional amounts, if any, on any Registered Note (whether due to the imposition of exchange controls or other circumstances beyond the control of the Issuer, or if the Specified Currency is no longer used by the government of the country issuing that currency or by public institutions within the international banking community for the settlement of transactions) (in which case an "**Unavailability of Currency Event**" shall be deemed to have occurred in respect of such Notes), the Issuer may satisfy its obligations to Noteholders by making payments on the date of payment in U.S. dollars on the basis of the prevailing exchange rate on the date of the payment or of the most recent practicable date, such rate being based on the highest bid quotation in The City of New York received by the Exchange Rate Agent at approximately 11:00 a.m., New York City time, on the second Business Day preceding the applicable payment date from three recognised foreign exchange dealers for the purchase by the quoting dealer:
- (a) of the Specified Currency for U.S. dollars for settlement on the payment date;
 - (b) in the aggregate amount of the Specified Currency payable to those holders or beneficial owners of Notes; and
 - (c) at which the applicable dealer commits to execute a contract,

If those bid quotations are not available, the Exchange Rate Agent will determine the Market Exchange Rate at its sole discretion. All determinations by the Exchange Rate Agent will, in the absence of manifest error, be conclusive for all purposes and binding on the Issuer, the Guarantor (if applicable) and the Noteholders. The Exchange Rate Agent will be Morgan Stanley & Co. International plc, unless otherwise noted in the applicable Pricing Supplement. If the Exchange Rate Agent is not an affiliate of Morgan Stanley, it may be one of the dealers providing quotations.

For the avoidance of doubt, any payment made in U.S. dollars on the basis of the prevailing exchange rate where the required payment is in an unavailable Specified Currency will not constitute an Event of Default.

The foregoing provisions do not apply if a Specified Currency is unavailable because it has been replaced by the euro. If the euro has been substituted for a Specified Currency, the Issuer may (or will, if required by applicable law) without the consent of the holders of the affected Notes, pay the principal of, premium, if any, or interest, if any, on any Note denominated in the Specified Currency in euro instead of the Specified Currency, in conformity with legally applicable measures taken pursuant to, or by virtue of, the Treaty. Any payment made in U.S. dollars or in euro as described above where the required payment is in an unavailable Specified Currency will not constitute an Event of Default.

23. **PHYSICAL SETTLEMENT**

23.1 *Delivery Notice*

- (a) Each Noteholder in respect of Physical Settlement Notes, shall, on or before the scheduled date for redemption thereof (or such earlier date as the Issuer shall notify to the Fiscal Agent and the Noteholders is, in its determination, necessary for the Issuer, the Fiscal Agent and/or the Relevant Clearing System(s) to perform their respective obligations hereunder) send to the Relevant Clearing System(s) (in accordance with the relevant operating procedures) and the Fiscal Agent an irrevocable notice (the "**Delivery Notice**") in the form from time to time approved by the Issuer, which must:

- (i) specify the name and address of the Noteholder;
 - (ii) specify the number of Notes in respect of which he is the Noteholder;
 - (iii) specify the number of the Noteholder's account at the Relevant Clearing System(s) to be debited with such Notes;
 - (iv) irrevocably instruct and authorise the Relevant Clearing System(s) (A) to debit the Noteholder's account with such Notes on the Physical Settlement Date and (B) that no further transfers of the Notes specified in the Delivery Notice may be made;
 - (v) contain a representation and warranty from the Noteholder to the effect that the Notes to which the Delivery Notice relates are free from all liens, charges, encumbrances and other third party rights;
 - (vi) specify the number and account name of the account at the Clearing System(s) to be credited with the Physical Delivery Amount if Physical Settlement is applicable;
 - (vii) contain an irrevocable undertaking to pay the Redemption Expenses and Taxes (if any) and an irrevocable instruction to the Relevant Clearing System(s) to debit on or after the Physical Settlement Date the cash or other account of the Noteholder with the Relevant Clearing System(s) specified in the Delivery Notice with such Redemption Expenses and Taxes;
 - (viii) authorise the production of the Delivery Notice in any applicable administrative or legal proceedings; and
 - (ix) certify that the Notes are not being redeemed by or on behalf of a U.S. Person or a person within the United States and the Notes are not beneficially owned by a U.S. Person or a person within the United States (terms used in this Condition 23.1(a)(ix) have the meanings given in Regulation S).
- (b) A Delivery Notice, once delivered to the Relevant Clearing System(s) shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note which is the subject of a Delivery Notice following delivery of such Delivery Notice to the Relevant Clearing System(s). A Delivery Notice shall only be valid to the extent that the Relevant Clearing System(s) has not received conflicting prior instructions in respect of the Notes which are the subject of the Delivery Notice.
- (c) Failure to properly complete and deliver a Delivery Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided shall be made by the Relevant Clearing System(s) after consultation with the Fiscal Agent and shall be conclusive and binding on the Issuer and the Noteholder.
- (d) The Fiscal Agent shall promptly, on the Business Day following receipt of such notice, send a copy of the Delivery Notice to the Issuer or such person as the Issuer may previously have specified.

23.2 *Delivery Obligation*

- (a) Subject to the other provisions of this Condition 23.2 (*Delivery Obligation*), the Issuer shall discharge its obligation to deliver the Physical Delivery Amount in respect of any Notes by delivering, or procuring the delivery of, the relevant Underlying Securities on the Physical Settlement Date to the Clearing System for credit to the account with the Clearing System specified in the Delivery Notice of the relevant Noteholder.
- (b) The number of Underlying Securities to be delivered to or for the account of each Noteholder on redemption of any Physical Settlement Notes shall be as determined in accordance with the applicable Pricing Supplement. The Issuer may pay a residual cash amount to each Noteholder representing any fractions of Underlying Securities comprising the Physical Delivery Amount.

- (c) After delivery to or for the account of a Noteholder of the relevant Physical Delivery Amount and for such period of time as the transferor or its agent or nominee shall continue to be registered in any clearing system as the owner of the Underlying Securities comprised in such Physical Delivery Amount (the "**Intervening Period**"), none of such transferor or any agent or nominee for the Issuer or such transferor shall (i) be under any obligation to deliver to such Noteholder or any other person any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the Issuer or such transferor, agent or nominee in its capacity as holder of such Underlying Securities, (ii) be under any obligation to exercise any rights (including voting rights) attaching to such Underlying Securities during the Intervening Period, or (iii) be under any liability to such Noteholder or any other person in respect of any loss or damage which the Noteholder or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or such transferor, agent or nominee being registered in the Clearing System during such Intervening Period as legal owner of such Underlying Securities.
- (d) Any amounts in respect of dividends and interest on the Underlying Securities comprising the Physical Delivery Amount to be delivered will be payable to the party that would receive such amounts according to market practice for a sale of such Underlying Securities executed on the Exchange Business Day following the Determination Date in respect of the Notes. Any such amounts will be paid to or for credit to the account specified by the Noteholder in the relevant Delivery Notice. No right to dividends or interest on the Underlying Securities will accrue to Noteholders prior to the Determination Date.

23.3 *Settlement Disruption of Physical Settlement*

- (a) This Condition 23.3 (*Settlement Disruption of Physical Settlement*) shall apply only where Physical Settlement is applicable.
- (b) The Determination Agent shall determine whether or not at any time a Settlement Disruption Event has occurred in respect of Underlying Securities comprised in the Physical Delivery Amount (the "**Affected Securities**") and where it determines such an event has occurred and so has prevented delivery of such Affected Securities on the original day that but for such Settlement Disruption Event would have been the Physical Settlement Date, then the Physical Settlement Date will be the first succeeding day on which delivery of such Affected Securities can take place through the Clearing System unless a Settlement Disruption Event prevents settlement on each of the ten (10) Clearing System Business Days immediately following the original date that, but for the Settlement Disruption Event, would have been the Physical Settlement Date. In that case, (a) if such Affected Securities can be delivered in any other commercially reasonable manner, then the Physical Settlement Date will be the first day on which settlement of a sale of such Affected Securities executed on that tenth Clearing System Business Day customarily would take place using such other commercially reasonable manner of delivery (which other manner of delivery will be deemed the Clearing System for the purposes of delivery of such Affected Securities), and (b) if such Affected Shares cannot be delivered in any other commercially reasonable manner, then the Physical Settlement Date will be postponed until delivery can be effected through the Clearing System or in any other commercially reasonable manner.
- (c) For the purposes hereof "Settlement Disruption Event" means, as determined by the Determination Agent, an event which is beyond the control of the Issuer or the transferor of any relevant Underlying Securities and as a result of which the Clearing System cannot receive or clear the transfer of such Underlying Securities.

23.4 *Delivery Disruption of Physical Settlement*

- (a) This Condition 23.4 (*Delivery Disruption of Physical Settlement*) shall apply only where Physical Settlement is applicable.
- (b) If the Determination Agent determines that a Delivery Disruption Event has occurred, the Determination Agent shall notify the Issuer who shall promptly notify the Noteholders, and the Issuer will then deliver, or procure the delivery of, on the Physical Settlement Date such number of Underlying Securities comprised in the Physical Delivery Amount (if any) as it can deliver, or procure the delivery of, on that date and pay such amount as in the opinion of the Determination

remainder of the Underlying Securities comprised in the Physical Delivery Amount (assuming satisfaction of each applicable condition precedent) to which the Noteholders would have been entitled under the Notes but for the occurrence of such Delivery Disruption Event, in which event the entitlements of the respective Noteholders to receive Underlying Securities on redemption shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon delivery of such number of Underlying Securities and payment of such amount.

- (c) Where this Condition 23.4 (*Delivery Disruption of Physical Settlement*) falls to be applied, insofar as the Determination Agent determines to be practical, the same shall be applied as between the Noteholders on a pro rata basis, but subject to such rounding down (whether of the amount of a payment or of a number of Underlying Securities to be delivered) and also to such other adjustments as the Determination Agent determines to be appropriate to give practical effect to such provisions.
- (d) For the purposes hereof "**Delivery Disruption Event**" means, as determined by the Determination Agent, the failure or inability, due to illiquidity in the market for the Underlying Securities comprised in the Physical Delivery Amount, by or of the Issuer to deliver, or procure the delivery of, on the Physical Settlement Date all the Underlying Securities comprised in the Physical Delivery Amount to be delivered on that date.

23.5 *Additional Definitions*

For the purposes of this Condition 23 (*Physical Settlement*):

"**Clearing System**" means, in respect of an Underlying Security relating to a Physical Settlement Note, the clearing system specified as such for such security in the applicable Pricing Supplement or any successor to such clearing system as determined by the Determination Agent. If the Pricing Supplement do not specify a clearing system, the Clearing System will be the principal domestic system customarily used for settling trades in the relevant Underlying Securities. If the Clearing System ceases to settle trades in such Underlying Securities, the Determination Agent will, acting in good faith and in a commercially reasonable manner, select another method of delivery;

"**Clearing System Business Day**" means, in respect of a Clearing System, any day on which such Clearing System is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions;

"**Physical Delivery Amount**" means in respect of any Series of Physical Settlement Notes, the Underlying Securities to be delivered by the Issuer to Noteholders on redemption of each Note, as provided in the applicable Pricing Supplement;

"**Physical Settlement Date**" means, in relation to Underlying Securities to be delivered, subject to Condition 23.3 (*Settlement Disruption of Physical Settlement*), in respect of any Notes, the date following the Maturity Date or any other applicable redemption date, as the case may be, which is the first day on which settlement of a sale of such Underlying Securities executed on that Maturity Date or other redemption date, as the case may be, customarily would take place through the Applicable Clearing System, unless otherwise specified in the applicable Pricing Supplement;

"**Settlement Disruption Event**" means, in relation to an security, an event beyond the control of the parties as a result of which the Clearing System cannot clear the transfer of such security.

24. **TAXATION**

- 24.1 *Additional Amounts*: If specified in the applicable Pricing Supplement, in respect of a Series of Notes, the relevant Issuer or Guarantor, if applicable, will, subject to certain exceptions and limitations set forth below, pay those additional amounts (the "**Additional Amounts**") to any Noteholder who is a U.S. Alien as may be necessary in order that every net payment of the principal of and interest on the Note and any other amounts payable on the Note after withholding for or on account of any present or future tax, assessment or governmental charge imposed upon or as a result of that payment by the United States or any political subdivision or taxing authority thereof or therein, will not be less than the amount provided for in the Note to be then due and payable. For the avoidance of doubt, if not so provided in the applicable Pricing Supplement, Additional Amounts as provided in this Condition 24.1 (*Additional Amounts*) shall not be payable.

The relevant Issuer or Guarantor, if applicable, will not, however, be required to make any payment of Additional Amounts to any Noteholder for or on account of:

- (a) any present or future tax, assessment or other governmental charge that would not have been so imposed but for:
 - (i) the existence of any present or former connection between the holder or beneficial owner, or between a fiduciary, settlor, beneficiary, member or shareholder of the Noteholder, if the holder or beneficial owner is an estate, a trust, a partnership or a corporation, and the United States and its possessions, including, without limitation, the holder or beneficial owner, or such fiduciary, settlor, beneficiary, member or shareholder, being or having been a citizen or resident of the United States or being or having been engaged in the conduct of a trade or business or present in the United States or having, or having had, a permanent establishment in the United States, or
 - (ii) the presentation by the Noteholder for payment on a date more than 15 days after the date on which payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later;
- (b) any estate, inheritance, gift, sales, transfer, capital gains, corporation, income or personal property tax or any similar tax, assessment or governmental charge;
- (c) any tax, assessment or other governmental charge imposed by reason of the holder's or beneficial owner's past or present status as a personal holding company or controlled foreign corporation or passive foreign investment company with respect to the United States or as a corporation that accumulates earnings to avoid U.S. federal income tax or as a private foundation or other tax exempt organisation;
- (d) any tax, assessment or other governmental charge that is payable otherwise than by withholding from payments on or in respect of any Note;
- (e) any tax, assessment or other governmental charge that would not have been imposed but for the failure to comply with certification, information or other reporting requirements concerning the nationality, residence or identity of the holder or beneficial owner of that Note, if compliance is required by statute or by regulation of the United States or of any political subdivision or taxing authority thereof or therein as a precondition to relief or exemption from the tax, assessment or other governmental charge;
- (f) any withholding tax imposed under Sections 1471 through 1474 of the Code, any applicable U.S. Treasury regulations promulgated thereunder or published administrative guidance implementing such sections and any analogous provisions of non-U.S. laws (including withholding resulting from any inter-governmental agreement or an individual agreement with a taxing authority in connection with such sections of the Code, regulations, guidance or laws);
- (g) any tax, assessment or other governmental charge imposed by reason of Section 871(m) of the Code, and any applicable U.S. Treasury regulations promulgated thereunder or published administrative guidance implementing such section;
- (h) any tax, assessment or other governmental charge imposed by reason of the holder's or beneficial owner's past or present status as the actual or constructive owner of 10 per cent. or more of the total combined voting power of all classes of stock entitled to vote of Morgan Stanley or as a direct or indirect subsidiary of Morgan Stanley; or
- (i) any combination of the items listed above.

In addition, the relevant Issuer or Guarantor, if applicable, will not be required to make any payment of Additional Amounts with respect to any Note presented for payment:

- (a) where such withholding or deduction is required to be made pursuant to the European Union Directive on the taxation of savings or any other directive implementing the conclusions of the

ECOFIN Council meeting of 26–27 November 2000 or any law implementing or complying with or introduced in order to conform to such Directive; or

- (b) by or on behalf of a holder or beneficial owner who would have been able to avoid such withholding or deduction by presenting the relevant Note to another paying agent in a Member State of the European Union.

Nor will Additional Amounts be paid with respect to any payment on a Note to a U.S. Alien who is a fiduciary or partnership or other than the sole beneficial owner of that payment to the extent that payment would be required by the laws of the United States (or any political subdivision thereof) to be included in the income, for tax purposes, of a beneficiary or settlor with respect to the fiduciary or a member of that partnership or a beneficial owner who would not have been entitled to the Additional Amounts had that beneficiary, settlor, member or beneficial owner been the Noteholder.

The term "**U.S. Alien**" means any person who, for U.S. federal income tax purposes, is a foreign corporation, a nonresident alien individual, a nonresident alien fiduciary of a foreign estate or trust, or a foreign partnership one or more of the members of which is a foreign corporation, a nonresident alien individual or a nonresident alien fiduciary of a foreign estate or trust.

- 24.2 *Implementation of Financial Transaction Tax.* If "Implementation of Financial Transaction Tax" is specified in the applicable Pricing Supplement to be applicable to any Series of Notes, then upon the occurrence of an Implementation of Financial Transaction Tax, the Issuer may (i) in its sole discretion, with immediate effect amend the Conditions of the Notes by adjusting downward any amount payable and/or any other value or term of the Conditions to account for the economic impact of the Implementation of Financial Transaction Tax on the Issuer and its Affiliates in relation to the Notes, and (ii) to the extent that at any time thereafter the Issuer determines (acting in good faith and in a commercially reasonable manner) that it (including its Affiliates) has incurred additional loss as a result of the Implementation of Financial Transaction Tax that has not been accounted for through the adjustment made pursuant to sub-paragraph (i) (such amount, "**Additional Increased Tax**"), it may reduce the amount otherwise payable on the Notes on the next payment date (and any payment date thereafter) by an amount up to the Additional Increased Tax amount. Any such adjustments shall be notified to Noteholders as soon as reasonably practicable. If an event or circumstance which would otherwise constitute a Change in Law or Increased Cost of Hedging (where applicable) also constitutes an Implementation of Financial Transaction Tax, it will be treated as an Implementation of Financial Transaction Tax.

25. EVENTS OF DEFAULT

- 25.1 If any of the following events (each, an "**Event of Default**") occurs and is continuing:

- (a) *Non-payment:* in the case of Morgan Stanley Notes, Morgan Stanley, or, in the case of MSFL Notes, either MSFL or the Guarantor, fails to pay any amount of principal in respect of the Notes within seven days of the due date for payment thereof or fails to pay any amount of interest in respect of the Notes within thirty days of the due date for payment thereof; or
- (b) *Breach of Other Obligations:* the applicable Issuer except for reason of insolvency defaults in the performance or observance of any of its other obligations under or in respect of the Notes and such default remains unremedied for sixty days after written notice thereof, addressed to the Issuer by Noteholders of not less than 25 per cent. in aggregate principal amount of the relevant Series, has been delivered to the Issuer and to the Specified Office of the Fiscal Agent; or
- (c) *Insolvency, etc.:*
 - (i) the Issuer becomes insolvent or is unable to pay its debts as they fall due;
 - (ii) an administrator or liquidator of the Issuer or the whole or a substantial part of the undertaking, assets and revenues of the Issuer is appointed (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent);
 - (iii) the Issuer takes any action for a composition with or for the benefit of its creditors generally; or

(iv) an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent) and such order or effective resolution has remained in force and has not been rescinded, revoked or set aside for sixty days after the date on which such order is made or effective resolution is passed,

then Noteholders of not less than 25 per cent. in aggregate principal amount of the Notes may, by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, declare the Notes to be immediately due and payable, whereupon they shall become so due and payable at their Early Redemption Amount (or in accordance with any other provisions specified in the applicable Pricing Supplement) without further action or formality. Notice of any such declaration shall promptly be given to the Noteholders.

In the case of MSFL Notes, nothing herein contained shall be deemed to authorise any Noteholder to exercise any remedy against MSFL or the Guarantor solely as a result of, or because it is related directly or indirectly to, the insolvency of the Guarantor or the commencement of any proceedings relative to the Guarantor under Title 11 of the United States Code, or the appointment of a receiver for the Guarantor under Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 or the commencement of any other applicable federal or state bankruptcy, insolvency, resolution or other similar law, or solely as a result of, or because it is related directly or indirectly to, a receiver, assignee or trustee in bankruptcy or reorganization, liquidator, sequestrator or similar official having been appointed for or having taken possession of the Guarantor or its property, or solely as a result of, or because it is related directly or indirectly to, the institution of any other comparable judicial or regulatory proceedings relative to the Guarantor, or to the creditors or property of the Guarantor. Notwithstanding the foregoing, Noteholders are authorised to exercise any remedy against MSFL as a result of an Event of Default described in this Section 25.1(c).

- 25.2 *Annulment of Acceleration and Waiver of Defaults.* In some circumstances, if any or all Events of Default, other than the non-payment of the principal of the Notes of a Series that has become due as a result of an acceleration, have been cured, waived or otherwise remedied, then the holders of a majority in principal amount of such Series of Notes (voting as one class) may annul past declarations of acceleration of or waive past defaults of the Notes. However, any continuing default in payment of principal of or any premium or interest on those Notes may not be waived.

26. **FORCE MAJEURE AND ILLEGALITY**

- 26.1 The Issuer shall have the right to terminate the Notes if it shall have determined, in its sole and absolute discretion, that its performance thereunder, or, if applicable, the Guarantor's performance of its obligation under the Guarantee shall have become or will be unlawful in whole or in part as a result of compliance in good faith by the Issuer, or, if applicable, the Guarantor with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power ("**applicable law**").
- 26.2 In such circumstances the Issuer will, however, if and to the extent permitted by applicable law, pay to each Noteholder of each Note which is:
- (a) not a Preference Share-Linked Note, an amount determined by the Determination Agent, in its sole and absolute discretion, as representing the fair market value of such Note immediately prior to such termination (ignoring such illegality) less the cost to the Issuer (or its Affiliates) of, or the loss realised by the Issuer (or its Affiliates) on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion; and
 - (b) a Preference Share Linked-Note, the Early Preference Share Redemption Note Amount, as determined by the Determination Agent in its sole and absolute discretion.
- 26.3 Payment will be made to the relevant Clearing System in such manner as shall be notified to the Noteholders in accordance with Condition 32 (*Notices*).

27. **PRESCRIPTION**

Claims for principal and interest on redemption in respect of Registered Notes shall become void unless the relevant Individual Note Certificates are surrendered for payment within ten years of the appropriate Relevant Date.

28. REPLACEMENT OF NOTES AND COUPONS

If any Note or Individual Note Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Registrar, during normal business hours (and, if the Notes are then admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent or Transfer Agent in any particular place, the Paying Agent or Transfer Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system), subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Notes, Individual Note Certificates must be surrendered before replacements will be issued.

29. AGENTS

29.1 In acting under the Issue and Paying Agency Agreement and in connection with the Notes, the Agents (save as provided below) act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders. All calculation and determination functions required of the relevant Agent may be delegated to such persons as the relevant Agent may decide and all notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the Notes by the Agents or the Issuer shall (in the absence of manifest error or wilful misconduct) be binding on the Issuer and the Noteholders and (subject as aforesaid) no liability to the Noteholders (or any of them) shall attach to the Agents or the Issuer in connection with the exercise or non-exercise by any of them of their powers, duties and discretions for such purposes. The Determination Agent shall act as an expert and not as an agent for the Issuer or the Noteholders. All determinations, considerations and decisions made by the Determination Agent shall, in the absence of manifest error, wilful default or bad faith, be final and conclusive and the Determination Agent shall have no liability in relation to such determinations except in the case of its wilful default or bad faith.

29.2 The initial Agents and their initial Specified Office are listed below on the inside back cover of this Offering Circular. The initial Calculation Agent is the Fiscal Agent. The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint a successor Fiscal Agent or Registrar or Calculation Agent and additional or successor paying agents; provided, however, that:

- (a) there shall at all times be a Fiscal Agent and a Registrar appointed in respect of the Notes;
- (b) if a Calculation Agent is specified in the applicable Pricing Supplement, the Issuer shall at all times maintain a Calculation Agent;
- (c) if and for so long as the Notes are admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent and/or a Transfer Agent in any particular place, the Issuer shall maintain a Paying Agent and/or a Transfer Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system; and
- (d) the Issuer will at all times maintain a Paying Agent with a Specified Office in a Member State of the European Union that will not be obliged to withhold or deduct tax pursuant to European Union Directive 2003/48/EC on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to that Directive.

29.3 Notice of any change in any of the Paying Agents or in their Specified Offices shall promptly be given to the Noteholders in accordance with Condition 32 (*Notices*).

30. MEETINGS OF NOTEHOLDERS AND MODIFICATION

30.1 *Meetings of Noteholders:* The Issue and Paying Agency Agreement contains provisions for convening meetings of Noteholders to consider matters relating to the Notes including the modification of any provision

of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and shall be convened by it upon the request in writing of Noteholders holding not less than one tenth of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more Persons holding or representing one more than half of the aggregate principal amount of the outstanding Notes or, at any adjourned meeting, two or more Persons being or representing Noteholders whatever the principal amount of the Notes held or represented, provided, however, that Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more Persons holding or representing not less than three quarters or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

30.2 *Modification:*

- (a) The Notes, these Conditions, the Guarantee and the Deeds of Covenant may be amended without the consent of the Noteholders where, in the opinion of the Issuer:
 - (i) the amendment is to correct a manifest error or to effect a modification which is of a formal, minor or technical nature; or
 - (ii) the amendment is not materially prejudicial to the interest of the Noteholders.
- (b) The parties to the Issue and Paying Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in its opinion, not materially prejudicial to the interests of the Noteholders.

30.3 *Interests of Noteholders:* In connection with the Conditions, the Issuer and the Fiscal Agent shall have regard to the interests of the Noteholders as a class. In particular, but without limitation, the Issuer and the Fiscal Agent shall not have regard to the consequences for individual Noteholders resulting from such individual Noteholders being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory.

30.4 *Severance:* Should any of the provisions contained in these Conditions be or become invalid, the validity of the remaining provisions shall not be affected in any way.

31. **FURTHER ISSUES**

The Issuer may from time to time, without the consent of the Noteholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes.

32. **NOTICES**

32.4 *Unlisted Notes:* Notices to Noteholders of non-listed Notes may be published, as specified in the applicable Pricing Supplement, in newspapers, on a website or otherwise.

33. **LOSSES**

In no event shall the Issuer or the Agents have any liability for indirect, incidental, consequential or other damages (whether or not it may have been advised of the possibility of such damages) other than interest until the date of payment on sums not paid when due in respect of any Notes or assets not delivered when due. Noteholders are entitled to damages only and are not entitled to the remedy of specific performance in respect of any Note.

34. **CURRENCY INDEMNITY**

34.1 If any sum due from the Issuer in respect of the Notes or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

34.2 This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

35. **ROUNDING**

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the applicable Pricing Supplement), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point (with 0.000005 per cent. rounded up to 0.00001 per cent.), (b) all U.S. dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent rounded upward), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downward to the next lower whole Japanese Yen amount and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency (with 0.005 rounded up to 0.01).

36. **REDENOMINATION, RENOMINALISATION AND RECONVENTIONING**

36.1 *Application:* This Condition 36 (*Redenomination, Renominalisation and Reconventioning*) is applicable to the Notes only if it is specified in the applicable Pricing Supplement as being applicable.

36.2 *Notice of redenomination:* If the country of the Specified Currency becomes or, announces its intention to become, a Participating Member State, the Issuer may, without the consent of the Noteholders, on giving at least 30 days' prior notice to the Noteholders and the Paying Agents, designate a date (the "**Redenomination Date**"), being an Interest Payment Date under the Notes falling on or after the date on which such country becomes a Participating Member State.

Redenomination: Notwithstanding the other provisions of these Conditions, with effect from the Redenomination Date the Notes shall be deemed to be redenominated into euro in the denomination of euro

0.01 with a principal amount for each Note equal to the principal amount of that Note in the Specified Currency, converted into euro at the rate for conversion of such currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations); provided, however, that, if the Issuer determines, with the agreement of the Fiscal Agent that the then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from that specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, each listing authority, stock exchange and/or quotation system (if any) by which the Notes have been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendments.

36.3 *Interest:* Following redenomination of the Notes pursuant to this Condition 36 (*Redenomination, Renominalisation and Reconventioning*), where Notes have been issued in definitive form, the amount of interest due in respect of such Notes will be calculated by reference to the aggregate principal amount of the Notes presented for payment by the relevant holder.

36.4 *Interest Determination Date:* If the Floating Rate Note Provisions are specified in the applicable Pricing Supplement as being applicable and Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, with effect from the Redenomination Date the Interest Determination Date shall be deemed to be the second TARGET Settlement Day before the first day of the relevant Interest Period.

37. **SUBSTITUTION**

37.1 *Substitution of Issuer with Morgan Stanley Group entities*

Subject to the conditions set out in this Condition 37 (*Substitution*), but without the consent of Noteholders, each Issuer may, where the Issuer is:

- (a) Morgan Stanley, substitute a subsidiary of Morgan Stanley in place of Morgan Stanley as principal debtor under the Notes, provided that any Notes in respect of which such a substitution is effected will be fully and unconditionally guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Notes when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Noteholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor); and
- (b) MSFL, substitute Morgan Stanley or a subsidiary of Morgan Stanley in place of MSFL as principal debtor under the Notes, provided that, unless Morgan Stanley is the substitute issuer, any Notes in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Notes when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Noteholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor).

37.2 *Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*

Subject to the conditions set out in this Condition 37 but without the consent of Noteholders, each Issuer or the Guarantor (in the case of MSFL Notes) may, at any time, without the consent of the Noteholders, substitute for itself any entity which is not Morgan Stanley or one of Morgan Stanley's consolidated subsidiaries (such entity a "**Morgan Stanley Group entity**") provided that such entity is, on the date of such substitution and in the opinion of the relevant Issuer or the Guarantor (as the case may be) of at least the equivalent creditworthiness (this will be deemed to be the case where the Substitute has a long term credit rating from at least one rating agency of standard application on the international capital markets (including but not limited to Standard & Poor's, Moody's Investors Service and Fitch Ratings) which is at least as high as the relevant Issuer or Guarantor (as the case may be) being substituted) to the relevant Issuer or the Guarantor (as the case may be).

37.3 *Conditions to substitution*

Substitution of an Issuer or Guarantor for another entity (the "**Substitute**") as provided in Condition 37.1 (*Substitution of Issuer with Morgan Stanley Group entities*) or 37.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) above (as applicable) are subject to the following conditions:

- (a) the Substitute becoming party to the Issue and Paying Agency Agreement with any appropriate consequential amendments, as if it had been an original party to it in place of the relevant Issuer or the Guarantor (as the case may be);
- (b) the Substitute is validly existing under the laws under which it is established or incorporated, has capacity to assume all rights, obligations and liabilities under the Notes, receipts, coupons and Guarantee, as applicable, and has obtained all necessary corporate authorisations to assume all such rights, obligations and liabilities under the Notes or Guarantee (as applicable);
- (c) the Substitute has obtained all necessary governmental or regulatory approvals and consents for the performance by it of its obligations in connection with the Notes or Guarantee (as applicable) and that all such approvals and consents are in full force and effect;
- (d) in the case of substitution of an Issuer or Guarantor pursuant to Condition 37.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) above only:
 - (i) the Substitute and the relevant Issuer having obtained (a) legal opinions from independent legal advisers of recognised standing in the country of incorporation of the Substitute and in England that the obligations of the Substitute, in the case of a substitution of an Issuer, under the Notes and the relevant Deed of Covenant, or, in the case of a substitution of the Guarantor under the Deed of Guarantee, are legal, valid and binding obligations of the Substitute and (b) in the case of the substitution of the Issuer which is MSFL (or any substitute thereof), a legal opinion from an independent legal adviser in England, that the Deed of Guarantee will apply to the Substitute mutatis mutandis as it applies to the Issuer prior to the substitution and will constitute legal, valid and binding obligations of the Guarantor, in respect of the Substitute (provided that no opinion as referred to in this sub paragraph (d) shall be required where the Substitute is the Guarantor with respect to MSFL Notes); and
 - (ii) if the relevant Notes are rated at the relevant time, the Substitute has obtained, prior to the substitution date, a written confirmation from the relevant rating agencies that the substitution will not result in whole or in part in a withdrawal, downgrading, placement in creditwatch or negative outlook of the Notes;
- (e) all consents and approvals as required have been obtained and that the Substitute and the Notes comply with all applicable requirements of the Securities Act;
- (f) the Fiscal Agent has confirmed to the relevant Issuer or Guarantor (as the case may be) that it has completed its relevant "know your customer" requirements on the proposed Substitute;
- (g) such substitution being permitted by the rules of any stock exchange on which the Notes are listed and each such stock exchange confirming that, following the proposed substitution of the Substitute, the Notes will continue to be listed on such stock exchange;
- (h) no payment in respect of the Notes, receipts and coupons is overdue at the relevant time;
- (i) at the time of any such substitution, the Substitute is in a position to fulfil all payment obligations arising from or in connection with the Notes in freely convertible and transferable lawful money without the necessity of any taxes or duties to be withheld at source, and to transfer all amounts which are required therefor to the Fiscal Agent without any restrictions; and
- (j) if appropriate, the Substitute appointing a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Notes.

In the event of a substitution pursuant to this Condition 37, any reference in the Conditions to the relevant Issuer or the Guarantor (as the case may be) shall be construed as a reference to the entity substituted.

37.5 *Notification to Noteholders*

The relevant Issuer or the Guarantor (as the case may be) shall as soon as reasonably practicable notify Noteholders of the substitution in accordance with Condition 32 (*Notices*).

37.6 *No obligation to have regard to the consequences of the exercise of the right of substitution*

In connection with the right of substitution under this Condition 37, the relevant Issuer or the Guarantor (as the case may be) shall not be obliged to have regard to the consequences of the exercise of such right for individual Noteholders provided that the Substitute indemnifies each holder of Notes, receipts and coupons against any tax, assessment or governmental charge imposed on such Noteholder or required to be withheld or deducted as a consequence of such substitution.

38. **REPRESENTATIONS AND ACKNOWLEDGEMENTS BY NOTEHOLDERS**

Each Noteholder shall be deemed to represent and acknowledge to the Issuer on acquiring any Notes that:

- (a) neither the Issuer nor any Affiliate or any of their agents is acting as a fiduciary for it or provides investment, tax, accounting, legal or other advice in respect of the Notes and that such Noteholder and its advisors are not relying on any communication (written or oral and including, without limitation, opinions of third party advisors) of the Issuer or any Affiliate as (i) legal, regulatory, tax, business, investment, financial, accounting or other advice, (ii) a recommendation to invest in any Notes or (iii) an assurance or guarantee as to the expected results of an investment in the Notes (it being understood that information and explanations related to the terms and conditions of the Notes shall not be considered to be any such advice, recommendation, assurance or guarantee and should be independently confirmed by the recipient and its advisors prior to making any such investment);
- (b) such Noteholder (i) has consulted with its own legal, regulatory, tax, business, investments, financial and accounting advisors to the extent that it has deemed necessary, and has made its own investment, hedging, and trading decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer or any Affiliate or any of their agents and (ii) is acquiring the Notes with a full understanding of the terms, conditions and risks thereof and it is capable of and willing to assume those risks; and
- (c) the Issuer and/or any Affiliates may have banking or other commercial relationships with issuers of any securities to which the Notes relate and may engage in proprietary trading in any securities, indices, commodities, fund interests or other property to which the Notes relate or options, futures, derivatives or other instruments relating thereto (including such trading as the Issuer and/or any Affiliate deem appropriate in their sole discretion to hedge the market risk on the Notes and other transactions between the Issuer and/or any Affiliates and any third parties), and that such trading (i) may affect the price or level thereof and consequently the amounts payable under the Notes and (ii) may be effected at any time, including on or near any Valuation Date or Averaging Date.

39. **GOVERNING LAW AND JURISDICTION**

39.1 *Governing Law:* Unless otherwise specified in the applicable Pricing Supplement, the Notes and any non-contractual obligations arising out of or in connection with them shall be governed by and construed in accordance with English law.

39.2 *Jurisdiction:* Each of Morgan Stanley and MSFL agrees for the benefit of the Noteholders that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Notes (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, irrevocably submits to the jurisdiction of such courts.

39.3 *Appropriate Forum:* Each of Morgan Stanley and MSFL irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any

Proceedings and to settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.

39.4 *Process Agent:* Each of Morgan Stanley and MSFL agrees that the process by which any Proceedings in England are begun may be served on it by being delivered to (i) in the case of Morgan Stanley, Morgan Stanley & Co. International plc, 25 Cabot Square, Canary Wharf, London E14 4QA or, if different, its registered office for the time being and (ii) in the case of MSFL, Morgan Stanley (UK) Limited, 25 Cabot Square, Canary Wharf, London E14 4QA or, if different, its registered office for the time being or (iii) at any address of the Issuer in Great Britain at which process may be served on it in accordance with Part 34 of the UK Companies Act 2006. If such Person is not or ceases to be effectively appointed to accept service of process on behalf of any Issuer, such Issuer shall, on the written demand of any Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, appoint another Person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Noteholder shall be entitled to appoint such a Person by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent. Nothing in this Condition shall affect the right of any Noteholder to serve process in any other manner permitted by law.

39.5 *Non exclusivity:* The submission to the jurisdiction of the courts of England shall not (and shall not be construed so as to) limit the right of any Noteholder to take Proceedings in any other court of competent jurisdiction, nor shall the taking of Proceedings in any one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by law.

40. **RIGHTS OF THIRD PARTIES**

No person shall have any right to enforce any term or condition of the Notes under the Contracts (*Rights of Third Parties*) Act 1999.

Prescription

Under the law of the state of New York, claims for payment under the Notes are time-barred after six years from the time of breach.

Taxation

[This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the federal tax treatment of an investment in the Notes. Holders should seek their own advice based upon their particular circumstances from an independent tax advisor.

A Non-U.S. Holder (as defined in the Offering Circular) should review carefully the section entitled "United States Federal Taxation" in the Offering Circular. Due to the uncertain treatment of the Notes for U.S. federal income tax purposes, a Non-U.S. Holder should expect that a withholding agent will treat coupon payments, if any, on the Notes as subject to U.S. federal withholding tax at a rate of 30 per cent., unless a Non-U.S. Holder qualifies for an exemption under the "other income" provision of a Qualifying Treaty (as defined below). An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Accordingly, if a Non-U.S. Holder is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, it should generally be eligible for an exemption under the "other income" provision referred to above if the Non-U.S. Holder complies with the certification requirement described in the section entitled "United States Federal Taxation" in the Offering Circular. However, because most income tax treaties contain complex eligibility rules and limitations, a Non-U.S. Holder should consult its tax advisor about its eligibility for this exemption. To demonstrate eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, Non-U.S. Holders generally will be required to provide a properly completed appropriate Internal Revenue Service ("IRS") Form W-8BEN or W-8BEN-E

Holder holds its Notes through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of a Qualifying Treaty) as discussed in the section entitled "United States Federal Taxation" in the Offering Circular. Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Notes is unclear, the coupon payments, if any, on the Notes could alternatively be treated in whole or part as payments of interest. Nonetheless, even if the coupon payments are treated as interest, under current law and administrative practice a Non-U.S. Holder generally will qualify for the "portfolio interest exemption" with respect to coupon payments on the Notes so long as the Non-U.S. Holder has demonstrated its eligibility for the "other income" exemption as described above. Non-U.S. Holders should consult their tax advisors regarding their eligibility for the "portfolio interest exemption" in light of their particular circumstances.

If withholding is so required, Morgan Stanley will not be required to pay any additional amounts with respect to the amounts so withheld.⁶

[Taxation]

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the federal tax treatment of an investment in the Notes. Holders should seek their own advice based upon their particular circumstances from an independent tax advisor.

A Non-U.S. Holder (as defined in the Offering Circular) should review carefully the section entitled "United States Federal Taxation" in the Offering Circular. Due to the uncertain treatment of the Notes for U.S. federal income tax purposes, a Non-U.S. Holder should expect that a withholding agent will treat coupon payments, if any, on the Notes as subject to U.S. federal withholding tax at a rate of 30 per cent., unless a Non-U.S. Holder qualifies for an exemption under the "other income" provision of a Qualifying Treaty (as defined below). An income tax treaty between a non-U.S. jurisdiction and the United States is a "Qualifying Treaty" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. Accordingly, if a Non-U.S. Holder is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, it should generally be eligible for an exemption under the "other income" provision referred to above if the Non-U.S. Holder complies with the certification requirement described in the section entitled "United States Federal Taxation" in the Offering Circular. However, because most income tax treaties contain complex eligibility rules and limitations, a Non-U.S. Holder should consult its tax advisor about its eligibility for this exemption. To demonstrate eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, Non-U.S. Holders generally will be required to provide a properly completed appropriate Internal Revenue Service ("IRS") Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of a Qualifying Treaty (or, if the Non-U.S. Holder holds its Notes through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of a Qualifying Treaty) as discussed in the section entitled "United States Federal Taxation" in the Offering Circular. Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Notes is unclear, the coupon payments, if any, on the Notes could alternatively be treated in whole or part as payments of interest. Nonetheless, even if the coupon payments are treated as interest, under current law and administrative practice a Non-U.S. Holder generally will qualify for the "portfolio interest exemption" with respect to coupon payments on the Notes so long as the Non-U.S. Holder has demonstrated its eligibility for the "other income" exemption as described above. Non-U.S. Holders should consult their tax advisors regarding their eligibility for the "portfolio interest exemption" in light of their particular circumstances.

If withholding is so required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.¹³

FORM OF NOTES

Morgan Stanley and MSFL may issue Notes in registered form ("**Registered Notes**").

Registered Notes

Registered Notes will be in the form of either individual Note Certificates in registered form ("**Individual Note Certificates**") or a global Note in registered form (a "**Global Note Certificate**"), in each case as specified in the relevant Pricing Supplement. Each Global Note Certificate will either be: (a) in the case of a Registered Note which is not to be held under the New Safekeeping Structure (defined below), registered in the name of a common depository (or its nominee) for the Relevant Clearing System and the relevant Global Note Certificate will be deposited on or about the issue date with the common depository and will be exchangeable in accordance with its terms; or (b) in the case of a Registered Note to be held under the new safekeeping structure ("**New Safekeeping Structure**" or "**NSS**"), be registered in the name of a common safekeeper (or its nominee) for the Relevant Clearing System and the relevant Global Note Certificate will be deposited on or about the issue date with the common safekeeper for the Relevant Clearing System and will be exchangeable for Individual Note Certificates in accordance with its terms.

If the applicable Pricing Supplement specifies the form of Notes as being "**Individual Note Certificates**", then the Notes will at all times be in the form of Individual Note Certificates issued to each Noteholder in respect of their respective holdings.

If the applicable Pricing Supplement specifies the form of Notes as being "**Global Registered Note exchangeable for Individual Note Certificates**", then the Notes will initially be in the form of a Global Registered Note which will be exchangeable in whole, but not in part, for Individual Note Certificates:

- (a) on the expiry of such period of notice as may be specified in the applicable Pricing Supplement; or
- (b) if the applicable Pricing Supplement specifies "in the limited circumstances described in the Global Registered Note", then if (a) the Relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in "Description of the New York Law Notes – Events of Default" in the case of the New York Law Notes, or in the case of the English Law Notes, Condition 25 (*Events of Default*) occurs.

Whenever the Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within five business days of the delivery, by or on behalf of the holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Issue and Paying Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Registered Notes

The terms and conditions applicable to any Individual Note Certificate that is a New York Law Note will be set forth in such Individual Note Certificate. The terms and conditions applicable to any Individual Note Certificate that is an English Law Note will be endorsed on that Individual Note Certificate and will consist of the terms and conditions set out under "*Terms and Conditions of the English Law Notes*" above and the provisions of the applicable Pricing Supplement which supplement, modify and/or replace those terms and conditions. The terms and conditions applicable to any Global Registered Note that represents an English Law Note will differ from those terms and conditions which would apply to the Note were it in individual form to the extent described under "*Summary of Provisions relating to the English Law Notes while in Global Form*" below.

SUMMARY OF PROVISIONS RELATING TO THE ENGLISH LAW NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Registered Notes (or any Tranche thereof) represented by a Global Registered Note, references in the *"Terms and Conditions of the English Law Notes"* to **"Noteholder"** are references to the person in whose name such Global Registered Note is for the time being registered in the Register which, for so long as the Global Registered Note is held by or on behalf of a depositary or a common depositary for the Relevant Clearing System, will be that depositary or common depositary or a nominee for that depositary or common depositary.

Each of the persons shown in the records of the Relevant Clearing System as being entitled to an interest in a Global Registered Note (each an **"Accountholder"**) must look solely to the Relevant Clearing System for such Accountholder's share of each payment made by the relevant Issuer to the holder of such Global Registered Note and in relation to all other rights arising under such Global Registered Note, including any right to exchange any exchangeable Notes or any right to require the relevant Issuer to repurchase such Notes. The respective rules and procedures of the Relevant Clearing System from time to time will determine the extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Registered Note and the timing requirements for meeting any deadlines for the exercise of those rights. For so long as the relevant Notes are represented by a Global Registered Note, Accountholders shall have no claim directly against the relevant Issuer in respect of payments due under the Notes and such obligations of the relevant Issuer will be discharged by payment to the holder of such Global Registered Note.

Exchange of Global Registered Notes

Whenever a Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within five business days of the delivery, by or on behalf of the holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Issue and Paying Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Note Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Registered Note; or
- (b) any of the Notes represented by a Global Registered Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the English Law Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the Global Registered Note in accordance with the terms of the Global Registered Note on the due date for payment,

then at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) each Accountholder shall acquire the right under the Morgan Stanley Deed of Covenant and the MSFL Deed of Covenant (the **"Deeds of Covenant"**), as the case may be, or any additional Deed of Covenant to enforce against the Issuer, the Issuer's obligations to the Noteholder in respect of the Notes represented by the Global Registered Note, including the obligation of the Issuer to make all payments and deliveries when due at any time in respect of such Notes as if such Notes had been duly presented and (where required by the Conditions) surrendered on the due date in accordance with the Conditions. Each Accountholder shall acquire such right without prejudice to any other rights which the Noteholder may have under the Global Registered Note and the Deed of Covenant. Notwithstanding the rights that each Accountholder may acquire under the Deeds of Covenant, payment or delivery to the Noteholder in respect of any Notes represented by the Global Registered Note shall constitute a discharge of the Issuer's obligations to the extent of any such payment or delivery and nothing in the Deed of Covenant shall oblige the Issuer to make any payment or delivery under the Notes to or to the order of any person other than the Noteholder.

Conditions Applicable to Global Registered Notes

Each Global Registered Note will contain provisions which modify the terms and conditions set out in "*Terms and Conditions of the English Law Notes*" as they apply to the Global Registered Note. The following is a summary of certain of those provisions:

Payments

All payments in respect of the Global Registered Note which, according to the Terms and Conditions of the English Law Notes, require presentation and/or surrender of an Individual Note Certificate will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Registered Note at the Specified Office or to the order of any paying agent and will be effective to satisfy and discharge the corresponding liabilities of the relevant Issuer in respect of the Notes.

Exercise of Put Option

In order to exercise the Noteholder's put option set out in Condition 21.4 (*Redemption at the Option of Noteholders*) of the Terms and Conditions of the English Law Notes, the holder of a Global Registered Note must, within the period specified therein for the deposit of the relevant Note and put notice, give written notice of such exercise to the Fiscal Agent and/or such other person as is specified in the applicable Pricing Supplement specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Redenomination

Following redenomination of the Notes, where Notes have been issued in definitive form, the amount of interest due in respect of such Notes will be calculated by reference to the aggregate principal amount of the Notes presented for payment by the relevant holder.

Registered Notes

Notwithstanding Condition 17.7 (*Payments*), each payment in respect of any Global Registered Note shall be made to the person shown in the Register as the holder of the Notes represented by such Global Registered Note at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment (the "**Record Date**") where the "Clearing System Business Day" means a day on which each clearing system for which the Global Registered Note is being held is open for business.

5.8 *Effect of Exercise Notice:*

- (a) For so long as any outstanding Warrant or Certificate is held by a Securities Agent, Securities Registrar or Securities Transfer Agent in accordance with this Condition 5 (*Exercise*), the depositor of the relevant Individual Registered Security and not such Securities Agent, Securities Registrar or Securities Transfer Agent (as applicable) shall be deemed to be the Securityholder for all purposes.
- (b) Delivery of an Exercise Notice shall constitute an irrevocable election and undertaking by the Securityholder to exercise the Warrants or Certificates specified therein, provided that, in the case of a Registered Security, the person exercising and delivering such Exercise Notice is the person then appearing in the Register as the holder of the relevant Registered Security. If the person exercising and delivering the Exercise Notice is not the person so appearing, such Exercise Notice shall for all purposes become void and shall be deemed not to have been so delivered.
- (c) After the delivery of an Exercise Notice (other than an Exercise Notice which shall become void pursuant to Condition 5.1(b) (*Exercise Notice*)) by a Securityholder, such Securityholder shall not be permitted to transfer either legal or beneficial ownership of the Warrants or Certificates exercised thereby. Notwithstanding this, if any Securityholder does so transfer or attempt to transfer such Warrants or Certificates, the Securityholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently: (i) entering into replacement hedging operations in respect of such Warrants or Certificates; or (ii) paying any amount on the subsequent exercise of such Warrants or Certificates without having entered into any replacement hedging operations.

5.9 *Minimum Number of Warrants and Certificates Exercisable:*

The Warrants and Certificates are exercisable in the minimum number (the "**Minimum Exercise Number**") specified in the applicable Pricing Supplement (or, if a "Permitted Multiple" is specified in the applicable Pricing Supplement, higher integral multiples of the Minimum Exercise Number) on any particular occasion or such lesser Minimum Exercise Number or other Permitted Multiple as the Issuer may from time to time

6. **ISSUER CALL OPTION**

If the "**Issuer Call Option**" is specified in the applicable Pricing Supplement as being applicable, the Warrants or Certificates may be terminated at the option of the Issuer in whole or, if so specified in the applicable Pricing Supplement, in part on any Optional Settlement Date (Call) at the relevant Optional Settlement Amount (Call) on the Issuer's giving not less than the Minimum Call Notice Number of Day(s) nor more than One Maximum Call Notice Number of Day(s) (or such other notice period as specified in the applicable Pricing Supplement) notice to the Securityholders (which notice shall be irrevocable and shall oblige the Issuer to terminate the Warrants or Certificates specified in such notice on the relevant Optional Settlement Date (Call) at the Optional Settlement Amount (Call) plus accrued interest (if any) to such date).

7. **PROVISIONS RELATING TO SHARE SECURITIES, SHARE BASKET SECURITIES, INDEX SECURITIES, INDEX BASKET SECURITIES, ETF SECURITIES AND ETF BASKET SECURITIES**

This Condition 7.1 (*Provisions relating to Share Securities, Share Basket Securities, Index Securities, Index Basket Securities, ETF Securities and ETF Basket Securities*) is applicable only in relation to Warrants or Certificates specified in the applicable Pricing Supplement as being Share Securities, Share Basket Securities, Index Securities, Index Basket Securities, ETF Securities or ETF Basket Securities.

7.1 *Valuation, Market Disruption and Averaging Dates:*

- (a) "**Valuation Date**" means each date specified as such in the applicable Pricing Supplement and each date specified as an Exercise Date, Observation Date, Averaging Date, Strike Date or a Determination Date in the applicable Pricing Supplement (or, if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day), subject to the provisions of Condition 7.1(c). If any Valuation Date is a Disrupted Day, then:
- (i) in the case of an Index Security, a Single Share Security or ETF Security, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date) is a Disrupted Day. In that case, (1) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (2) the Determination Agent shall determine in its sole and absolute discretion:
 - (A) in respect of an Index Security, the level of the Index as of the Determination Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Determination Time on that eighth Scheduled Trading Day of each security or other property comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Determination Time on that eighth Scheduled Trading Day); and
 - (B) in respect of a Share Security or a ETF Security, its good faith estimate of the value for the Underlying Share or the ETF Interest (as the case may be) as of the Determination Time on that eighth Scheduled Trading Day;
 - (ii) in the case of an Index Basket Security, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Index. In that case, (1) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Index, notwithstanding the fact that such day is a Disrupted Day, and (2) the Determination Agent shall determine, in its sole and absolute discretion, the level of that Index as of the Determination Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Determination Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith

estimate of the value for the relevant security as of the Determination Time on that eighth Scheduled Trading Day); and

- (iii) in the case of a Share Basket Security and an ETF Basket Security, the Valuation Date for each Underlying Share or ETF Interest (as the case may be) not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and for each Underlying Share or ETF Interest (as the case may be) affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Underlying Share or ETF Interest (as the case may be), unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Underlying Share or ETF Interest (as the case may be). In that case, (1) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Underlying Share or ETF Interest (as the case may be), notwithstanding the fact that such day is a Disrupted Day, and (2) the Determination Agent shall determine, in its sole and absolute discretion, its good faith estimate of the value for that Underlying Share or ETF Interest (as the case may be) as of the Determination Time on that eighth Scheduled Trading Day;
- (b) For the purposes hereof:

"Scheduled Valuation Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date.
- (c) If Averaging Dates are specified in the applicable Pricing Supplement as being applicable, then, notwithstanding any other provisions of these Conditions, the following provisions will apply to the valuation of the relevant Index, Underlying Share, ETF Interest, Basket of Indices, Basket of Shares or Basket of ETF Interests in relation to a Valuation Date:
 - (i) **"Averaging Date"** means, in respect of each Valuation Date, each date specified or otherwise determined as provided in the applicable Pricing Supplement (or, if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day).
 - (ii) For purposes of determining the Settlement Price in relation to a Valuation Date, the Settlement Price will be:
 - (A) in respect of an Index Security, a Share Security, a ETF Security, in respect of a Share Basket Security that is a Cash Settlement Security or a Part Physical Settlement Security, the arithmetic mean of the relevant Prices of the Index, the Underlying Shares or ETF Interests (as the case may be);
 - (B) in respect of an Index Basket Security, the arithmetic mean of the amounts for the Basket of Indices determined by the Determination Agent in its sole and absolute discretion as provided in the applicable Pricing Supplement as of the relevant Determination Time(s) on each Averaging Date or, if no means for determining the Settlement Price are so provided, the arithmetic mean of the amounts for the Basket calculated on each Averaging Date as the sum of the Relevant Prices of each Index comprised in the Basket (weighted or adjusted in relation to each Index as provided in the applicable Pricing Supplement);
 - (C) in respect of a Share Basket Security, the arithmetic mean of the amounts for the Basket of Shares determined by the Determination Agent in its sole and absolute discretion as provided in the applicable Pricing Supplement as of the relevant Determination Time(s) on each Averaging Date or, if no means for determining the Settlement Price is so provided, the arithmetic mean of the amounts for the Basket calculated on each Averaging Date as the sum of the values calculated for the Underlying Shares of each Underlying Share Issuer as the product of (1) the Relevant Price of such Underlying Share and (2) the number of such Underlying Shares comprised in the Basket; and
 - (D) in respect of an ETF Basket Security, the arithmetic mean of the amounts for the Basket of ETF Interests determined by the Determination Agent in its sole and absolute discretion as provided in the applicable Pricing Supplement as of the relevant Determination Times(s) on each Averaging Date or, if no means for determining the Settlement Price is provided, the

arithmetic mean of the amounts for the Basket calculated on each Averaging Date as the sum of the values calculated for the ETF Interests as the product of (1) the Relevant Price of such ETF Interest and (2) the number of such ETF Interests comprised in the Basket.

- (d) If an Averaging Date is a Disrupted Day, then if, in relation to "**Averaging Date Disruption**", the consequence specified in the applicable Pricing Supplement is:
- (i) "**Omission**", then such Averaging Date will be deemed not to be a relevant Averaging Date for the purposes of determining the relevant Settlement Price provided that, if through the operation of this provision no Averaging Date would occur with respect to the relevant Valuation Date, then Condition 7.1(a) will apply for purposes of determining the relevant level, price or amount on the final Averaging Date in respect of that Valuation Date as if such final Averaging Date were a Valuation Date that was a Disrupted Day;
 - (ii) "**Postponement**", then Condition 7.1(a) will apply for the purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date for the relevant Warrants or Certificates; or
 - (iii) "**Modified Postponement**", then:
 - (1) in the case of an Index Security, a Share Security or a ETF Security, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Determination Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date), and (B) the Determination Agent shall determine, in its sole and absolute discretion, the relevant level or price for that Averaging Date in accordance with (x) in the case of an Index Security, Condition 7.1(a)(i)(A) and (y) in the case of a Share Security or a ETF Security, Condition 7.1(c)(iii)(B);
 - (2) in the case of an Index Basket Security, a Share Basket Security or an ETF Basket Security, the Averaging Date for each Index, Underlying Share or ETF Interest (as the case may be) not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Pricing Supplement as an Averaging Date in relation to the relevant Valuation Date, and the Averaging Date for an Index, Underlying Share or ETF Interest (as the case may be) affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Index, Underlying Share or ETF Interest (as the case may be). If the first succeeding Valid Date in relation to such Index, Underlying Share or ETF Interest (as the case may be) has not occurred as of the Determination Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in relation to the relevant Scheduled Valuation Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in relation to such Index, Underlying Share or ETF Interest (as the case may be), and (B) the Determination Agent shall determine, in its sole and absolute discretion, the relevant level or amount for that Averaging Date in accordance with (x) in the case of an Index Basket Security, Condition 7.1(a)(ii) and (y) in the case of a Share Basket Security or an ETF Basket Security, Condition 7.1(a)(iii); and
 - (3) "**Valid Date**" shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not, or is not deemed to, occur.
- (e) If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Maturity Date or, as the case may be, the relevant

Index Adjustment Event, a Potential Adjustment Event or an Additional Disruption Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date.

7.2 *Adjustments to Indices:*

This Condition 7.2 (*Adjustments to Indices*) is applicable only in relation to Warrants or Certificates specified in the applicable Pricing Supplement as being Index Securities or Index Basket Securities.

(a) Successor Index:

If a relevant Index is (a) not calculated and announced by the Index Sponsor, but is calculated and announced by a successor sponsor acceptable to the Determination Agent in its sole and absolute discretion or (b) replaced by a Successor Index using, in the determination of the Determination Agent (such determination to be at the Determination Agent's sole and absolute discretion), the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "Successor Index") will be deemed to be the Index.

(b) Index Adjustment Events:

If (i) on or prior to any Valuation Date, or any Averaging Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events) (an "**Index Modification**") or permanently cancels the Index and no Successor Index exists (an "**Index Cancellation**") or (ii) on any Valuation Date, or any Averaging Date, the Index Sponsor fails to calculate and announce a relevant Index (an "Index Disruption" and together with an Index Modification and an Index Cancellation, each an "Index Adjustment Event"), then (A) in the case of an Index Modification or an Index Disruption, the Determination Agent shall determine if such Index Adjustment Event has a material effect on the Warrants or Certificates and, if so, shall calculate in its sole and absolute discretion the relevant Settlement Price using, in lieu of a published level for that Index, the level for that Index as at that Valuation Date or, as the case may be, that Averaging Date as determined by the Determination Agent in its sole and absolute discretion in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event and (B) in the case of an Index Cancellation, the Issuer may, at any time thereafter and in its sole and absolute discretion, determine that the Warrants or Certificates shall be terminated as of any later date. If the Issuer so determines that the Warrants or Certificates shall be terminated, then the Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised, the entitlements of the respective exercising Securityholders to receive the Underlying Shares or ETF Interests or payment of the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) as of such later date and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such termination, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion. The Issuer's obligations under the Warrants or Certificates shall be satisfied in full upon payment of such amount. If the Issuer determines that the relevant Warrants or Certificates shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the exercise, settlement, or payment terms of the relevant Warrants or Certificates and/or any other adjustment (including without limitation, the substitution of the Index) which adjustment shall be effective on such date as the Determination Agent shall determine.

(c) Correction of Index Levels:

If the level of an Index published by the Index Sponsor and which is utilised by the Determination Agent for any calculation or determination (the "**Original Determination**") under the Securities is subsequently corrected and the correction (the "**Corrected Value**") is published by the Index Sponsor by such time as may

after the original publication and prior to the Maturity Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the "**Replacement Determination**") using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may adjust any relevant terms accordingly.

- (d) *Additional Disruption Events:* If Additional Disruption Events are specified as applicable in the applicable Pricing Supplement, then, if an Additional Disruption Event occurs in respect of an Index or Indices:
- (i) the Determination Agent will determine, in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the Conditions relating to the calculation of Cash Settlement Amount and/or any other amounts applicable to the Securities set out in the applicable Pricing Supplement and/or remove and/or substitute the affected Index, to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) by giving notice to Securityholders in accordance with Condition 22 (Notices), the Issuer, in its sole and absolute discretion, may redeem all, but not some only, of the Securities, each Security being redeemed at the Early Redemption Amount.

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice, as soon as practicable, to the Securityholders in accordance with Condition 22 (Notices) stating the occurrence of the Additional Disruption Event, as the case may be, giving details thereof and the action to be taken.

- (e) *Notice:* Upon the occurrence of an Index Adjustment Event, the Determination Agent shall give notice as soon as practicable to the Securityholders in accordance with Condition 22 (Notices) giving details of the action proposed to be taken in relation thereto.

7.3 *Inconvertibility Event:*

If the Issuer in good faith determines that an Inconvertibility Event has occurred, it may at any time thereafter, in its sole discretion give notice to the holders stating whether the Issuer's obligations under the Warrants or Certificates will be suspended or terminated (any election to suspend shall not preclude the Issuer at any time thereafter giving notice to terminate the relevant Warranties or Certificates), all as more fully set out in Condition 22 (*Notices*). If the Issuer elects to terminate the relevant Warrants or Certificates then the Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised, the entitlements of the respective exercising Securityholders to receive the Underlying Shares or ETF Interests or payment of the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) as of such later date and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such termination, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion. The Issuer's obligations under the Warrants or Certificates shall be satisfied in full upon payment of such amount. Upon the occurrence of any event that constitutes both an Inconvertibility Event and a Market Disruption Event or an event causing a Disrupted Day, it will be deemed to be a Market Disruption Event or an event causing a Disrupted Day and will not constitute an Inconvertibility Event.

7.4 *Adjustments affecting Underlying Shares and ETF Interests:*

This Condition 7.4 (*Adjustments affecting Underlying Shares and ETF Interests*) is applicable only in relation to Share Securities, ETF Securities, Share Basket Securities and ETF Basket Securities.

- (a) *Adjustments for Potential Adjustment Events:*

Following the declaration by the Underlying Share Issuer, the relevant ETF or an ETF Service Provider of the terms of a Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Underlying

considers appropriate, if any, to the Strike Price, to the formula for the Cash Settlement Amount and/or the Settlement Price set out in the applicable Pricing Supplement, the number of Underlying Shares or ETF Interests to which each Warrant or Certificate relates, the number of Underlying Shares or ETF Interests comprised in a Basket of Shares or Basket of ETF Interests, the amount, the number of or type of shares, fund interests or other securities which may be delivered in respect of such Warrants or Certificates and/or any other adjustment and, in any case, any other variable relevant to the exercise, settlement, payment or other terms of the relevant Warrants or Certificates as the Determination Agent determines, in its sole and absolute discretion, to be appropriate to account for that diluting or concentrative effect and (ii) determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s).

(b) Correction of Underlying Share and ETF Interest Prices:

If any price published on the Exchange and which is utilised by the Determination Agent for any calculation or determination (the "**Original Determination**") under the Warrants or Certificates is subsequently corrected and the correction (the "**Corrected Value**") is published by the Exchange by such time as may be specified in the applicable Pricing Supplement (or, if none is so specified, within one Settlement Cycle after the original publication and prior to the Expiration Date), then the Determination Agent will notify the Issuer and the Fiscal Agent of the Corrected Value as soon as reasonably practicable and shall determine the relevant value (the "**Replacement Determination**") using the Corrected Value. If the result of the Replacement Determination is different from the result of the Original Determination, to the extent that it determines to be necessary and practicable, the Determination Agent may adjust any relevant terms accordingly.

7.5 *Extraordinary Events:*

This Condition 7.5 (*Extraordinary Events*) is applicable only in relation to Warrants or Certificates specified in the applicable Pricing Supplement as being Share Securities, ETF Securities, Share Basket Securities or ETF Basket Securities.

(a) Merger Event or Tender Offer:

- (i) Following the occurrence of any Merger Event or Tender Offer, the Issuer will, in its sole and absolute discretion, determine whether the relevant Warrants or Certificates shall continue or shall be redeemed early.
- (ii) If the Issuer determines that the relevant Warrants or Certificates shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to the Strike Price, to the formula for the Cash Settlement Amount and/or the Settlement Price set out in the applicable Pricing Supplement, the number of Underlying Shares or ETF Interests to which each Warrant or Certificate relates, the number of Underlying Shares or ETF Interests comprised in a Basket of Shares or a Basket of ETF Interests, the amount, the number of or type of shares or other securities which may be delivered under such Warrants or Certificates and, in any case, any other variable relevant to the exercise, settlement, or payment terms of the relevant Warrants or Certificates and/or any other adjustment (including, without limitation, in relation to Share Basket Warrants or Certificates or ETF Basket Warrants or Certificates, the cancellation of terms applicable in respect of Underlying Shares or ETF Interests affected by the relevant Merger Event or Tender Offer) which adjustment shall be effective on such date as the Determination Agent shall determine.
- (iii) If the Issuer determines that the relevant Warrants or Certificates shall be terminated then the relevant Warrants or Certificates shall cease to be exercisable as of the Merger Date (in the case of a Merger Event) or Tender Offer Date (in the case of a Tender Offer) (or, in the case of any Warrants or Certificates which have been exercised but remain unsettled, the entitlements of the respective exercising Securityholders to receive Underlying Securities or the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) and the Issuer's obligations under the Warrants or Certificates shall be satisfied in full upon payment of the Merger Event Settlement Amount (as defined below) (in the case of a Merger Event) or Tender Offer Settlement Amount (in the case of a Tender Offer).
- (iv) For the purposes hereof:

"Merger Date" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Determination Agent in its sole and absolute discretion.

"Merger Event" means, in respect of any relevant Underlying Shares or ETF Interests, as determined by the Determination Agent, acting in a commercially reasonable manner, any: (i) reclassification or change of such Underlying Shares or ETF Interests that results in a transfer of or an irrevocable commitment to transfer all of such Underlying Shares or ETF Interests outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of the Underlying Share Issuer or ETF with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Underlying Share Issuer or ETF is the continuing entity and which does not result in a reclassification or change of all such Underlying Shares or ETF Interests outstanding), (iii) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Underlying Shares or ETF Interests of the Underlying Share Issuer or ETF that results in a transfer of or an irrevocable commitment to transfer all such Underlying Shares or ETF Interests (other than such Underlying Shares or ETF Interests owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Underlying Share Issuer or its subsidiaries or ETF or its sub funds with or into another entity in which the Underlying Share Issuer or ETF is the continuing entity and which does not result in a reclassification or change of all such Underlying Shares or ETF Interests outstanding but results in the outstanding Underlying Shares (other than Underlying Shares or ETF Interests owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Underlying Shares or ETF Interests immediately following such event (a **"Reverse Merger"**), in each case if the Merger Date is on or before, (A) in respect of Physical Settlement Securities, the later to occur of the Maturity Date and the Physical Settlement Date or, (B) in any other case, the final Valuation Date.

"Merger Event Settlement Amount" means an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of the Merger Event, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion.

"Tender Offer" means, in respect of any Underlying Shares or ETF Interests, as determined by the Determination Agent, acting in a commercially reasonable manner, a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Underlying Share Issuer or ETF, as determined by the Determination Agent, based upon the making of filings with governmental or self regulatory agencies or such other information as the Determination Agent deems relevant.

"Tender Offer Date" means, in respect of a Tender Offer, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained, as determined by the Determination Agent in its sole and absolute discretion.

"Tender Offer Settlement Amount" means an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of the Tender Offer, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion.

- (i) If in the determination of the Determination Agent, acting in a commercially reasonable manner:
- (A) all the Underlying Shares or ETF Interests or all or substantially all the assets of an Underlying Share Issuer or ETF are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof ("**Nationalisation**"); or
 - (B) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding up of, or any analogous proceeding affecting, an Underlying Share Issuer, ETF or ETF Service Provider, (1) all the Underlying Shares or ETF Interests of that Underlying Share Issuer are required to be transferred to a trustee, liquidator or other similar official or (2) holders of the Underlying Shares or ETF Interests of that Underlying Share Issuer, ETF or ETF Service Provider become legally prohibited from transferring them ("**Insolvency**"); or
 - (C) the Exchange announces that pursuant to the rules of such Exchange, the Underlying Shares or ETF Interests cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re listed, re traded or re quoted on an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in any Member State of the European Union) ("**Delisting**"),
- then the Issuer will, in its sole and absolute discretion, determine whether or not the Warrants or Certificates shall continue.
- (ii) If the Issuer determines that the relevant Warrants or Certificates shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to the Strike Price to the formula for the Cash Settlement Amount and/or the Settlement Price set out in the applicable Pricing Supplement, the number of Underlying Shares or ETF Interests to which each Warrant or Certificate relates, the number of Underlying Shares or ETF Interests comprised in a Basket of Shares, the amount, the number of or type of shares or other securities which may be delivered under such Warrants or Certificates and, in any case, any other variable relevant to the settlement or payment terms of the relevant Warrants or Certificates and/or any other adjustment (including without limitation, in relation to Share Basket Warrants or Certificates or ETF Basket Warrants or Certificates, the cancellation of terms applicable in respect of Underlying Shares or ETF Interests affected by the relevant Extraordinary Event) which change or adjustment shall be effective on such date as the Determination Agent shall determine.
- (iii) If the Issuer determines that the relevant Warrants or Certificates shall be terminated, then the relevant Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised but remain unsettled, the entitlements of the respective exercising Securityholders to receive Underlying Shares, ETF Interests or the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) as of the Announcement Date and the Issuer's obligations under the Warrants or Certificates shall be satisfied in full upon payment of an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such Nationalisation, Insolvency or Delisting, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion.
- (iv) For the purposes hereof, "**Announcement Date**" means, as determined by the Determination Agent in its sole and absolute discretion: (i) in the case of a Nationalisation, the date of the first public announcement to nationalise (whether or not subsequently amended) that leads to the Nationalisation, (ii) in the case of an Insolvency, the date of the first public announcement of the institution of a proceeding or presentation of a petition or passing of a resolution (or other analogous procedure in any jurisdiction) that leads to the Insolvency and (iii) in the case of a Delisting, the date

listed, traded or publicly quoted in the manner described in (a)(iii) above. In respect of any such event, if the announcement of such event is made after the actual closing time for the regular trading session on the relevant Exchange, without regard to any after hours or any other trading outside of regular trading session hours, the Announcement Date shall be deemed to be the next following Scheduled Trading Day.

7.6 *Extraordinary ETF Events*

This Condition 7.6 (*Extraordinary ETF Events*) is applicable only in relation to ETF Securities or ETF Basket Securities.

- (a) Following the occurrence of any Extraordinary ETF Event, the Issuer will, in its sole and absolute discretion, determine whether the relevant Warrants or Certificates shall continue or shall be redeemed early. The Determination Agent shall not have any obligation to monitor the occurrence of an Extraordinary ETF Event nor shall it have any obligation to make a determination of an Extraordinary ETF Event.
- (b) If the Issuer determines that the relevant Warrants or Certificates shall continue, the Determination Agent may:

In calculating the Relevant Price as set out in this paragraph, the Determination Agent shall use the formula for calculating the relevant

Commodity Index last in effect prior to the Commodity Index Disruption Event. For the purposes of this paragraph (iv), "**Trading Day**" shall mean a day when the exchanges for all Futures Contracts included in the relevant Commodity Index are scheduled to be open for trading.

- (c) *Physical Hedging Fallback:* Where the Determination Agent determines that a Commodity Index Disruption Event has occurred and is continuing in respect of a Series on the Pricing Date in respect of such Series and "Physical Hedging Fallback" is specified as applicable in the applicable Pricing Supplement, then the following provisions shall apply:
- (i) with respect to each Component included in the Commodity Index which is not affected by the Commodity Index Disruption Event, the Relevant Price will be based on the closing prices of each such Component on the applicable determination date;
 - (ii) with respect to each Component included in the Commodity Index which is affected by the Commodity Index Disruption Event, the Relevant Price will be based on the closing price of each such Component on the first day following the applicable determination date on which no Commodity Index Disruption Event occurs with respect to such Component;
 - (iii) subject to (d) below, the Determination Agent shall determine the Relevant Price by reference to the closing prices determined in (i) and (ii) above using the then-current method for calculating the Relevant Price; and
 - (iv) where a Commodity Index Disruption Event with respect to one or more Components included in the Commodity Index continues to exist (measured from and including the first day following the applicable determination date) for five consecutive Trading Days, the Determination Agent shall determine the Relevant Price in good faith and in a commercially reasonable manner. For the purposes of this paragraph (iv), "**Trading Day**" shall mean a day when the exchanges for all Futures Contracts included in the relevant Commodity Index are scheduled to be open for trading with respect to each Futures Contract included in the Commodity Index which is not affected by the Commodity Index Disruption Event, the Relevant Price will be based on the closing prices of each such contract on the applicable determination date.

10.6 *Adjustments to Commodity Index:*

- (a) If a Commodity Index is permanently cancelled or is not calculated and announced by the sponsor of such Commodity Index or any of its affiliates (together the "**Sponsor**") but (i) is calculated and announced by a successor sponsor (the "**Successor Sponsor**") acceptable to the Determination Agent, or (ii) replaced by a successor index (the "**Successor Index**") using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Commodity Index, then the Commodity Reference Price will be determined by the Index so calculated and announced by that Successor Sponsor or that Successor Index, as the case may be.
- (b) If, for a Commodity Index with respect to a Commodity Reference Price, on or prior to the Expiry Date or an Exercise Date, (i) the Sponsor makes a material change in the formula for or the method of calculating such Commodity Index or in any other way materially modifies such Commodity Index (other than a modification prescribed in that formula or method to maintain the Commodity Index in the event of changes in constituent commodities and weightings and other routine events), or (ii) the Sponsor permanently cancels the Commodity Index or (iii) the Sponsor fails to calculate and announce the Commodity Index for a continuous period of three Trading Days and the Determination Agent determines that there is no Successor Sponsor or Successor Index, then the Determination Agent may at its option (in the case of (i)) and shall (in the case of (ii) and (iii)) (such events (i) (ii) and (iii) to be collectively referred to as "**Index Adjustment Events**") calculate the Relevant Price using in lieu of the published level for that Commodity Index (if any), the level for that Commodity Index as at the relevant determination date as determined by the Determination Agent in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Index Adjustment Event (as the case may be), but using only those Futures Contracts that comprised that Index immediately prior to the relevant Index Adjustment Event (as the case may be) (other than those futures contracts that have ceased to be listed on any relevant exchange).

10.7 *Additional Disruption Events:*

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Warrants and Certificates shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Warrants or Certificates shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the redemption, settlement, or payment terms of the relevant Warrants or Certificates and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine.
- (c) If the Issuer determines that the relevant Warrants or Certificates shall be terminated, then the Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised, the entitlements of the respective exercising Securityholders to receive the relevant Commodity or payment of the Cash Settlement Amount pursuant to such exercise shall cease) as of such later date and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such termination, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion.
- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Principal Securities Agent and the Determination Agent of the occurrence of an Additional Disruption Event.

11. PROVISIONS RELATING TO PHYSICAL SETTLEMENT SECURITIES

This Condition 11 (*Provisions relating to Physical Settlement Securities*) is applicable only in relation to Warrants or Certificates specified in the applicable Pricing Supplement as being Physical Settlement Securities.

11.1 *Settlement Disruption:*

- (a) The Determination Agent shall determine, acting in a commercially reasonable manner, whether or not at any time a Settlement Disruption Event has occurred and where it determines such an event has occurred and so has prevented delivery of Underlying Securities on the original day that but for such Settlement Disruption Event would have been the Physical Settlement Date, then the Physical Settlement Date will be the first succeeding day on which delivery of such Underlying Securities can take place through the relevant Clearing System unless a Settlement Disruption Event prevents settlement on each of the 10 relevant Clearing System Business Days immediately following the original date or during such other period specified in the applicable Pricing Supplement that, but for the Settlement Disruption Event, would have been the Physical Settlement Date. In that case, if the Underlying Securities are bonds or other debt securities, the Issuer shall use reasonable efforts to deliver such Underlying Securities promptly thereafter in a commercially reasonable manner outside the relevant Clearing System or exchange on a delivery versus payment basis, and in all other cases: (a) if such Underlying Securities can be delivered in any other commercially reasonable manner, then the Physical Settlement Date will be the first day on which settlement of a sale of Underlying Securities executed on that 10th relevant Clearing System Business Day, or during such other period specified in the applicable Pricing Supplement, customarily would take place using such other commercially reasonable manner of delivery (which other manner of delivery will be deemed the relevant Clearing System for the purpose of delivery of the relevant Underlying Securities), and (b) if such Underlying Securities cannot be delivered in any other commercially reasonable manner, then the Physical Settlement Date will be postponed until delivery can be effected through the relevant Clearing System or in any other commercially reasonable manner, as determined by the Determination Agent.
- (b) For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Underlying Securities comprised in a Basket, the Physical Settlement Date for Underlying Securities not affected by the Settlement Disruption Event will be the first day on which settlement of a sale of such Underlying Securities executed on that Exercise Date customarily would take place through the relevant Clearing System. In the event that a Settlement Disruption Event will result in the delivery on a Physical Settlement Date of some but not all of the Underlying Securities comprised in a Basket, the Determination Agent shall determine in its sole and absolute discretion the appropriate pro rata portion of the Strike Price (if any) to be paid by the relevant party in respect of that partial settlement.

- (c) For the purposes hereof, "**Settlement Disruption Event**" in relation to an Underlying Security means an event beyond the control of the Issuer as a result of which or following which the relevant Clearing System cannot clear the transfer or otherwise prevents the settlement of such Underlying Security.

11.2 *Delivery Disruption:*

- (a) If the Determination Agent determines, acting in a commercially reasonable manner, that a Delivery Disruption Event has occurred and the Determination Agent has notified the Issuer, the Principal Securities Agent and the relevant Securityholder(s) within one Clearing System Business Day of the relevant Exercise Date to that effect, then the Issuer may:
- (i) determine, in its sole and absolute discretion, that the obligation to deliver the relevant Underlying Securities will be terminated and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of the relevant delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such Delivery Disruption Event, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion, in which event the entitlements of the respective exercising Securityholders to receive Underlying Securities pursuant to such exercise shall cease and the Issuer's obligations under the Warrants or Certificates shall be satisfied in full upon payment of such amount; or
 - (ii) deliver on the Physical Settlement Date such number of Underlying Securities (if any) as it can deliver on that date and pay an amount, as determined by the Determination Agent in its sole and absolute discretion, which shall seek to preserve for the Securityholder the economic equivalent of the delivery of the remainder of Underlying Securities (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such Delivery Disruption Event, in which event the entitlements of the respective exercising Securityholders to receive Underlying Securities pursuant to such exercise shall cease and the Issuer's obligations under the Warrants or Certificates shall be satisfied in full upon delivery of such number of Underlying Securities and payment of such amount.
- (b) For the purposes hereof, "**Delivery Disruption Event**" means the failure by the Issuer or the Principal Securities Agent to deliver on the relevant Physical Settlement Date the requisite number of relevant Underlying Securities under the relevant Warrant or Certificate which is due to illiquidity in the market for such Underlying Securities.

12. **INFLATION SECURITIES**

This Condition 12 12.2(b) 12.2(c) 12.2(d) (*Inflation Securities*) is applicable only in relation to Warrants and Certificates specified in the applicable Pricing Supplement as being Inflation Securities.

- 12.1 *Delay of Publication:* If any level of an Index for a Reference Month which is relevant to the calculation of a amount payable under the Warrants or Certificates (a "**Relevant Level**") has not been published or announced by the day that is five Business Days prior to the next Exercise Date under the Warrants or Certificates, the Determination Agent shall determine a Substitute Index Level (in place of such Relevant Level) in a commercially reasonable manner in its sole discretion. If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next Exercise Date, such Relevant Level will not be used in any calculations. The Substitute Index Level so determined pursuant to this Condition 12.1 (*Delay of Publication*), will be the definitive level for that Reference Month.
- 12.2 *Cessation of Publication:* If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index then the Determination Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Warrants or Certificates by using the following methodology:

- (a) If at any time a Successor Index has been designated by the calculation agent of the Related Bond pursuant to the terms and conditions of the Related Bond, such Successor Index shall be designated a "Successor Index" for the purposes of all subsequent Exercise Dates in relation to the Warrants or Certificates, notwithstanding that any other Successor Index may previously have been determined under Conditions 12.2(b), 12.2(c) or 12.2(d) below; or
 - (b) If a Successor Index has not been determined under Condition 12.2(a) above and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Index will be superseded by a replacement index specified by the Index Sponsor, and the Determination Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Index for purposes of the Warrants or Certificates from the date that such replacement index comes into effect; or
 - (c) If a Successor Index has not been determined under Condition 12.2(a) or 12.2(b) above, the Determination Agent shall ask five leading independent dealers to state what the replacement Index for the Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same Index, this Index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same Index, this Index will be deemed the "Successor Index". If fewer than three responses are received, the Determination Agent will proceed to Condition 12.2(d) below; or
 - (d) If no Successor Index has been determined under Condition 12.2(a), 12.2(b) or 12.2(c) above by the fifth Business Day prior to the next Affected Exercise Date the Determination Agent will determine an appropriate alternative index for such Affected Exercise Date, and such index will be deemed a "Successor Index"; the Determination Agent shall determine the method of determining the Relevant Level if no such alternative Index is available.
- 12.3 *Rebasing of the Index:* If the Determination Agent determines that an Index has been or will be rebased at any time, the Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of such Index from the date of such rebasing; provided, however, that the Determination Agent shall make such adjustments as are made by the calculation agent of the Related Bond pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. If there is no Related Bond, the Determination Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Warrants or Certificates.
- 12.4 *Material Modification Prior to Payment Date:* If, on or prior to the day that is five Business Days before an Exercise Date, an Index Sponsor announces that it will make a material change to an Index then the Determination Agent shall make any such adjustments to the Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Index to continue as the Index.
- 12.5 *Manifest Error in Publication:* If, within thirty days of publication and prior to the Expiration Date or payments in respect of any relevant Exercise Date, the Determination Agent determines that the Index Sponsor has corrected the level of the Index to remedy a manifest error in its original publication, the Determination Agent will notify the holders of the Warrants or Certificates in accordance with Condition 22 (*Notices*) of (i) that correction, (ii) the adjusted amount that is then payable under the Warrant or Certificates as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction, provided that any amount payable pursuant to sub-paragraph (ii) above shall be paid (with no interest accruing thereon) (a) in connection with an Index Sponsor's correction to remedy a manifest error in the level of an Index for a Reference Month for which the Specified Interest Payment Date has occurred, within five Business Days after notice of such amount payable by the Determination Agent, (b) in connection with an Index Sponsor's correction to remedy a manifest error in the level of an Index for a Reference Month for which the Specified Interest Payment Date has not occurred, as an adjustment to the payment obligation on the next Specified Interest Payment Date or (c) if there is no further Specified Interest Payment Date, within five Business Days after notice of such amount payable by the Determination Agent.
- 12.6 *Additional Disruption Events:*

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Warrants and Certificates shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Warrants or Certificates shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the redemption, settlement, or payment terms of the relevant Warrants or Certificates and/or any other adjustment which change or adjustment shall be effective on such date as the Determination Agent shall determine.
- (c) If the Issuer determines that the relevant Warrants or Certificates shall be terminated, then the Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised, the entitlements of the respective exercising Securityholders to receive payment of the Cash Settlement Amount pursuant to such exercise shall cease) as of such later date and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such termination, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion.
- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Principal Securities Agent and the Determination Agent of the occurrence of an Additional Disruption Event.
- (e) For the purposes hereof:

"Additional Disruption Event" means with respect to any Series of Warrants or Certificates (unless otherwise specified in the applicable Pricing Supplement) a Change in Law, Hedging Disruption, Increased Cost of Hedging and any further event or events as may be specified in the applicable Pricing Supplement as an Additional Disruption Event with respect to such Warrants or Certificates.

12.7 *Definitions Applicable to Inflation Securities*

In relation to Inflation Securities the following expressions have the meanings set out below:

"Affected Exercise Date" means each Exercise Date in respect of which an Index has not been published or announced;

"Change in Law" means that, on or after the Trade Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (x) it has become illegal to hold, acquire or dispose of Hedge Positions or (y) it will incur a materially increased cost in performing its obligations with respect to the Warrants or Certificates (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

"Fallback Bond" means a bond selected by the Determination Agent and issued by the government of the country to whose level of inflation the Index relates and which pays a coupon or redemption amount which is calculated by reference to the Index, with a maturity date which falls on (a) the same date as the Settlement Election Date, (b) the next longest maturity after the Settlement Election Date or (c) the next shortest maturity before the Settlement Election Date if no bond is defined in (a) and (b) is selected by the Determination Agent. If the Index relates to the level of inflation across the European Monetary Union, the Determination Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Determination Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Settlement Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Determination Agent from those bonds. If the Fallback Bond redeems

the Determination Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

"Hedge Positions" means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, commodities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Warrants or Certificates;

"Hedging Disruption" means that the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations under the Warrants or Certificates, or (B) realise, recover or remit the proceeds of any such transactions or asset(s);

"Increased Cost of Hedging" means that the Issuer would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the Warrants or Certificates or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s) provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging;

"Index" means any index specified as such in the applicable Pricing Supplement;

"Index Sponsor" means, in respect of an Index, the corporation or other entity that (a) is responsible for setting and reviewing the rules and procedures and methods of calculation and adjustments, if any, related to the relevant Index and (b) announces (directly or through an agent) the level of the relevant Index on a regular basis during each Scheduled Trading Day;

"Reference Month" means the calendar month for which the level of the relevant Index was reported, regardless of when this information is published or announced. If the period for which the Index level was reported is a period other than a month, the Reference Month will be the period for which the Index level was reported;

"Related Bond" means the bond specified in the applicable Pricing Supplement, or if no bond is so specified, the Fallback Bond. If the Related Bond is "Fallback Bond", then for any Related Bond determination under these Conditions, the Determination Agent shall use the Fallback Bond (as that is defined in this Condition 12.7 (*Definitions Applicable to Inflation Securities*) herein). If no bond is specified in the applicable Pricing Supplement as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Pricing Supplement there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Pricing Supplement, and that bond redeems or matures before the relevant Maturity Date, unless "Fallback Bond: Not Applicable" is specified in the applicable Pricing Supplement, the Determination Agent shall use the Fallback Bond for any Related Bond determination;

"Substitute Index Level" means an Index level, determined by the Determination Agent pursuant to the provisions of Condition 12.1 (*Delay of Publication*), in respect of an Affected Exercise Date; and

"Successor Index" has the meaning specified in Condition 12.2 (*Cessation of Publication*).

13. **PROPERTY SECURITIES**

This Condition 13 (*Property Securities*) is applicable only in relation to Warrants or Certificates specified in the applicable Pricing Supplement as being Property Securities

13.1 *Rebasing of the Property Index*

If the Determination Agent determines that an Index has been or will be Rebased at any time (the Property Index as so Rebased, the **"Rebased Property Index"**), the Rebased Property Index will be used for the purposes of determining the level of the Property Index from the date of such Rebasing, provided however, that the Determination Agent shall adjust the terms of the Warrants or Certificates so that the use of the

Rebased Property Index reflects what would have been the performance of the Index had the Rebasing not occurred save that any such Rebasing shall not affect any prior payments under the Warrants or Certificates.

13.2 *Error in Publication*

If the Determination Agent determines that an Error in Publication has occurred with respect to the Property Index, the Determination Agent may (a) use the corrected level of the Property Index to make any relevant calculations and/or (b) make any necessary adjustments to the relevant Property Index Level and such other terms of the Warrants or Certificates as it in its sole and absolute discretion determines to be appropriate to account for such Error in Publication.

For these purposes:

An "**Error in Publication**" will occur if the Property Index Sponsor announces that an error has occurred with respect to the Property Index Level as published on any Publication Date; the Property Index Level for such Publication Date is corrected to remedy such error; and the correction is published by the Index Sponsor at any time prior to the next following Scheduled Publication Date or if earlier any relevant determination date. An Error in Publication will not include a routine revision in the level of the Index in a regularly scheduled republication of the Index.

13.3 *Delay in Publication*

If the Property Index Level has not been announced by the Scheduled Publication Date or if earlier any relevant determination date, the following will apply:

- (a) if the Property Index Sponsor publishes a provisional Property Index Level prior to the next Scheduled Publication Date or if earlier any relevant determination date, such provisional level of the Property Index for that Measurement Period shall apply for the purposes of the Notes; or
- (b) if the Property Index Sponsor fails to publish the Property Index Level prior to the next occurring Scheduled Publication Date or if earlier any relevant determination date, a Property Index Disruption Event shall be deemed to have occurred and Condition 13.5 (*Property Index Disruption Event*) shall apply.

13.4 *Methodology Adjustment*

If the Property Index Sponsor announces that it has changed the methodology in calculating a Property Index and:

- (a) continues publication of a property index based on the original methodology (the "**Replacement Property Index**"), such Replacement Property Index shall apply in lieu of the original Property Index in relation to the Warrants or Certificates; or
- (b) discontinues publication of the Property Index based on the original Computational Methodology, a Property Index Disruption Event shall be deemed to have occurred and the procedure set out in Condition 13.5 (*Property Index Disruption Event*) shall apply.

13.5 *Property Index Disruption Event*

Following the occurrence of a Property Index Disruption Event, the Issuer shall, in its sole and absolute discretion, determine whether or not the relevant Warrants or Certificates shall continue or be redeemed early. If the Issuer determines that the relevant Warrants or Certificates shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its sole and absolute discretion, considers appropriate, to preserve the economic value of the Warrants or Certificates. If the Issuer determines that the Warrants or Certificates shall be terminated, then the Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised, the entitlements of the respective exercising Securityholders to receive payment of the Cash Settlement Amount pursuant to such exercise shall cease) as of such later date and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming

- (c) If the Issuer determines that the relevant Warrants or Certificates shall be terminated, then the Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised, the entitlements of the respective exercising Securityholders to receive payment of the Cash Settlement Amount pursuant to such exercise shall cease) as of such later date and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such termination, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion.

This Condition 14 (*Fund Securities*) shall apply only to Warrants or Certificates specified in the applicable Pricing Supplement as being Fund Securities or Fund Basket Securities.

14.1 *Adjustments for Disrupted Days*

- (a) The Determination Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence or continuance of a Disrupted Day, would have been a Valuation Date.
- (b) If any Valuation Date is a Disrupted Day, then:
 - (i) in the case of Fund Securities, the Valuation Date shall be the next succeeding day that is not a Disrupted Day, unless no day that is not a Disrupted Day has occurred prior to the last day of one Cut-off Period following the Scheduled Valuation Date. In that case, (i) the last day of such Cut-off Period shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Determination Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time on that deemed Valuation Date; or
 - (ii) in the case of Fund Basket Securities, the Valuation Date for each Fund Interest not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Fund Interest affected by the occurrence of a Disrupted Day shall be the first succeeding day that is not a Disrupted Day relating to that Fund Interest, unless no day that is not a Disrupted Day has occurred prior to the last day of one Cut-off Period following the Scheduled Valuation Date. In that case, (i) the last day of such Cut-off Period shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Determination Agent shall

determine its good faith estimate of the value for that Fund Interest as of the Valuation Time on that deemed Valuation Date.

In addition, the Determination Agent will account for such occurrence or continuance of a Disrupted Day as it sees fit which may include but is not limited to delaying calculation and payment of the Cash Settlement Amount and/or any other amounts payable under the Warrants or Certificates, and no interest or other amount shall be payable to Securityholders in respect of any such delay, or making the appropriate adjustment to the calculation of the Cash Settlement Amount and/or any such other amounts, all in the determination of the Determination Agent.

- (c) If Averaging Dates are specified in the applicable Pricing Supplement with respect to a Valuation Date then the following provisions will apply. If any Averaging Date is a Disrupted Day
- (i) in the case of Fund Securities, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (2) the Determination Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time on that deemed Averaging Date, where "**Valid Date**" means a Business Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur; and
 - (ii) in the case of Fund Basket Securities, the Averaging Date for each Fund Interest not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Pricing Supplement as that Averaging Date and the Averaging Date for any Fund Interest affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Fund Interest. If the first succeeding Valid Date has not occurred prior to one Cut-off Period following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (1) the last day of such Cut-off Period shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (2) the Determination Agent shall determine its good faith estimate of the value for that Fund Interest as of the Valuation Time on that deemed Averaging Date.

In addition, the Determination Agent will account for such occurrence or continuance of a Disrupted Day as it sees fit which may include but is not limited to delaying calculation and payment of the Cash Settlement Amount and/or any other amounts payable under the Warrants or Certificates, and no interest or other amount shall be payable to Securityholders in respect of any such delay, or making the appropriate adjustment to the calculation of the Cash Settlement Amount and/or any such other amounts, all in the determination of the Determination Agent.

14.2 *Postponement of Settlement*

- (a) Unless otherwise specified in the applicable Pricing Supplement, if the Determination Agent determines on the date which is not later than 3 Business Days prior to any date on which the Cash Settlement Amount or any other amounts would otherwise be due to be paid (each a "**Scheduled Settlement Date**") that a Settlement Postponement Event has occurred, then the Determination Agent shall make such adjustment to account for such Settlement Postponement Event and such adjustment shall include the postponement of the obligation of the Issuer to pay the Cash Settlement Amount or any such other amounts, as applicable, until the Postponed Settlement Date and no interest or other amount shall be payable to Securityholders in respect of such postponement.
- (b) If the Postponed Settlement Date is the Postponed Settlement Long Stop Date, for the purposes of determining the Cash Settlement Amount or any other relevant amounts, as applicable, whether determined by reference to the Reference Price or otherwise, each Fund Interest Unit will be deemed to have a value equal to the redemption proceeds (if any) that a Hypothetical Investor which had submitted a Final Redemption Notice in respect of such Fund Interest Unit would have received in respect of such redemption on or before the Postponed Settlement Long Stop Date (in the case of Fund Securities) or each Long Stop Date Fund Interest Unit (if any) comprising the Basket of Funds will be deemed to have a value equal to the redemption proceeds (if any) that a Hypothetical Investor which had submitted a Final Redemption Notice in

respect of such Long Stop Date Fund Interest Unit would have received in respect of such redemption on or before the Postponed Settlement Long Stop Date.

(c) For the purposes hereof:

- (i) a "**Settlement Postponement Event**" shall be deemed to occur if, as determined by the Determination Agent, a Hypothetical Investor which had submitted a Final Redemption Notice in respect of the Fund Interest Units (in the case of a Fund Security) or each Fund Interest Unit comprised in the Basket of Funds (in the case of a Fund Basket Security) would not have received in full the redemption proceeds in respect of such redemptions on or before the date which is 4 Business Days prior to the Scheduled Settlement Date;
- (ii) the "**Postponed Settlement Date**" means, unless otherwise specified in the applicable Pricing Supplement, the earlier of (x) the date which is 3 Business Days after the date on which, as determined by the Determination Agent, such Hypothetical Investor would have received such redemption proceeds in full and (y) the Postponed Settlement Long Stop Date;

Following the declaration by any Fund or Fund Service Provider of the terms of any Potential Adjustment Event, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest Units or amount of Fund Interest and, if so, will (i) make the corresponding adjustment(s), if any, to any one or more of the Cash Settlement Amount and/or any such other amounts payable under the Warrants or Certificates, the Reference Price, any Relevant Fund Interest Unit Price and, in any case, any other variable relevant to the calculation, valuation, payment or other terms of Warrants or Certificates as the Determination Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends or liquidity relative to the relevant Fund Interest) and (ii) determine the effective date(s) of the adjustment(s).

14.4 *Corrections and Adjustment*

With the exception of any Adjustments (as defined below) made after the day which is 5 Business Days, unless otherwise specified in the applicable Pricing Supplement, prior to a due date for any payment under the Warrants or Certificates calculated by reference to the price or level of any Fund Interest Unit, if the Determination Agent determines that a Fund adjusts the Redemption Proceeds that would have been paid to a Hypothetical Investor redeeming the number of Fund Interest Units that are subject to valuation and such adjustment would be reflected in either an additional payment to such Hypothetical Investor or a claim for repayment of excess Redemption Proceeds made against such Hypothetical Investor (each an "**Adjustment**"), then the price or level to be used shall be the price or level of the relevant Fund Interest Units as so adjusted.

14.5 *Fund Events*

 - (i) to substitute any Affected Fund Interest with the Successor Fund Interest relating to such Affected Fund Interest, provided that if no Successor Fund has been identified in the manner set forth below within 10 Business Days of the Fund Event Notice, then sub-paragraph (ii) below shall apply; or
 - (ii) to make such adjustment to account for such Fund Event as it considers appropriate which may include, without limitation, delaying the calculation and payment of the Cash Settlement Amount and/or any such other amounts payable under the Warrants or Certificates, and no interest or other amount shall be payable to Securityholders in respect of any such delay, or making an adjustment to the calculation of the Cash Settlement Amount and/or any such other amounts due under the Warrants or Certificates, all in the determination of the Determination Agent.

For the purposes of this Condition 14.5(c):

- (A) "**Successor Fund Interest**" means, in respect of any Affected Fund Interest, the related Eligible Fund Interest or, if the applicable Pricing Supplement do not specify any Eligible Fund Interest relating to such Affected Fund Interest, then the Determination Agent will use commercially reasonable efforts to identify a Successor Fund Interest based on the eligibility criteria specified in the applicable Pricing Supplement or, if the applicable Pricing Supplement do not specify any such eligibility criteria, with characteristics, investment objectives and policies similar to those in effect for the Affected Fund Interest immediately prior to the occurrence of the relevant Fund Event; and
 - (B) any substitution of the Successor Fund Interest for the Affected Fund Interest shall be effected at such time and in such manner as specified in the applicable Pricing Supplement or, if the time and manner for substitution of the Successor Fund Interest is not specified in the applicable Pricing Supplement, then the Affected Fund Interest shall be replaced by a number of Fund Interest Units of the Successor Fund Interest with a combined value (as determined by the Determination Agent) equal to the relevant Removal Value of the applicable number of Fund Interest Units of the Affected Fund Interest. Such replacement shall be effected, from time to time whenever the Removal Value changes, on the date, as determined by the Determination Agent, on which the Fund issuing the Successor Fund Interest would admit a Hypothetical Investor who, on the Fund Business Day next following the date on which any Removal Value not previously applied toward any Successor Fund Interest would be received by such Hypothetical Investor redeeming out of the relevant amount of Affected Fund Interest, had submitted a valid order to purchase such amount of the Successor Fund Interest; and
 - (C) if necessary, the Determination Agent will adjust any relevant terms, including, but not limited to adjustments to account for changes in volatility, investment strategy or liquidity relevant to such Fund Interests or the Warrants or Certificates.
- (d) If the Issuer determines that the relevant Warrants or Certificates shall be terminated, then the Issuer shall redeem each Warrant or Certificate at its Fund-Linked Cash Settlement Amount on such date as the Issuer may notify to Securityholders in accordance with Condition 22 (*Notices*).

19. **TAXES**

- 19.1 A Securityholder subscribing, purchasing or exercising a Warrant or Certificate shall pay all Taxes and securities transfer taxes and any other charges, if any payable in connection with the subscription, issue, purchase or exercise of such Warrant or Certificate and the payment of the Cash Settlement Amount and/or the delivery of any Underlying Securities as a result of such exercise. The Issuer shall have the right, but not the duty, to withhold or deduct from any amounts otherwise payable to a Securityholder such amount as is necessary for the payment of any such taxes, duties or charges or for effecting reimbursement in accordance with Condition 19.2 below.
- 19.2 In any case where the Issuer is obliged to pay any such tax, duty or charge referred to in Condition 19.1 above, the relevant Securityholder shall promptly reimburse the Issuer therefor.
- 19.3 The Issuer shall not be liable for or otherwise be obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, issue, transfer or exercise of any Warrants or Certificates.
- 19.4 If "**Implementation of Financial Transaction Tax**" is specified in the applicable Pricing Supplement to be applicable to any Series of Warrants or Certificates, then upon the occurrence of an Implementation of Financial Transaction Tax, the Issuer may (i) in its sole discretion, with immediate effect amend the Conditions of the Warrants or Certificates by adjusting downward any amount payable and/or any other value or term of the Conditions to account for the economic impact of the Implementation of Financial Transaction Tax on the Issuer and its Affiliates in relation to the Warrants or Certificates, and (ii) to the extent that at any time thereafter the Issuer determines (acting in good faith and in a commercially reasonable manner) that it (including its Affiliates) has incurred additional loss as a result of the Implementation of Financial Transaction Tax that has not been accounted for through the adjustment made pursuant to sub-paragraph (i) (such amount, "**Additional Increased Tax**"), it may reduce the amount otherwise payable on the Warrants or Certificates on the next payment date (and any payment date thereafter) by an amount up to the Additional Increased Tax amount. Any such adjustments shall be notified to Securityholders as soon as reasonably practicable. If an event or circumstance which would otherwise constitute a Change in Law or Increased Cost of Hedging (where applicable) also constitutes an Implementation of Financial Transaction Tax, it will be treated as an Implementation of Financial Transaction Tax.

20. **EVENTS OF DEFAULT**

- 20.1 If any of the following events (each, an "Event of Default") occurs and is continuing:
- (a) *Non-payment:* in the case of Morgan Stanley Securities, Morgan Stanley or, in the case of MSFL Securities, either MSFL or the Guarantor fails to pay any amount due in respect of the Warrants or Certificates within seven days of the due date for payment thereof; or
 - (b) *Breach of Other Obligations:* the applicable Issuer except for reason of insolvency defaults in the performance or observance of any of its other obligations under or in respect of the Securities and such default remains unremedied for sixty days after written notice thereof, addressed to the Issuer by Securityholders of not less than 25 per cent. in aggregate principal amount of the relevant Series, has been delivered to the Issuer and to the Specified Office of the Principal Securities Agent; or
 - (c) *Insolvency, etc.:*
 - (i) the Issuer becomes insolvent or is unable to pay its debts as they fall due;

- (ii) an administrator or liquidator of the Issuer or the whole or a substantial part of the undertaking, assets and revenues of the Issuer is appointed (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent);
- (iii) the Issuer takes any action for a composition with or for the benefit of its creditors generally, or
- (iv) an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer (otherwise than for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent), and such order or effective resolution has remained in force and has not been rescinded, revoked or set aside for sixty days after the date on which such order is made or effective resolution is passed,

then Securityholders of not less than 25 per cent. in aggregate principal amount of the Securities may, by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Principal Securities Agent, declare the Securities to be immediately terminated, whereupon the Warrants or Certificates shall cease to be exercisable (or, in the case of any Warrants or Certificates which have been exercised, the entitlements of the respective exercising Securityholders to receive the payment of the Cash Settlement Amount pursuant to such exercise shall cease) as of such later date and the Issuer will pay an amount which the Determination Agent, in its sole and absolute discretion, determines is the fair value to the Securityholder of a Warrant or Certificate with terms that would preserve for the Securityholder the economic equivalent of any payment or delivery (assuming satisfaction of each applicable condition precedent) to which the Securityholder would have been entitled under the relevant Warrant or Certificate after that date but for the occurrence of such termination, less the cost to the Issuer of, or the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion, whereupon the relevant Securityholder will be entitled to receive an amount (or in accordance with any other provisions specified in the applicable Pricing Supplement) without further action or formality. Notice of any such declaration shall promptly be given to the Securityholders.

In the case of MSFL Securities, nothing herein contained shall be deemed to authorise any Securityholder to exercise any remedy against MSFL or the Guarantor solely as a result of, or because it is related directly or indirectly to, the insolvency of the Guarantor or the commencement of any proceedings relative to the Guarantor under Title 11 of the United States Code, or the appointment of a receiver for the Guarantor under Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 or the commencement of any other applicable federal or state bankruptcy, insolvency, resolution or other similar law, or solely as a result of, or because it is related directly or indirectly to, a receiver, assignee or trustee in bankruptcy or reorganization, liquidator, sequestrator or similar official having been appointed for or having taken possession of the Guarantor or its property, or solely as a result of, or because it is related directly or indirectly to, the institution of any other comparable judicial or regulatory proceedings relative to the Guarantor, or to the creditors or property of the Guarantor. Notwithstanding the foregoing, Securityholders are authorised to exercise any remedy against MSFL as a result of an Event of Default described in this Section 20.1(c).

- 20.2 *Annulment of Acceleration and Waiver of Defaults.* In some circumstances, if any or all Events of Default have been cured, waived or otherwise remedied, then the holders of a majority in aggregate nominal amount or number of Warrants or Certificates of such Series (voting as one class) may waive past defaults of the Warrants or Certificates. However, any continuing default in payment on those Securities may not be waived.

21. **FORCE MAJEURE AND ILLEGALITY**

- 21.1 The Issuer shall have the right to terminate the Warrants or Certificates if it shall have determined, in its sole and absolute discretion, that its performance thereunder shall have become or will be unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power ("**applicable law**").
- 21.2 In such circumstances the Issuer will, however, if and to the extent permitted by applicable law, pay to each Securityholder in respect of each Warrant or Certificate held by him an amount determined by the Determination Agent, in its sole and absolute discretion, as representing the fair market value of such Warrant

the loss realised by the Issuer on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Determination Agent in its sole and absolute discretion. Payment will be made to the relevant Clearing System in such manner as shall be notified to the Securityholders in accordance with Condition 22 (*Notices*).

22. NOTICES

- 22.1 *Registered Warrants and Registered Certificates:* Notices to holders of Registered Warrants and Registered Certificates shall be sent to them by first class mail (or its equivalent) or (if posted to an overseas address) by airmail at their respective addresses on the Register and, if the Registered Warrants and Registered Certificates are admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market notices to holders of Registered Warrants and Registered Certificates will be published in accordance with the rules of the Irish Stock Exchange. Any such notice shall be deemed to have been given on the fourth day after the date of mailing.
- 22.2 *Warrants and Certificates admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market:* In relation to Warrants and Certificates admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market, notices to Securityholders will be published in accordance with the rules of the Irish Stock Exchange.
- 22.3 *Warrants and Certificates listed on the SIX Swiss Exchange:* In relation to Warrants and Certificates admitted to listing on the SIX Swiss Exchange, notices to Securityholders will be published in accordance with the regulations of the SIX Swiss Exchange in German and French language, if permitted and/or required by the applicable rules and regulations of the SIX Swiss Exchange. If the applicable rules and regulations of the SIX Swiss Exchange do not permit publication of notices on its website only, notices will be published in German and/or French language in one major daily or weekly newspaper in Switzerland or on the website www.morganstanleyiq.com if permitted by the rules and regulations of the SIX Swiss Exchange.
- 22.4 *Unlisted Warrants and Certificates:* Notices to Securityholders of non-listed Warrants and Certificates may be published, as specified in the applicable Pricing Supplement, in newspapers, on a website or otherwise.

23. LOSSES

In no event shall the Issuer or the Agents have any liability for indirect, incidental, consequential or other damages (whether or not it may have been advised of the possibility of such damages) other than interest until the date of payment on sums not paid when due in respect of any Warrants, Certificates or assets not delivered when due. Securityholders are entitled to damages only and are not entitled to the remedy of specific performance in respect of a Warrant or Certificate.

24. PRESCRIPTION

Claims of payment or delivery in respect of Registered Warrants and Registered Certificates shall become void unless the relevant Individual Registered Securities are surrendered for payment or delivery within ten years of the appropriate relevant due date for payment or delivery.

25. REPLACEMENT OF SECURITIES

If any Security is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Securities Registrar during normal business hours (and, if the Securities are then admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Securities Agent or a Securities Transfer Agent in any particular place, the Securities Agent or Securities Transfer Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system), subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced forms must be surrendered before replacements will be issued.

26. SEVERANCE, MEETINGS OF SECURITYHOLDERS AND MODIFICATION OF CONDITIONS

- 26.1 *Meetings of Securityholders:* The Securities Agency Agreement contains provisions for convening meetings of Securityholders to consider matters relating to the Securities, including the modification of any provision of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and shall be convened by it upon the request in writing of Securityholders holding not less than one tenth of the aggregate nominal amount or number of the outstanding Warrants or Certificates. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more Persons holding or representing one more than half of the aggregate amount or number, as applicable, of the outstanding Warrants or Certificates or, at any adjourned meeting, two or more Persons being or representing Securityholders whatever the amount or number of the Warrants or Certificates held or represented, provided, however, that Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Securityholders at which two or more Persons holding or representing not less than three quarters or, at any adjourned meeting, one quarter of the aggregate amount or number, as applicable of the outstanding Warrants or Certificates form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Securityholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Securityholders who for the time being are entitled to receive notice of a meeting of Securityholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Securityholders.

- 26.2 *Severance:* Should any of the provisions contained in these Conditions be or become invalid, the validity of the remaining provisions shall not be affected in any way.
- 26.3 *Modification:* The Issuer may modify the Conditions, the Securities Agency Agreement and the Deed of Covenant without the consent of the Securityholders for the purposes of curing any ambiguity or correcting or supplementing any provision contained herein in any manner which the Issuer may deem necessary or desirable, **provided that** such modification is not materially prejudicial to the interests of the Securityholders. Notice of any such modification will be given to the Securityholders in accordance with Condition 22 (*Notices*) but failure to give, or non-receipt of, such notice will not affect the validity of such modification.

27. **FURTHER ISSUES**

The Issuer is at liberty from time to time without the consent of the Securityholders to create and issue further Warrants or Certificates of any particular Series so as to form a single series with the Warrants or Certificates of such Series, but upon such terms as to issue price and otherwise as the Issuer may determine in its sole and absolute discretion.

28. **PURCHASE OF WARRANTS AND CERTIFICATES BY ISSUER OR AFFILIATE**

The Issuer or an Affiliate may at any time and from time to time purchase Warrants or Certificates at any price in the open market or otherwise. Such Warrants or Certificates may, at the option of the Issuer or, as the case may be, the relevant Affiliate, be held, resold, reissued or cancelled or otherwise dealt with. No Warrant or Certificate which has been exercised, or purchased and cancelled, may be re-issued.

29. **SUBSTITUTION**

29.1 *Substitution of Issuer with Morgan Stanley Group entities*

Subject to the conditions set out in this Condition 29 (*Substitution*), but without the consent of Securityholders, the Issuer may, where the Issuer is:

- (a) Morgan Stanley, substitute a subsidiary of Morgan Stanley in place of Morgan Stanley as principal debtor under the Securities, provided that any Securities in respect of which such a substitution is effected will be fully and unconditionally guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Securities when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Securityholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor); and

- (b) MSFL, substitute Morgan Stanley or a subsidiary of Morgan Stanley in place of MSFL as principal debtor under the Securities, provided that, unless Morgan Stanley is the substitute issuer, any Securities in respect of which such a substitution is effected will be fully, unconditionally and irrevocably guaranteed pursuant to a guarantee of Morgan Stanley as to the payment of principal of, premium, interest and supplemental amounts, if any, and any Additional Amounts on those Securities when and as the same will become due and payable, whether at maturity or otherwise, and provided further that under the terms of the guarantee, Securityholders will not be required to exercise their remedies against the substitute prior to proceeding directly against Morgan Stanley (as guarantor).

29.2 *Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*

Subject to the conditions set out in this Condition 29 but without the consent of Securityholders, the Issuer or the Guarantor (in the case of MSFL Securities) may, at any time, without the consent of the Securityholders, substitute for itself any entity which is not Morgan Stanley or one of Morgan Stanley's consolidated subsidiaries (such entity a "**Morgan Stanley Group entity**") provided that such entity is, on the date of such substitution and in the opinion of the relevant Issuer or the Guarantor (as the case may be) of at least the equivalent creditworthiness (this will be deemed to be the case where the Substitute has a long term credit rating from at least one rating agency of standard application on the international capital markets (including but not limited to Standard & Poor's, Moody's Investors Service and Fitch Ratings) which is at least as high as the relevant Issuer or the Guarantor (as the case may be) being substituted) to the relevant Issuer or the Guarantor (as the case may be).

29.3 *Conditions to substitution*

Substitution of an Issuer or Guarantor for another entity (the "**Substitute**") as provided in Condition 29.1 (*Substitution of Issuer with Morgan Stanley Group entities*) or 29.2 (*Substitution of Issuer or Guarantor with non Morgan Stanley Group entities*) above (as applicable) are subject to the following conditions:

- (a) the Substitute becoming party to the Securities Agency Agreement with any appropriate consequential amendments, as if it had been an original party to it in place of the relevant Issuer or the Guarantor (as the case may be);
- (b) the Substitute is validly existing under the laws under which it is established or incorporated, has capacity to assume all rights, obligations and liabilities under the Securities and Guarantee (as applicable), and has obtained all necessary corporate authorisations to assume all such rights, obligations and liabilities under the Securities or Guarantee (as applicable);
- (c) the Substitute has obtained all necessary governmental or regulatory approvals and consents for the performance by it of its obligations in connection with the Securities or Guarantee, as applicable, and that all such approvals and consents are in full force and effect;
- (d) in the case of substitution of an Issuer or Guarantor pursuant to Condition 29.2 (*Substitution of Issuer or Guarantor with non-Morgan Stanley Group entities*) above only:
 - (i) the Substitute and the relevant Issuer having obtained (a) legal opinions from independent legal advisers of recognised standing in the country of incorporation of the Substitute and in England that the obligations of the Substitute, in the case of a substitution of an Issuer, under the Securities and the relevant Deed of Covenant, or, in the case of a substitution of the Guarantor under the Deed of Guarantee, are legal, valid and binding obligations of the Substitute and (b) in the case of the substitution of the Issuer which is MSFL (or any substitute thereof), a legal opinion from an independent legal adviser in England, that the Deed of Guarantee will apply to the Substitute mutatis mutandis as it applies to the Issuer prior to the substitution and will constitute legal, valid and binding obligations of the Guarantor, in respect of the Substitute (provided that no opinion as referred to in this sub paragraph (d) shall be required where the Substitute is the Guarantor with respect to MSFL Securities); and
 - (ii) if the relevant Securities are rated at the relevant time, the Substitute has obtained, prior to the substitution date, a written confirmation from the relevant rating agencies that the

substitution will not result in whole or in part in a withdrawal, downgrading, placement in creditwatch or negative outlook of the Securities;

- (e) all consents and approvals as required have been obtained and that the Substitute and the Securities comply with all applicable requirements of the Securities Act;
- (f) the Principal Securities Agent has confirmed to the relevant Issuer or Guarantor (as the case may be) that it has completed its relevant "know your customer" requirements on the proposed Substitute;
- (g) such substitution being permitted by the rules of any stock exchange on which the Securities are listed and each such stock exchange confirming that, following the proposed substitution of the Substitute, the Securities will continue to be listed on such stock exchange;
- (h) no payment in respect of the Securities is overdue at the relevant time;
- (i) at the time of any such substitution, the Substitute is in a position to fulfil all payment obligations arising from or in connection with the Securities in freely convertible and transferable lawful money without the necessity of any taxes or duties to be withheld at source, and to transfer all amounts which are required therefor to the Principal Securities Agent without any restrictions; and
- (j) if appropriate, the Substitute appointing a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Securities.

29.4 *Reference in the Conditions to the Issuer or the Guarantor (as the case may be)*

In the event of a substitution pursuant to this Condition 29, any reference in the Conditions to the relevant Issuer or the Guarantor (as the case may be) shall be construed as a reference to the entity substituted.

29.5 *Notification to Securityholders*

The relevant Issuer or the Guarantor (as the case may be) shall as soon as reasonably practicable notify Securityholders of the substitution in accordance with Condition 22 (*Notices*).

29.6 *No obligation to have regard to the consequences of the exercise of the right of substitution*

In connection with the right of substitution under this Condition 29, the relevant Issuer or the Guarantor (as the case may be) shall not be obliged to have regard to the consequences of the exercise of such right for individual Securityholders provided that the Substitute indemnifies each holder of Securities against any tax, assessment or governmental charge imposed on such Securityholder or required to be withheld or deducted as a consequence of such substitution.

30. **RIGHTS OF THIRD PARTIES**

No person shall have any right to enforce any term or condition of the Warrants or Certificates under the Contracts (Rights of Third Parties) Act 1999.

31. **REPRESENTATIONS AND ACKNOWLEDGEMENTS BY SECURITYHOLDERS**

Each Securityholder shall be deemed to represent and acknowledge to the Issuer on acquiring any Warrants or Certificates that:

- (a) neither the Issuer nor any Affiliate or any of their agents is acting as a fiduciary for it or provides investment, tax, accounting, legal or other advice in respect of the Warrants or Certificates and that such Securityholder and its advisors are not relying on any communication (written or oral and including, without limitation, opinions of third party advisors) of the Issuer or any Affiliate as (i) legal, regulatory, tax, business, investment, financial, accounting or other advice, (ii) a recommendation to invest in any Warrants or Certificates or (iii) an assurance or guarantee as to the expected results of an investment in the Warrants or Certificates (it being understood that information and explanations related to the terms and conditions of the

Warrants or Certificates shall not be considered to be any such advice, recommendation, assurance or guarantee and should be independently confirmed by the recipient and its advisors prior to making any such investment);

- (b) such Securityholder (i) has consulted with its own legal, regulatory, tax, business, investments, financial and accounting advisors to the extent that it has deemed necessary, and has made its own investment, hedging, and trading decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuer or any Affiliate or any of their agents and (ii) is acquiring Warrants or Certificates with a full understanding of the terms, conditions and risks thereof and it is capable of and willing to assume those risks; and
- (c) the Issuer and/or any Affiliates may have banking or other commercial relationships with issuers of any securities to which the Warrants or Certificates relate and may engage in proprietary trading in any securities, indices, commodities or other property to which the Warrants or Certificates relate or options, futures, derivatives or other instruments relating thereto (including such trading as the Issuer and/or any Affiliate deem appropriate in their sole discretion to hedge the market risk on the Warrants or Certificates and other transactions between the Issuer and/or any Affiliates and any third parties), and that such trading (i) may affect the price or level thereof and consequently the amounts payable under the Warrants or Certificates and (ii) may be effected at any time, including on or near any Valuation or Averaging Date.

32. GOVERNING LAW AND PROCEEDINGS

- 32.1 The Warrants and Certificates and any non-contractual obligations arising out of or in connection with them shall be governed by and construed in accordance with English law.
- 32.2 Each of Morgan Stanley and MSFL agrees for the benefit of each Securityholder that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Warrants or Certificates (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, irrevocably submits to the jurisdiction of such courts.
- 32.3 Each of Morgan Stanley and MSFL agrees irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.
- 32.4 Each of Morgan Stanley and MSFL agrees that process in connection with Proceedings in the courts of England will be validly served on it if served upon Morgan Stanley & Co. International plc, 25 Cabot Square, Canary Wharf, London E14 4QW or, if different, its registered office for the time being or at any address of the Issuer in the Great Britain at which process may be served on it in accordance with Part 34 of the Companies Act 2006. If such person is not or ceases to be effectively appointed to accept service of process on the Issuer's behalf, the Issuer shall, on the written demand of any Securityholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Principal Securities Agent, appoint a further person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Securityholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Principal Securities Agent. Nothing in this Condition shall affect the right of any Securityholder to serve process in any other manner permitted by law.

FORM OF WARRANTS AND CERTIFICATES

Morgan Stanley and MSFL may issue Warrants and Certificates in registered form ("**Registered Warrants**" and "Registered Certificates", together, the "**Registered Securities**"). Registered Warrants and Registered Certificates may be in either individual certificate form or in global registered form.

Registered Securities

Registered Securities will be in global registered form ("**Global Registered Securities**") or individual registered form ("**Individual Registered Securities**"), in each case as specified in the applicable Pricing Supplement. Each Global Registered Security will be registered in the name of a common depositary (or its nominee) for the Relevant Clearing System and will be deposited on or about the issue date with the common depositary and will be exchangeable for Individual Registered Securities in accordance with its terms.

If the applicable Pricing Supplement specifies the form of Warrants or Certificates as being "**Individual Registered Securities**", then the Registered Securities will at all times be in the form of Individual Registered Securities issued to each Securityholder in respect of their respective holdings.

If the applicable Pricing Supplement specifies the form of Warrants or Certificates as being "**Global Registered Securities exchangeable for Individual Registered Securities**", then the Registered Securities will initially be in the form of a Global Registered Security which will be exchangeable in whole, but not in part, for Individual Registered Securities:

- (a) on the expiry of such period of notice as may be specified in the applicable Pricing Supplement; or
- (b) if the applicable Pricing Supplement specifies "in the limited circumstances described in the Global Registered Security", then (i) if the Relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (ii) an Event of Default occurs with respect to any Warrant or Certificate in accordance with the Terms and Conditions of the Warrants and Certificates.

Whenever a Global Registered Security is to be exchanged for Individual Registered Securities, the Issuer shall procure that Individual Registered Securities will be issued in an aggregate nominal amount or number of Registered Securities equal to the nominal amount or number of Registered Securities represented by the Global Registered Security within five business days of the delivery, by or on behalf of the holder of the Global Registered Security to the Securities Registrar of such information as is required to complete and deliver such Individual Registered Securities (including, without limitation, the names and addresses of the persons in whose names the Individual Registered Securities are to be registered and the quantity of each such person's holding) against the surrender of the Global Registered Security at the specified office of the Securities Registrar such Individual Registered Securities will be issued within five business days of the delivery to the Registrar of the information and any required certification described in the preceding paragraph against the surrender of the relevant Global Registered Security at the Specified Office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Securities Agency Agreement and the regulations concerning the transfer and registration of Registered Securities scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Securities Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Registered Securities

The terms and conditions applicable to any Individual Registered Security will be endorsed on that Individual Registered Security and will consist of the terms and conditions set out under "*Terms and Conditions of the Warrants and Certificates*" above and the provisions of the applicable Pricing Supplement which supplement, modify and/or replace those terms and conditions.

The terms and conditions applicable to any Global Registered Security will differ from those terms and conditions which would apply to the Registered Security were it in individual form to the extent described under "*Summary of Provisions Relating to the Warrants and Certificates while in Global Form*" below.

SUMMARY OF PROVISIONS RELATING TO THE WARRANTS AND CERTIFICATES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Registered Warrants and Registered Certificates (together, the "**Registered Securities**") (or any Tranche thereof) represented by a Global Registered Security, references in the "Terms and Conditions of the Warrants and Certificates" to "**Securityholder**" are references to the person in whose name such Global Registered Security is for the time being registered which, for so long as the Global Registered Security is held by or on behalf of a depositary or common depositary for the Relevant Clearing System, will be that depositary or common depositary.

Each of the persons shown in the records of the Relevant Clearing System as being entitled to an interest in a Global Registered Security (each an "**Accountholder**") must look solely to the Relevant Clearing System (as the case may be) for such Accountholder's share of each payment made by the Issuer to the holder of such Global Registered Security and in relation to all other rights arising under such Global Registered Security, including any right to exchange any exchangeable Warrants or Certificates or any right to require the Issuer to repurchase such Warrants or Certificates. The respective rules and procedures of the Relevant Clearing System from time to time will determine the extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Registered Security and the timing requirements for meeting any deadlines for the exercise of those rights. For so long as the relevant Warrants or Certificates are represented by a Global Registered Security, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Warrants or Certificates and such obligations of the Issuer will be discharged by payment to the holder of the Global Registered Security, as the case may be, in respect of each amount so paid.

So long as the Relevant Clearing System or its nominee is the holder of a Global Registered Security, the Relevant Clearing System or such nominee, as the case may be, will be considered the sole owner of the Securities represented by such Global Registered Security for all purposes under the Securities Agency Agreement and such Warrants or Certificates, except to the extent that in accordance with the Relevant Clearing System's published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Exchange of Global Registered Securities

Whenever a Global Registered Securities is to be exchanged for Individual Registered Securities, the Issuer shall procure that the relevant quantity of Individual Registered Securities will be issued within five business days of the delivery, by or on behalf of the holder of the Global Registered Security to the Securities Registrar of such information as is required to complete and deliver such Individual Registered Securities (including, without limitation, the names and addresses of the persons in whose names the Individual Registered Securities are to be registered and the quantity of each such person's holding) against the surrender of the Global Registered Security at the specified office of the Securities Registrar. Such exchange will be effected in accordance with the provisions of the Securities Agency Agreement and the regulations concerning the transfer and registration of Registered Securities scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Securities Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Registered Securities have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Registered Security; or
- (b) any of the Warrants and Certificates represented by a Global Registered Security (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Warrants and Certificates, payment or delivery (as applicable) in full has not been made to the holder of the Global Registered Security in accordance with the terms of the Global Registered Security on the due date for payment or delivery (as applicable),

then 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above), each person shown in the records of the Relevant Clearing System as being entitled to interest in the Warrants or the Certificates (each an "**Accountholder**"), shall acquire rights under the Deed of Covenant to enforce against the Issuer, the Issuer's obligations to the Securityholder in respect of the Warrants and Certificates represented by the Global Registered Security, including the obligation of the Issuer to make all payments

and deliveries when due at any time in respect of such Warrants or Certificates as if such Warrants or Certificates had been duly presented and (where required by the Conditions) surrendered on the due date in accordance with the Conditions. Each Accountholder shall acquire such right without prejudice to any other rights which the Securityholder may have under the Global Registered Security and the Deed of Covenant. Notwithstanding the rights that each Accountholder may acquire under the Deed of Covenant, payment to the Securityholder in respect of any Warrants or Certificates represented by the Global Registered Security shall constitute a discharge of the Issuer's obligations to the extent of any such payment or delivery and nothing in the Deed of Covenant shall oblige the Issuer to make any payment or delivery under the Warrants or Certificates to or to the order of any person other than the Securityholder.

Conditions Applicable to Global Registered Securities

Each Global Registered Security will contain provisions which modify the terms and conditions set out in "*Terms and Conditions of the Warrants and Certificates*" as they apply to the Global Registered Security. The following is a summary of certain of those provisions:

Transfers of interests in the Warrants and Certificates: Any transfers of the interest of an Accountholder in any Warrants or Certificates that are represented by a Global Registered Security must be effected through the relevant Accountholder's account with Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system (each a "**Clearing System**" or "**Relevant Clearing System**") and in accordance with the rules of the relevant Clearing System.

Exercise procedures: Subject to Condition 4.9 (*Warrants and Certificates void on expiry*) of the "*Terms and Conditions of the Warrants and Certificates*" and to prior termination of the Warrants and Certificates as provided in the Conditions, Warrants and Certificates may be exercised by an Accountholder (at his own expense) at such time and on such day(s) as provided in Conditions 4.1 (*American Style Securities*), 4.2 (*European Style Securities*) or 4.3 (*Bermudan Style Securities*) of the "*Terms and Conditions of the Warrants and Certificates*" by delivery of a duly completed and signed Exercise Notice to (i) the Relevant Clearing System and (ii) the relevant Securities Agent or Securities Registrar, with a copy to the Determination Agent. Any such exercise shall be subject to the rules and procedures of the relevant Clearing System and any Exercise Notice will be irrevocable and may not be withdrawn by the Accountholder. The holder of the Global Registered Security (upon the exercise of the Warrant or Certificate in full) must, within the period specified therein for the deposit of the relevant Warrant or Certificate, deposit such Global Registered Security with the Securities Registrar.

Subject to Condition 4.9 (*Warrants and Certificate void on expiry*) of the "*Terms and Conditions of the Warrants and Certificates*", any Exercise Notice delivered after the Latest Exercise Time on any day shall: (a) in the case of Bermudan Style Securities and European Style Securities, be void and (b) in the case of American Style Securities, be deemed to have been delivered on the next following day on which such Securities are exercisable (unless no such day occurs on or prior to the Expiration Date, in which case that Exercise Notice shall be void).

Exercise dates and times: Exercise of Warrants and Certificates represented by a Global Registered Security may only be effected on a day on which the relevant Clearing System is open for business in addition to any other relevant day as provided in the Conditions. Such Registered Security must be exercised as provided in the "*Terms and Conditions of the Warrants and Certificate*" (as modified as set out below) by 10 a.m. in the place where the Relevant Clearing System through which the relevant Registered Securities are exercised (unless otherwise specified in the applicable Pricing Supplement).

Form of Exercise Notice: Each Exercise Notice shall be in the form (for the time being current) available from each Securities Agent or the Securities Registrar and must:

- (a) specify the name, address, telephone, facsimile and telex details of the Accountholder in respect of the Registered Securities being exercised;
- (b) specify the number of Registered Securities of the relevant Series being exercised by the Accountholder (which must not be less than the Minimum Exercise Number);
- (c) specify the number of the Accountholder's account at the relevant Clearing System to be debited with the Registered Securities being exercised and irrevocably instruct, or, as the case may be, confirm that the Accountholder has irrevocably instructed, the relevant Clearing System to debit the Accountholder's account

with the Registered Securities being exercised and credit the same to the account of the Principal Securities Agent (for the account of the Issuer);

- (d) where applicable, specify the number of the Accountholder's account at the relevant Clearing System to be credited with the Cash Settlement Amount or the relevant Underlying Securities (as applicable) for the Registered Securities being exercised;
- (e) include an irrevocable undertaking to pay any applicable Taxes due by reason of exercise of and an authority to the Issuer and the relevant Clearing System to deduct an amount in respect thereof from any Cash Settlement Amount due to such Accountholder or otherwise (on, or at any time after, the Cash Settlement Payment Date) and to debit a specified account of the Accountholder at the relevant Clearing System with an amount or amounts in respect thereof;
- (f) in the case of Full Physical Settlement Securities, include an irrevocable instruction to the relevant Clearing System to debit the specified account of the Accountholder with an amount equal to the aggregate Strike Price in respect of the Registered Securities being exercised (and in the case of Bond Securities, any accrued interest, as specified in Condition 4.5(a) (*Full Physical Settlement Securities*)) on the Strike Price Payment Date and to credit such amount to the account of the Principal Securities Agent (for the account of the Issuer); and
- (g) authorise the production of such certification in any applicable administrative or legal proceedings.

Verification of Accountholder: To exercise any Registered Securities, the relevant Accountholder must duly complete an Exercise Notice. The relevant Clearing System shall, in accordance with its normal operating procedures, verify that each person exercising Registered Securities is the Accountholder thereof according to the records of such Clearing System and that such Accountholder has an account at the relevant Clearing System which contains Registered Securities in an amount being exercised and funds equal to any applicable Taxes in respect of the Registered Securities being exercised.

If, in the determination of the relevant Clearing System, the relevant Securities Agent or the Securities Registrar:

- (a) the Exercise Notice is not complete or not in proper form;
- (b) the person submitting an Exercise Notice is not validly entitled to exercise the relevant Registered Securities or not validly entitled to deliver such Exercise Notice; or
- (c) sufficient Registered Securities and sufficient funds equal to any applicable Taxes are not available in the specified account(s) with the relevant Clearing System on the Exercise Date,

that Exercise Notice will be treated as void and a new duly completed Exercise Notice must be submitted if exercise of the Accountholder's Registered Securities is still desired.

Any determination by the relevant Clearing System, the relevant Securities Agent or the Securities Registrar as to any of the matters set out above shall, in the absence of manifest error, be conclusive and binding upon the Issuer, the Accountholder and the beneficial owner of the Registered Securities exercised.

Notification to the relevant Securities Agent or the Securities Registrar: Subject to the verification set out above, the relevant Clearing System will:

- (a) confirm to the Securities Registrar (copied to the Issuer and the Determination Agent) the number of Registered Securities being exercised and the number of the account to be credited with the Cash Settlement Amount; and
- (b) promptly notify the common depositary of receipt of the Exercise Notice and the number of the Registered Securities to be exercised.

Upon exercise of less than all of the Registered Securities represented by the Global Registered Security, the Securities Registrar will note such exercise in the Register relating to such Global Registered Security and the aggregate nominal amount or number of Registered Securities so exercised as represented by the Global Registered

Debit of Accountholder's Account: The relevant Clearing System will on or before the Cash Settlement Payment Date debit the relevant account of the Accountholder and credit the relevant account of the Principal Securities Agent (in favour of the Issuer) with: (i) the Registered Securities being exercised, (ii) any applicable Taxes (if any) in respect of the Registered Securities being exercised and (iii) any other amounts as may be specified in the applicable Pricing Supplement.

If any of the items set out in the paragraph above are not so credited to the relevant account of the Principal Securities Agent (in favour of the Issuer), then the Issuer shall be under no obligation to make any payment of any nature to the relevant Accountholder in respect of the Registered Securities being exercised, and the Exercise Notice delivered in respect of such Registered Securities shall thereafter be void for all purposes.

Effect of Exercise Notice: Delivery of an Exercise Notice shall constitute an irrevocable election and undertaking by the Accountholder to exercise the Registered Securities specified therein, provided that the person exercising and delivering such Exercise Notice is the person then appearing in the records of the relevant Clearing System as the holder of the relevant Registered Securities. If the person exercising and delivering the Exercise Notice is not the person so appearing, such Exercise Notice shall for all purposes become void and shall be deemed not to have been so delivered.

After the delivery of an Exercise Notice (other than an Exercise Notice which shall become void) by an Accountholder, such Accountholder shall not be permitted to transfer either legal or beneficial ownership of the Registered Securities exercised thereby. Notwithstanding this, if any Accountholder does so transfer or attempt to transfer such Registered Securities, the Accountholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently: (i) entering into replacement hedging operations in respect of such Securities; or (ii) paying any amount on the subsequent exercise of such Registered Securities without having entered into any replacement hedging operations.

Payments: All payments in respect of a Global Registered Security which, in accordance with the "*Terms and Conditions of the Warrants and Certificates*", require presentation and/or surrender of an Individual Registered Security will be made against presentation and (in the case of payment in full) and/or surrender of the Global Registered Security at the Specified Office of the Principal Securities Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Warrants and Certificates. On each occasion on which a payment is made in respect of a Global Registered Security, the Issuer shall procure that the same is entered pro rata in the records of the Relevant Clearing System. Any payments shall be made in accordance with the rules and procedures of the relevant Clearing System and the Issuer, the Securities Agents, the Securities Registrar and the Securities Transfer Agent, shall not be liable, under any circumstance, for any acts or defaults of any Clearing System in the performance of the Clearing System's duties in relation to the Warrants and the Certificates.

Payment Record Date: Each payment in respect of a Global Registered Security will be made to the person shown as the holder in the Register at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment (the "**Record Date**") where "**Clearing System Business Day**" means a day on which each relevant Clearing System for which the Global Registered Security is being held is open for business.

Notices: Notwithstanding Condition 22 (*Notices*) of the "*Terms and Conditions of the Warrants and Certificates*", while all the Registered Securities are represented by a Global Registered Security and the Global Registered Security is deposited with a Clearing System, notices to Accountholders may be given by delivery of the relevant notice to the Relevant Clearing System and, in any case, such notices shall be deemed to have been given to the Accountholders in accordance with Condition 22 (*Notices*) of the "*Terms and Conditions of the Warrants and Certificates*", as applicable, on the date of delivery to the Relevant Clearing System.

BENEFIT PLAN INVESTORS

The Program Securities may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), or any individual retirement account or plan subject to Section 4975 of the Code or any entity whose underlying assets include "plan assets" within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's, account's or plan's investment therein.

The Global Notes, Warrants and Certificates and the Definitive Notes, Warrants and Certificates will bear a legend to the following effect:

THE INVESTOR SHALL BE DEEMED TO REPRESENT BY ITS ACQUISITION AND HOLDING OF AN INTEREST HEREIN THAT IT IS NOT ACQUIRING THE SECURITIES WITH THE ASSETS OF ANY EMPLOYEE BENEFIT PLAN SUBJECT TO TITLE I OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("**ERISA**"), ANY INDIVIDUAL RETIREMENT ACCOUNT OR PLAN SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED, OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF SECTION 3(42) OF ERISA BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN'S, ACCOUNT'S OR PLAN'S INVESTMENT THEREIN.

UNITED STATES FEDERAL TAXATION

This discussion is limited to the U.S. federal tax issues addressed below. Additional issues may exist that are not addressed in this discussion and that could affect the U.S. federal tax treatment of the Program Securities. Holders should seek their own advice based upon their particular circumstances from an independent tax advisor.

The following are certain of the U.S. federal income and estate tax consequences of ownership and disposition of the Program Securities by Non-U.S. Holders (as defined below). This summary is based on the Internal Revenue Code of 1986, as amended (the "**Code**"), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations, all as of the date hereof, changes to any of which subsequent to the date of this Offering Circular may affect the tax consequences described herein. This summary does not discuss the consequences of the Medicare tax on investment income. As used herein, the term "Non-U.S. Holder" means a beneficial owner of a Program Security that is for U.S. federal income tax purposes:

- an individual who is classified as a nonresident alien;
- a foreign corporation; or
- a foreign estate or trust.

The term "Non-U.S. Holder" does not include any of the following holders:

- a holder who is an individual present in the United States for 183 days or more in the taxable year of disposition;
- certain former citizens or residents of the United States; or
- a holder for whom income or gain in respect of the Program Securities is effectively connected with the conduct of a trade or business in the United States.

Special rules may also apply to corporations that are treated as personal holding companies, controlled foreign corporations, or passive foreign investment companies. Such holders are urged to consult their own tax advisors regarding the U.S. federal income tax consequences of the ownership and disposition of a Program Security.

If an entity that is classified as a partnership holds a Program Security, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. Partners of partnerships holding Program Securities should consult their tax advisors regarding the U.S. federal income tax consequences of owning and disposing of a Program Security.

The discussion below assumes that all Program Securities will be issued in registered form for U.S. federal income tax purposes and will not be issued pursuant to the rules relating to foreign targeted registered obligations.

The relevant Pricing Supplement, which a Non-U.S. Holder should review carefully before making a decision to invest in the Program Securities to which it pertains, may indicate other issues or differing consequences applicable to a particular offering of Program Securities.

Taxation of Program Securities

Tax Treatment of Coupon Payments (If Applicable)

The U.S. federal tax treatment of the Program Securities is unclear due to the absence of statutory, judicial or administrative authorities that directly address such Program Securities or similar securities. Due to this uncertainty, a Non-U.S. Holder should expect that a withholding agent will treat coupon payments, if any, on the Program Securities received by the Non-U.S. Holder as subject to U.S. federal withholding tax at a rate of 30 per cent., unless the Non-U.S. Holder qualifies for an exemption under the "other income" provision of a Qualifying Treaty (as defined below).

An income tax treaty between a non-U.S. jurisdiction and the United States is a "**Qualifying Treaty**" if it provides for a 0 per cent. rate of tax on "other income" earned by a resident of the non-U.S. jurisdiction from sources within the United States. For example, under current law, the United States' tax treaties with Japan, Germany and the United Kingdom are Qualifying Treaties. Accordingly, if the Non-U.S. Holder is a resident of a non-U.S. jurisdiction that qualifies for benefits under such a Qualifying Treaty, the Non-U.S. Holder should generally be eligible for an exemption under the "other income" provision referred to above if such Non-U.S. Holder complies with the certification requirement described below. However, because most income tax treaties contain complex eligibility rules and limitations, a Non-U.S. Holder should consult its tax advisor about its eligibility for this exemption.

To demonstrate its eligibility for the "other income" exemption to the Issuer or an applicable withholding agent, a Non-U.S. Holder generally will be required to provide a properly completed appropriate Internal Revenue Service ("IRS") Form W-8BEN or W-8BEN-E certifying that it is not a U.S. person and that it is eligible for the benefits of a Qualifying Treaty (or, if the Non-U.S. Holder holds its Program Securities through certain intermediaries, it may be permitted to provide alternative documentation in lieu of the appropriate IRS Form W-8BEN or W-8BEN-E to establish that it is not a U.S. person and that it is eligible for the benefits of a Qualifying Treaty). A Non-U.S. Holder providing a properly completed appropriate IRS Form W-8BEN or W-8BEN-E as discussed in this paragraph may provide its foreign taxpayer identifying number issued by its country of residence in lieu of its U.S. taxpayer identifying number. Although this rule permitting a Non-U.S. Holder to provide its foreign taxpayer identifying number expires by its terms on 28 February 2017, the U.S. Treasury Department has issued proposed regulations which, if finalized, would make permanent this rule.

Notwithstanding the discussion above, because the U.S. federal income tax treatment of the Program Securities is unclear, the coupon payments, if any, on the Program Securities could alternatively be treated in whole or part as payments of interest. Nonetheless, even if the coupon payments are treated as interest, under current law and administrative practice a Non-U.S. Holder generally will qualify for the "portfolio interest exemption" with respect to coupon payments on the Program Securities so long as:

- a Non-U.S. Holder has demonstrated its eligibility for the "other income" exemption as described above;
- a Non-U.S. Holder does not own (directly or by attribution) 10 per cent. or more of the total combined voting power of all classes of stock of Morgan Stanley entitled to vote; and
- a Non-U.S. Holder is not a controlled foreign corporation related, directly or indirectly, to Morgan Stanley through stock ownership.

Non-U.S. Holders should consult their tax advisors regarding their eligibility for the "portfolio interest exemption" in light of their particular circumstances.

Tax Treatment Upon Sale or Other Taxable Disposition

Except as discussed below, a Non-U.S. Holder should generally not be subject to United States federal income tax, including withholding tax, on proceeds (other than to the extent attributable to coupon payments, if any, on the Program Securities, which should be treated as discussed above) from the sale or other taxable disposition of a Program Security (including at maturity or upon an early redemption). However, depending on certain characteristics of a Program Security, alternative treatments of the Program Securities are possible under U.S. federal income tax law. For example, if all or any portion of a Program Security were recharacterized as a debt instrument, payments made to a Non-U.S. Holder on the taxable disposition of a Program Security could be subject to U.S. federal withholding tax unless the Non-U.S. Holder qualifies for the "portfolio interest exemption" as described above under "—Taxation of Program Securities—Tax Treatment of Coupon Payments (If Applicable)".

Non-U.S. Holders should consult their tax advisors regarding all aspects of the U.S. federal income tax consequences of an investment in the Program Securities, including possible alternative treatments and the possibility of obtaining a refund if U.S. federal withholding tax is imposed on the Program Securities.

Dividend Equivalent Amounts

Section 871(m) of the Code imposes a withholding tax of 30 per cent. (or lower treaty rate applicable to dividends) on certain "dividend equivalents" paid or deemed paid with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Under recently promulgated Treasury regulations issued under Section 871(m), a Program Security linked to U.S. equities or indices that include U.S. equities (a "U.S. equity linked Program Security") will be subject to the Section 871(m) withholding regime if at issuance it (i) has a "delta" of 0.80 or higher with respect to the underlying U.S. stock or (ii) substantially replicates the economic performance of the underlying U.S. stock, as determined by a "substantial equivalence" test, that, among other factors, takes into account the initial number of shares of the underlying U.S. stock needed to hedge the transaction fully. The tests described above are set forth in the regulations, and the applicable test will depend on the terms of the relevant U.S. equity linked Program Security. Under these rules, withholding may apply even where the relevant U.S. equity linked Program Security does not provide for any payment that is explicitly linked to a dividend. The regulations provide for certain exceptions to the withholding requirements, in particular for instruments linked to certain broad-based indices that meet standards set forth in the regulations.

Section 871(m) could apply to a U.S. equity linked Program Security that is issued on or after January 1, 2017. If the terms of a U.S. equity linked Program Security are subject to a "significant modification," the U.S. equity linked Program Security will generally be treated as reissued at the time of the significant modification.

If Section 871(m) applies, withholding in respect of dividend equivalents will generally be required when cash payments are made on the relevant U.S. equity linked Program Security or upon the date of maturity, lapse or other disposition thereof by the Non-U.S. Holder. The dividend equivalent amount will include the amount of any actual or, under certain circumstances, estimated dividend.

The relevant Issuer will determine whether a U.S. equity linked Program Security is subject to withholding under Section 871(m) by performing the calculations described above. If withholding is required, the relevant Issuer will not be required to pay any additional amounts with respect to the amounts so withheld.

The regulations provide that Non-U.S. Holders of a potential Section 871(m) transaction are entitled to receive certain information in respect thereof. The applicable Pricing Supplement will provide further guidance on how Non-U.S. Holders may obtain such information.

Section 871(m) is complex and its application may depend on the Non-U.S. Holder's particular circumstances. For example, the application of Section 871(m) may be affected if a Non-U.S. Holder enters into another transaction in connection with the acquisition of a U.S. equity linked Program Security. Accordingly, Non-U.S. Holders should consult their tax advisors regarding the potential application of Section 871(m) to the Program Securities in their particular circumstances.

Estate Tax

Subject to benefits provided by an applicable estate tax treaty, a Program Security may be treated as U.S. situs property subject to U.S. federal estate tax. Non-U.S. Holders should consult their own tax advisors regarding the U.S. federal estate tax consequences of an investment in the Program Securities and the availability of benefits provided by an applicable estate tax treaty, if any.

FATCA

Legislation commonly referred to as "FATCA" generally imposes a withholding tax of 30 per cent. on payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity's jurisdiction may modify these requirements. This legislation generally applies to certain financial instruments that are treated as paying U.S.-source interest or dividends (including "dividend equivalents") or other U.S.-source "fixed or determinable annual or periodical" income ("FDAP income"). Withholding (if applicable) applies to payments of U.S.-source FDAP income and, for dispositions after December 31, 2018, to payments of gross proceeds of the disposition (including upon retirement) of certain financial instruments treated as providing for U.S.-source interest or dividends. While the treatment of the Program Securities is unclear, you should assume that any coupon payment on the Program Securities will be treated as subject to the FATCA rules. It is also possible in light of this uncertainty that an applicable withholding agent will treat gross proceeds of a disposition (including upon retirement) of the Program Securities after 2018 as being subject to the FATCA rules. If withholding applies to the Program Securities, the relevant Issuer will not be required to pay any additional amounts with respect to amounts withheld under FATCA. Non-U.S. Holders should consult their tax advisers regarding the potential application of FATCA to the Program Securities.

Backup Withholding and Information Reporting

Information returns may be filed with the IRS in connection with payments on a Program Security as well as in connection with the proceeds from a sale, exchange or other disposition. A Non-U.S. Holder may be subject to backup withholding in respect of amounts paid to the Non-U.S. Holder, unless such Non-U.S. Holder complies with applicable certification procedures to establish that it is not a United States person for U.S. federal income tax purposes or otherwise establishes an exemption. Compliance with the certification procedures described under "—Taxation of Program Securities—Tax Treatment of Coupon Payments (If Applicable)" above will satisfy the certification requirements necessary to avoid backup withholding. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

IRISH TAXATION

The following disclosure applies only in respect of Program Securities issued by Morgan Stanley and MSFL each in their capacity as Issuer. It does not deal with payments made by Morgan Stanley in its capacity as Guarantor pursuant to the Guarantee. References in this section on Irish taxation to "Notes", "Certificates" and "Warrants" (Certificates and Warrants being collectively, the "Securities") and references to "Noteholders," "Securityholders", "Certificateholders" and "Warrantholders" (if any) should be construed accordingly.

The following is a summary of the Irish withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Program Securities. The comments do not deal with other Irish tax aspects of acquiring, holding, disposing or, abandoning Program Securities. Transactions involving Program Securities, including the issue and subscription of Program Securities, any purchase or disposal or settlement of Program Securities, may have Irish tax consequences for potential purchasers (including but not limited to, transfer taxes and possible withholding or deduction for or on account of Irish tax from payments made in respect of the Program Securities). The tax consequences may depend, amongst other things, on the status of the potential investor and the terms and conditions of a particular Program Security as specified in the Pricing Supplement. It is based on current law and practice of the Irish Revenue Commissioners, which may be subject to change, sometimes with retrospective effect. The comments relate only to the position of persons who are absolute beneficial owners of the Program Securities. Prospective Securityholders and Noteholders should be aware that the particular terms of issue of any series of Program Securities as specified in the applicable Pricing Supplement may affect the tax treatment of that and other series of Program Securities. The following is a general guide and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Prospective Securityholders and Noteholders who are in any doubt as to their tax position should consult their professional advisors about tax implications of purchasing and holding a Program Security, any transaction involving a Program Security, and any transaction involved in the exercise and settlement of a Program Security. Securityholders and Noteholders who may be liable to taxation in jurisdictions other than Ireland are particularly advised to consult their professional advisors as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain Irish withholding tax aspects of payments in respect of the Program Securities. In particular, Securityholders and Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Program Securities even if such payments may be made without withholding or deduction for or on account of taxation under the laws of Ireland.

Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The Issuers will not be obliged to withhold Irish income tax from payments of interest on the Program Securities so long as such payments do not constitute Irish source interest. Interest paid on the Program Securities may be treated as having an Irish source if:

- (a) the relevant Issuer is resident in Ireland for tax purposes; or
- (b) the relevant Issuer has a branch or permanent establishment in Ireland, the assets or income of which are used to fund the payments on the Program Securities; or
- (c) the relevant Issuer is not resident in Ireland for tax purposes but the register for the Program Securities is maintained in Ireland or (if the Program Securities are in bearer form) the Program Securities are physically held in Ireland.

It is anticipated that, (i) the Issuers are not and will not be resident in Ireland for tax purposes; (ii) the Issuers do not and will not have a branch or permanent establishment in Ireland; and (iii) Program Securities will not be issued in bearer form and the Issuers will not maintain a register of any registered Program Securities in Ireland. For so long as this remains the case, interest payable on the Program Securities should not be regarded as Irish source interest.

If payments of interest on the Program Securities are found to constitute Irish source interest, the relevant Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Program Security so long as the interest paid on the relevant Program Security falls within the following category and meets the relevant conditions:

Interest paid on a quoted Eurobond:

A quoted Eurobond is a security which is issued by a company (such as the Issuers), is listed on a recognised stock exchange (such as the Irish Stock Exchange) and carries a right to interest. Provided that the Program Securities (i) carry an amount in respect of interest and (ii) are listed on the Irish Stock Exchange (or any other recognised stock exchange), interest paid on them can be paid free of withholding tax provided the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:

- (A) the Program Security is held in a clearing system recognised by the Irish Revenue Commissioners; (DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or
- (B) the person who is the beneficial owner of the Program Security and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form.

Thus, if interest payable on the Program Securities is found to have an Irish source, so long as the Program Securities are interest bearing, continue to be quoted on the Irish Stock Exchange and are held in a recognised clearing system, interest on the Program Securities can be paid by any paying agent acting on behalf of the Issuer without any withholding or deduction for or on account of Irish income tax. If the Program Securities continue to be quoted but cease to be held in a recognised clearing system, interest on the Program Securities may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland.

Encashment Tax

In certain circumstances (e.g. quoted Eurobonds), Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) from interest on any Program Security, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder or Securityholder. There is an exemption from encashment tax where the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank

SWISS TAXATION

The following summary does not purport to be a comprehensive description of all Swiss tax considerations that may be relevant to a decision to purchase, own or dispose of the Program Securities and, in particular, does not consider specific facts or circumstances that may apply to a particular purchaser. It is for general information only and does not discuss all tax consequences of an investment in Program Securities under the tax laws of Switzerland. This summary is based on the tax laws of Switzerland currently in force and as applied on the date of this Offering Circular which are subject to changes (or changes in interpretation) which may have retroactive effect. Prospective purchasers are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and, lapse or exercise, disposition or redemption of Program Securities in the light of their particular circumstances.

Swiss Resident Noteholders and Securityholders

Dividend and Interest Payments or Redemption of Program Securities

Swiss residents receiving dividend payments or periodic interest payments during the investment or at redemption as one-time-interest generally must include these payments in their financial statements and/or in their income tax returns and owe individual income tax or corporate income tax on the relevant amounts.

Program Securities which are not straight derivatives for tax purposes or straight debt instruments but have components of debt instruments and derivatives intertwined generally qualify as combined instruments. The tax treatment of such Program Securities depends on whether the Program Securities are considered as transparent or not for Swiss income tax purposes.

If the Program Security is considered as not transparent for Swiss income tax purposes, any amount received by the Noteholder or Securityholder (upon sale, lapse or exercise or redemption) in excess of the amount invested (at issue or upon purchase) is treated as taxable income in the hands of the Noteholder or Securityholder if the Program Security qualifies as a note with predominant one-time interest payment. If the Program Security does not qualify as a note with predominant one-time interest payment, the Noteholder or Securityholder is subject to tax on the periodic interest payments and (at redemption) on the difference between initial issuance price and the redemption price. For the purpose of determining whether the Program Security is a note with predominant one-time interest payment the difference between initial issuance price and the redemption price is treated as one-time interest.

If the Program Security is considered as transparent for Swiss income tax purposes, it will be split notionally in a debt instrument and a derivative instrument component. Gains or losses on the derivative instrument component are treated as capital gains or losses (see below). Interest payments received during the investment, at lapse or exercise or at redemption as one-time interest related to the debt instrument component are treated as taxable income in the hands of the Noteholder or Securityholder. Such a treatment is also applicable for the purpose of determining whether the Program Security is a note with predominant one-time interest payment.

The Program Security is generally considered as transparent if the debt and the derivative components are traded separately or if the different elements of the Program Security (such as the guaranteed redemption amount, the issuance price of the debt component, the interest rates determining the issuance price of the debt component) are separately stated in the sales documentation as well as in the offering circular and if each one of such components is separately evaluated. Such evaluation has to be performed through calculations of financial mathematics determining the intrinsic value of the debt instrument and the derivative instrument components contained in the Program Security. In particular, the calculations have to determine the notional issuance price of the debt instrument, based on the interest rate taken into account by the issuer which has to be at market value. The Swiss Federal Tax Administration has to approve such calculations. Such calculations have to be reviewed on a quarterly basis in order take into account the evolution of the interest rates. If the tax authorities are not provided with sufficient information the Program Securities can be treated as not transparent. Products with prevalent structures but for which the issuer does not provide the information allowing to distinguish the different elements of a product as described above are made transparent in retrospect by the tax authorities, banks or other channels of distribution if the following requirements are fulfilled: (a) the issuer of the product must have at least a single-A-rating; and (b) the product at hand has to be admitted to official quotation at the commercial exchange market or, at least, a market maker has to insure liquid trading of the product at hand. Liquid trading by a market maker is a condition that the key data of the product can be used as credible basis of calculation.

Program Securities which are linked to underlying assets, such as bonds, shares, or baskets of such assets may also be treated, under certain circumstances, as direct investments in bonds, shares or in an investment fund. Program Securities linked to a basket of investment funds may be treated as an investment in an investment fund.

Capital Gains

Swiss Resident Private Noteholders and Securityholders

Swiss resident Noteholders and Securityholders who do not qualify as so-called professional securities dealer for income tax purposes ("*gewerbsmässiger Wertschriftenhändler*") and who hold the Program Securities as part of their private (as opposed to business) assets are hereby defined as Swiss Resident Private Noteholders and Securityholders.

Swiss Resident Private Noteholders and Securityholders realise a tax free capital gain upon the disposal of Program Securities which are straight derivatives for tax purposes or do not qualify as notes with predominant one-time interest payment and realise a taxable income if the Program Securities qualify as notes with one-time predominant interest payment.

The tax treatment of capital gains on Program Securities which qualify as combined instruments (see above) depends on whether the Program Security qualifies as tax transparent or not. Program Securities which are not transparent for Swiss income tax purposes (see above) generally qualify as notes with predominant one-time interest payment and are treated as such. Program Securities which qualify as tax transparent are notionally split into a debt instrument and a derivative instrument component. The debt instrument component follows the usual tax treatment either as note with predominant one-time interest payment or as note with no predominant one-time interest payment as applicable. Capital gains arising from the derivative instrument component of transparent Program Securities are generally not subject to income tax in the hands of Swiss Resident Private Noteholders and Securityholders.

With respect to capital gains arising from Program Securities linked to underlying assets, such as investment funds, bonds, shares or baskets of any of them see above under "*Dividend and Interest Payments or Redemption of Program Securities*".

Swiss Resident Business Noteholders and Securityholders

Gains realised on the sale of Program Securities, by Swiss resident individual Noteholders and Securityholders holding the Program Securities as part of their business assets as well as by Swiss resident legal entity Noteholders and Securityholders, are part of their business profit subject to individual income tax or corporate income taxes, respectively. The same applies to Swiss Resident Private Noteholders and Securityholders who qualify as so-called professional securities dealer ("*gewerbsmässiger Wertschriftenhändler*").

Non-Swiss Resident Noteholders and Securityholders

Under present Swiss tax law, a Noteholder or Securityholder who is a non-resident of Switzerland and who, during the taxable year has not engaged in trade or business through a permanent establishment or a fixed place of business within Switzerland and who is not subject to taxation in Switzerland for any other reason, will not be subject to any Swiss federal, cantonal or municipal income tax on interest or gains realised on sale, lapse or exercise or redemption of the Program Securities.

Stamp Duties

Swiss Issuance Stamp Duty

The issuance of the Program Securities by a non-Swiss resident Issuer is not subject to Swiss issuance stamp duty.

Swiss Transfer Stamp Duty

Straight derivatives for tax purposes like options and futures do not qualify as taxable securities in the meaning of the Swiss Stamp Tax Act and are therefore not subject to Swiss transfer stamp duty.

The sale or transfer of the Program Securities may be subject to Swiss transfer stamp duty at the current rate of 0.3 per cent. if such sale or transfer is made by or through the intermediary of a Swiss bank or other securities dealer as

defined in the Swiss Stamp Tax Act and no exemption applies. The same applies in case of physical delivery of the underlying being a taxable security in the meaning of the Swiss Stamp Tax Act at exercise or redemption.

Withholding Tax

All payments in respect of the Program Securities by a non-Swiss resident Issuer are currently not subject to Swiss withholding tax ("*Verrechnungssteuer*").

Swiss EU Tax Retention

Switzerland has introduced a tax retention on interest payments or similar income paid by a Swiss paying agent as defined in Articles 1 and 6 of the Agreement between the European Community and the Swiss Confederation providing for measures equivalent to those laid down in EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "**Agreement**") to the beneficial owner who is an individual and resident in the EU as of 1 July 2005, unless the interest payments are made on debt-claims issued by debtors who are residents of Switzerland or pertaining to permanent establishments of non-residents located in Switzerland. The tax retention may be withheld at the rate of 35 per cent. thereafter. The beneficial owner of the interest payments may be entitled to a credit for or a refund of the tax retention if certain conditions are met. The Swiss paying agent may be explicitly authorised by the beneficial owner of the interest payment to report interest payments to the Swiss Federal Tax Administration. Such report will then substitute the tax retention.

Individual Noteholders and Securityholders should note that the Issuer will not pay additional amounts under the Terms and Conditions of the Program Securities in respect of any Swiss EU tax retention.

Revision and replacement of the EU Savings Tax Directive

The EU Savings Tax Directive will be adjusted with the automatic exchange of information ("**AEOI**") implementation. Consequently, the taxation of savings agreement between Switzerland and the EU is to be completely revised in formal terms and presumably replaced from 2017/2018.

Current situation

Switzerland and the EU signed an agreement regarding the automatic exchange of information in tax matters on 27 May 2015. Switzerland and the 28 EU member states intend to collect account data from 2017 onward and exchange it from 2018 once the necessary legal basis has been created. The agreement applies for all 28 EU member states. The OECD's global AEOI standard has been included in full in the new agreement. In formal terms, the signed agreement is a protocol of amendment to replace the taxation of savings agreement between Switzerland and the EU that has been in force since 2005, but it includes the existing withholding tax exemption for cross-border payments of dividends, interest and royalties between related entities.

Swiss parliament will deliberate the agreement with the EU in 2016 and make a decision on it. The agreement between Switzerland and the EU should presumably come into force on 1 January 2017, provided the approval process is completed on time in Switzerland and the EU.

EUROPEAN UNION SAVINGS DIRECTIVE

Under EC Council Directive 2003/48/EC (the "**Savings Directive**") on the taxation of savings income, each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria may instead operate a withholding system in relation to such payments (unless during that period it elects otherwise), deducting tax at a rate of 35%. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries and certain dependent or associated territories of certain Member States have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

On 24 March 2014, the Council of the European Union adopted an EU Council Directive amending and broadening the scope of the requirements described above. In particular, the changes expand the range of payments covered by the Savings Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the Savings Directive, to include certain other types of entity and legal arrangement. Member States are required to implement national legislation giving effect to these changes by 1 January 2016 (which national legislation must apply from 1 January 2017).

On 9 December 2014, the Council of the European Union adopted a further Directive (EU Council Directive 2014/107/EU amending EU Council Directive 2011/16/EU) on the mandatory automatic exchange of information, to implement the OECD measures known as the "**Common Reporting Standard**". Member States are required to implement this Directive in respect of taxable periods from 1 January 2016 and to begin exchanging information pursuant to such Directive no later than 30 September 2017 (subject to deferral under transitional rules in the case of Austria). The Common Reporting Standard is generally broader than the Savings Directive, although it does not impose withholding taxes.

On 10 November 2015, the Council of the European Union adopted EU Council Directive 2015/2060/EU repealing the Savings Directive with effect from 1 January 2016 (or 1 January 2017 in the case of Austria), subject to ongoing requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates. The repeal of the Savings Directive is intended to prevent overlap between the Savings Directive and the Common Reporting Standard.

THE PROPOSED FINANCIAL TRANSACTIONS TAX

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common financial transactions tax ("FTT") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Program Securities (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Program Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Program Securities are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

The Issuer is offering the Program Securities on a continuing basis through Morgan Stanley & Co. International plc of 25 Cabot Square, Canary Wharf, London E14 4QA and Morgan Stanley & Co. LLC whose principal executive office is at 1585 Broadway, New York, New York 10036, U.S.A., (the "**Distribution Agents**"), who have agreed to use reasonable efforts to solicit offers to purchase the Program Securities. The Issuer will have the sole right to accept offers to purchase Program Securities and may reject any offer in whole or in part. The Distribution Agents will have the right to reject any offer to purchase Program Securities solicited by it in whole or in part. The Issuer may pay the Distribution Agents, in connection with sales of the Program Securities resulting from a solicitation the Distribution Agents made or an offer to purchase received by the Distribution Agents, a commission, which may be in the form of a discount from the purchase price if the Distribution Agents are purchasing the Program Securities for their own account.

The Issuer may also sell Program Securities to a Distribution Agent as principal for its own account at a price to be agreed upon at the time of sale. The Distribution Agents may resell any Program Securities they purchase as principal at prevailing market prices, or at other prices, as the Distribution Agents determine.

The arrangements for the offer and sale of the Program Securities from time to time are set out in the Distribution Agreement dated on or 17 August 2015 (as supplemented and/or amended and/or restated and/or replaced from time to time, the "**Distribution Agreement**") among Morgan Stanley, MSFL, Morgan Stanley & Co. International plc, Morgan Stanley B.V. and the Distribution Agents. Pursuant to the Distribution Agreement, Morgan Stanley and the Distribution Agents have agreed to indemnify each other against certain liabilities, or to contribute payments made in respect thereof. Morgan Stanley and MSFL have also agreed to reimburse the Distribution Agents for certain expenses. The Distribution Agreement makes provision for the appointment of additional Distribution Agents who may agree to become bound by its terms (either in relation to the Program generally or in relation to a particular Series of Program Securities) in an accession letter provided by such additional Distribution Agent to the Issuers. MSFL acceded to the Distribution Agreement by way of an Accession Agreement dated 29 April 2016.

In order to facilitate the offering of the Program Securities, the Distribution Agents may engage in transactions that stabilise, maintain or otherwise affect the price of the Program Securities or any other securities the prices of which may be used to determine payments on those Program Securities. Specifically, the Distribution Agents may over allot in connection with any offering of the Program Securities, creating a short position in the Program Securities for their own accounts. In addition, to cover overallotments or to stabilise the price of the Program Securities or of any other securities, the Distribution Agents may bid for, and purchase, Program Securities or any other securities in the open market. Finally, in any offering of the Program Securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the Program Securities in the offering if the syndicate repurchases previously distributed Program Securities in transactions to cover syndicate short positions, in stabilisation transactions or otherwise. Any of these activities may stabilise or maintain the market price of the Program Securities above independent market levels. The Distribution Agents are not required to engage in these activities and may end any of these activities at any time.

United States of America

The Program Securities, any Guarantee in respect thereof and the securities to be delivered on exercise or settlement of the Program Securities (if any), have not been and will not be registered under the Securities Act and may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed, at any time, within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the Securities Act). Each Distribution Agent (1) has acknowledged that the Program Securities, any Guarantee in respect thereof and the securities to be delivered on exercise or settlement of the Program Securities (if any), have not been and will not be registered under the Securities Act, or any securities laws of any state or other jurisdiction in the United States, and the Program Securities are not being offered, sold or delivered and may not be offered, sold or delivered at any time, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. Persons; (2) has represented, as a condition to acquiring any interest in the Program Securities, that neither it nor any persons on whose behalf or for whose account or benefit the Program Securities are being acquired is a U.S. Person, that it is not located in the United States, and was not solicited to purchase Program Securities while present in the United States; (3) has agreed not to offer, sell or deliver any of the Program Securities, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. Person and that hedging transactions involving any "equity securities" of "domestic issuers" (as such terms are defined in the Securities Act and regulations thereunder) may only be conducted in accordance with the Securities Act; and (4) has agreed that, at or prior to confirmation of sale of any Program Securities (whether upon original issuance or in any secondary transaction), it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Program Securities from it a written notice containing

language substantially the same as the foregoing. As used herein, "**United States**" means the United States of America (including the states and the District of Columbia), its territories and possessions.

In addition, the Distribution Agents have represented and agreed that they have not offered or sold Program Securities and any Guarantee in respect thereof and will not offer or sell Program Securities any Guarantee in respect thereof at any time except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, the Distribution Agents have represented and agreed that neither they, their affiliates (if any) nor any person acting on its or their behalf has engaged or will engage in any directed selling efforts with respect to Program Securities any Guarantee in respect thereof, and it and they have complied and will comply with the offering restrictions requirements of Regulation S. Terms used in this paragraph have the meanings given to them by Regulation S.

An offer or sale of Program Securities within the United States by any dealer (whether or not participating in the offering of such Program Securities) may violate the registration requirements of the Securities Act.

Each issuance of Index Basket Notes, Index Notes, Index Basket Securities and Index Securities may be subject to such additional U.S. selling restrictions as the Issuer and the relevant Distribution Agent may agree as to the terms of such issuance, which additional selling restrictions shall be set out in the applicable Pricing Supplement.

- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Distribution Agent or Distribution Agents nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Program Securities referred to in (a) to (c) above shall require the Issuer or any Distribution Agent to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression:

- an "**offer of Program Securities to the public**" in relation to any Program Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Program Securities to be offered so as to enable an investor to decide to purchase or subscribe the Program Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State;
- the expression "**Prospectus Directive**" means Directive 2003/71/EC (and amended including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

- (c) *General compliance*: it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Program Securities in, from or otherwise involving the United Kingdom; and
- (d) *Commissions and fees*:

Under no circumstances shall the Issuer facilitate the payment of an adviser charge on behalf of retail clients in the United Kingdom.

- (C) Warrants and Certificates may be issued under the securities agency agreement dated 30 November 2000 (such securities agency agreement as modified and restated on 4 December 2001, 30 June 2005, 11 July 2006, 22 June 2007, 19 June 2008, 17 June 2009, 15 June 2010, 11 May 2011, 10 June 2011, 7 June 2012, 27 June 2013, 18 August 2014 and 17 August 2015 and as from time to time further modified and/or restated, the "**Securities Agency Agreement**") between (amongst others) MSBV, MSI plc, MSFL, the Guarantor and The Bank of New York Mellon.
- (D) Notes issued under the Issue and Paying Agency Agreement, and Warrants and Certificates issued under the Securities Agency Agreement (together, "**Relevant Securities**"), will have the benefit of this Guarantee (subject as provided below). For the avoidance of doubt, Program Securities which are not Relevant Securities will not have the benefit of this Guarantee.

THE GUARANTOR HEREBY guarantees unconditionally and irrevocably the payment obligations under (a) the terms of the Relevant Securities issued by MSFL on or after the date hereof and (b) the terms of the Relevant Securities issued by any other of its subsidiaries on or after the date hereof that accedes to the Program and in respect of whom the Guarantor is referred to as guarantor in the Accession Agreement under which such subsidiary accedes to the Program as issuer and/or in the applicable Issuance Document (as such term is defined in the Issue and Paying Agency Agreement in respect of Relevant Securities which are Notes and in the Securities Agency Agreement in respect of Relevant Securities which are Warrants or Certificates) unless, in each case, otherwise stated in the applicable Issuance Document with respect thereto (each an "**Issuer**") in respect of the Relevant Securities, provided that any such Relevant Securities issued or after the date on which the Guarantor has granted a subsequent guarantee of Relevant Securities (in respect of which such Relevant Securities will have the benefit) shall not have the benefit of this Guarantee (save (i) in relation to any tranche of Relevant Securities which are expressed to be consolidated and form a single series with any tranches(s) of Relevant Securities which have the benefit of this Guarantee, and/or (ii) if expressly so provided in any such subsequent guarantee and/or applicable Issuance Document).

If the Relevant Securities are held by (or be a nominee on behalf of) a common depository for Euroclear Bank S.A./N.V. as Operator of the Euroclear System (the "**Euroclear Operator**"), Clearstream Banking, *société anonyme* ("**Clearstream**") or such other clearing system as specified in the applicable Issuance Document with respect to any series of Relevant Securities, the Guarantor covenants to each person who is for the time being shown in the records of the relevant clearing system or registrar (in the case of Relevant Securities in registered form) as the holder of a principal amount of the Relevant Securities (the "**Accountholders**") that it shall make such payments under this Guarantee and acknowledges that the Accountholders may take proceedings to enforce this Guarantee directly against the Guarantor. The holders of the Relevant Securities from time to time and the Accountholders are referred to herein as the Holders. References to the Euroclear Operator, Clearstream or any other clearing system shall include their respective successors and assigns.

The Guarantor hereby agrees that it shall not be necessary, as a condition to enforce this guarantee, that suit be first instituted against the applicable Issuer or that any rights or remedies against such Issuer be first exhausted. Rather, it is understood and agreed that the liability of the Guarantor hereunder shall be primary, direct, and in all respects, unconditional. The obligations of the Guarantor under this Guarantee constitute direct, unconditional and unsecured obligations of the Guarantor and rank without preference among themselves and, subject as aforesaid, *pari passu* with

all other outstanding unsecured and unsubordinated obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by laws affecting creditors' rights.

The Guarantor shall be fully liable as if it were the principal debtor under the Relevant Securities whether any time has been granted to the applicable Issuer, whether the obligations of the Issuer under the Relevant Securities have ceased to exist pursuant to bankruptcy, corporate reorganization or other similar event, whether the applicable Issuer has been dissolved or liquidated or consolidated or has changed or lost its corporate identity and whether or not any other circumstances have occurred which might otherwise constitute a legal or equitable discharge of or defense to a guarantor.

If any moneys shall become payable by the Guarantor under this Guarantee, the Guarantor shall not for so long as the same remain unpaid in respect of any amount paid by it under this Guarantee exercise any right or subrogation in relation to the applicable Issuer or any other right or remedy which may accrue to it in respect of or as a result of any such payment.

The Guarantee of the Guarantor of the Securities will terminate upon the merger of the Issuer with and into the Guarantor.

All payments pursuant to this Guarantee will be made without withholding or deduction for any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied collected, withheld or assessed by the United States of America, or any political subdivision or any authority thereof having power to tax unless such withholding or deduction is required by law. The Guarantor shall not be required to make any additional payments on account of such withholding or deduction (except with respect to any additional payments required to be made by any Issuer under the Program). If the Guarantor becomes subject at any time to any taxing jurisdiction other than the United States of America, references in the Guarantee to the United States shall be construed as references to such other jurisdiction.

This guarantee shall be governed and construed in accordance with New York law, without regard to the conflict of laws principles.

This guarantee shall expire and is no longer effective once all amounts payable on or in respect of the Relevant Securities has been paid in full.
